PREFACE.

THE NEED OF A NEBRASKA BLUE BOOK.

There has long been need of a book containing comprehensive and concise information upon Nebraska. The need has grown with the growth of the state. Accurate information upon a thousand aspects of Nebraska life is constantly sought by persons within and without the state. Hundreds of letters asking for this are answered every year by the Nebraska Reference Bureau. The information sought is scattered in hundreds of books and documents. In many cases it lies outside the field of any book or document and must be sought for originally out of the experiences of men, or the unwritten record of natural phenomena. To assemble, condense and publish a large body of the information most commonly called for has seemed an important and economical step in social progress. Such books are now published by some department of nearly all civilized states and countries. In Nebraska, the Legislative Reference Bureau has been entrusted with this task as a proper function of its duties, defined in the act of April 7, 1911, "to carry on research in subjects of special public interest, publish the same in convenient form and in every way promote the diffusion of accurate and reliable information upon questions connected with the development of civic life in Nebraska." The initial step in starting this work under the auspices of the Reference Bureau was the suggestion of Hon. Addison Wait, former Secretary of State.

FORERUNNERS OF A STATE BLUE BOOK.

The Legislative Manual and Handbooks of 1893 and 1897, compiled by Eric Johnson, former chief clerk of the Nebraska House of Representatives, and the Nebraska Blue Books of 1899 and 1901, prepared by the State Journal Company, have been the chief ventures hitherto in the field of general information suitable for the use of the Legislature. Each of these publications marked an advance upon its predecessor and has furnished valuable suggestion in the preparation of the present book.

AIM OF THE NEBRASKA BLUE BOOK AND HISTORICAL REGISTER FOR 1915.

The aim of this book is to condense within a single volume of convenient size important information most desired by busy men and women everywhere upon every phase of Nebraska.

Its ideal is—The Universal Nebraska Book.

In this first edition of the book as a state publication, a few words regarding the plan and its execution seem warranted. The labor of preparing an adequate Nebraska Book as planned has been far beyond the force and time at command during the past two years. A large part of the material herein has been secured by original research thru hundreds of documents and by thousands of letters. This book is a beginning only of its ultimate plans. Future editions will include more topics with greater condensation.

The controlling purpose in editing this volume has been to present data upon which the future progress of Nebraska,—political, social, economic, educational, religious and aesthetic,—may be safely based. Emphasis has been placed in this volume upon material needed in the determination of living Nebraska issues of the present time. Hence the large space given to such topics as

Financial History of State and Territorial Expenses, 1854-1914.

Outline of Nebraska Taxation, 1854-1914.

Public Utilities in Nebraska.

PREFACE.

It is part of the plan that the nature side and culture side of Nebraska shall also be adequately represented. Hence the sections on

Annals of Nebraska,
Religion of Nebraska,
Birds and Mammals of Nebraska.

Several important sections, partially prepared, we have been obliged to omit from this edition. These include such subjects as

Authors of Nebraska,
Music and Painting in Nebraska,
Co-operative Societies in Nebraska,
Labor in Nebraska,

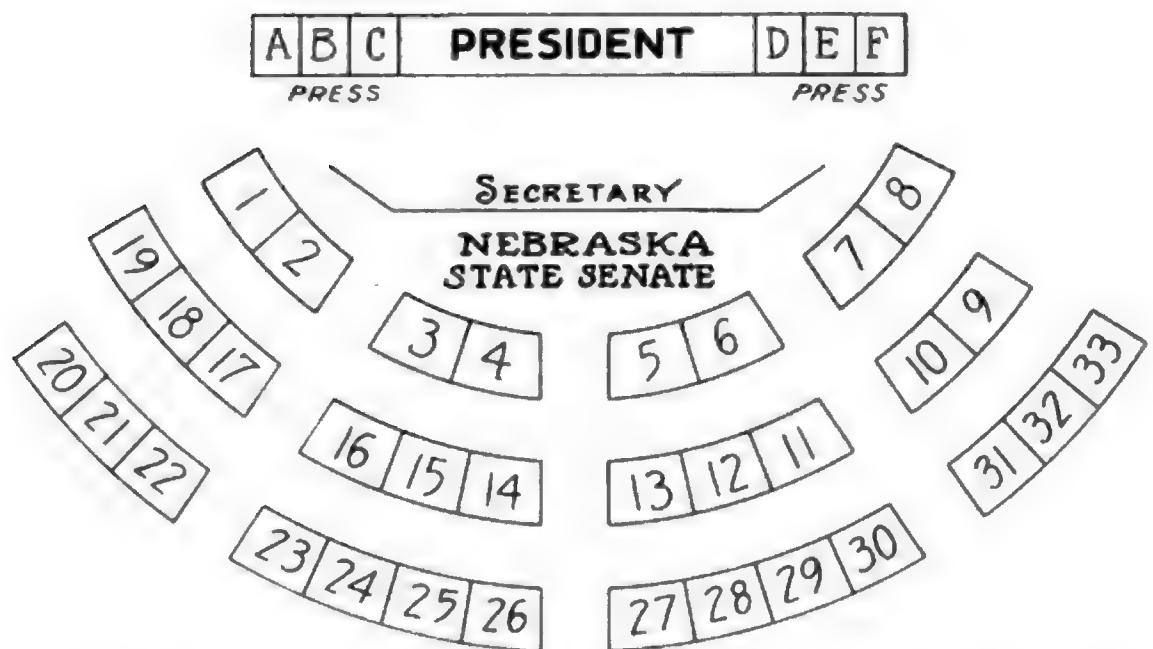

and a number of others.

To his fellow workers upon this book, Mr. W. E. Hannan, Miss Myrtle Keegan, Miss Edna D. Bullock, Miss Jennie M. Hitchcock and Mr. Earl H. Davis, of the Legislative Reference Bureau staff, the editor owes more than can be here expressed for intelligent understanding, painstaking investigation and earnest co-operation in the work. To the members of the Nebraska History and Political Science Seminars of the University is also due grateful acknowledgment for assistance. To each of the special contributors and to many unnamed I am also deeply indebted. Last and not least to the Nebraska Legislature, which has made the conception and publication of this first volume possible, is due warm acknowledgment of its confidence in and support of this, as well as other undertakings, of the Nebraska Reference Bureau.

ADDISON E. SHELDON.

HISTORY.

HISTORICAL SKETCH OF THE STATE.

Earliest Records.—The earliest records of Nebraska are the rocks and the soil. These indicate that this part of the planet has at times been the bottom of a sea and at other times has been elevated above the water; that at one time the region had a climate of tropical warmth and at a later time was covered in part by a thick sheet of ice. The remains of former plants and animals which testify to these conditions are abundant within the state.

Prehistoric People.—Recent investigations indicate the presence of prehistoric men in Nebraska at a period several hundred, perhaps thousands, of years ago. The remains and implements of these people have been found at many places along the Missouri river and in the Bad Lands. Study of these remains now being carried on promises in the near future a far greater knowledge of these people than we now possess.

The Nebraska Indians.—The Otoe, Omaha, Ponca, Pawnee, Sioux, Cheyenne and Arapahoe tribes of Indians were found in Nebraska by the first explorers. These numbered altogether about 40,000 people and lived chiefly by hunting, partly by primitive agriculture. War was the normal condition existing between these tribes. The traditions of these Indians indicate that they had migrated to the Nebraska region within a few hundred years of the time they were found by the first explorers.

The First White Men.—Francisco Vasquez Coronado and his party of thirty Spanish cavalry were the first white men to visit this region. Their visit was in the summer of 1541. French fur traders and trappers began to venture up the Missouri river about the year 1700. In 1739 the Mallet brothers, with a party of eight Frenchmen, named the Platte river and traveled nearly the entire length of the state on a journey from the Missouri river to Santa Fe. They were followed by many other French fur traders during the next sixty years.

Struggle for Possession of Nebraska.—Spain, France and England all claimed the Nebraska region at different times, basing their claims upon discoveries and explorations. In 1763, at the close of the seven years' war, France ceded all her claims east of the Mississippi river to England and west of the Mississippi to Spain. Nebraska was thus a part of the Spanish province of Louisiana from 1763 until 1801, when Napoleon bought back the region from Spain and in 1803 sold the entire region to the United States.

Early American Exploration.—Lewis and Clark were the commanders of the first American expedition to visit Nebraska in the years 1804-1806. In the year 1811 the Hunt party of Astorians skirted the Nebraska shores on their way to Oregon and in 1813 seven of the party crossed the mountains and followed the North Platte down to its junction with the Missouri. In 1819 Major Long with a party of twenty men traveled from the Missouri river up the Platte to the head waters of its south fork near Denver. During the years 1807-1820 Manuel Lisa, of Spanish descent, but a citizen of the United States, became the leading fur trader and explorer of the Nebraska region.

The First Military Post.—Fort Atkinson was established in the years 1819 and 1820 and abandoned in 1827. It was upon the site of the present village of Fort Calhoun in Washington county, 16 miles above Omaha. It had a population of over 1,000 people and was the site of the first school, the first library, the first brick-yard, the first sawmill, the first grist-mill and the first extensive farming by white men within this state.

The Early Missionaries.—Moses Merrill and his wife, Eliza Wilcox, were the first missionaries to the Nebraska Indians. They arrived at Bellevue in

1833 and continued their work as missionaries and teachers until Mr. Merrill died in 1840. Rev. Samuel Allis and John Dunbar arrived at Bellevue in 1834 and continued as missionaries to the Pawnee tribe for the next twelve years. Father De Smet, a Catholic missionary, first came to Nebraska in 1838 and for the next thirty-five years gave his services to the Indians west of the Missouri river.

The Overland Trails.—On April 10, 1830, Sublette and Jackson, with ten wagons and one milch cow, started from St. Louis for the Wind River mountains in Wyoming and returned in the fall. In 1832 Nathaniel I. Wyeth went over the same road to Oregon. Their route was up the valley of the Little Blue and Platte rivers and made the beginning of the Oregon trail, which for the next forty years was the greatest wagon road the world has seen. Other trails across Nebraska were the California trail, starting from Bellevue or Omaha and traveling up the north bank of the Platte; the Denver trail from the Missouri river to Denver and the "steam wagon road" or Nebraska City cut-off, from Nebraska City up the West Blue to the Platte and on to Denver. These trails were traveled by thousands of wagons every year until the construction of the Pacific railroads.

The Steamboat Years.—The Western Engineer, which brought Major Long's party on its exploring expedition in September, 1819, was the first steam vessel to navigate Nebraska waters. Other steamboats took part in the Aricara expedition in 1823. In 1832 the steamboat Yellowstone began the first regular annual fur trading voyages up the Missouri river, stopping at points on the Nebraska coast. From 1850 to 1860 steamboat navigation along the Nebraska shores was at its height, forty or fifty different steamboats being in the Missouri river trade. With the construction of railroads the steamboat business rapidly fell off until now only a few ferry-boats and one or two steamboats a year navigate the Missouri along the Nebraska shores.

Conditions in Nebraska from 1830 to 1854.—Frontier conditions of the most rugged nature ruled in Nebraska between these years. A few steamboats plied the Missouri river between St. Louis and the head of navigation. The overland trails from the Missouri river to the mountains and Pacific coast were traveled by caravans of emigrants and freighting wagons each summer. A little group of Christian missionaries and teachers were laboring among the Nebraska Indians. A few white fur traders and buffalo hunters followed the streams and crossed the prairies. Fort Kearney, on the Platte river, opposite the present city of Kearney, and Bellevue, on the Missouri river, were the only two white settlements of any size within the present state. The dominant figures in the Nebraska landscape were the buffalo, the coyote, the prairie dog and the Indian.

Beginnings of Political Government.—The Nebraska region was part of the territory of Indiana from October 1, 1804, to July 4, 1805. From July 4, 1805, to December 7, 1812, it was part of the territory of Louisiana with its capital at St. Louis. It then became a part of the territory of Missouri until the year 1821 when Missouri was made a state and Nebraska became a part of the unorganized region commonly called the "Indian country." By the act of June 30, 1834, congress defined the boundaries of the Indian country and enacted laws excluding white men and regulating relations with the Indians. The Indian superintendent at St. Louis was made governor over the "Indian country."

Nebraska Name and Organization.—The name "Nebraska" first appears in literature about the year 1842. Lieutenant John C. Fremont explored the plains and mountains in that year. His report speaks of the "Nebraska river," the Otoe Indian name for the Platte, from the Otoe word "Ne-brathka," meaning "Flat Water." Secretary of War William Wilkins, in his report of November 30, 1844, says "the Platte or Nebraska river being the central stream would very properly furnish a name to the (proposed) territory." The first bill to organize the new Nebraska territory was introduced in congress December 17, 1844, by Stephen A. Douglas of Illinois. This bill failed to pass. In 1848 Douglas introduced a second bill, which also failed. In 1853 a third bill

was likewise defeated. In 1854 a fourth Nebraska bill, now called the "Nebraska-Kansas bill," was passed after a prolonged and bitter struggle and signed by President Franklin Pierce on May 30, 1854. This prolonged struggle between the slave states and the free states for dominance in the Nebraska region led to the organization of the new Republican party and the border conflicts which hastened the Civil war.

The First Nebraska Government.—Francis Burt, of South Carolina, was the first governor of Nebraska territory. He arrived at Bellevue October 7, 1854, and died there October 18. Thomas B. Cuming became the acting governor. A struggle between the new town of Omaha and the old town of Bellevue for the territorial capital was determined in favor of Omaha by Governor Cuming who called the first session of the territorial legislature to meet there January 16, 1855.

The Early Territorial Period.—The questions of most interest in early territorial Nebraska days were the settlement of the country, the laws relating to land and currency, the proposed Pacific railroad, the rivalry between north and south Platte regions, the organization of the Republican party in 1858, as a rival of the Democratic party, the defeat of the first effort to make Nebraska a state. The population grew slowly from 2,732 in November, 1854, to 28,841 in 1860.

The Later Territorial Period.—The election of Abraham Lincoln for president in 1860, the Civil war which followed and the appointment of Alvin Saunders as governor of Nebraska territory by President Lincoln in 1861, constitute a dividing period in Nebraska territorial history. The chief events in this later period were the raising of the First Nebraska regiment under Colonel John M. Thayer for service in the Union army; the enactment of the free homestead law, taking effect January 1, 1863; the beginning of construction upon the Union Pacific railway in 1865; the fierce war with the Sioux and Cheyenne Indians on the plains which broke out in August, 1864; the passage of the enabling act by congress on April 19, 1864, permitting Nebraska to become a state and the fight over statehood between the Republican and Democratic parties centering in the election of June 2, 1866, where victory was won for statehood by the close vote of 3,938 for to 3,838 against.

From Admission as a State, March 1, 1867, to the Adoption of the Present Constitution, November 1, 1875.—This is the formative period of the new state. Among its principal events were the relocation of the capital at Lincoln, July 29, 1867, the impeachment of Governor David Butler in 1871, the first period of railway construction, including the completion of the Pacific railroad to the ocean and the entrance of the Burlington and Northwestern railroads into the region, the hard times and grasshopper period beginning in 1874, the establishment of the state university and agricultural college February 15, 1869, and the first great wave of homesteading immigrants who settled most of the desirable land in the eastern half of the state and sent adventurous pioneers into the remotest parts.

From the Adoption of the Constitution in 1875 to the Farmers' Alliance Revolution in 1890.—This period is marked by the complete settlement of all parts of the state except a few million acres of sand hills; by a rising demand for railroad regulation and political conflicts with railroad companies; by the removal of the Sioux, Pawnee, Ponca and Otoe Indians from their old Nebraska homes to new locations in Oklahoma and South Dakota; by continuing conflicts between the grangers and the cattlemen for possession of the land in western Nebraska; by the beginnings of the world-wide struggle between organized capital and organized wage-earners exemplified by strikes in the city of Omaha in 1882 and the great Burlington strike in 1888; and finally by the organization of the Farmers' Alliance, its entrance into the political field, first victory in the election of 1890 and the social revolution which has followed.

From the Social Revolution of 1890 to the Present Time.—In this period two dominant notes of Nebraska life sometimes blend in harmony, sometimes clash in discord,—the first one the great growth of industrial wealth and the application of new machines and method to the production of that wealth; the second, the rising spirit of democracy with its demand for reconstruction of

industrial institutions and government and the extension of direct political power to the people. Some of the events which illustrate these two contemporaneous movements in the state have been the drought and hard times from 1891 to 1897 with the extension of state aid to the drought stricken regions; the development of alfalfa and winter wheat and sugar beets as Nebraska crops; the application of the sulky plow, the twine binder, the steam thresher, the cream separator, the silo and motor engine as machines for the production of physical wealth from the farms; the development of irrigation and soil culture as new methods in farming; the creation of the South Omaha stock yards as a great public market and the large increase in home manufactures for the conversion of raw into refined forms of wealth; the growth of co-operative unions among farmers, the organization of manufacturers' associations and the closer organization in all lines of business interests; the enactment of democratic laws, such as the Australian ballot, the direct primary, the initiative and referendum, commission form of city government, public ownership of school text-books and guaranty of bank deposits; the rapid rise in the price of land, the growth of tenant farming, the great increase in bank capital and deposits and the present conflict of rival theories and plans for distribution characterize the spirit of the present time.

HISTORY OF CAPITOL BUILDINGS OF NEBRASKA.

Nebraska has had four capitol buildings, two of which were constructed during the territorial period and two during the state period. The first territorial capitol building was constructed in Omaha by Iowa men and by Iowa money. This building was a two-story brick structure and was "33x75 feet and cost about \$3,000." This building was a temporary makeshift, to be soon superseded by a more elegant and commodious structure also located at Omaha and erected in part by an appropriation of \$50,000 from the federal government and in part by a municipal grant of \$60,000 from the city of Omaha. The dimensions of this second territorial capitol building were as follows: "Extreme length, 137 feet; extreme width, 93 feet; height, 62½ feet."

Throughout the territorial period there was constant agitation for the removal of the seat of government from Omaha to some other point in the territory. This purpose was finally effected in the passage of the removal act approved June 14, 1867. The new capital city was to be named Lincoln. On July 29, 1867, the new site was chosen. October 10, 1867, plans for the new capitol building were submitted and those of John Morris of Chicago adopted. The building to be immediately erected was 120 feet in length by 50 in width; height to top of cupola, 120 feet. The cost of this the first state capitol building was \$75,817.59, which amount was derived from the sale of lots in Lincoln. This building was so poorly constructed that it began to show signs of decay as early as 1871. A severe storm in May, 1873, so damaged the capitol that it was necessary to expend \$5,897 in repairs. Governor Silas Garber in his retiring address to the legislature in 1879 said: "For some time past the outer walls of the capitol have been considered unsafe. * * * The time, however, is not far distant. * * * when steps should be taken for the erection of a new state house of adequate proportions." The legislature of 1879 appropriated \$75,000 to begin the construction of the west wing of a new capitol building.

The architect was Wm. H. Wilcox and the contractor W. H. B. Stout. The total cost for building and furnishing the west wing was \$83,178.81. This wing was begun in 1879 and finished at the close of 1881. The legislature of 1881 appropriated \$100,000 for the construction of the east wing of the capitol and retained Wm. H. Wilcox as architect. Bids were submitted on this wing July 12, 1881, by the following firms: Butler & Krone, \$98,490; Robert D. Silver, \$86,400; W. H. B. Stout, \$96,800. The contract was let to Stout. The total cost of building and furnishing the east wing was \$108,247.92, and was accepted by the board of public lands and buildings December 1, 1882. With the completion

A bill introduced by Isaac Wiles of Cass county on May 31, and approved June 15, 1867, appropriated \$25 to be used by the secretary of state for the securing of a state seal, which was thus described in the act: "The eastern part of the circle to be represented by a steamboat ascending the Missouri river; the mechanic arts to be represented by a smith with hammer and anvil; in the foreground agriculture to be represented by a settler's cabin, sheaves of wheat and stalks of growing corn; in the background a train of cars heading towards the Rocky mountains, and on the extreme west the Rocky mountains to be plainly in view; around the top of this circle to be in capital letters the motto, 'Equality before the law,' and the circle to be surrounded with the words, 'Great seal of the state of Nebraska, March 1st, 1867.'"

The seal made in accordance with the above act is the state seal now.

STATE FLOWER.

A joint resolution introduced by Representative L. P. Judd of Boone county, and approved April 4, 1895, designates the golden rod (*Solidago serotina*) as the floral emblem of the state.

Another joint resolution introduced by Senator C. H. Sloan of Geneva, and also approved on April 4, 1895, after referring in the preamble to the fact that Nebraska had, "in a popular sense, been designated by names not in keeping with its history, industry or ambition," conferred upon the state the popular designation—"Tree planters' state."

STATE FLAG.

The state flag consists of the coat of arms, or seal on a yellow field.

HISTORICAL ROSTER.

TERRITORIAL OFFICERS OF NEBRASKA.

GOVERNORS—

Francis Burt, from October 16, 1854, to October 18, 1854. Died October 18, 1854, and vacancy filled by Secretary T. B. Cuming to February 20, 1855.
 Mark W. Izard, from February 20, 1855, to October 25, 1857. October 25, resigned and vacancy filled by Secretary Cuming to January 12, 1858.
 William A. Richardson, from January 12, 1858, to December 5, 1858. Resigned December 5, and vacancy filled by Secretary J. Sterling Morton until Governor Black's arrival, May 2, 1859.
 Samuel W. Black, from May 2, 1859, to February 24, 1861. February 24, resigned to enter the army and vacancy filled by J. Sterling Morton, secretary, until May 15.
 Alvin Saunders, from May 15, 1861, to February 21, 1867.

SECRETARIES—

Thomas B. Cuming, from August 13, 1854, to March 12, 1858. Died March 12, 1858. Was acting governor from October 18, 1854, to February 20, 1855, and from October 25, 1857, to January 12, 1858.
 John B. Motley, from March 23, 1858, to July 12, 1858. Acting secretary until arrival of J. Sterling Morton.
 J. Sterling Morton, from July 12, 1858, to May 6, 1861. Acting governor from December 5, 1858, to May 2, 1859, and from February 24, 1861, to May 6, 1861.
 Algernon S. Paddock, from May 6, 1861, to February 21, 1867. Acting governor from May 6, 1861, to May 15, 1861.

AUDITORS—

Chas. B. Smith, term of office began March 16, 1855.
 Samuel L. Campbell, term of office began August 3, 1857.
 William E. Moore, term of office began June 1, 1858.
 Robert C. Jordan, term of office began August 2, 1858.
 William E. Harvey, term of office began October 8, 1861.
 John Gillespie, term of office began October 10, 1865.

TREASURERS—

B. P. Rankin, term of office began March 16, 1855.
 William W. Wyman, term of office began November 6, 1855.
 Augustus Kountze, term of office began October 8, 1861.

LIBRARIANS—

James S. Izard, term of office began March 16, 1855.
 H. C. Anderson, term of office began November 6, 1855.
 John H. Kellom, term of office began August 3, 1857.
 Alonzo D. Luce, term of office began November 7, 1859.
 Robert S. Knox, term of office began June, 1861.

STATE OFFICERS OF NEBRASKA FROM ITS ORGANIZATION.

All state elections are held on the first Tuesday after the first Monday in November. The term of all elective state officers begins on the first Thursday after the first Tuesday in January of the odd numbered years.

GOVERNORS—

David Butler, from February 21, 1867, to June 2, 1871. Elected in 1866, but did not enter upon the duties of the office until the admission of the state into the Union. Re-elected October 8, 1868. Re-elected October 18, 1870. Impeached. Succeeded June 2, 1871, by W. H. James, secretary of state, until the inauguration of Governor Furnas.
 Robert W. Furnas, from 1873 to 1875.
 Elias Garber, from 1875 to 1879.
 Albinus Nance, from 1879 to 1883.
 James W. Dawes, from 1883 to 1887.
 John M. Thayer, from 1887 to January 15, 1891; May 5, 1891, to February 8, 1892.
 James E. Boyd, from January 15, 1891, to May 5, 1891; February 8, 1892, to 1893.*

* Election contested by Governor John M. Thayer. Suit delayed the final seating of Governor Boyd.

GOVERNORS—

Lorenzo Crounse, from 1893 to 1895.
 Silas A. Holcomb, from 1895 to 1899.
 William A. Poynter, from 1899 to 1901.
 Charles H. Dietrich, from January 3, 1901, to May 1, 1901.
 Ezra P. Savage, from May 1, 1901 to 1903.
 John H. Mickey, from 1903 to 1907.
 George L. Sheldon, from 1907 to 1909.
 Ashton C. Shallenberger, from 1909 to 1911.
 Chester H. Aldrich, from 1911 to 1913.
 John H. Morehead, from 1913

LIEUTENANT-GOVERNORS—

Othman A. Abbott, from 1877 to 1879.
 Edmund C. Carns, from 1879 to 1883.
 A. W. Agee, from 1883 to 1885.
 H. H. Shedd, from 1885 to 1889.
 Geo. D. Melklejohn, from 1889 to 1891.
 Thomas J. Majors, from 1891 to 1895.
 Robert E. Moore, from 1895 to 1897.
 James E. Harris, from 1897 to 1899.
 E. A. Gilbert, from 1899 to 1901.
 C. F. Steele, from 1901 to 1905.
 Edmund G. McGilton, from 1905 to 1907.
 M. R. Hopewell, from 1907 to May 2, 1911. Died May 2, 1911.
 John H. Morehead, from May 2, 1911, to 1913.
 S. R. McKelvie, from 1913 to 1915.

SECRETARIES OF STATE—

Thomas P. Kennard, from February 21, 1867, to January 10, 1871.
 Wm. H. James, from 1871 to 1873. Acting governor from June 2, 1871 to January 13, 1873.
 John J. Gosper, from 1873 to 1875.
 Bruno Tzschuck, from 1875 to 1879.
 S. J. Alexander, from 1879 to 1883.
 Edward P. Roggen, from 1883 to 1887.
 Gilbert L. Laws, from January 6, 1887, to November 20, 1889. Resigned to fill unexpired term in congress caused by death of James Laird.
 Benj. R. Cowdery, from November 20, 1889, to January 8, 1891. Appointed by Governor Thayer to fill vacancy caused by resignation of G. L. Laws.
 John C. Allen, from 1891 to 1895.
 Joel A. Piper, from 1895 to 1897.
 William F. Porter, from 1897 to 1901.
 George W. Marsh, from 1901 to 1905.
 A. Galusha, from 1905 to 1907.
 George C. Junkin, from 1907 to 1911.
 Addison Walt, from 1911 to 1915.

STATE AUDITORS—

John Gillespie, from February 21, 1867, to January 13, 1873.
 Jefferson B. Weston, from 1873 to 1879.
 F. W. Liedtke, from 1879 to
 John Walllchs, from November 12, 1880, to January 8, 1885.
 H. A. Babcock, from 1885 to 1889.
 Thomas H. Benton, from 1889 to 1893.
 Eugene Moore, from 1893 to 1897.
 John F. Cornell, from 1897 to 1901.
 Charles Weston, from 1901 to 1905.
 Edward N. Searle, from 1905 to 1909.
 Silas R. Barton, from 1909 to 1913.
 W. B. Howard, from 1913 to 1915.

STATE TREASURERS—

August Kountze, from February 21, 1867, to January 11, 1869.
 James Sweet, from 1869 to 1871.
 Henry A. Koenig, from 1871 to 1875.
 J. C. McBride, from 1875 to 1879.
 George M. Bartlett, from 1879 to 1883.
 Phelps D. Sturdevant, from 1883 to 1885.
 Charles H. Willard, from 1885 to 1889.
 John E. Hill, from 1889 to 1893.
 Joseph S. Bartley, from 1893 to 1897.
 John B. Meserve, from 1897 to 1901.
 William Stuefer, from 1901 to 1903.
 Peter Mortensen, from 1903 to 1907.

SUPREME COURT COMMISSIONERS—

Robert Ryan, from 1893 to 1899.
 John M. Ragan, from 1893 to 1899.
 Frank Irvine, from 1893 to 1899.
 William G. Hastings, from 1901 to 1904.
 George A. Day, from 1901 to 1902.
 John S. Kirkpatrick, from 1901 to 1904.
 Willis D. Oldham, from 1901 to 1906.
 Samuel H. Sedgwick, from 1901 to 1902.
 Roscoe Pound, from 1901 to 1902.
 Edward Duffie, from 1901 to 1909.
 John H. Ames, from 1901 to 1907.
 I. L. Albert, from 1901 to 1904.
 Charles S. Lobingier, from 1902 to 1903.
 Richard C. Glanville, from 1902 to 1903.
 Charles B. Letton, from 1902 to 1906.
 John B. Barnes, from 1902 to 1904.
 Jacob Fawcett, from 1904 to 1906.
 N. D. Jackson, from 1905 to 1909.
 Ambrose C. Epperson, from 1906 to 1909.
 Edward A. Good, from 1907 to 1909.
 Elisha C. Calkins, from 1907 to 1909.
 Jesse L. Root, 1908 to 1909.

CLERK OF SUPREME COURT—

George Armstrong, appointed June 11, 1867.

REPORTERS OF SUPREME COURT—

J. M. Woolworth, appointed 1870.
 Lorenzo Crounse, appointed 1873.

STATE LIBRARIANS—

Thomas P. Kennard, June 22, 1867.
 Wm. H. Jones, January 10, 1871.

CLERKS AND REPORTERS OF SUPREME COURT AND STATE LIBRARIANS—

Guy A. Brown, appointed clerk August 8, 1868. Appointed reporter 1875.
 Appointed librarian March 3, 1871. Died October 27, 1889.
 Walter A. Lease, appointed October 29, 1889.

CLERKS AND REPORTERS OF SUPREME COURT AND STATE LIBRARIANS—

D. A. Campbell, July 14, 1890 to May 1, 1900.

Lee Herdman, May 1, 1900, to May 1, 1904.

Harry C. Lindsay, May 1, 1904, to date.

UNITED STATES MARSHALS—

C. E. Yost, April 1, 1869.

Wm. Daily, 1870.

Ellis Bierbower, 1885.

Brad D. Slaughter, 1888.

F. E. White, 1893.

George H. Thummel, 1897.

Trevanyon L. Mathews, 1899.

William P. Warner, 1907.

DISTRICT JUDGES.

District Election October 12, 1875. Term, 1876-1880.

1 A. J. Weaver, Falls City.

2 S. B. Pound, Lincoln.

3 J. W. Savage, Omaha.

4 George W. Post, York.

5 William Gaslin, Jr., Kearney.

6 Thomas L. Griffey, Dakota county. (Election successfully contested by E. K. Valentine after one year of service.)

E. K. Valentine, West Point. Elected to congress 1878.

J. B. Barnes, Ponca. Appointed in fall of 1879 to fill vacancy.

Election 1879. Term, 1880-1884.

Four new districts and five additional judges, 1883.

District

1 A. J. Weaver, Falls City. Elected to congress 1882.

Samuel P. Davidson, Tecumseh. Appointed to fill vacancy fall of 1882.

2 S. B. Pound, Lincoln.

3 J. W. Savage, Omaha. Resigned 1883.

Eleazer Wakeley,* Omaha.

James Neville,* Omaha.

4 A. M. Post, Columbus.

5 William H. Morris,* Crete.

6 T. L. Norval,* Seward

7 J. B. Barnes, Ponca.

8 William Gaslin, Jr., Alma.

9 Fayette B. Tiffany,* Albion.

10 Samuel L. Savidge,* Kearney.

Election 1883. Term, 1884-1888.

Two legislatures passed judicial reapportionment acts during this term. In 1885 one judge was added in the second district, and in 1887 two additional districts and seven additional judges.

District

1 J. H. Broudy, Beatrice.

Thos. Appleget, Tecumseh.

- July 30—Taft Republicans bolted the regular state convention. Organized a separate convention of their own and enunciated a platform.
- July 30—Bryan forces and principles won in Democratic state convention.
- Aug. 4—Corner-stone of Grace Methodist Episcopal church at Lincoln laid.
- Aug. 26—Frank M. Currie of Broken Bow elected chairman of Taft Republican central committee.
- Aug. 27—Frank P. Corrick of Lincoln chosen manager of the Nebraska Roosevelt campaign.
- Aug. 30—Mysterious horse disease raging in central and western part of state. Hundreds of horses died.
- Aug. 31—John H. Morehead, Democratic candidate for governor, declined Governor Aldrich's challenge to public debate.
- Sept. 2—Dedication and unveiling of Abraham Lincoln monument at state house grounds.
- Sept. 3—Governor Hiram Johnson of California, vice-presidential candidate on the national Progressive ticket, delivered an address at the state fair.
- Sept. 11—Taft state Republican central committee began movement to oust six Roosevelt electors from Taft Republican presidential ballot and put Taft electors in their place.
- Sept. 20—Theodore Roosevelt, presidential candidate of the Progressive party, spoke in Lincoln.
- Sept. 20—Organization of Progressive party in Lancaster county and county ticket named.
- Sept. 23—Opening at Omaha of Norwegian-Danish Methodist conference composed of delegates from nine states.
- Oct. 3—Dedication of the new eighteen-story Woodmen of the World building in Omaha.
- Oct. 5—Woodrow Wilson, presidential nominee of the Democratic party, delivered campaign addresses in Omaha and Lincoln.
- Oct. 5—Five thousand nine hundred and one voters of the state petitioned secretary of state to place eight Taft electors on the ballot.
- Oct. 6—Woodrow Wilson, Democratic presidential candidate, entertained at Fairview, the home of W. J. Bryan.

- Oct. 9—Eighty Nebraska Greeks left for Greece to fight against the Turks.
- Oct. 19—District court of Lancaster county decided that Taft electors are the regular Republican nominees.
- Oct. 23—Miss Jane Addams of Chicago addressed Nebraska audiences in the interest of the candidates and platforms of the Progressive party.
- Nov. 5—Nebraska went Democratic on president and governor. Five constitutional amendments adopted by the voters of the state.
- Nov. 8—General synod of the German Evangelical Lutheran church established their theological seminary in Lincoln.
- Nov. 17—Dedication of Emanuel Methodist church at Lincoln.
- Nov. 25—State board of irrigation granted the right to begin operations on three state power sites.
- Dec. 17—Fire at Hastings destroyed thirty-six horses. Property loss near \$40,000.
- Dec. 20—Judge George W. Doane, a pioneer lawyer, died at his home in Omaha.
- Dec. 20—Lincoln the first city west of New York to install finger print system of signing checks.
- Dec. 27—Organization of Nebraska teachers' guild.
- Dec. 27—Voters of Lincoln defeated proposed compromise of Lincoln gas and electric light company at special election.

1913.

- Jan. 1—Omaha had a religious parade composed of 600 clergymen, salvation army workers and others, as a protest against dissipation on New Year's night.
- Jan. 2—Nebraska railway commission issued an order requiring the Bell and the Lincoln telephone and telegraph companies to cease discriminating against the Postal telegraph and cable company.
- Jan. 3—Hon. W. Z. Taylor died at his home in Culbertson. Built first frame house in Hitchcock county, and established first newspaper in county in 1878. Member of state legislature in 1883, 1885, 1909, 1911, 1913.
- Jan. 9—Lincoln telephone and telegraph company had hearing before railway commission on their application to raise rates.
- Jan. 10—H. W. Hardy, for two terms mayor of Lincoln, pioneer prohibitionist, died at his home near College View.
- Jan. 13—W. N. Huse, editor and publisher of the Norfolk Daily News, died at his home in Norfolk. He and his father founded the Northern Nebraska Journal at Ponca in 1872.
- Jan. 14—Association of presidents of Methodist colleges and secondary schools convened for a three-day session at University Place.
- Jan. 15—Charles O. Whedon, a leader of the Nebraska bar, died at his home in Lincoln.
- Jan. 18—Ex-Governor Ashton C. Shallenberger declined appointment as member of state board of control.
- Jan. 20—Senate adopted Ollis resolution providing for roll call in committee of the whole.
- Jan. 20—"Norton" resolution calling for a reduction in number of house employes passed house.
- Jan. 20—Official boards and members of the Methodist churches in Lincoln opposed by resolution "Sunday baseball" bill.
- Jan. 21—Representatives of eighteen of the agricultural societies of the state discuss and organize a permanent federation of all agricultural organizations.
- Jan. 22—Congressman George W. Norris elected United States senator. Second senator to be chosen under the Oregon plan.
- Feb. 4—House of representatives passed an anti-logrolling bill.
- Feb. 10—Lincoln city council pledged the city's aid in purchasing ground for extension of campus down town.
- Feb. 25—Nebraska railway commission authorized Omaha, Lincoln and Beatrice interurban railway company to issue \$3,100,000 in securities for the construction of a line between Lincoln and Omaha.

- Feb. 26—Ground broken and excavation begun on the right of way for the Fremont power canal.
- Feb. 27—House failed to pass university removal bill by a vote of 29 to 68.
- Feb. 27—Fire destroyed Dewey hotel at Omaha. Number of lives lost.
- Feb. 28—House passed downtown campus extension bill by a vote of 77 to 10.
- Feb. 28—Governor Morehead and his military staff left for Washington to attend inauguration of President-elect Woodrow Wilson.
- March 1—Lincoln telephone and telegraph company completed the cut over of its lines in the Lincoln zone.
- March 3—W. J. Bryan received the portfolio of secretary of state in President Wilson's cabinet.
- March 5—Nebraska state senate favored university removal by a vote of 23 to 10.
- March 11—State senate refused to confirm Governor Morehead's appointees to state board of control.
- March 14—Heavy blizzard in the western portion of the state destroyed 20,000 head of cattle.
- March 14—Union Pacific wreck at Gothenburg resulted in death of four persons and the injury of eleven others.
- March 19—W. J. Bryan, secretary of state, and Governors Dunne of Illinois and Hodges of Kansas addressed the legislature.
- March 21—Execution of Albert Prince at the state penitentiary.
- March 23—Tornado in eastern Nebraska did terrible damage at Omaha and other nearby towns. Death list over two hundred. Property loss over \$1,000,000.
- March 27—House passed bill appropriating \$100,000 for relief of tornado sufferers.
- April 5—Angry mob at Shelton tore down eighty rods of the Union Pacific's right-of-way fence.
- April 7—Six Nebraska life insurance companies published protest against S. F. No. 364, the insurance code bill.
- April 8—Governor Morehead approved Representative G. W. Fuller's bill for county ownership of telephones.
- April 12—Kountze Brothers of New York bought the Fremont canal and power company site for \$20,000.
- April 14—Governor Morehead vetoed sterilization bill.
- April 19—Nebraska house and senate in a deadlock over university location and the big maintenance appropriation bill.
- April 21—Legislature decided to submit the question of university removal or extension to the people at the general election in 1914.
- April 21—Legislature adjourned.
- April 29—State Auditor Howard dismissed insurance commissioner Lawson G. Brian. Dismissal due to difference of opinion on passage of new insurance code.
- May 6—Lincoln held its first election under home rule charter for the election of five city commissioners.
- May 10—Warden Fenton to introduce the merit system at the state penitentiary if the state board of control approved.
- May 14—Tornado dealt death and destruction at Seward. Eight killed.
- May 23—Nebraska insurance companies held a conference in Lincoln over situation developed by passage of new insurance code.
- May 23—Dedication of Merrick county court house at Central City.
- June 1—Dedication of Grace Methodist Episcopal church in Lincoln.
- June 5—Corner-stone of Howard county court house laid at St. Paul. Cost of building \$75,000.
- June 10—Dedication of new plant industry building at the state farm. Prof. John N. Coulter delivered dedicatory address.
- June 20—Corner-stone of Lincoln's new high school building laid.
- June 24—Temporary state tax commission met and organized for business.
- June 26—Large milling plant of the Aurora milling company destroyed by fire. Loss \$35,000.

- June 29—Corner-stone of new East Lincoln Christian church laid. Cost of structure to be \$30,000.
- June 29—Corner-stone of new Grace Lutheran church at West Point laid. Cost of building \$15,000.
- June 30—Organization of Lancaster county phone users' association to work for county ownership.
- July 1—First train made trip over new Hastings and Northwestern railroad between Hastings and Kearney.
- July 4—Thermometer at Lincoln registered 103 degrees.
- July 5—James E. North died at his home in Columbus. Pioneer Democrat and legislator.
- July 7—Morris and company packing plant at South Omaha injured by fire to the extent of \$100,000.
- July 8—City council of Nebraska City ordered to call a city election for the recall of the present mayor.
- July 12—Three Nebraska fraternal insurance companies, the Royal Highlanders, Woodmen of the World, and the Woodmen Circle, tested the new insurance code in the courts.
- July 14—Temperature at Lincoln reached 106 degrees, making Lincoln the hottest place in the United States.
- July 15—Two referendum petitions filed at the state house. Workmen's compensation and Nebraska City armory.
- July 17—Richard L. Metcalfe, recently appointed governor of Panama Canal Canal Zone, tendered a banquet by 250 of his neighbors and friends.
- July 21—Governor Morehead appointed Colonel T. J. Majors a member of the state board of education.
- July 22—District court of Lancaster county refused a temporary injunction to prevent enforcement of new insurance code.
- July 22—New state insurance commission elected L. G. Brian secretary of the commission. State auditor refused to turn over insurance records to new insurance commission.
- July 23—State supreme court issued peremptory writ of mandamus compelling C. H. Clancy, insurance deputy, to turn over keys and records to new insurance board.
- July 29—State board of health refused to banish the common communion cup.
- Aug. 5—The "Progressives" of Nebraska gathered at Omaha to celebrate the birthday of the "National progressive party."
- Aug. 15—Dedication of new state agricultural school at Curtis.
- Aug. 17—An Omaha business block suffered a fire loss of \$150,000. Seven firemen badly injured.
- Aug. 17—Fire at Grand Island destroyed business property to the value of \$70,000. One fireman electrocuted by falling wire.
- Aug. 20—Preliminary organization at Omaha of Nebraska agricultural development commission.
- Aug. 20—Fourteen spans of the Burlington's 105-span bridge over the Platte river near Grand Island burned.
- Aug. 21—Col. Wm. F. Cody (Buffalo Bill) announced that he has definitely retired from active show life, his "Wild West" show having failed in Denver.
- Aug. 24—Fifty representative German citizens of Omaha organized the "German samaritan hospital association," a non-denominational, philanthropic enterprise.
- Aug. 25—Apple growers of southeastern part of state had hearing before railway commission on lower rates for fruit.
- Aug. 26—The whole state severely injured by the July and August drought.
- Aug. 27—Eleven buildings comprising the business section of Stamford destroyed by fire. Loss \$24,000.
- Aug. 30—Farmers living along the valley of the Platte river organized at Kearney the "Platte valley protective association." Purpose to protect flow of Platte for irrigation of Phelps and Kearney counties.
- Sept. 9—Nebraska drought broken by a general rain over the whole state. Six weeks with no rain. Longest dry spell in history of the state.

- Sept. 9—Lincoln typographical union petitioned Governor Morehead as head of the state printing bureau to award all printing contracts to printing shops operated in the state.
- Sept. 11—Supreme tribe of Ben Hur filed application in federal court asking for a permanent injunction against new insurance code.
- Sept. 17—Union of three Nebraska conferences into one Nebraska Methodist conference.
- Sept. 19—Lancaster county commissioners urged to call special election to vote bonds for establishment of a county telephone system.
- Sept. 21—Formal dedication of the Martin Luther theological seminary in Lincoln.
- Oct. 6—J. L. McBrien, former state superintendent of public instruction, tendered a civil service position as specialist in U. S. rural education work.
- Oct. 9-10—Nebraska devoted these two days to improving the roads throughout the whole state.
- Oct. 9—Tornado in western part of state killed three persons and injured fourteen others.
- Oct. 18—Nebraska state university football team defeated University of Minnesota 7 to 0.
- Oct. 18—Organization of the Loup Valley editorial association at St. Paul. H. M. Davis of Ord elected president.
- Oct. 20—Dr A. O. Thomas, principal of the state normal school at Kearney, ordered removed by state normal board.
- Oct. 26—A total of 76,618 people registered for the government land drawing at North Platte.
- Oct. 28—Drawing of government lands on the North Platte forest reserve and Niobrara military reservation held.
- Oct. 31—A gray granite and bronze memorial to the nation's soldiers unveiled at Grand Island.
- Nov. 2—Fairbury business men began the erection of a \$30,000 artificial ice plant.
- Nov. 4—First national bank of Sutton, thirty years old, closed its doors. Failure due to defalcations of President M. L. Luebben.
- Nov. 4—First year in which no general election of state or county officers is held.
- Nov. 7—Socialist co-operative store at Fairbury declared bankrupt.
- Nov. 20—Death of Prof. E. W. Hunt, associate editor of the Twentieth Century Farmer at Omaha. Formerly professor of English in the University of Nebraska.
- Nov. 27—At the first municipal recall election held in the state Mayor James D. Houston of Nebraska City was recalled.
- Nov. 29—Governor Morehead came out strongly in opposition to university removal.
- Nov. 30—Books of the defunct Chamberlain banking house of Tecumseh which were stolen from the sheriff's office on October 23, 1908, found in the bed of the Nemaha river.
- Dec. 2—Proposed home rule charter for Lincoln defeated. Vote stood 670 for, 1,870 against.
- Dec. 2—Formal opening of the new Evans hotel at Columbus. Cost of hotel, \$110,000; over 110 rooms.
- Dec. 5—A petition for the recall of city commissioner King of Lincoln filed in the office of the city clerk.
- Dec. 6—Jessie Correll, aged sixteen years, the champion corn grower of the state. He harvested eighty-eight bushels of corn from one acre of ground in Frontier county.
- Dec. 12—Nebraska state university scored a double victory in debate by defeating both Minnesota and Iowa.
- Dec. 16—Fifty-seven antelopes discovered feeding a quarter of a mile west of Sidney.
- Dec. 19—At a meeting of "Progressives" in Lincoln the sentiment was opposed to amalgamation with old line Republicans.

- Dec. 26—Post-office at Kearney robbed of two packages of money, \$7,700 in all.
Dec. 27—Wm. B. Lee died at his home in Fremont. He participated in the formation of the village in 1857.
Dec. 29—Bankers of Lincoln asked that Lincoln be made a federal reserve city under new federal banking law.

CONSTITUTION.

CONSTITUTIONS AND CONSTITUTIONAL AMENDMENTS.

The first movement for the formation of a state constitution for Nebraska resulted in submission of the question to the voters of the territory at an election held March 5, 1860. The proposition was defeated by a vote of 2,094 for and 2,272 against. Cass and Otoe counties were the strongest supporters of this movement; Douglas, Sarpy and Washington were its strongest opponents.

Political issues arising out of the Civil war prompted and sustained the next movement for statehood. Nebraska had become strongly Republican and there was a call for more Republican senators and congressmen at Washington. The ninth territorial legislature, by a joint memorial to congress, approved January 16, 1864, petitioned for legislation preparatory to the admission of Nebraska as a state. The Democratic party in Nebraska was opposed to statehood, and eleven out of the thirty-seven members in the lower house of the legislature voted against the memorial. Congress responded almost immediately by passing the Nebraska enabling act on April 19, 1864. In accordance with this instrument an election for delegates to a constitutional convention was held June 6, 1864. The number of members chosen was equal to the membership of the territorial legislature. The convention met at the capitol in Omaha, July 4, 1864, and elected Sterling P. Majors of Nemaha county president. Immediately upon completing its organization the convention voted to "adjourn *sine die*, without forming a constitution." A considerable majority of the members of this convention were pledged to this action before their election. The chief reason assigned was the desire to avoid the expense of state government. An additional reason was opposition by the Democrats.

The assassination of President Abraham Lincoln on April 14, 1865, and the rapid development of controversy between Andrew Johnson and the Republican leaders in congress again brought the question of statehood for Nebraska to the front. On February 9, 1866, the eleventh territorial legislature passed a joint resolution to prepare a constitution for submission to the people. This constitution was drafted in great haste by a legislative committee and rushed through both houses. It was the barest framework of government, providing for the fewest possible officers, the lowest salaries and the most meagre functions for the new state in order to forestall objections to the increased expense. The constitution was submitted to the people at an election held June 2, 1866, and adopted after a heated campaign by a vote of 3,938 in its favor to 3,838 against.

This constitution of 1866 limited suffrage to "free white males," in accord with the constitutions of many of the free states of the north before the war. Its use in the Nebraska constitution delayed the admission of the state into the Union nearly a year. Congress passed the bill admitting Nebraska under this constitution on July 27, 1866, just before adjournment, but President Johnson withheld his signature and it failed to become a law. Efforts were made during the passage of this bill in congress to amend it by requiring Nebraska to include negro suffrage in her constitution. When congress reassembled the bill admitting Nebraska was again passed on January 15, 1867, with the added condition that Nebraska should amend her constitution so as to prevent the "abridgement or denial of the exercise of the elective franchise or of any other right to any person by reason of race or color, excepting Indians not taxed." President Johnson vetoed this bill January 29, 1867. Congress promptly passed it over the president's veto, and provided that the amendment insisted on by

congress should be ratified by the Nebraska legislature. This was done in a special session on February 20 and 21, 1867, and on March 1, 1867, President Johnson proclaimed Nebraska to be a state.

The inadequacy of the constitution of 1866 was soon felt and the state legislature at its fifth session, by a joint resolution approved February 15, 1869, submitted to the electors a proposition to hold a constitutional convention. On October 11, 1870, the voters, by a vote of 3,968 in favor to 979 against, decided to hold the convention. An act approved March 27, 1871, fixed the date for election of members to the convention on the first Tuesday in May, 1871, and required them to convene in Lincoln on the second Tuesday in June following. On June 13, 1871, Silas A. Strickland of Douglas county was chosen permanent president of the convention. The convention sat forty-seven days. Its discussions covered nearly all the political, social and religious questions of that day. Five different propositions, which a majority of the convention were unwilling to adopt, were submitted separately, viz.: woman suffrage, prohibition, compulsory education, municipal aid to corporations, and liability of stockholders. By a vote of 7,986 for and 8,627 against this constitution was rejected by the people on September 19, 1871, likewise all the propositions submitted separately. The most potent causes of its defeat were the provisions taxing church property which exceeded five thousand dollars in value and the one providing that railroad right of way should revert to the original owners when no longer used for railroad transportation.

Agitation for a new constitution grew stronger as settlement extended west of the central portion of the state. The legislature by a joint resolution, approved February 26, 1873, again submitted the proposition for a constitutional convention. At the election in October, 1874, the proposition carried by a vote of 18,067 to 3,850. On February 20, 1875, the legislature passed an act providing for the election of members of the constitutional convention on April 6 of that year and required the convention to assemble in Lincoln May 11. There were sixty-nine members of this convention. John L. Webster of Douglas county was made permanent president and Guy A. Brown secretary. The convention adjourned on June 12 and the constitution, which has continued to be the fundamental law of the state, was adopted on October 12, 1875, by a vote of 30,202 to 5,474.

The constitution of 1875 is in large part the same as the rejected constitution of 1871. The executive, legislative and judicial departments were enlarged, and more adequate salaries provided for. State officers were prohibited from appropriating fees to their own use. The judges of the supreme court were relieved from duty as district judges. Special legislation was forbidden. Provision was made for regulation of corporations. The power of taxation was limited. Subsequent efforts to call constitutional conventions have been unsuccessful.

Thirty-one amendments have been submitted by the legislature to the people during the years from 1875 to and including 1912. The most persistent subjects have been the increase in the number and salaries of judges, which has been considered at six elections; the creation of a railway commission, which has been voted on four times; and the salary of legislators, which was considered three times and twice raised by amendment.

Only nine of the amendments voted on have finally been adopted. These are: 1. Increasing pay of legislators. 2. Creating a railway commission. 3. Increasing number and pay of judges. 4. Investment of school fund. 5. Initiative and referendum. 6. Increasing pay of legislators. 7. Creating board of commissioners for state institutions. 8. Providing for biennial elections. 9. Home rule charters for cities.

With the exception of the first of these amendments increasing legislative salaries, on which the vote was recounted by the legislature under circumstances that argue for a generous interpretation of the contents of the ballot boxes, all of the successful amendments submitted by the legislature have had the aid of what is known as the "party circle" law enacted in 1901. This law permits the counting of straight party votes in favor of an amendment, if the party has endorsed the amendment at the primaries. Without this form of

assistance. It has been impossible to amend the fundamental law of Nebraska except through the initiative which was adopted in November, 1912. The constitutional requirement of a favorable majority of all the electors voting at an election for the adoption of an amendment has blocked all amendment.

This inelasticity has enforced rigidity upon the entire instrument. Growth of activities and function were purposely arrested by a provision that "no other executive office shall be continued or created." The burden of all new forms of executive activity thus is forced on officers elected or appointed under the constitution. This has resulted in the creation of deputyships. These official positions separate power from performance, and thrust many dissimilar responsibilities upon constitutional officers whose other and fundamental duties have grown with the development of the state.

The legislature of 1913 submitted three amendments to the constitution, one giving enlarged powers to the legislature and the people in the enactment of revenue laws, another providing that five-sixths of a jury may render a verdict in all civil cases and in criminal cases less than felonies, and a third increasing the salaries of certain constitutional officers. In addition to these three amendments, the first use of the initiative method of amending the constitution has been made by the submission of an amendment providing that the suffrage shall be extended on equal terms to men and women. All of these amendments were voted on at the election November 3, 1914.

NOTE—The original shorthand report of the proceedings of the constitutional convention of 1871 were discovered in a state house vault by Addison E. Sheldon in 1899. In 1905 the discoverer secured from the Nebraska legislature an appropriation for the publication of these discussions in book form and subsequently edited two volumes of the same. The verbatim report of the convention of 1875 is lost. The journal of that convention has been preserved and brought out in a third volume of the constitutional series, by Mr. Albert Watkins.

CONSTITUTION OF THE STATE OF NEBRASKA.

Adopted October 12, 1875.

Including all amendments adopted prior to November 3, 1914.

(Capitalization is that of the printed copies prepared by the secretary of state.)

Preamble. We, the people, grateful to Almighty God for our freedom, do ordain and establish the following declaration of rights and frame of government, as the constitution of the State of Nebraska.

ARTICLE I.—BILL OF RIGHTS.

Section 1. Equal rights. All persons are by nature free and independent, and have certain inherent and inalienable rights; among these are life, liberty and the pursuit of happiness. To secure these rights, and the protection of property, governments are instituted among people, deriving their just powers from the consent of the governed.

Sec. 2. Slavery prohibited. There shall be neither slavery nor involuntary servitude in this state, otherwise than for punishment of crime, whereof the party shall have been duly convicted.

Sec. 3. Due process of law. No person shall be deprived of life, liberty, or property, without due process of law.

Sec. 4. Religious freedom. All persons have a natural and indefeasible right to worship Almighty God according to the dictates of their own consciences. No person shall be compelled to attend, erect or support any place of worship against his consent, and no preference shall be given by law to any religious society, nor shall any interference with the rights of conscience be permitted. No religious test shall be required as a qualification for office, nor shall any person be incompetent to be a witness on account of his religious belief; but nothing herein shall be construed to dispense with oaths and affir-

mations. Religion, morality, and knowledge, however, being essential to good government, it shall be the duty of the legislature to pass suitable laws to protect every religious denomination in the peaceable enjoyment of its own mode of public worship, and to encourage schools and the means of instruction.

Sec. 5. Freedom of speech and press. Every person may freely speak, write and publish on all subjects, being responsible for the abuse of that liberty; and in all trials for libel, both civil and criminal, the truth when published with good motives, and for justifiable ends, shall be a sufficient defense.

Sec. 6. Trial by jury. The right of trial by jury shall remain inviolate, but the legislature may authorize trial by a jury of a less number than twelve men in courts inferior to the district court.

Sec. 7. Search and seizure. The right of the people to be secure in their persons, houses, papers, and effects against unreasonable searches and seizures shall not be violated; and no warrant shall issue but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the person or thing to be seized.

Sec. 8. Habeas corpus. The privilege of the writ of habeas corpus shall not be suspended, unless, in case of rebellion or invasion, the public safety requires it, and then only in such manner as shall be prescribed by law.

Sec. 9. Bail; fines; imprisonment. All persons shall be bailable by sufficient sureties, except for treason and murder, where the proof is evident or the presumption great. Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishment inflicted.

Sec. 10. Indictment; information. No person shall be held to answer for a criminal offense, except in cases in which the punishment is by fine, or imprisonment otherwise than in the penitentiary, in case of impeachment, and in cases arising in the army and navy, or in the militia when in actual service in time of war or public danger, unless on a presentment or indictment of a grand jury; Provided, that the legislature may by law provide for holding persons to answer for criminal offenses on information of a public prosecutor; and may by law, abolish, limit, change, amend or otherwise regulate the grand jury system.

Sec. 11. Rights of accused. In all criminal prosecutions the accused shall have the right to appear and defend in person or by counsel, to demand the nature and cause of accusation, and to have a copy thereof; to meet the witnesses against him face to face; to have process to compel the attendance of witnesses in his behalf; and a speedy public trial by an impartial jury of the county or district in which the offense is alleged to have been committed.

Sec. 12. Evidence against self; twice in jeopardy. No person shall be compelled, in any criminal case, to give evidence against himself, or be twice put in jeopardy for the same offense.

Sec. 13. Justice administered without delay. All courts shall be open, and every person, for any injury done him in his lands, goods, person, or reputation, shall have a remedy by due course of law, and justice administered without denial or delay.

Sec. 14. Treason. Treason against the state shall consist only in levying war against the state, or in adhering to its enemies, giving them aid and comfort. No person shall be convicted of treason unless on the testimony of two witnesses to the same overt act, or on confession in open court.

Sec. 15. Penalties. All penalties shall be proportioned to the nature of the offense, and no conviction shall work corruption of blood or forfeiture of estate; nor shall any person be transported out of the state for any offense committed within the state.

Sec. 16. Bill of attainder, retroactive laws, special privileges. No bill of attainder, *ex post facto* law, or law impairing the obligation of contracts, or making any irrevocable grant of special privileges or immunities shall be passed.

Sec. 17. Military power. The military shall be in strict subordination to the civil power.

Sec. 18. Soldiers' quarters. No soldier shall in time of peace be quartered

in any house without the consent of the owner; nor in time of war except in the manner prescribed by law.

Sec. 19. Right of petition. The right of the people peaceably to assemble to consult for the common good, and to petition the government, or any department thereof, shall never be abridged.

Sec. 20. Imprisonment for debt. No person shall be imprisoned for debt in any civil action on mesne or final process, unless in cases of fraud.

Sec. 21. Private property. The property of no person shall be taken or damaged for public use without just compensation therefor.

Sec. 22. Free elections. All elections shall be free; and there shall be no hindrance or impediment to the right of a qualified voter to exercise the elective franchise.

Sec. 23. Writ of error. The writ of error shall be a writ of right in all cases of felony; and in capital cases shall operate as a supersedeas to stay the execution of the sentence of death, until the further order of the supreme court in the premises.

Sec. 24. Appeals, civil cases. The right to be heard in all civil cases in the court of last resort, by appeal, error, or otherwise, shall not be denied.

Sec. 25. Aliens. No distinction shall ever be made by law between resident aliens and citizens in reference to the possession, enjoyment or descent of property.

Sec. 26. Powers retained by people. This enumeration of rights shall not be construed to impair or deny others, retained by the people, and all powers not herein delegated, remain with the people.

ARTICLE II—DISTRIBUTION OF POWERS.

Section 1. Division of powers. The powers of the government of this state are divided into three distinct departments, the legislative, executive and judicial, and no person or collection of persons being one of these departments, shall exercise any power properly belonging to either of the others, except as hereinafter expressly directed or permitted.

ARTICLE III—LEGISLATIVE.

Section 1. Legislative authority. The legislative authority of the state shall be vested in a legislature consisting of a senate and house of representatives, but the people reserve to themselves power to propose laws, and amendments to the constitution, and to enact or reject the same at the polls independent of the legislature, and also reserve power at their own option to approve or reject at the polls any act, item, section, or part of any act passed by the legislature.

Sec. 1A. Initiative. The first power reserved by the people is the initiative. Ten per cent of the legal voters of the state, so distributed as to include five per cent of the legal voters in each of two-fifths of the counties of the state, may propose any measure by petition, which shall contain the full text of the measure so proposed. Provided, that proposed Constitutional Amendments shall require a petition of fifteen per cent of the legal voters of the state distributed as above provided. Initiative petitions (except for municipal and wholly local legislation) shall be filed with the Secretary of State and be by him submitted to the voters at the first regular state election held not less than four months after such filing. The same measure, either in form or in essential substance, shall not be submitted to the people by initiative petition (either affirmatively or negatively) oftener than once in three years. If conflicting measures submitted to the people at the same election shall be approved the one receiving the highest number of affirmative votes shall thereby become law as to all conflicting provisions. The Constitutional limitations as to scope and subject matter of statutes enacted by the legislature shall apply to those enacted by the initiative.

Sec. 1B. Referendum. The second power reserved is the referendum. It may be ordered by a petition of ten per cent of the legal voters of the state, distributed as required for initiative petitions. Referendum petitions against measures passed by the legislature shall be filed with the Secretary of State

within ninety days after the legislature enacting the same adjourns sine die or for a period longer than ninety days; and elections thereon shall be had at the first regular state election held not less than thirty days after such filing.

Sec. 1C. Referendum—Suspension of measures. The referendum may be ordered upon any act except acts making appropriations for the expenses of the state government, and state institutions existing at the time such act is passed. When the referendum is ordered upon an act or any part thereof it shall suspend its operation until the same is approved by the voters; provided, that emergency acts, or acts for the immediate preservation of the public peace, health, or safety shall continue in effect until rejected by the voters or repealed by the legislature. Filing of a referendum petition against one or more items, sections, or parts of an act shall not delay the remainder of the measure from becoming operative.

Sec. 1D. Effect of act; ballots necessary; veto; returns of election. Nothing in this section shall be construed to deprive any member of the legislature of the right to introduce any measure. The whole number of votes cast for governor at the regular election last preceding the filing of any initiative or referendum petition shall be the basis on which the number of legal voters required to sign such petition shall be computed. The veto power of the governor shall not extend to measures initiated by or referred to the people. All such measures shall become the law or a part of the constitution when approved by a majority of the votes cast thereon, provided, the votes cast in favor of said initiative measure or part of said Constitution shall constitute thirty-five per cent (35%) of the total vote cast at said election, and not otherwise, and shall take effect upon proclamation by the governor, which shall be made within ten days of the completion of the official canvass. The vote upon initiative and referendum measures shall be returned and canvassed in the same manner as is prescribed in the case of presidential electors. The method of submitting and adopting amendments to the constitution provided by this section shall be supplementary to the method prescribed in the article of this constitution, entitled 'Amendments' and the latter shall in no case be construed to conflict herewith. This amendment shall be self-executing, but legislation may be enacted especially to facilitate its operation. In submitting petitions and orders for the initiative and the referendum, the Secretary of State and all other officers shall be guided by this amendment and the general laws until additional legislation shall be especially provided therefor; all propositions submitted in pursuance hereof shall be submitted in a non-partisan manner and without any indication or suggestion on the ballot that they have been approved or endorsed by any political party or organization, and provided further than only the title of measures shall be printed on the ballot and, when two or more measures have the same title they shall be numbered consecutively in the order of filing with the Secretary of State and including the name of the first petitioner.

Sec. 2. Census; legislative apportionment. The Legislature shall provide by law for an enumeration of the inhabitants of the state in the year eighteen hundred and eighty-five and every ten years thereafter, and at its first regular session after each enumeration, and also after each enumeration made by the authority of the United States, but at no other time, the Legislature shall apportion the senators and representatives according to the number of inhabitants, excluding Indians not taxed, and Soldiers and Officers of the United States army and navy.

Sec. 3. Number of members; sessions. The House of Representatives shall consist of eighty-four members and the senate shall consist of thirty members, until the year eighteen hundred and eighty after which time the number of members of each House shall be regulated by law; But the number of Representatives shall never exceed one hundred, nor that of Senators, thirty-three. The sessions of the legislature shall be biennial, except as otherwise provided in this constitution.

Sec. 4. Legislature; term of office, compensation, length of session. At the first election of members of the legislature held after the adoption of this amendment members of the senate and House of Representatives, shall be

elected for the term of two years. Both senators and representatives shall each receive pay at the rate of six hundred dollars for each regular session of the Legislature, during their term, and ten cents for every mile they shall travel in going to and returning from the place of meeting of the legislature, on the most usual route. That neither members of the legislature nor employes shall receive any pay or perquisites other than their salary and mileage. Each session, except special session, shall not be less than sixty days. After the expiration of twenty days of the session, no bills nor joint resolutions of the nature of bills shall be introduced, unless the governor shall by special message call the attention of the legislature to the necessity of passing a law on the subject-matter embraced in the message, and the introduction of bills shall be restricted thereto. Provided, that the general appropriation bills may be introduced up to and including the fortieth day.

Sec. 5. Who not eligible. No person shall be eligible to the office of Senator, or member of the House of Representatives, who shall not be an elector and have resided within the district from which he is elected for the term of one year next before his election, unless he shall have been absent on the public business of the United States or of this state. And no person elected as aforesaid shall hold his office after he shall have removed from such district.

Sec. 6. Same. No person holding office under the authority of the United States, or any lucrative office under the authority of this state, shall be eligible to, or have a seat in the Legislature, but this provision shall not extend to precinct or township officers, Justices of the Peace, Notaries Public, or officers of the militia, nor shall any person interested in a contract with, or an unadjusted claim, against the State hold a seat in the Legislature.

Sec. 7. Sessions; commencement, quorum, rules, officers, opening, punishments. The session of the Legislature shall commence at 12 o'clock, (noon) on the first Tuesday in January in the year next ensuing the election of members thereof, and at no other time, unless as provided by this constitution. A majority of the members elected to each House shall constitute a quorum; each House shall determine the rules of its proceedings and be the judge of the election, returns, and qualifications of its members, shall choose its own officers, and the senate shall choose a temporary president, to preside when the Lieutenant Governor shall not attend as president, or shall act as Governor. The Secretary of State shall call the House of Representatives to order at the opening of each new Legislature, and preside over it until a temporary presiding officer thereof shall have been chosen, and shall have taken his seat. No member shall be expelled by either House, except by a vote of two-thirds of all the members elected to that House, and no member shall be twice expelled for the same offense. Each House may punish by imprisonment any person not a member thereof who shall be guilty of disrespect to the House by disorderly or contemptuous behavior in its presence, but no such imprisonment shall extend beyond twenty-four hours at one time, unless the person shall persist in such disorderly or contemptuous behavior.

Sec. 8. Journals; votes; doors open; adjournment. Each House shall keep a journal of its proceedings and publish them (except such parts as may require secrecy) and the yeas and nays of the members on any question, shall at the desire of any two of them be entered on the Journal. All votes in either House shall be viva voce. The doors of each House, and of Committees of the Whole, shall be open, unless when the business shall be such as ought to be kept secret. Neither House shall, without the consent of the other, adjourn for more than three days.

Sec. 9. Bills; origin, amendment. Any bill may originate in either house of the Legislature, except bills appropriating money, which shall originate only in the House of Representatives, and all bills passed by one House may be amended by the other.

Sec. 10. Bill, style, final passage. The style of all bills shall be "Be it enacted by the people of the State of Nebraska," and no law shall be enacted except by bill. No bill shall be passed by the legislature unless by assent of a majority of all the members elected to each house of the legislature and the question upon final passage shall be taken immediately upon its last reading and the yeas and nays shall be entered upon the journal.

Sec. 11. Bills; reading, printing, subject, title, amendment, signing. Every bill and concurrent resolution shall be read at large on three different days in each house and the bill and all amendments thereto shall be printed before the vote is taken upon its final passage. No bill shall contain more than one subject, and the same shall be clearly expressed in its title. And no law shall be amended unless the new act contain the section or sections so amended and the section or sections so amended shall be repealed. The presiding Officer of each House shall sign in the presence of the House over which he presides, while the same is in session and capable of transacting business, all bills and concurrent resolutions passed by the legislature.

Sec. 12. Privilege from arrest. Members of the Legislature in all cases except treason, felony or breach of the peace, shall be privileged from arrest during the session of the legislature, and for fifteen days next before the commencement and after the termination thereof.

Sec. 13. Disabilities of members. No person elected to the Legislature shall receive any civil appointment within this State from the Governor and senate during the term for which he has been elected. And all such appointments and all votes given for any such member for any such office or appointment, shall be void. Nor shall any member of the Legislature, or any state officer be interested either directly or indirectly, in any contract with the state, county, or city, authorized by any law passed during the term for which he shall have been elected, or within one year after the expiration thereof.

Sec. 14. Impeachments. The Senate and House of Representatives in joint convention shall have the sole power of impeachment, but a majority of the members elected must concur therein. Upon the entertainment of a resolution to impeach by either house, the other house shall at once be notified thereof and the two houses shall meet in joint convention for the purpose of acting upon such resolution within three days of such notification. A notice of an impeachment of any officer other than a justice of the Supreme Court, shall be forthwith served upon the Chief Justice, by the Secretary of the Senate, who shall thereupon call a session of the Supreme Court to meet at the Capital within ten days after such notice to try the impeachment. A notice of an impeachment of a Justice of the Supreme Court shall be served by the Secretary of the Senate, upon the judge of the judicial district, within which the Capital is located, and he thereupon shall notify all the judges of the District Court in the State to meet with him within thirty days at the Capital, to sit as a Court to try such impeachment, which Court shall organize by electing one of its number to preside. No person shall be convicted without the concurrence of two-thirds of the members of the Court of impeachment, but judgment in cases of impeachment shall not extend further than removal from office and disqualification to hold and enjoy any office of honor, profit, or trust, in this State, but the party impeached, whether convicted or acquitted shall nevertheless be liable to prosecution and punishment according to law. No officer shall exercise his official duties after he shall have been impeached and notified thereof, until he shall have been acquitted.

Sec. 15. Special legislation prohibited. The legislature shall not pass local or special laws in any of the following cases, that is to say:

- For granting divorces.
- Changing the names of persons or places.
- Laying out, opening, altering and working roads or highways.
- Vacating roads, Town plats, streets, alleys, and public grounds.
- Locating or changing County seats.
- Regulating County and Township offices.
- Regulating the practice of Courts of Justice.
- Regulating the jurisdiction and duties of Justices of the Peace, Police Magistrates and Constables.
- Providing for changes of venue in civil and criminal cases.
- Incorporating Cities, Towns and Villages, or changing or amending the charter of any Town, City, or Village.
- Providing for the election of Officers in Townships, Incorporated Towns or Cities.

Summoning or empanelling Grand or Petit Juries.

Providing for the bonding of cities, towns, precincts, school districts or other municipalities.

Providing for the management of Public Schools.

Regulating the interest on money.

The opening and conducting of any election, or designating the place of voting.

The sale or mortgage of real estate belonging to minors, or others under disability.

The protection of game or fish.

Chartering or licensing ferries, or toll bridges, remitting fines, penalties or forfeitures, creating, increasing and decreasing fees, percentage or allowances of public officers, during the term for which said officers are elected or appointed

Changing the law of descent.

Granting to any corporation, association, or individual, the right to lay down railroad tracks, or amending existing charters for such purpose.

Granting to any corporation, association, or individual, any special or exclusive privileges, immunity, or franchise whatever. In all other cases where a general law can be made applicable, no special law shall be enacted.

Sec. 16. Extra compensations. The Legislature shall never grant any extra compensation to any public officer, agent, servant, or contractor after the services shall have been rendered or the contract entered into. Nor shall the compensation of any public officer be increased or diminished during his term of office.

Sec. 17. Salt springs. The Legislature shall never alienate the salt springs belonging to this state.

Sec. 18. Donations of land. Lands under control of the State shall never be donated to railroad companies, private corporations or individuals.

Sec. 19. Appropriations. Each Legislature shall make appropriations for the expenses of the Government until the expiration of the first fiscal quarter after the adjournment of the next regular session, and all appropriations shall end with such fiscal quarter. And whenever it is deemed necessary to make further appropriations for deficiencies, the same shall require a two-thirds vote of all the members elected to each House, and shall not exceed the amount of revenue authorized by law to be raised in such time. Bills making appropriations for the pay of members and officers of the Legislature, and for the salaries of the officers of the Government, shall contain no provision on any other subject.

Sec. 20. Vacancies in offices. All offices created by this Constitution shall become vacant by the death of the incumbent, by removal from the State, resignation, conviction of a felony, impeachment, or becoming of unsound mind. And the Legislature shall provide by general law for the filling of such vacancy, when no provision is made for that purpose in this constitution.

Sec. 21. Lotteries prohibited. The legislature shall not authorize any games of chance, lottery, or gift enterprise, under any pretense or for any purpose whatever.

Sec. 22. Money, how drawn: statement legislative expenses. No allowance shall be made for the incidental expenses of any State officer, except the same be made by general appropriation and upon an account specifying each item. No money shall be drawn from the Treasury, except in pursuance of a specific appropriation made by law, and on the presentation of a warrant issued by the Auditor thereon, and no money shall be diverted from any appropriation made for any purpose or taken from any fund whatever, either by joint or separate resolution. The Auditor shall, within sixty days after the adjournment of each session of the Legislature, prepare and publish a full statement of all moneys expended at such session, specifying the amount of each item, and to whom and for what paid.

Sec. 23. Member not liable for debate. No member of the legislature shall be liable in any civil or criminal action whatever for words spoken in debate.

Sec. 24. Acts take effect, when, publication. No act shall take effect until three calendar months after the adjournment of the session at which it passed,

unless in case of emergency, to be expressed in the preamble or body of the act, the Legislature shall, by a vote of two-thirds of all the members elected to each House, otherwise direct. All laws shall be published in book form within sixty days after the adjournment of each session and distributed among the several counties in such manner as the legislature may provide.

ARTICLE IV—LEGISLATIVE APPORTIONMENT.

Until otherwise provided by law, Senatorial and Representative districts shall be formed, and Senators and Representatives apportioned as follows:*

ARTICLE V.—EXECUTIVE DEPARTMENT.

Section 1. Officers, terms, residence. The executive department shall consist of a Governor, Lieutenant Governor, Secretary of State, Auditor of Public Accounts, Treasurer, Superintendent of Public Instruction, Attorney General, and Commissioner of Public Lands and Buildings, who shall each hold his office for the term of two years from the first Thursday and the first Tuesday in January next after his election, and until his successor is elected and qualified; Provided, however, that the first election of said officers shall be held on the Tuesday succeeding the first Monday in November, 1876, and each succeeding election shall be held at the same relative time in each even year thereafter. The Governor, Secretary of State, auditor of public accounts, and treasurer shall reside at the seat of government during their terms of office, and keep the public records, books and papers there, and shall perform such duties as may be required by law.

Sec. 2. Persons ineligible. No person shall be eligible to the office of governor or lieutenant governor who shall not have attained the age of thirty years, and been for two years next preceding his election a citizen of the United States and of this State. None of the officers of the executive department shall be eligible to any other state office during the period for which they shall have been elected.

Sec. 3. Treasurer ineligible. The treasurer shall be ineligible to the office of treasurer, for two years next after the expiration of two consecutive terms for which he was elected.

Sec. 4. Elections, returns, canvass, contests. The returns of every election for the officers of the executive department shall be sealed up and transmitted by the returning officers to the Secretary of State, directed to the speaker of the House of Representatives, who shall immediately after the organization of the house, and before proceeding to other business, open and publish the same in the presence of a majority of each house of the legislature, who shall, for that purpose assemble in the hall of the house of representatives. The person having the highest number of votes for either of said offices shall be declared duly elected; but if two or more have an equal and the highest number of votes, the legislature shall, by joint vote, choose one of such persons for said office. Contested elections for all of said offices shall be determined by both houses of the legislature, by joint vote, in such manner as may be prescribed by law.

Sec. 5. Impeachment. All civil officers of this State shall be liable to impeachment for any misdemeanor in office.

Sec. 6. Executive power. The supreme executive power shall be vested in the governor, who shall take care that the laws be faithfully executed.

Sec. 7. Message of governor. The governor shall, at the commencement of each session, and at the close of his term of office, and whenever the legislature may require, give to the legislature information by message of the condition of the State, and shall recommend such measures as he shall deem expedient. He shall account to the legislature, and accompany his message with a statement of all moneys received and paid out by him, from any funds subject to his order, with vouchers, and, at the commencement of each regular session, present estimates of the amount of money required to be raised by taxation for all purposes.

Sec. 8. Convening legislature. The governor may, on extraordinary occa-

* The latest apportionment may be found in the Revised statutes.

sions, convene the legislature by proclamation, stating therein the purpose for which they are convened, and the legislature shall enter upon no business except that for which they were called together.

Sec. 9. Proroguing legislature. In case of a disagreement between the two houses with respect to the time of adjournment, the governor may on the same being certified to him by the house first moving the adjournment, adjourn the legislature to such time as he thinks proper not beyond the first day of the next regular session.

Sec. 10. Appointments by governor. The governor shall nominate and by and with the advice and consent of the senate, (expressed by a majority of all senators elected, voting by yeas and nays), appoint all officers whose offices are established by this constitution, or which may be created by law, and whose appointment, or election is not otherwise by law or herein provided for; and no such officer shall be appointed or elected by the legislature.

Sec. 11. Vacancies in office, how filled. In case of a vacancy during the recess of the senate, in any office which is not elective, the governor shall make a temporary appointment until the next meeting of the senate, when he shall nominate some person to fill such office; and any person so nominated, who is confirmed by the senate, (a majority of all the senators elected concurring by voting yeas and nays), shall hold his office during the remainder of the term, and until his successor shall be appointed and qualified. No person after being rejected by the senate, shall be again nominated for the same office at the same session, unless at request of the senate, or be appointed to the same office during the recess of the legislature.

Sec. 12. Removal of officers. The governor shall have power to remove any officer, whom he may appoint, in case of incompetency, neglect of duty, or malfeasance in office, and he may declare his office vacant, and fill the same as herein provided in other cases of vacancy.

Sec. 13. Pardoning power. The governor shall have the power to grant reprieves, commutations and pardons, after conviction, for all offenses except treason, and cases of impeachment, upon such conditions and with such restrictions and limitations as he may think proper, subject to such regulations as may be provided by law, relative to the manner of applying for pardons. Upon conviction for treason, he shall have power to suspend the execution of the sentence until the case can be reported to the legislature at its next session, when the legislature shall either pardon or commute the sentence, direct the execution of the sentence, or grant a further reprieve. He shall communicate to the legislature, at every regular session, each case of reprieve, commutation or pardon granted, stating the name of the convict, the crime of which he was convicted, the sentence and its date, and the date of the reprieve, commutation or pardon.

Sec. 14. Governor, commander in chief. The governor shall be commander-in-chief of the military and naval forces of the State (except when they shall be called into the service of the United States) and may call out the same to execute the laws, suppress insurrection, and repel invasion.

Sec. 15. Bills, approval, veto. Every bill passed by the legislature, before it becomes a law, and every order, resolution or vote to which the concurrence of both houses may be necessary (except on questions of adjournment) shall be presented to the governor. If he approves he shall sign it, and thereupon it shall become a law, but if he do not approve, he shall return it with his objections to the house in which it shall have originated, which house shall enter the objections at large upon its journal, and proceed to reconsider the bill. If then three-fifths of the members elected agree to pass the same, it shall be sent, together with the objections, to the other house, by which it shall likewise be reconsidered; and if approved by three-fifths of the members elected to that house, it shall become a law, notwithstanding the objections of the governor. In all such cases the vote of each house shall be determined by yeas and nays, to be entered upon the journal. Any bill which shall not be returned by the governor within five days (Sundays excepted) after it shall have been presented to him, shall become a law in like manner as if he had signed it; unless the legislature by their adjournment prevent its return; in which case

it shall be filed, with his objections, in the office of the Secretary of State within five days after such adjournment, or become a law. The governor may disapprove any item or items of appropriation contained in bills passed by the legislature, and the item or items so disapproved shall be stricken therefrom, unless repassed in the manner herein prescribed in cases of disapproval of bills.

Sec. 16. Vacancy in office of governor. In case of the death, impeachment and notice thereof to the accused, failure to qualify, resignation, absence from the state, or other disability of the governor, the powers, duties and emoluments of the office for the residue of the term, or until the disability shall be removed, shall devolve upon the lieutenant governor.

Sec. 17. President of senate. The lieutenant governor shall be president of the senate, and shall vote only when the senate is equally divided.

Sec. 18. Office of governor, how filled. If there be no lieutenant governor, or if the lieutenant governor for any of the causes specified in section sixteen of this article, become incapable of performing the duties of the office, the president of the senate shall act as governor until the vacancy is filled, or the disability removed; and if the president of the senate, for any of the above named causes, shall become incapable of performing the duties of governor, the same shall devolve upon the speaker of the house of representatives.

Sec. 19. Board Commissioners State Institutions. The governor shall, prior to the adjournment of the thirty-third session of the legislature, nominate and, with the consent of two-thirds of the members of the Senate in Executive Session, appoint three electors of the state, not more than two of whom shall belong to the same political party and no two of whom shall reside at the time of their appointment in the same congressional district, as members of a board to be known as a "Board of Commissioners of State Institutions." Said members shall hold office as designated by the Governor for two, four and six years respectively. Subsequent appointments shall be made as provided and, except to fill vacancies, shall be for a period of six years. The Board shall at all times be subject to the above restrictions and limitations. The Board of Commissioners shall have full power to manage, control and govern, subject only to such limitations as shall be established by law, the State Soldiers' Home, Hospitals for the Insane, Institute for the Deaf, Institute for the Blind, Industrial Schools, Institute for Feeble Minded Children, Nebraska Industrial Home, Orthopedic Hospital, the State Penitentiary, and all charitable reformatory and penal institutions that shall be by law established and maintained by the state of Nebraska. They shall each give bonds, receive compensation for service, perform all duties and comply with all regulations that shall be established by law. The powers possessed by the Governor and Board of Public Lands and Buildings with reference to the management and control of the institutions herein named shall, on July 1, 1913, cease to exist in the Governor and the Board of Public Lands and Buildings and shall become vested in a Board of Commissioners of State Institutions, and the said Board is on July 1, 1913, and without further process of law, authorized and directed to assume and exercise all the powers heretofore vested in or exercised by the Governor or Board of Public Lands and Buildings with reference to the institutions of the state named herein, but nothing herein contained shall limit the general supervisory or examining powers vested in the Governor by the laws or constitution of the state, or such as are vested by him in any committee appointed by him.

Sec. 19A. State railway commission. There shall be a State Railway Commission, consisting of three members, who shall be first elected at the general election in 1906, whose terms of office, except those chosen at the first election under this provision, shall be six years, and whose compensation shall be fixed by the Legislature. Of the three commissioners first elected, the one receiving the highest number of votes, shall hold his office for six years, the next highest four years, and the lowest two years. The powers and duties of such commission shall include the regulation of rates, service and general control of common carriers as the legislature may provide by law. But, in the absence of specific legislation, the commission shall exercise the powers and perform the duties enumerated in this provision.

Sec. 20. Vacancies in office how filled. If the office of auditor of public accounts, treasurer, secretary of state, attorney general, commissioner of public land and buildings, or superintendent of public instruction, shall be vacated by death, resignation or otherwise, it shall be the duty of the governor to fill the same by appointment, and the appointee shall hold his office until his successor shall be elected and qualified in such manner as may be provided by law.

Sec. 21. Accounts of public officers. An account shall be kept by the officers of the executive department and of all the public institutions of the state of all moneys received or disbursed by them severally from all sources, and for every service performed, and a semi annual report thereof be made to the governor under oath; and any officer who makes a false report shall be guilty of perjury and punished accordingly.

Sec. 22. Reports to governor. The officers of the executive department and of all the public institutions of the state shall at least ten days preceding each regular session of the legislature severally report to the governor, who shall transmit such reports to the legislature together with the reports of the judges of the supreme court of defects in the constitution and laws, and the governor or either house of the legislature may at any time require information, in writing, under oath, from the officers of the executive department, and all officers and managers of state institutions, upon any subject relating to the condition, management and expenses of their respective offices.

Sec. 23. Seal of state. There shall be a seal of the state, which shall be called the "Great Seal of the State of Nebraska," which shall be kept by the Secretary of State and used by him officially as directed by law.

Sec. 24. Salaries; fees; clerks. The salaries of the governor, auditor of public accounts and treasurer, shall be two thousand five hundred dollars each per annum, and of the secretary of state, attorney general, superintendent of public instruction, and commissioner of public lands and buildings shall be two thousand dollars each per annum. The lieutenant governor shall receive twice the compensation of a senator, and after the adoption of this constitution, they shall not receive to their own use any fees, costs, interest upon public moneys in their hands, or under their control, perquisites of office or other compensation, and all fees that may hereafter be payable by law for services performed by an officer provided for in this article of the constitution shall be paid in advance into the state treasury. There shall be no allowance for clerk hire in the offices of the superintendent of public instruction and attorney general.

Sec. 25. Bonds of officers. The officers mentioned in this article shall give bonds in not less than double the amount of money that may come into their hands, and in no case less than the sum of fifty thousand dollars, with such provisions as to sureties and the approval thereof, and for the increase of the penalty of such bonds, as may be prescribed by law.

Sec. 26. No other officers. No other executive state office shall be continued or created, and the duties now devolving upon officers not provided for by this constitution shall be performed by the officers herein created.

ARTICLE VI—THE JUDICIAL DEPARTMENT.

Section 1. Judicial power. The judicial power of this state shall be vested in a supreme court, district courts, county courts, justices of the peace, police magistrates, and in such other courts, inferior to the district courts as may be created by law for cities and incorporated towns.

Sec. 2. Supreme court, jurisdiction. The supreme court shall consist of seven (7) judges; and a majority of all the elected and qualified judges shall be necessary to constitute a quorum or pronounce a decision. The Supreme Court shall have jurisdiction in all cases relating to the revenue, civil cases in which the state is a party, mandamus, quo warranto, habeas corpus, and such appellate jurisdiction as may be provided by law.

Sec. 3. Terms of supreme court. At least two terms of the supreme court shall be held each year, at the seat of government.

Sec. 4. Supreme court, judges, election, term, residence. The judges of the Supreme Court shall be elected by the electors of the state at large; and their term of office except as hereinafter provided shall be six years. And said Su-

preme Court judges shall during their term of office, reside at the place where the court is holden.

Sec. 5. Supreme court, judges, election, term, chief justice. That at the general election to be held in the state of Nebraska in the year 1916, and each six years thereafter, there shall be elected three (3) judges of the Supreme Court, who shall hold their office for the period of six (6) years; that at the general election to be held in the State of Nebraska in the year 1918, and each six years thereafter there shall be elected three (3) judges of the Supreme Court, who shall hold their office for the period of six years; and at the general election to be held in the State of Nebraska in the year 1920 and each six (6) years thereafter there shall be elected a chief justice of the Supreme Court, who shall hold his office for the period of six (6) years. Provided, That the member of the Supreme Court whose term of office expires in January, 1914, shall be chief justice of the Supreme Court during that time until the expiration of his term of office.

Sec. 6. Chief justice. The Chief Justice shall serve as such during all the term for which he was elected. He shall preside at all terms of the supreme court, and in his absence the judges present shall select one of their number to preside temporarily.

Sec. 7. Judges, eligibility. No person shall be eligible to the office of judge of the supreme court unless he shall be at least thirty years of age, and a citizen of the United States; nor unless he shall have resided in this state at least three years next preceding his election.

Sec. 8. Reporter; copyright of reports. There shall be appointed by the supreme court a reporter, who shall also act as clerk of the supreme court, and librarian of the law and miscellaneous library of the state, whose term of office shall be four years, unless sooner removed by the court, whose salary shall be fixed by law, not to exceed fifteen hundred dollars per annum. The copyright of the state reports shall forever belong to the state.

Sec. 9. District courts, jurisdiction. The district courts shall have both chancery and common law jurisdiction, and such other jurisdiction as the legislature may provide; and the judges thereof may admit persons charged with felony to a plea of guilty and pass such sentence as may be prescribed by law.

Sec. 10. Judicial districts. The state shall be divided into six judicial districts, in each of which shall be elected, by the electors thereof, one judge who shall be judge of the district court therein, and whose term of office shall be four years.

Until otherwise provided by law, said districts shall be as follows:*

Sec. 11. Increase of districts. The legislature, whenever two thirds of the members elected to each house, shall concur therein, may, in or after the year One thousand eight hundred and eighty, and not oftener than once in every four years, increase the number of judges of the district courts, and the judicial districts of the state. Such districts shall be formed of compact territory, and bounded by county lines; and such increase, or any change in the boundaries of a district, shall not vacate the office of any judge.

Sec. 12. Judges exchange. The judges of the district court may hold courts for each other and shall do so when required by law.

Sec. 13. Judges, salaries. That judges of the Supreme Court shall each receive a salary of \$4,500, and the Judges of the District Court shall each receive a salary of \$3,000, per annum payable quarterly.

Sec. 14. No other compensation; attorney; county judge. No judge of the supreme or district courts shall receive any other compensation, perquisite, or benefits, for or on account of his office, in any form whatsoever, nor act as attorney or counsellor at law in any manner what-ever, nor shall any salary be paid to any county judge.

Sec. 15. County judge. There shall be elected in and for each organized county one judge, who shall be judge of the county court of such county, and whose term of office shall be two years.

* The latest apportionment may be found in the Revised statutes.

Sec. 16. **County courts, jurisdiction.** County courts shall be courts of record, and shall have original jurisdiction in all matters of probate, settlements of estates of deceased persons, appointments of guardians, and settlement of their accounts; in all matters relating to apprentices; and such other jurisdiction as may be given by the general law. But they shall not have jurisdiction in criminal cases in which the punishment may exceed six months imprisonment, or a fine of over five hundred dollars; nor in actions in which title to real estate is sought to be recovered, or may be drawn in question; nor in actions on mortgages or contracts for the conveyance of real estate; nor in civil actions where the debt or sum claimed shall exceed one thousand dollars.

Sec. 17. **Appeals to district court.** Appeals to the district court from the judgments of county courts shall be allowed in all criminal cases, on application of the defendant; and in all civil cases, on application of either party, and in such other cases as may be provided by law.

Sec. 18. **Justices of the peace; police magistrates; jurisdiction.** Justices of the peace and police magistrates shall be elected in and for such districts, and have and exercise such jurisdiction as may be provided by law; provided, that no justice of the peace shall have jurisdiction in any civil case where the amount in controversy shall exceed two hundred dollars; nor in a criminal case where the punishment may exceed three months imprisonment, or a fine of over one hundred dollars; nor in any matter wherein the title or boundaries of land may be in dispute.

Sec. 19. **Laws, proceedings, etc., uniformity.** All laws relating to courts shall be general, and of uniform operation; and the organization, jurisdiction, powers, proceedings, and practice of all courts of the same class or grade, so far as regulated by law and the force and effect of the proceedings, judgments and decrees of such courts, severally, shall be uniform.

Sec. 20. **Officers, terms, residence, duties, compensation.** All officers provided for in this article shall hold their offices until their successors shall be qualified and they shall respectively reside in the district, county or precinct for which they shall be elected or appointed. The terms of office of all such officers, when not otherwise prescribed in this article, shall be two years. All officers, when not otherwise provided for in this article, shall perform such duties and receive such compensation as may be prescribed by law.

Sec. 21. **Vacancies in offices of judges, how filled.** In case the office of any judge of the supreme court, or of any district court, shall become vacant before the expiration of the regular term for which he was elected, the vacancy shall be filled by appointment by the governor, until a successor shall be elected and qualified, and such a successor shall be elected for the unexpired term at the first general election that occurs more than thirty days after the vacancy shall have happened. Vacancies in all other elective offices provided for in this article shall be filled by election, but when the unexpired term does not exceed one year the vacancy may be filled by appointment, in such manner as the legislature may provide.

Sec. 22. **Suits by and against state.** The state may sue and be sued, and the legislature shall provide by law in what manner and in what courts suits shall be brought.

Sec. 23. **Jurisdiction of Chambers.** The several judges of the courts of record shall have such jurisdiction at chambers as may be provided by law.

Sec. 24. **Style of process.** All process shall run in the name of "The State of Nebraska," and all prosecutions shall be carried on in the name of "The State of Nebraska."

ARTICLE VII—RIGHTS OF SUFFRAGE.

Section 1. **Electors, who are.** Every male person of the age of twenty-one years or upwards belonging to either of the following classes, who shall have resided in the state six months, and in the county, precinct or ward for the term provided by law shall be an elector:

First. Citizens of the United States.

Second. Persons of foreign birth who shall have declared their intention to become citizens conformably to the laws of the United States, on the subject of naturalization, at least thirty days prior to an election.

Sec. 2. Who not qualified. No person shall be qualified to vote who is non compos mentis, or who has been convicted of treason or felony under the laws of the state or of the United States, unless restored to civil rights.

Sec. 3. Electors in military service. Every elector in the actual military service of the United States or of this state, and not in the regular army, may exercise the right of suffrage at such place and under such regulations as may be provided by law.

Sec. 4. Soldiers or sailors not electors. No soldier, seaman, or marine in the army and navy of the United States shall be deemed a resident of the state in consequence of being stationed therein.

Sec. 5. Electors privileged from arrest; military duty. Electors shall in all cases, except treason, felony, or breach of the peace, be privileged from arrest during their attendance at elections, and going to and returning from the same, and no elector shall be obliged to do military duty on the days of election, except in time of war and public danger.

Sec. 6. Ballots. All votes shall be by ballot.

ARTICLE VIII—EDUCATION.

Section 1. Board of educational lands and funds. The Governor, Secretary of State, Treasurer, Attorney General, and Commissioner of Public Lands and Buildings shall, under the direction of the legislature, constitute a board of commissioners, for the sale, leasing, and general management of all lands and funds set apart for educational purposes, and for the investment of school funds, in such manner as may be prescribed by law.

Sec. 2. Property, how used. All lands, money or other property granted, or bequeathed, or in any manner conveyed to this state for educational purposes, shall be used and expended in accordance with the terms of such grant, bequest, or conveyance.

Sec. 3. Permanent school fund. The following are hereby declared to be perpetual funds for common school purposes of which the annual interest or income only can be appropriated, to-wit:

First. Such per centum as has been, or may hereafter be, granted by congress on the sale of lands in this State.

Second. All moneys arising from the sale or leasing of sections number sixteen and thirty-six in each township in this state, and the lands selected, or that may be selected, in lieu thereof.

Third. The proceeds of all lands that have been, or may hereafter be, granted to this state, where by the terms and conditions of such grant the same are not to be otherwise appropriated.

Fourth. The net proceeds of lands and other property and effects that may come to this state, by escheat or forfeiture, or from unclaimed dividends, or distributive shares of the estates of deceased persons.

Fifth. All moneys, stocks, bonds, lands, and other property, now belonging to the common school fund.

Sec. 4. Temporary school fund. All other grants, gifts and devises, that have been, or may hereafter be, made to this state, and not otherwise appropriated by the terms of the grant, gift, or devise, the interest arising from all the funds mentioned in the preceding section, together with all the rents of the unsold school lands, and such other means as the legislature may provide, shall be exclusively applied to the support and maintenance of common schools in each school district in the state.

Sec. 5. Fines, penalties, and license moneys. All fines, penalties, and license moneys, arising under the general laws of the state, shall belong and be paid over to the counties respectively, where the same may be levied or imposed, and all fines, penalties and license moneys arising under the rules, by-laws, or ordinances of cities, villages, towns, precincts, or other municipal subdivision less than a county, shall belong and be paid over to the same respectively. All such fines, penalties, and license moneys shall be appropriated exclusively to the use and support of the common schools in the respective sub-divisions where the same may accrue.

Sec. 6. Common schools, free. The legislature shall provide for the free

instruction in the common schools of this state of all persons between the ages of five and twenty-one years.

Sec. 7. Income, distribution. Provision shall be made by general law for an equitable distribution of the income of the fund set apart for the support of the common schools, among the several school districts of the state and no appropriation shall be made from said fund to any district for the year in which school is not maintained at least three months.

Sec. 8. Educational lands, price. University, agricultural college, common school or other lands which are now held or may hereafter be acquired by the state for educational purposes, shall not be sold for less than seven dollars per acre, nor less than the appraised value.

Sec. 9. Funds inviolate, investment. All funds belonging to the state for educational purposes, the interest and incomes whereof only are to be used, shall be deemed trust funds held by the state, and the state shall supply all losses thereof, that may in any manner accrue, so that the same shall remain forever inviolate and undiminished; and shall not be invested or loaned except on United States or State securities, or registered county bonds of this state, or registered school district bonds of this state; and such other securities as the legislature may from time to time direct. And such funds with the interest and income thereof, are hereby solemnly pledged to the purposes for which they are granted and set apart, and shall not be transferred to any other fund for other uses.

Sec. 10. University government, regents. The general government of the University of Nebraska shall, under direction of the legislature, be vested in a board of six regents to be styled the Board of Regents of the University of Nebraska, who shall be elected by the electors of the state at large, and their term of office, except those chosen at the first election as hereinafter provided, shall be six years. Their duties and powers shall be prescribed by law; and they shall receive no compensation, but may be reimbursed their actual expenses incurred in the discharge of their duties.

Sec. 11. Sectarian instruction prohibited. No sectarian instruction shall be allowed in any school or institution supported in whole or in part by the public funds set apart for educational purposes; nor shall the state accept any grant, conveyance, or bequest of money, lands or other property to be used for sectarian purposes.

Sec. 12. Reform schools. The legislature may provide by law for the establishment of a school or schools for the safe keeping, education, employment and reformation of all children under the age of sixteen years, who for want of proper parental care, or other cause, are growing up in mendicancy or crime.

ARTICLE IX—REVENUE AND FINANCE.

Section 1. Revenue; taxes; uniformity. The Legislature shall provide such revenue as may be needful, by levying a tax by valuation, so that every person and corporation shall pay a tax in proportion to the value of his, her or its property and franchises, the value to be ascertained in such manner as the Legislature shall direct, and it shall have power to tax peddlers, auctioneers, brokers, hawkers, commission merchants, showmen, jugglers, inn-keepers, liquor-dealers, toll-bridges, ferries, insurance, telegraph and express interests or business, venders of patents, in such manner as it shall direct by general law, uniform as to the class upon which it operates.

Sec. 2. Exemption from taxation. The property of the state, counties, and municipal corporations, both real and personal shall be exempt from taxation, and such other property as may be used exclusively for agricultural and horticultural societies, for school, religious, cemetery, and charitable purposes, may be exempted from taxation, but such exemptions shall be only by general law. In the assessment of real estate incumbered by public easement, any depreciation occasioned by such easement may be deducted in the valuation of such property. The Legislature may provide that the increased value of lands, by reason of live fences, fruit and forest trees grown and cultivated thereon, shall not be taken into account in the assessment thereof.

Sec. 3. Redemption from sales of land for taxes. The right of redemption

from all sales of real estate, for the non-payment of taxes or special assessments of any character whatever, shall exist in favor of owners and persons interested in such real estate, for a period of not less than two years from such sales thereof. Provided, that occupants shall in all cases be served with personal notice before the time of redemption expires.

Sec. 4. Taxes not to be released. The legislature shall have no power to release or discharge any county, city, township, town or district whatever, or the inhabitants thereof, or any corporation, or the property therein, from their or its proportionate share of taxes to be levied for state purposes, or due any municipal corporation, nor shall commutation for such taxes be authorized in any form whatever.

Sec. 5. County taxes, limit. County authorities shall never assess taxes the aggregate of which shall exceed one and a half dollars per one hundred dollars valuation, except for the payment of indebtedness existing at the adoption of this constitution, unless authorized by a vote of the people of the county.

Sec. 6. Municipal taxes. The Legislature may vest the corporate authorities of cities, towns and villages, with power to make local improvements by special assessments, or by special taxation of property, benefited. For all other corporate purposes, all municipal corporations may be vested with authority to assess and collect taxes, but such taxes shall be uniform in respect to persons and property within the jurisdiction of the body imposing the same.

Sec. 7. Property exempt from payment of municipal debts. Private property shall not be liable to be taken or sold for the payment of the corporate debts of municipal corporations. The Legislature shall not impose taxes upon municipal corporations, or the inhabitants or property thereof, for corporate purposes.

Sec. 8. Funding indebtedness. The Legislature at its first session shall provide by law for the funding of all outstanding warrants, and other indebtedness of the state, at a rate of interest not exceeding eight per cent per annum.

Sec. 9. Claims upon state treasury, adjustment, approval. The Legislature shall provide by law that all claims upon the treasury, shall be examined and adjusted by the auditor and approved by the secretary of state, before any warrant for the amount allowed shall be drawn. Provided, that a party aggrieved by the decision of the auditor and secretary of state may appeal to district court.

ARTICLE X—COUNTIES.

Section 1. Area. No new county shall be formed or established by the legislature which will reduce the county or counties, or either of them to a less area than four hundred square miles, nor shall any County be formed of a less area.

Sec. 2. Division of counties. No county shall be divided, or have any part stricken therefrom, without first submitting the question to a vote of the people of the county, nor unless a majority of all the legal voters of the County voting on the question shall vote for the same.

Sec. 3. Same. There shall be no territory stricken from any organized county, unless a majority of the voters living in such territory shall petition for such division, and no territory shall be added to any organized county without the consent of the majority of the voters of the county to which it is proposed to be added, but the portion so stricken off and added to another county, or formed in whole or in part into a new county, shall be holden for and obliged to pay its proportion of the indebtedness of the counties from which it has been taken.

Sec. 4. Election of officers. The legislature shall provide by law for the election of such county and township officers as may be necessary.

Sec. 5. Township organization. The legislature shall provide by general law for township organization, under which any county may organize whenever a majority of the legal voters of such county voting at any general election shall so determine, and in any county that shall have adopted a township organization the question of continuing the same may be submitted to a vote

of the electors of such county at a general election in the manner that shall be provided by law.

ARTICLE XI—RAILROAD CORPORATIONS.

Section 1. Public office; reports. Every railroad corporation organized or doing business in this state, under the laws or authority thereof, or of any other state, or of the United States, shall have and maintain a public office or place in this state for the transaction of its business, where transfers of stock shall be made, and in which shall be kept, for public inspection, books in which shall be recorded the amount of capital stock subscribed, and by whom, the names of the owners of the stock, and the amount owned by them respectively, the amount of stock paid in and by whom, the transfers of said stock, the amount of its assets and liabilities, and the names and places of residence of its officers. The directors of every railroad corporation or other parties having control of its road, shall annually make a report, under oath, to the auditor of public accounts, or some officer to be designated by law, of the amount received from passengers and freight, and such other matters relating to railroads as may be prescribed by law. And the legislature shall pass laws enforcing by suitable penalties the provisions of this section.

Sec. 2. Property liable to sale on execution. The rolling stock and all other movable property belonging to any railroad company or corporation in this state, shall be liable to execution and sale in the same manner as the personal property of individuals, and the legislature shall pass no law exempting any such property from execution and sale.

Sec. 3. Consolidation; competing line. No railroad corporation, or telegraph company, shall consolidate its stock, property, franchises, or earnings in whole or in part, with any other railroad corporation or telegraph company owning a parallel or competing line; and in no case shall any consolidation take place except upon public notice of at least sixty days, to all stockholders, in such manner as may be provided by law.

Sec. 4. Railways public highways; rates of transportation; limiting liability. Railways heretofore constructed, or that may hereafter be constructed, in this state are hereby declared public highways, and shall be free to all persons for the transportation of their persons and property thereon, under such regulations as may be prescribed by law. And the legislature may from time to time pass laws establishing reasonable maximum rates of charges for the transportation of passengers and freight on the different railroads in this state. The liability of railroad corporations as common carriers shall never be limited.

Sec. 5. Stocks and bonds, issuance; capital, increase. No railroad corporation shall issue any stock or bonds, except for money, labor or property actually received and applied to the purposes for which such corporation was created; and all stock, dividends, and other fictitious increase of the capital stock or indebtedness of any such corporation shall be void. The capital stock of railroad corporations shall not be increased for any purpose, except after public notice for sixty days, in such manner as may be provided by law.

Sec. 6. Eminent domain. The exercise of the power and the right of eminent domain shall never be so construed or abridged as to prevent the taking by the legislature, of the property and franchises of incorporated companies already organized, or hereafter to be organized, and subjecting them to the public necessity the same as of individuals.

Sec. 7. Abuses regulated by law. The legislature shall pass laws to correct abuses and prevent unjust discrimination and extortion in all charges of express, telegraph and railroad companies in this state and enforce such laws by adequate penalties to the extent, if necessary for that purpose, of forfeiture of their property and franchises.

Sec. 8. Railroads organized in other states. No railroad corporation organized under the laws of any other state, or of the United States and doing business in this state shall be entitled to exercise the right of eminent domain or have power to acquire the right of way, or real estate for depot or other uses, until it shall have become a body corporate pursuant to and in accordance with the laws of this state.

ARTICLE XII—MUNICIPAL CORPORATIONS.

Section 1. Subscriptions to corporations prohibited. No city, county, town, precinct, municipality, or other sub-division of the state, shall ever become a subscriber to the capital stock, or owner of such stock, or any portion or interest therein of any railroad, or private corporation, or association.

Sec. 2. City Charters, submission. Any city having a population of more than five thousand (5000) inhabitants may frame a charter for its own government, consistent with and subject to the constitution and laws of this state, by causing a convention of fifteen freeholders, who shall have been for at least five years qualified electors thereof, to be elected by the qualified voters of said city at any general or special election, whose duty it shall be within four months after such election, to prepare and propose a charter for such city, which charter, when completed, with a prefatory synopsis, shall be signed by the officers and members of the convention, or a majority thereof, and delivered to the clerk of said city, who shall publish the same in full, with his official certification, in the official paper of said city, if there be one, and if there be no official paper, then in at least one newspaper published and in general circulation in said city, three times, and a week apart, and within not less than thirty days after such publication it shall be submitted to the qualified electors of said city at a general or special election, and if a majority of such qualified voters, voting thereon, shall ratify the same, it shall at the end of sixty days thereafter, become the charter of said city, and supersede any existing charter and all amendments thereof. A duplicate certificate shall be made, setting forth the charter proposed and its ratification (together with the vote for and against) and duly certified by the City Clerk, and authenticated by the corporate seal of said city and one copy thereof shall be filed with the secretary of state and the other deposited among the archives of the city, and shall thereupon become and be the charter of said city, and all amendments to such charter, shall be authenticated in the same manner, and filed with the secretary of state, and deposited in the archives of the city.

Sec. 3. Same rejected; subsequent submission. But if said charter be rejected, then within six months thereafter, the Mayor and council or governing authorities of said city may call a special election at which fifteen members of a new charter convention shall be elected to be called and held as above in such city, and they shall proceed as above to frame a charter which shall in like manner and to the like end be published and submitted to a vote of said voters for their approval or rejection. If again rejected, the procedure herein designated may be repeated until a charter is finally approved by a majority of those voting thereon, and certified (together with the vote for and against) to the secretary of state as aforesaid, and a copy thereof deposited in the archives of the city, whereupon it shall become the charter of said city. Members of each of said charter conventions shall be elected at large; and they shall complete their labors within sixty days after their respective election. The charter shall make proper provision for continuing, amending or repealing the ordinances of the city.

Sec. 4. Charter, amendment, convention. Such charter so ratified and adopted may be amended, or a charter convention called, by a proposal therefor made by the law-making body of such city or by the qualified electors in number not less than five per cent of the next preceding gubernatorial vote in such city, by petition filed with the council or governing authorities. The council or governing authorities shall submit the same to a vote of the qualified electors at the next general or special election not held within thirty days after such petition is filed. In submitting any such charter or charter amendments, any alternative article or section may be presented for the choice of the voters and may be voted on separately without prejudice to others. Whenever the question of a charter convention is carried by a majority of those voting thereon, a charter convention shall be called through a special election ordinance, and the same shall be constituted and held and the proposed charter submitted to a vote of the qualified electors, approved or rejected, as provided in Section two hereof. The City Clerk of said city shall publish with his official certifica-

tion, for three times, a week apart in the official paper of said city, if there be one and if there be no official paper, then in at least one newspaper, published and in general circulation in said city, the full text of any charter or charter amendment to be voted on at any general or special election.

No charter or charter amendment adopted under the provisions of this amendment shall be amended or repealed except by electoral vote. And no such charter or charter amendment shall diminish the tax rate for state purposes fixed by act of the legislature, or interfere in any wise with the collection of state taxes.

ARTICLE XIb—MISCELLANEOUS CORPORATIONS.

Section 1. Incorporations by general law. No corporation shall be created by special law, nor its charter extended, changed, or amended, except those for charitable, educational, penal, or reformatory purposes, which are to be and remain under the patronage and control of the state, but the legislature shall provide by general laws for the organization of all corporations hereafter to be created. All general laws passed pursuant to this section may be altered from time to time, or repealed.

Sec. 2. Street railroads. No such general law shall be passed by the legislature granting the right to construct and operate a street railroad within any city, town, or incorporated village without first requiring the consent of a majority of the electors thereof.

Sec. 3. Suits. All corporations may sue and be sued in like cases as natural persons.

Sec. 4. Liability, stock subscribers. In all cases of claims against corporations and joint stock associations, the exact amount justly due shall be first ascertained, and after the corporate property shall have been exhausted the original subscribers thereof shall be individually liable to the extent of their unpaid subscriptions, and the liability for the unpaid subscription shall follow the stock.

Sec. 5. Elections. The Legislature shall provide by law that in all elections for directors or managers of incorporated companies, every stockholder shall [have] the right to vote in person or proxy, for the number of shares of stock owned by him, for as many persons as there are directors or managers to be elected, or to cumulate said shares and give one candidate as many votes as the number of directors multiplied by the number of his shares of stock, shall equal, or to distribute them upon the same principle among as many candidates as he shall think fit, and such directors or managers shall not be elected in any other manner.

Sec. 6. Existing charters. All existing charters or grants of special or exclusive privileges, under which organization shall not have taken place, or which shall not be in operation within sixty days from the time this constitution takes effect, shall thereafter have no validity or effect whatever.

Sec. 7. Banks, liability of stockholders, statements. Every stockholder in a banking corporation or institution shall be individually responsible and liable to its creditors over and above the amount of stock by him held to an amount equal to his respective stock or shares so held, for all its liabilities accruing while he remains such stockholder, and all banking corporations shall publish quarterly statements under oath of their assets and liabilities.

ARTICLE XII—STATE, COUNTY AND MUNICIPAL INDEBTEDNESS.

Section 1. Debts of state. The state may, to meet casual deficits, or failures in revenues, contract debts never to exceed in the aggregate one hundred thousand dollars, and no greater indebtedness shall be incurred except for the purpose of repelling invasion, suppressing insurrection, or defending the state in war, and provision shall be made for the payment of the interest annually, as it shall accrue, by a tax levied for the purpose, or from other sources of revenue, which law providing for the payment of such interest by such tax shall be irrepealable until such debt be paid.

Sec. 2. Donations in aid of works of internal improvement. No city, county, town, precinct, municipality, or other subdivision of the state, shall

ever make donations to any railroad, or other works of internal improvement, unless a proposition so to do, shall have been first submitted to the qualified electors thereof, at an election by authority of law. Provided, that such donations of a county with the donations of such subdivisions in the aggregate shall not exceed ten per cent of the assessed valuation of such county. Provided further, that any city or county may, by a two-thirds vote increase such indebtedness five per cent in addition to such ten per cent; and no bonds or evidences of indebtedness so issued shall be valid, unless the same shall have endorsed thereon a certificate by the secretary and auditor of state, showing that the same is issued pursuant to law.

Sec. 3. State credit not given or loaned. The credit of the state shall never be given or loaned in aid of any individual, association, or corporation.

ARTICLE XIII MILITIA.

Section 1. Militia. The legislature shall determine what persons shall constitute the militia of the state, and may provide for organizing and disciplining the same.

ARTICLE XIV—MISCELLANEOUS PROVISIONS.

Section 1. Oath of officers. Executive and judicial officers and members of the legislature, before they enter upon their official duties shall take and subscribe the following oath, or affirmation: "I do solemnly swear (or affirm) that I will support the constitution of the United States, and the constitution of the State of Nebraska, and will faithfully discharge the duties of _____ according to the best of my ability, and that at the election at which I was chosen to fill said office, I have not improperly influenced in any way the vote of any elector, and have not accepted, nor will I accept or receive, directly or indirectly, any money or other valuable thing from any corporation, company or person, or any promise of office, for any official act or influence (for any vote I may give or withhold on any bill, resolution, or appropriation)." Any such officer or member of the legislature who shall refuse to take the oath herein prescribed, shall forfeit his office, and any person who shall be convicted of having sworn falsely to, or of violating his said oath shall forfeit his office, and thereafter be disqualified from holding any office of profit or trust in this state unless he shall have been restored to civil rights.

Sec. 2. Who ineligible to office. Any person who is in default as collector and custodian of public money or property shall not be eligible to any office of trust or profit under the constitution or laws of this state; nor shall any person convicted of felony be eligible to office unless he shall have been restored to civil rights.

Sec. 3. Drunkenness. Drunkenness shall be a cause of impeachment and removal from office.

ARTICLE XV—AMENDMENTS.

Section 1. How made. Either branch of the legislature may propose amendments to this constitution, and if the same be agreed to by three-fifths of the members elected to each house, such proposed amendments shall be entered on the journals, with the yeas and nays, and published once each week in at least one newspaper in each county, where a newspaper is published, for three months immediately preceding the next election of senators and representatives, at which election the same shall be submitted to the electors for approval or rejection, and if a majority of the electors voting at such election, adopt such amendments, the same shall become a part of this constitution. When more than one amendment is submitted at the same election they shall be so submitted as to enable the electors to vote on each amendment separately.

Sec. 2. Convention to revise constitution. When three-fifths of the members elected to each branch of the legislature deem it necessary to call a convention to revise, amend, or change this constitution, they shall recommend to the electors to vote at the next election of members of the legislature, for or against a convention, and if a majority voting at said election vote for a convention, the legislature shall, at its next session, provide by law for calling the same. The convention shall consist of as many members as the house of

representatives, who shall be chosen in the same manner, and shall meet within three months after their election, for the purpose aforesaid. No amendment or change of this constitution, agreed upon by such convention, shall take effect until the same has been submitted to the electors of the state, and adopted by a majority of those voting for and against the same.

ARTICLE XVI—SCHEDULE

Section 1. Rights preserved. That no inconvenience may arise from the revisions and changes made in the constitution of this state, and to carry the same into effect, it is hereby ordained and declared that all laws in force at the time of the adoption of this constitution, not inconsistent therewith, and all rights, actions, prosecutions, claims and contracts of this state, individuals or bodies corporate, shall continue to be as valid as if this constitution had not been adopted.

Sec. 2. Fines, taxes, etc., to inure to people. All fines, taxes, penalties and forfeitures owing to the State of Nebraska, or to the people thereof, under the present Constitution and laws, shall inure to the use of the people of the State of Nebraska, under this constitution.

Sec. 3. Recognizances, etc., to remain valid. Recognizances, bonds, obligations, and all other instruments entered into or executed upon the adoption of this constitution, to the people of the State of Nebraska, to the State of Nebraska, to any state or county officer, or public body, shall remain binding and valid, and rights and liabilities upon the same shall continue, and all crimes and misdemeanors shall be tried and punished as though no change had been made in the constitution of this state.

Sec. 4. Jurisdiction of courts. All existing courts which are not in this constitution specifically enumerated, and concerning which no other provision is herein made shall continue in existence and exercise their present jurisdiction until otherwise provided by law.

Sec. 5. Persons to continue in office. All persons now filling any office or appointment shall continue in the exercise of the duties thereof, according to their respective commissions, elections or appointments, unless by this constitution it is otherwise directed.

Sec. 6. District attorney. The district attorneys now in office shall continue during their unexpired terms to hold and exercise the duties of their respective offices in the judicial districts herein created, in which they severally reside. In each of the remaining districts, one such officer shall be elected at the first general election, and hold his office until the expiration of the terms of those now in office.

Sec. 7. Constitution, submitted when. This constitution shall be submitted to the people of the state of Nebraska, for adoption or rejection, at an election to be held on the second Tuesday of October, 1875, and there shall be separately submitted at the same time, for adoption or rejection, the independent article relating to "Seat of Government" and the independent article, "allowing electors to express their preference for United States Senator."

Sec. 8. Election for. At said election the qualified electors shall vote at the usual places of voting, and the said election shall be conducted and the returns thereof made according to the laws now in force regulating general elections, except as herein otherwise provided.

Sec. 9. Election supplies. The Secretary of State shall at least twenty days before said election, cause to be delivered to the county clerk of each county, blank poll books, tally lists, and forms of returns, and twice as many of properly prepared printed ballots for the said election as there are voters in such county, the expenses whereof shall be audited and paid as other public printing ordered by the secretary is by law required to be audited and paid, and the several county clerks shall, at least five days before said election, cause to be distributed to the judges of election in each election precinct in their respective counties, said blank poll books, tally lists, forms of return, and tickets.

Sec. 10. Ballot, forms of. At the said election the ballots shall be of the following form.

For the New Constitution.

Against the New Constitution.

For the article relating to "Seat of Government."

Against article relating to "Seat of Government."

For the article "Allowing electors to express their preference for United States Senator."

Against the article "allowing electors to express their preference for United States Senator."

Sec. 11. Returns and canvass of elections. The returns of the whole vote cast, and of the votes for the adoption or rejection of this Constitution, and for or against the articles respectively submitted, shall be made by the several county clerks to the secretary of state, within fourteen days after the election, and the returns of the said votes shall, within three days thereafter, be examined and canvassed by the president of this Convention, the Secretary of State, and the governor, or any two of them, and proclamation shall be made forthwith, by the governor or the president of this convention, of the result of the canvass.

Sec. 12. Result of canvass. If it shall appear that a majority of the votes polled are For the "New Constitution" then so much of this new constitution as was not separately submitted to be voted on by articles shall be the supreme Law of the State of Nebraska on and after the first day of November A. D. 1875. But if it shall appear that a majority of the votes polled were "Against the New Constitution" the whole thereof, including the articles separately submitted, shall be null and void. If the votes For the "New Constitution" shall adopt the same and it shall appear that the majority of the votes polled are "For the Article relating to Seat of Government," said article shall be a part of the Constitution of this state. If the votes For the "New Constitution" shall adopt the same and it shall appear that a majority of the votes polled are "For the article Allowing electors to express their preference for United States Senator" said article shall be a part of the Constitution of this State.

Sec. 13. General election, when held. The general election of this state shall be held on the Tuesday succeeding the first Monday of November in the year 1914 and every two years thereafter. All state, district, county, precinct and township officers, by the constitution or laws made elective by the people, except school district officers, and municipal officers in cities, villages and towns, shall be elected at a general election to be held as aforesaid. Judges of the supreme, district and county courts, all elective county and precinct officers, and all other elective officers, the time for the election of whom is not herein otherwise provided for, and which are not included in the above exception, shall be elected on the Tuesday succeeding the first Monday in November, 1913, and thereafter at the general election next preceding the time of the termination of their respective term of office. Provided, That no office shall be vacated thereby, but the incumbent thereof shall hold over until his successor is duly elected and qualified.

Sec. 14. Official terms. The terms of office of all State and County officers, of judges of the supreme, district and county courts, and regents of the University, shall begin on the first Thursday after the first Tuesday in January next succeeding their election, the present state and county officers, members of the legislature, and regents of the University, shall continue in office until their successors shall be elected and qualified.

Sec. 15. Successors of court. The supreme, district and County Courts established by this constitution shall be the successors respectively of the supreme Court, the district courts and the probate courts, having jurisdiction under the existing constitution.

Sec. 16. Courts, continuance. The supreme, district and probate courts now in existence shall continue, and the judges thereof shall exercise the power and retain their present jurisdiction until the Courts provided for by this Constitution shall be organized.

Sec. 17. Same. All cases, matters and proceedings, pending undetermined in the several Courts, and all records, judgments, orders and decrees remaining therein are hereby transferred to and shall be proceeded in and enforced in and by the successors thereof respectively.

Sec. 18. Existing constitution to cease, when. If this Constitution be adopted, the existing constitution shall cease in all its provisions on the first day of November A. D. 1875.

Sec. 19. Provisions taking immediate effect. The provisions of this constitution required to be executed prior to the adoption or rejection thereof shall take effect and be in force immediately.

Sec. 20. Enabling legislation. The legislature shall pass all laws necessary to carry into effect the provisions of this constitution.

Sec. 21. State officers to take oath. On the taking effect of this constitution all state officers hereby continued in office shall before proceeding, in the further discharge of their duties, take an oath or affirmation to support this constitution.

Sec. 22. Regents of university, how classified. The regents of the University shall be elected at the first general election under this constitution, and be classified by lot so that two shall hold their offices for the term of two years, two for the term of four years, and two for the term of six years.

Sec. 23. Executive officers continued in office. The present executive State officers shall continue in office until the executive State officers provided for in this constitution shall be elected and qualified.

Sec. 24. Returns of votes cast at first election. The returns of the whole vote cast for the judges of the supreme and district Courts, district attorneys and regents of the University, under the first general election, shall be made by the several county clerks to the Secretary of State within fourteen days after the election; and the returns of the said votes shall within three days thereafter be examined and canvassed by the governor, secretary of state and the president of this convention, or any two of them, and the certificates of election shall forthwith be issued by the Secretary of State to the persons found to be elected.

Sec. 25. Salaries paid by warrant of auditor. The auditor shall draw the warrants of the state quarterly for the payment of the salaries of all officers under this Constitution, whose compensation is not otherwise provided for, which shall be paid out of any funds not otherwise appropriated.

Sec. 26. Terms of court. Until otherwise provided by law, the judges of district courts shall fix the time of holding courts in their respective districts.

Sec. 27. Members of first legislature. The members of the first legislature under this constitution shall be elected in the year 1876.

Sec. 28. Constitution, enrollment, publication. This constitution shall be enrolled and deposited in the Office of the Secretary of State, and printed copies thereof shall be prefixed to the books containing the laws of the state, and all future editions thereof.

PROPOSITIONS SEPARATELY SUBMITTED.

Allowing Electors to express their preference for United States Senator.

Election. The legislature may provide that, at the general election immediately preceding the expiration of the term of a United States Senator from this State, the electors may by ballot express their preference for some person for the office of United States Senator. The votes cast for such candidates shall be canvassed and returned in the same manner as for state officers.

Seat of Government.

Relocation. The seat of government of the State shall not be removed or relocated without the assent of a majority of the electors of the state voting thereupon, at a general election or elections, under such rules and regulations as to the number of elections and manner of voting and places to be voted for, as may be prescribed by law. Provided the question of removal may be submitted at such other general election as may be provided by law.

Done in Convention at the Capital in the city of Lincoln on the twelfth day of June in the year of our Lord one thousand eight hundred and seventy-five, and of the independence of the United States of America the ninety-ninth.

In witness whereof, we have hereunto subscribed our names.

GUY A. BROWN,

Secretary.

C. L. MATHER,

Assistant Secretary.

I, Addison Wait, Secretary of State, of the State of Nebraska, do hereby certify that the foregoing is a true and correct copy of the Constitution of the State of Nebraska, with all amendments thereto, the original having been adopted at the general election held on the second Tuesday of October, 1875, according to the records of this Department.

In Testimony Whereof, I have hereunto set my hand and affixed the Great Seal of the State of Nebraska. Done at Lincoln, this 4th day of October in the year of our Lord One Thousand Nine Hundred and Thirteen, and of the Independence of the United States the One Hundred and Thirty-seventh and of this state the Forty-seventh.

[SEAL]

ADDISON WAIT,

Secretary of State.

Secretary of state's report	80,032
Gain on railway amendment	533
Recount on school amendments	89,050
Secretary of state's report	84,426
Gain on school amendment	4,624
Leaving school amendment short of a majority	9,706
Leaving railroad amendment short of a majority	18,190

(Neb. Senate Journal, 1897, p. 850.)

³Neb. House Journal, 1897, p. 1055.

⁴Prior to this election the total was calculated from the total vote for governor.

⁵1906. First election under provision permitting state conventions to adopt proposed amendment and all "party circle ballots" to be counted therefor. Both Republican and Democratic parties adopted amendment.

⁶Republican party adopted amendment at primary and Democratic party rejected.

GOVERNMENT.

CONSTITUTIONAL DEPARTMENTS.*

INTRODUCTION.

HISTORY.

The following sketches are designed to give briefly the important facts in the history of the territorial and state government, as shown by the various departments, boards, offices, bureaus, institutions and organizations that have been established or fostered by the state.

These facts are limited principally to the information afforded by the constitutions, legislative acts and records, executive proclamations and messages, and reports of offices and institutions. The interpretation of the facts is left to historians and the public.

Each sketch is prefaced by a roster of the present officers and employees of the department or institution, corrected for July 1, 1914. The functions, duties and powers of the several divisions of governmental activities are indicated briefly, and, in the case of the wide reaching departments, only partially. The regular current publications of each office are indicated by name.

STATISTICS.

Statistics showing the total appropriations made for each department are included with the sketches. The legislative appropriations, auditors' reports and office records furnish the basis for these statistics. The intention is to afford the people of Nebraska an analysis of all their expenditures for state purposes from the beginning. This analysis is as minute as the available records permit. The statistics for territorial appropriations and expenditures are collected in one combined table, including all departments and institutions.

The unsystematic methods of the past should be kept in mind by students of these statistics. Especially in the statistics of the institutions it should be noted that in the past all expenditures that did not go into buildings were counted as maintenance. In the systematic methods now being inaugurated by the board of commissioners for state institutions the term "maintenance" has a much more limited scope—many items that formerly went into the maintenance column now being put into "equipment" or "permanent repairs." Thus, the statistics of per capita cost in the several institutions for the past years are calculated from a more ample inclusion of items than will be the case hereafter.

LEGISLATURE.

The organic act of May 30, 1854, provided for a legislative assembly consisting of a council of thirteen members elected for two-year terms, and a house of representatives of twenty-six members elected for one-year terms. Annual sessions of not more than forty days' duration, except the first session, which might be prolonged to sixty days, were provided for. Members were paid three dollars a day and three dollars for every twenty miles of travel in getting to and from the capital.

Legislative apportionments were to be based on the number of voters. The territorial governor was directed to have a census taken, to make the initial apportionment and to call an election. Power to change the number of representatives, to make apportionments and to fix the dates for convening in

* The University is included with educational institutions.

regular session was vested in the assembly. The first session convened at Omaha, January 16, 1855. An act approved March 16, 1855, provided for the taking of a census by the marshal and a new apportionment by the governor. The number of representatives was limited to twenty-nine for the next session, and it was further enacted that, until changed by law, the annual sessions should begin on the first Tuesday in December, except the succeeding session, which was to convene on the third Tuesday in December, 1855. At this session it was provided that the next regular session should convene on the first Monday of January, 1857, and annually thereafter on the first Monday in January. An act approved January 26, 1856, directed the marshal to take another census and the governor to make another apportionment, limiting the number of representatives to thirty-five.

By joint resolution of April 25, 1856, the territorial assembly memorialized the delegate in congress to secure amendment to the organic act basing the apportionment on the increase in white population instead of on the number of voters. The time for convening of the next session was changed to the second Tuesday in December, 1857, but was immediately restored to the first Monday in January for the next session. An act approved November 3, 1858, fixed the number of representatives at thirty-nine and apportioned them among the counties. The fifth session was called by Governor Richardson to consider the adoption of parts of the criminal and civil codes and affairs of the state generally. The secretary of the territory refused to pay the expenses of this session from the current expense appropriations and the legislature, by joint resolution, requested congress to make an early appropriation for the purpose. By legislative act the sixth, seventh and eighth sessions convened on the first Tuesday in December of each year. By legislative act the ninth session convened on January 7, 1864. A temporary apportionment was made by this session. The eleventh legislature drafted the constitution of 1866, which was adopted by the people at an election held June 2, 1866. This constitution provided that the first session of the state legislature should be held on July 4, 1866. When this first session assembled, the admission bill had not yet passed congress. A negro suffrage amendment to this act required the assent of the legislature before the proclamation of admission by the President, so that when the second state legislature met on February 20, 1867, just after the close of the twelfth territorial assembly, its business was to assent to this amendment.

Thus the first state legislature that had the power to pass laws was the third session beginning May 16, 1867—statehood having become a fact on March 1, 1867. This was a special session called by Governor Butler to consider general legislation.

The constitution of 1866 made no change in the numerical arrangements of the two houses, calling for thirteen senators and thirty-nine representatives. Biennial sessions were provided for, to begin the first Tuesday after the first Monday in January of the odd numbered years.

The fourth special session held on October 27 and 28, 1868, was called to provide for the election of presidential electors, a detail which had been overlooked.

The fifth session (erroneously called the first "regular" session) was the first session to be held at Lincoln on the constitutional date. The sixth session was a special session called by the governor for the ratification of the fifteenth amendment to the federal constitution, to provide for the erection of a penitentiary and for other purposes. Upon adjournment, without effecting all the legislation desired by the governor, another special session was called to convene immediately to pass a herd law, to amend an act governing the keeping of identical funds in the state treasury, and for various other purposes.

The eighth regular session instituted impeachment proceedings against Governor Butler. Growing out of impeachment proceedings brought against the auditor, John Gillespie, a series of adjournments brought about the eighth adjourned session of January 9, 1872.

The tenth session was called by Governor Furnas to amend the law concerning certain county boundaries, to consider assessments in new counties and the incorporation of cities. The twelfth and thirteenth sessions were called on

the same day to canvass the vote on presidential electors, and to appoint an elector to fill an alleged vacancy. The only other special session was the seventeenth, convened to reapportion the congressional districts, to appropriate money for calling out the militia to suppress riot at Omaha, and for other purposes.

The constitution of 1875 limited the maximum membership of the legislature to one hundred in the house and thirty-three in the senate. Prior to 1880, under this constitution, the house had eighty-four members and the senate thirty.

TERRITORIAL AND STATE LEGISLATIVE SESSIONS, DATES HELD, PLACE OF MEETING, AND STATUS OF PRINTED RECORDS OF SESSION.

All sessions prior to January 7, 1869, held at Omaha; January 7, 1869, and subsequent sessions at Lincoln.

Session	Dates (inclusive)	Status of Records

Stenographer—Alice F. McElfresh, Lincoln.....	840

HISTORY.

Territorial governors were appointed by the President.

Francis Burt, first territorial governor, arrived in Nebraska on October 16, 1854. David Butler, first governor of the state, entered upon his duties February 20, 1867. The salary of territorial governors was \$2,000, and that of state governors \$1,000, until the constitution of 1875 fixed the salary at its present limit of \$2,500. Beginning with 1889 the state paid the rent of a residence for the governor until 1899, except during the incumbency of Governor Crounse, who refused to accept the additional payments. In 1899 the legislature appropriated \$25,000 for the purchase and furnishing of an executive mansion. Of this sum \$21,385.30 was expended. Each succeeding legislature, until that of 1913, has made appropriations for the maintenance and repair of the mansion. The supreme court has held that the constitutional provision that state officers shall receive no compensation in addition to their salaries is not violated by the maintenance of a residence for the governor, but several governors have refused to accept funds for maintenance. (State v. Sheldon, 78 Neb. 552.)

DUTIES AND POWERS OF THE GOVERNOR (PARTIAL LIST).

The governor is required to—

1. Give information by message to the legislature.
2. Render account of all moneys received and disbursed by him.

3. Appoint about one hundred officers as required by the constitution and statutes, and fill vacancies in state offices.
4. Serve as commander-in-chief of the militia.
5. Sign or veto bills passed by the legislature.
6. Call elections to fill vacancies in office of representative in congress.
7. Certify public accountants and notaries.
8. Approve requisitions for the return of accused persons to other states and countries.
9. With the superintendent of public instruction, manage escheated lands.
10. Have custody of state lands and property not otherwise disposed of by law.
11. With treasurer and auditor, direct investment of surplus funds.
12. Order election of officers in new counties.
13. Designate places of publication for proposed constitutional amendments, and proclaim such amendments when passed.
14. With secretary of state board of agriculture, appoint and discharge employes of the bureau of agricultural statistics and publicity.

In addition to the duties usually pertaining to the executive office, the governor is commissioner of labor, fire commissioner, commissioner of the printing bureau, food, drug, dairy and oil commissioner, game and fish commissioner, hotel commissioner, state veterinarian, and sealer of weights and measures. He is also chairman of the board of educational lands and funds, the banking board, board of charities and corrections, depository bonds board, board of irrigation, highways and drainage, board of assessment and equalization, board of canvassers, stallion registration board, state board of osteopathy, insurance commission, board of health, voting machine commission, and a member of the minimum wage commission, board of veterinary medicine, and the conservation and public welfare commission. With the secretary of the board of agriculture he conducts the bureau of agricultural statistics.

LIEUTENANT-GOVERNOR.

Lieutenant-Governor—S. R. McKelvie, Lincoln.

HISTORY.

The constitution of 1875 made the first provision for a lieutenant-governor. During the sessions of the legislature he is paid twice the per diem compensation of a senator, amounting at present to \$1,200 for a session.

DUTIES.

1. Serve as president of the senate.
2. Act as governor during that official's absence or incapacity, and succeed to the office if a vacancy or permanent incapacity arises.

APPROPRIATIONS, 1867-1915.*

HISTORY.

The territorial secretaries of state were appointed by the President of the United States. The duties of the secretary of state were first prescribed in an act approved June 24, 1867. These duties have been constantly added to until even a partial enumeration of them appears formidable.

DUTIES AND POWERS.

The secretary is required to—

1. Fix the seal of state to all commissions issued by the governor and keep a register of them.
2. Receive and have custody of all bills that become laws, and to index, publish and distribute them; also, to furnish certified copies of them upon the payment of the required fees.
3. Have charge of legislative property and certain state house furniture, and to provide supplies for the legislature.
4. Report to the governor the amount of all fees collected by him, and the contracts let by him for supplies and printing.
5. Receive abstracts of votes from county clerks and tabulate results for the legislature and canvassing board.

6. Keep a file of all articles of incorporation, consolidation and changes in articles of all corporations, or other associations, also collect filing fees and annual license fees from the same.
7. Distribute reports of state board of agriculture and state horticultural society.
8. Receive all filings of certificates of nominations for office, initiative and referendum petitions, and arrange the official ballot for both primaries and elections; also, print and distribute election laws, road laws, statutes and proposed constitutional amendments.
9. Record trade-marks, brands and labels and collect fees for the same.
10. Endorse registration certificates of all public bonds.
11. File reports of county clerks as to county officers.
12. Deliver state publications to state librarian and historical society.
13. Receive and file testimony in certain election contests.
14. Receive and file bonds of state officers.
15. Register motor vehicles, collect the fees for the same.
16. Inspect business records and accounts of money lenders.

The secretary may—

1. Administer oaths and take acknowledgments upon payment of customary notarial fees.

RELATION TO VARIOUS BOARDS, ETC.

Member of—

board of equalization and assessment.
 board of educational lands and funds.
 board of pharmacy.
 board of canvassers.
 depository bonds board.
 voting machine commission.

County Treasurer Examiner—George Fairchild, Columbus.....	1,800
County Treasurer Examiner—F. M. Stapleton, Tecumseh.....	1,800
Stenographer-Clerk—Charles E. Leech, Beatrice.....	1,000

HISTORY.

The auditor's office was created by act of the first territorial legislature, approved March 16, 1855. The auditor was thereby made general accountant and revenue officer of the territory, with a salary of \$200 per annum. Amenda-tory acts prescribing duties were passed by the territorial legislature on Janu-ary 26, 1856, February 15, 1864, February 9, 1865, and February 13, 1865. The act of February 15, 1864, combined the offices of auditor and school commis-sioner, with a salary of \$900 per annum.

The salary of the office was so small in the early days that its work was slighted. Papers accumulated without being organized, and on March 3, 1873, the legislature passed a joint resolution declaring the accounts, books, and records of the office to be in "an unintelligible condition," and appropriating the sum of \$500 for services of a skillful accountant to investigate and balance the accounts therein.

The constitution of 1875 fixed the salary and outlined the duties. By act of legislature in 1913 the insurance department was separated from the auditor's office.

DUTIES AND POWERS.

The auditor is required to—

1. Be general accountant of the state.
2. Adjust and settle all claims for services or expenditures of state made by authority of law, and to draw warrants upon treasurer for the same.
3. Settle accounts with all collectors of state revenues.
4. Keep accounts with other states and the federal government.
5. Direct prosecutions for official delinquencies in relation to assess-ment and revenue.
6. Procure descriptions of all taxable lands within the state.
7. Give information to legislature, to report in detail upon all the fiscal affairs of the state, and to furnish estimates of the revenue and expenditures.
8. With attorney general and treasurer, settle claims of state for moneys due.
9. Examine and register state, county, municipal and other public bonds.
10. Receive upon deposit the securities of burial associations and other corporations.
11. Certify annually to county clerks amount due on county bonds.
12. Inspect county treasurers' books and establish a uniform system of accounting.
13. With governor and treasurer direct investment of state surplus.
14. Certify names of new towns or changes of names.

The auditor may—

1. Administer oaths and affirmations in matters pertaining to his office.
2. Inspect the books of certain charitable institutions.
3. Examine surety companies.

HISTORY.

By the organic act of May 30, 1854, the governor and the secretary of the territory were made the medium through which the funds appropriated by the United States government for the territory were expended. An act of the territorial assembly, approved March 16, 1855, created the office of treasurer of the territory. The constitutions of 1866 and 1875 provided for this office.

DUTIES AND POWERS.

The treasurer is required to—

1. Receive and keep all state moneys not expressly deposited elsewhere, to disburse the same according to law, to keep accounts, to render statements and make reports, and to account for and pay over to his successor all moneys received.

HISTORY.

By an act of the territorial legislature approved March 16, 1855, the territorial librarian was constituted superintendent of public instruction. The legislature of 1858 provided for a territorial commissioner of common schools to be elected for a term of two years. The legislature of 1861 consolidated this office with that of the territorial auditor. By act of the state legislature of February 15, 1869, the office of state superintendent of public instruction was created. The constitution of 1875 put the office on a constitutional basis and provided in section 24 of article V that "there shall be no allowance for clerk hire in the offices of the superintendent and attorney general." Under the decision of the Nebraska supreme court (25 Neb. 669), made in 1889, it was held that "clerk" as here used had its common-law meaning and did not include deputy or stenographer.

In explanation of the constantly increasing appropriations to be spent under the direction of the superintendent of public instruction these facts should be noted: In 1903 the legislature provided for the establishment of several junior normal or summer schools. In 1907 large appropriations were made for normal training in high schools and in aid of weak school districts. This was intended as a substitute for the state school levy, which it was provided should no longer be made. In 1913 a subsidy for schools teaching agriculture and domestic science was appropriated.

DUTIES AND POWERS.

The superintendent is required to—

1. Organize teachers' normal institutes and attend them, if possible.
2. Visit schools and advise with teachers and school officers.
3. Decide disputed points in school law, these decisions to have the force of law until reversed by the courts.
4. Prescribe forms for making reports and regulations for proceedings under the general school laws.
5. Publish and distribute school laws and his report.
6. Apportion state school fund.
7. Designate normal training high schools and prescribe conditions of admission to classes, and inspect.
8. Expend appropriations to aid weak school districts.
9. With fire commissioner, prepare book of instruction on fire dangers.
10. Prepare all questions for examination of applicants for teachers' certificates and prescribe regulations for such examinations.
11. Supervise instruction in agriculture, manual training and home economics in certain high schools.

COMMISSIONER OF PUBLIC LANDS AND BUILDINGS.

	Salary
Commissioner—Fred Beckmann, Lincoln.....	\$2,000
Deputy Commissioner—George E. Emery, Omaha.....	1,800
Recorder—Netta I. Swain, Dunbar.....	1,200
Chief Clerk—Ernest B. Fairchild, Lincoln.....	1,500
Bookkeeper—Amanda E. Beckmann, Lincoln.....	1,500
Surveyor—Robert Harvey, St. Paul.....	1,500
Stenographer—Marie Allenbach, Lincoln.....	840

HISTORY.

This office was created by the constitution of 1876. Prior to that time the auditor had charge of the educational lands of the state, and the various buildings were under the supervision of appointed boards. In 1903 the legislature created the office of state surveyor to be appointed by the commissioner of lands and buildings. The surveyor is required to take charge of field notes, maps, charts and records of government surveys and to render advice on all questions or inquiries relating to surveys and grievances or disputes arising out of conflicting surveys. By amendment to the constitution adopted in 1912 the custody of the buildings and grounds of the state penal and charitable institutions passed to the board of commissioners for state institutions.

DUTIES AND POWERS.

The commissioner is required to—

1. Keep record and have custody of the public lands of the state, except where otherwise provided by the constitution and statutes.
2. Appoint and supervise a state surveyor.
3. Prepare leases and deeds for public lands.

ATTORNEY GENERAL.

	Salary
Attorney General—Grant G. Martin, Fremont.....	\$2,000
Deputy Attorney General—George W. Ayres, Central City.....	2,000
Assistant Attorney General—Frank E. Edgerton, Lincoln.....	2,000
Stenographer—Josephine Murphy, Plattsmouth	340

HISTORY.

The genesis of the office of the attorney general of Nebraska is obscure and a matter of some controversy.

By the Kansas-Nebraska act of May 30, 1854, there was provided an attorney for the territory of Nebraska, to be appointed by the President for a term of four years, who should receive the same fees and salary as the attorney for the territory of Utah. The same organic act provided for the purchase of a territorial library "to be kept at the seat of government for the use of the governor, legislative assembly, judges of the supreme court, secretary, marshal, and attorney for such territory and for such other persons and under such regulations as shall be prescribed by law."

In his message to the territorial legislature on January 6, 1857, Governor Mark W. Izard refers to this passage in the following terms: "The provisions in the organic act * * * confine the use of the library to the governor, secretary, judges of the territorial courts, attorney general, marshal, and members of the legislature." It would appear from this that the attorney for the territory and the attorney general were the same. Succeeding references in the territorial laws, however, indicate a contrary state of facts.

By the act of February 4, 1857, "for the relief of Experience Estabrook," there was granted from the territorial treasury \$100 for services in prosecuting cases for the state.

On October 8, 1858, there was introduced in the upper house of the territorial legislature "An act to prescribe the duties of attorney general." On the following day this bill was indefinitely postponed.

Instead of prescribing the duties of attorney general the same legislature, on October 12, 1858, passed "An act to abolish the office of attorney general," which reads as follows:

"Section 1. Be it enacted by the council and house of representatives of the territory of Nebraska, That all powers and duties, of, belonging to, assumed or claimed by the attorney general of this territory are hereby transformed (sic) and made to be the powers and duties of the district attorneys of the judicial districts in this territory, respectively.

"Sec. 2. The office of attorney general is hereby abolished.

"Sec. 3. This act shall take effect and be in force from and after its passage."

The plain inference from the action of the territorial legislature, as above set forth, is that some one was assuming or claiming functions not assigned him by law. No other reference to the office of attorney general appears in the statutes of the territorial period.

The first state constitution of 1866 made no provision for the office of attorney general. The first act upon the subject after Nebraska became a state was that of June 21, 1867, as follows:

"An act to authorize the governor to employ counsel in actions instituted by and against the state.

"Section 1. Be it enacted by the legislature of the state of Nebraska, That the governor be and is hereby authorized and empowered to retain and employ such attorney and counselor at law as he may select to prosecute any and all actions necessary and proper to be brought to secure the rights of the state in and to any property owned or claimed thereby.

"Sec. 2. In any action which may be brought against the state or any of its officers, in respect of the property mentioned in the first section of this act, process shall be served upon the governor, and he shall have the same power in defending said action as is provided in said first section.

"Sec. 3. The governor shall report to the succeeding legislature his action in the premises.

"Sec. 4. This act shall take effect and be in force from and after its passage."

The next step in the evolution of the office of attorney general was the act of February 9, 1869, as follows:

"An act to define the duties of the attorney for the state and provide for his payment.

"Section 1. Be it enacted by the legislature of the state of Nebraska: That until there shall be an attorney general for this state the duties of the attorney for the state whose appointment is provided for by the act approved **June 21, 1867**, shall, in addition to those devolved upon him by said act, be such as are usually performed by the attorney general of a state.

"Sec. 2. The said attorney for the state shall receive as compensation for his services such sum as the governor shall deem fair and just and as is paid in similar cases, to be audited and paid in same manner as the salary of state officers, and there is hereby appropriated, to be paid out of any moneys in the state treasury not otherwise appropriated, such sum as may be sufficient for the payment of said attorney as prescribed by this act.

"Sec. 3. This act shall take effect and be in force from and after its passage."

At the same session was passed an act, dated February 15, 1869, providing for the election of an attorney general at the general election, defining his duties, fixing his salary at \$1,000 per annum, and providing for appointment by the governor until election.

On February 27, 1873, a supplementary act was passed further enlarging and defining his duties.

In the convention of 1875 which framed the present constitution of Ne-

braska there was violent opposition to the continuance of the office of attorney general. This opposition was not strong enough to abolish the office, but did secure a provision inserted in section 24 of article V of the constitution providing that "there shall be no allowance for clerk hire in the offices of the superintendent of public instruction and attorney general." The intent of this provision was to prevent the employment of any assistants in both these departments. Under the decision of the Nebraska supreme court (25 Neb. 669), made in 1889, it was held, however, that "clerk" as here used had its common-law meaning and did not include deputy or stenographer. Numerous helpers are now employed in both departments.

In recent years this office has had need of additional legal help for special cases, notably for cases in the United States supreme court arising out of railroad regulation; hence the increasing appropriations.

DUTIES AND POWERS.

The attorney general is required to—

1. Consult with and advise county attorneys when requested by them in criminal matters and matters pertaining to public revenue.
2. Appear and defend or prosecute actions and proceedings in which the state is an interested party.
3. With auditor and treasurer, settle claims of state against others.
4. With auditor and treasurer, settle with defaulting county treasurers.
5. Bring suit to oust unfair companies.
6. Examine articles of incorporation.
7. Prepare legal forms and contracts for state business.
8. Upon request, to furnish certain state officials with written opinions on the interpretations of the statutes. These opinions are usually esteemed to have the force of law until reversed by the supreme court.
9. Enforce many laws expressly stipulated by statute.

HISTORY.

The supreme court had its origin in the organic act creating the territory May 30, 1854, which declared that "The supreme court shall consist of a chief justice and two associate justices." The constitutions of 1866 and also 1875 provided for three judges. Prior to the constitution of 1875 the members of this court also presided over the district courts. The cases before the supreme court became so numerous that the legislature of 1901 authorized the supreme court to appoint nine commissioners to aid them in clearing up the docket. The legislature of 1905 reduced the number of supreme court commissioners to six. By constitutional amendment adopted November, 1908, the supreme court was increased from three to seven judges.

JURISDICTION.

1. Has original jurisdiction in cases relating to revenue, civil cases in which the state shall be a party, mandamus, quo warranto, habeas corpus, and such appellate jurisdiction as may be provided by law.

Court reporter, Lee W. Johnson	Beatrice

HISTORY.

The organic act of May 30, 1854, provided for three judicial districts in the newly created territory. These courts were presided over by the justices of the supreme court, who were required to reside in the districts to which they were assigned. On December 20, 1854, Acting-Governor Cuming, by proclamation, assigned Chief Justice Fenner Ferguson to the first district, embracing the counties of Douglas and Dodge; Judge Edwin R. Hardin to the second district, embracing all that portion of the territory lying south of the Platte river; and Judge James Bradley to the third district, embracing the counties of Washington and Burt. He also appointed first sessions of these courts at "Bellevue," Douglas county; Nebraska City, Pierce county; and Florence, Washington county. An act of March 16, 1855, defined the first district as the counties of Douglas and Washington with court held in Omaha, and in Washington county. The second district included Richardson, Nemaha, Otoe, Cass, Lancaster, Greene, Clay, Saline, Pawnee, Johnston and York counties and court was held in various places in the district. The third district embraced the counties of Burt, Dodge, Loup, Black Bird, Dakota, Buffalo, Cuming, Izard, Jackson and McNeill with court to be held at Fontanelle and Tekamah. The functions of these courts were further defined by the adoption of the code of February 13, 1857.

The constitution of 1875 provided for six judicial districts and relieved the judges of the supreme court of duties in the district courts. There are now eighteen districts with twenty-nine judges.

JURISDICTION.

These courts have "both chancery and common law jurisdiction, and such other jurisdiction as the legislature may provide; and the judges thereof may admit persons charged with felony to a plea of guilty and pass such sentence as may be prescribed by law."

HISTORY.

This office had its genesis in an act of the legislature approved March 5, 1885, creating the board of transportation, whose purpose was railroad regulation. The act was declared unconstitutional by the state supreme court on November 21, 1900. (60 Neb. 741.) The act was repealed and the board abolished by the legislative act of March 30, 1901. The present railway commission was created by constitutional amendment adopted November, 1906. Its functions are more clearly defined and wider in scope than those of the earlier board.

DUTIES AND POWERS.

The railway commission has power and it is its duty to—

1. Regulate rates and service of and to exercise general control over all railroads, express companies, car companies, sleeping car companies, freight and freight line companies, water power companies, irrigation works, stock yards, telephone and telegraph companies and any other common carrier engaged in the transportation of freight or passengers with the state.
2. Investigate all cases of alleged neglect or violations of laws by railway companies and other common carriers.
3. Fix necessary rates and charges.
4. Inspect condition and equipment of each common carrier and make annual reports thereon.
5. Compel attendance of witnesses in investigations.

HISTORY.

This board was created by a constitutional amendment adopted November 5, 1912. It consists of three members appointed by the governor and confirmed by two-thirds of the senate, their terms of office being six years. This board has full power to control all present* and future state penal, reformatory and charitable institutions subject to the limitations of the statute. The following institutions are specified in the constitution: soldiers' homes, hospitals for the insane, school for the deaf, institute for the blind, industrial schools, institute for feeble-minded children, industrial home, orthopedic hospital, penitentiary. The powers previously possessed by the governor and the board of public lands and buildings with reference to the management and control of these institutions vested in the board of commissioners of state institutions on July 1, 1913. An act, in effect April 21, 1913, prescribes the duties of the board. It is required to appoint certain chief officers of all the institutions under its control. The entire board is required to visit and inspect every institution at least once in six months, and at least one member must visit and inspect each institution once in sixty days. The board is required to purchase all necessary supplies for all the institutions. It has control of all ad-

HISTORY.

The act of February 15, 1864, created the office of adjutant general for the territory of Nebraska, with the salary of \$300 per annum. The occasion was the great Sioux and Cheyenne Indian war on the Nebraska border. The territorial militia was organized under an act approved February 13, 1865. The act of the state legislature of February 15, 1869, continued the office. On March 17, 1871, the legislature abolished the office, and provided for the transfer of the archives to the custody of the secretary of state. By the act of February 28, 1881, the office was restored and has had continuous existence since that time.

The governor appoints the adjutant general.

DUTIES AND POWERS.

The adjutant general is required to—

1. Have control of the military department subject to the governor, whose orders he transmits.
2. Keep records, receive and issue supplies, care for equipment and other property of the military department.

BUREAU OF PRINTING.

Commissioner—John H. Morehead, Governor.

Salary

Deputy Commissioner—N. J. Ludl, Wahoo..... \$1,500

HISTORY.

A territorial act approved March 15, 1855, provided that the secretary of the territory should print and distribute the laws and joint resolutions. On January 29, 1857, Robert W. Furnas was elected public printer, and an act approved February 13, 1857, authorized the printer to print the session laws and the journals of each house.

The earliest state law in reference to state printing is one approved June 18, 1867. This act provided that the auditor, treasurer and secretary of state should advertise for bids for state printing. An act approved February 25, 1875, required state officers to deliver their reports to the state printer and have them ready for distribution at the beginning of the legislature. The earlier act was repealed by an act approved February 24, 1883, and a state printing board, consisting of the auditor, treasurer and secretary of state, with duties almost identical with those required by the early law, created. An act passed by the legislature of 1897 substituted a new act which required the printing board to let contracts for printing, stationery and supplies for all state departments, and allowed \$1,000 a year as salary for an expert printer to attend to the actual duties of the board. An act approved April 3, 1909, provided that the printing board should consist of the governor, auditor and secretary of state and gave the governor power to appoint a secretary. The legislature of 1911 repealed the existing law and created a bureau of printing, and made the governor the commissioner of the bureau with power to appoint a deputy at a salary of \$1,500 a year.

DUTIES AND POWERS.

To secure bids and award contracts for printing and stationery required by the various state offices and institutions.

BOARD OF EDUCATIONAL LANDS AND FUNDS.

Meets second Tuesday of each month.

John H. Morehead, Governor.....Chairman
 Fred Beckmann, Land CommissionerSecretary
 Walter A. George, Treasurer.
 Addison Walt, Secretary of State.
 Grant G. Martin, Attorney General

The constitution of 1876 (article VIII, section 1) designated the governor, secretary of state, treasurer, attorney general and commissioner of public lands and buildings to constitute a board for the sale, leasing, and general management of all lands and funds set apart for educational purposes. An act signed April 21, 1913, transferred to the management of this board all lands and buildings formerly managed by the board of public lands and buildings, except those which a constitutional amendment of 1912 (article V, section 19) transferred to the board of commissioners of state institutions.

APPROPRIATIONS, 1873-1915.

BOARD OF PURCHASE AND SUPPLIES.

A statute of 1877 designated the governor, commissioner of public lands and buildings, secretary of state, treasurer and attorney general to constitute a board to purchase the supplies for the various state penal and charitable institutions. With the amendment of 1912 (article V, section 19), these functions are transferred to the board of commissioners of state institutions.

APPROPRIATIONS, 1887-1915.

BOARD OF PUBLIC LANDS AND BUILDINGS.

The constitution of 1875 designated the commissioner of public lands and buildings, secretary of state, treasurer and attorney general to form a board which should have supervision and control of all buildings, grounds and lands of the state, the state prison, asylums and all other institutions thereof except those for educational purposes. By an act in force February 13, 1877, the powers of the board were further defined. The constitutional amendment of 1912 (article V, section 19) placed the control of the lands and buildings of penal reformatory and charitable institutions in the hands of the board of commissioners of state institutions. An act signed April 21, 1913, transferred

the remaining powers of the board of public lands and buildings to the board of educational lands and funds.

* Derived from sale of lots in city of Lincoln.

† Ibid. Cost of first capitol building of the state \$75,817.59.

‡ For the years 1883-86 a levy of $\frac{1}{4}$ mill was made for capitol construction. For years 1887-88 a levy of $\frac{3}{4}$ of a mill was made for same purpose. Legislature of 1887 authorized sale of Lincoln city lots for use of capitol building fund. This sale added \$78,870 to this fund.

§ 18th biennial report of the board of public lands and buildings gives total cost of constructing capitol as \$691,428.80.

BOARD OF EXAMINERS OF PUBLIC ACCOUNTANTS.

W. B. Howard, Auditor.

Term expires

E. J. Robinson, Lincoln 1915

H. S. Wiggins, Omaha 1914

The legislature of 1909 created this board, consisting of the auditor and two certified public accountants appointed by the governor for terms of two years. Candidates for public accountant's certificates are examined by the board, and upon satisfactorily passing the examinations are certified to the governor, who issues the proper credentials. The examination questions are those furnished by the national association of certified public accountants. The fees collected cover the expenses of holding the examinations.

Examiner—T. R. Riley, Omaha	2,000
Examiner—M. C. Wilde, Norfolk	2,000
Examiner—E. N. Vanhorne, Pawnee City	2,000

HISTORY.

Early banking in the state was carried on under the general incorporation laws of the state. The instability of these early institutions finally led to the general banking act which was approved March 29, 1889. This act provided for the filing of bank reports with the auditor, and the examination of banks under the direction of the auditor. The auditor, treasurer and attorney general or any two of them appointed a suitable person to do the necessary clerical work in the auditor's office, and also the necessary bank examiners. An act approved April 8, 1895, created the state banking board, of which the auditor, treasurer and attorney general were the members, with power to appoint a secretary and a clerk, and bank examiners. The banking law was revised by an act approved March 25, 1909. This provided that the auditor, treasurer and the governor who is ex-officio chairman should constitute the board. The office is sustained chiefly by the fees collected.

DUTIES AND POWERS.

This board has general control of banks and banking under the laws of this state. The governor appoints the secretary, bank examiners and other employees.

The board is required to—

1. Inspect and secure reports from all banks organized under state laws, and to enforce all the banking laws.
2. Have control of building and loan associations.

Examiner—John W. Jones	2,000
Examiner—C. S. Clayton	2,000
Chief Clerk—Lillian E. Peters	1,200
Stenographer—Maynetta Marks	840

HISTORY.

An act approved February 15, 1864, required insurance companies to be certified by the territorial auditor, and to report to him. The act approved February 25, 1873, extended the duties of the auditor with reference to inspection and investigation of insurance companies, and required him to have the assent of the attorney general before issuing the original certificate to a company. An act approved March 31, 1899, repealed the existing law, and created a bureau of insurance, with the governor as insurance commissioner and a deputy commissioner for the actual work. This law was declared unconstitutional (59 Neb. 417-435) on the ground that it violated sections 1 and 4, article IX, of the constitution relative to taxation. It was held that the invalid sections constituted an inducement to the legislature to enact the other sections of the law, and so rendered the whole invalid. In 1903 the auditor was empowered to appoint an insurance deputy. The legislature of 1913 repealed the existing law and enacted a complete insurance code. It provides that the governor, auditor and attorney general shall constitute the state insurance board, and shall appoint a secretary who shall be known as insurance commissioner. The department collects fees sufficient to maintain it.

DUTIES AND POWERS.

1. The board shall see that all laws respecting insurance companies are faithfully executed.
2. Upon necessary evidence, certificates to insurance companies may be issued or revoked.
3. Shall examine each domestic company at least once in three years.
4. May examine foreign companies.
5. Must secure annual reports from insurance companies.
6. Shall keep deposited securities.

* The law permits the state insurance board to pay the actuary a per diem of \$15.

† Two regular examiners employed and each receives a salary of \$2,000 per annum and traveling expenses. Both salary and expenses paid out of fees received by the state from examination of insurance companies.

DEPOSITORY BONDS BOARD.

John H. Morehead, Governor.....Chairman
 Addison Wait, Secretary of State.
 Grant G. Martin, Attorney General.

This board consists of the governor, secretary of state and attorney general. Its function is to approve the depository bonds of banks in which state funds are deposited, except such banks as are by statute exempted from furnishing such a bond. It was created by an act approved April 8, 1891.

BOARD OF EQUALIZATION AND ASSESSMENT.

Meets for assessment first Monday in May.

Meets for equalization third Monday in July.

John H. Morehead, Governor.
 Addison Wait, Secretary of State.
 Walter A. George, Treasurer.
 Fred Beckmann, Land Commissioner.
 W. B. Howard, Auditor.

Henry Seymour, Secretary Salary
 \$1,600

HISTORY.

The territorial auditor in 1855 determined the amount to be raised by each county for the territorial tax. In 1857 the legislature adopted the revenue code of Iowa for Nebraska territory. This code provided for a census board which was to exercise the functions of a board of equalization. In 1858 the legislature provided that the territorial auditor and treasurer should constitute the territorial board of equalization. A further amendment in 1864 added the governor to this board, which continued unchanged until 1903 when the secretary of state and commissioner of public lands and buildings were added. At this time the board was authorized to appoint a secretary.

DUTIES AND POWERS.

1. The board shall provide a uniform method of keeping all books relating to taxation in the several counties, and shall send to county clerks all blanks necessary to the operation of the assessment laws.

2. It shall have general direction and control of the county assessors.

3. It must equalize the assessments of property in the several counties, and has power to raise or lower the assessed valuation of any county.

4. The board shall determine the amount of all taxes required for state purposes and the rate of taxation upon all property in the state necessary to raise the same, and make the levy of such taxes.

BUREAU OF LABOR AND INDUSTRIAL STATISTICS.

Commissioner—John H. Morehead, Governor.

	Salary
Deputy Commissioner—Charles W. Pool, Tecumseh.....	\$1,500
Stenographer—Eunice K. Barton, Lincoln.....	840

HISTORY.

The legislature of 1887 created this bureau. The governor was made the commissioner, to comply with the requirements of the Nebraska constitution forbidding the creation of more executive offices. The duties of the office are performed by a deputy commissioner and other employees.

DUTIES AND POWERS.

The labor commissioner is required to—

1. Collect, collate and publish statistics and facts relative to manufacture, industrial classes and material resources, other than farming.
2. Examine into the relation between labor and capital.
3. Enforce the labor laws, including the factory inspection laws.
4. Enforce the laws concerning fire escapes on factories and public buildings.
5. Maintain a free public employment office.

RELATION TO OTHER STATE BOARDS.

Deputy labor commissioner is secretary of the board of mediation and investigation.

MINIMUM WAGE COMMISSION.

John H. Morehead, Governor.

Charles W. Pool, Deputy Labor Commissioner.

Term expires

George E. Norman, Omaha 1915

Annie L. Hawes, Lincoln, Secretary 1915

HISTORY.

Created by the legislature of 1913. The governor is a member and he is to appoint the deputy commissioner of labor, a member of the political science department of the University of Nebraska, and one other member as additional members. At least one of these must be a woman. The appointments are for two years. No appropriation was made for this commission.

DUTIES AND POWERS.

1. Must inquire into wages paid to female employees, and minors.
2. Establish wage boards and minimum wages in various occupations.
3. Publish names of employers who refuse to agree to findings of the commission.
4. May publish statistics and other data and must make a biennial report.

BOARD OF MEDIATION AND INVESTIGATION.

Term expires

Robert Cowell, Omaha, Chairman 1915

Charles W. Pool, Tecumseh, Secretary.

F. M. Coffey, Lincoln 1915

H. E. Reische, Chadron 1915

This board was created by the legislature of 1913. It is composed of three persons appointed by the governor, together with the deputy commissioner of labor, who is required to act as secretary. One of the members must be a member of a labor organization affiliated with the state federation of labor and one of them must be an employer of labor. Their term of office is two years. The expenses of this office are borne in part by the state, but certain costs are charged to the parties to the matters in dispute.

It is the duty of this board, upon notification from the governor that a strike or lockout has occurred or is seriously threatened, to send one of its members to investigate the difficulty and endeavor to effect an amicable settlement of the dispute. The governor may cause all members of the board to proceed to the locality of a dispute. Grievances and disputes voluntarily submitted to the board by the parties in interest shall be considered and judgment rendered. Local mediation boards may also consider disputes voluntarily submitted to them. An initial appropriation of \$2,000 was made.

BOARD OF INSPECTORS OF CHILD LABOR.

Rev. James Wise Omaha

Mrs. Draper Smith Omaha

E. D. Murphy Brady

Mrs. E. A. Russell Ord

Miss Mattie Allen Lincoln

The legislature of 1907 created this board. The governor appoints five members for terms of five years each. These serve without compensation. The chairman is the executive head of the board and must reside in the county employing the largest number of children. It is the duty of members of this board to cause children who are employed to undergo physical examination as to their fitness to work. If there seems to be doubt of such fitness.

Penal and Charitable.

BOARD OF CHARITIES AND CORRECTIONS.

James E. Delzell, State Superintendent.....Secretary
Fred Beckmann, Land Commissioner.

Salary
Chief Clerk- John W. Shahan, Kearney \$1,500
Stenographer—Matilda Heagney, Lincoln 840

HISTORY.

This board was created by the legislature of 1901. The governor, superintendent of public instruction, and commissioner of public lands and buildings constitute the board.

DUTIES AND POWERS.

This board is required to—

1. Inquire into the whole system of public charities and the correctional institutions of the state and counties.
2. Examine and approve all plans for new jail buildings, lock-ups, infirmaries or reformatories.
3. Upon order of the governor, investigate the management of any state or county penal, charitable or reformatory institution.

Edward G. Maggi, Lincoln	1,000	1915
Dr. F. A. Sedlacek, Omaha	1,000	1917
John W. Shahan, Secretary.		

HISTORY.

The legislature of 1911 created these boards. The state prison board is composed of three members appointed by the governor to serve for three years. One of these must be a practising physician and one must be a practising attorney. The prison board is also the advisory board of pardons. The clerk of the state board of charities and corrections is secretary of these boards.

DUTIES AND POWERS.

1. The prison board has power to establish rules and regulations under which prisoners within the penitentiary may be allowed to go upon parole.
2. The secretary of the prison board must keep in communication, so far as is possible, with all prisoners on parole, and report to the prison board for consideration.
3. Findings of the board for final discharge shall be sent to the governor.
4. The advisory board of pardons shall consider petitions and requests for pardons, reprieves and commutations of sentence, and report their findings to the governor.

PENITENTIARY MEDICAL BOARD

G. E. Williams, Physician at Penitentiary.
 B. F. Williams, Superintendent, Lincoln Hospital for the Insane.
 H. B. Cumming, Board of Secretaries, State Board of Health.

This board is composed of the physician at the penitentiary, the superintendent of the Lincoln hospital for the insane, and one of the secretaries of the state board of health.

It is required to examine convicts who are believed to be insane and to certify its findings to the governor.

Elections.

BOARD OF CANVASSERS.

Meets second Tuesday in September and the fourth Monday in December.

John H. Morehead, Governor.....Chairman
 Addison Walt, Secretary of State.
 W. B. Howard, Auditor.
 Walter A. George, Treasurer.
 Grant G. Martin, Attorney General.

HISTORY.

An act approved March 16, 1855, required the territorial secretary, with two other territorial officers, to canvass the vote on territorial officers. An act approved January 26, 1856, provided that the territorial auditor, in the presence of the governor and one territorial officer, should canvass the vote for delegate to congress and territorial officers. This law was amended on February 13, 1857, to provide that the governor, chief justice and United States attorney of the territory should canvass the vote on delegate to congress and territorial officers. An act approved February 15, 1864, provided that the territorial secretary, auditor and governor should canvass the vote on delegate to congress, territorial auditor and territorial treasurer.

An act approved February 15, 1864, provided that qualified electors of the territory in the actual military service of the United States or of this territory should be entitled to exercise the right of suffrage while absent from home.

The governor, secretary and auditor of the territory were to canvass this vote and perform such other duties relating to the canvass as may be required under existing provisions of law. The revised statutes of 1866 add the vote on territorial librarian to the list of those canvassed. An act of October 28, 1868, provided for canvassing the vote on presidential electors. An act approved February 15, 1869, required the president of the senate to canvass the vote for member of congress, governor, secretary of state, auditor and treasurer. This act was extended in 1873 to include votes on attorney general, superintendent of public instruction, justices of the supreme court and district attorney. An act approved February 17, 1877, provided that the vote on executive officers should be canvassed by the legislature in joint session, and the vote on other than executive officers should be canvassed by a canvassing board composed of the governor, auditor, treasurer, secretary of state and attorney general. The act of March 1, 1879, required that the vote on governor, lieutenant governor, members of congress, secretary of state, auditor, treasurer, superintendent of public instruction, attorney general, commissioner of public lands and buildings and district attorneys, and votes expressing choice for United States senator should be canvassed by the legislature, while votes cast for presidential electors, judges of the supreme and district courts and regents of the university should be canvassed by the canvassing board. This is the most recent statute.

VOTING MACHINE COMMISSION.

Called meetings.

John H. Morehead, GovernorChairman
Addison Wait, Secretary of State.
W. B. Howard, Auditor.

This commission was created by the legislature of 1905. It consists of the governor, secretary of state and auditor, who have power to appoint three deputies, two of whom must be master mechanics or graduates of a school of mechanical engineering. These deputies are appointed for terms of two years.

It is the duty of the deputies to examine voting machines and report upon their suitability for use at voting places in Nebraska. The expense of such examination is borne by the party wishing to sell a voting machine.

Public Health and Safety.

STATE BOARD OF HEALTH.

Bacteriologist—W. F. Wild, Lincoln.....	2,000
Clerk—Hazel Peters, Lincoln	720
Stenographer—Leta Miller, Lincoln	\$40

HISTORY.

The original state board of health law was enacted in 1891. In 1903 the law was amended and a state health inspector provided. The governor, attorney general and superintendent of public instruction compose this board. The active work of the board is directed by a board of four secretaries appointed by the governor, and a health inspector, who is subject to their instructions in the actual execution of the laws, and who devotes his entire time to the work.

DUTIES AND POWERS.

The board of health is required to—

1. Grant and revoke licenses for the practice of medicine and surgery, dentistry, nursing.
2. Supervise and control all matters relating to the protection of the people from contagious, infectious and epidemic diseases.
3. Serve as registrar of vital statistics.
4. License maternity homes.
5. Appoint board of examiners for embalmers.
6. Appoint board of dental secretaries.
7. Appoint board of examiners of nurses.
8. Operate a bacteriological laboratory.

Vice-President—S. E. Ewing, Creston	1919
Treasurer—Orel Jones, Oconto	1918
Secretary—J. Earle Harper, Spencer	1916

HISTORY.

This board was established in 1887. Its members are the attorney general, secretary of state, auditor, treasurer and commissioner of public lands and buildings. The board appoints a board of five examiners who conduct the business. The office is supported by fees for examinations.

DUTIES.

The board is required to—

1. Examine all applicants for pharmacists' licenses and register the holders of such licenses.
2. Enforce the laws governing the practice of pharmacy.

BOARD OF NURSE EXAMINERS.

	Term expires
President—Ellen Stewart, Omaha.....	1915
Secretary—Lillian B. Stuff, Omaha.....	1917
Treasurer—Gertrude Smith, Omaha	1916

The legislature of 1909 created this board. It consists of three persons appointed by the state board of health for terms of three years. The board examines and registers nurses. The fees of the office cover its expenses.

BOARD OF DENTAL SECRETARIES.

	Term expires
Dr. E. A. Thomas, Hastings	1914
Dr. C. S. Parker, Norfolk	1915
Dr. J. S. Pierce, Lincoln	1916
Dr. E. A. Meservey, Kearney.....	1917
Dr. J. H. Wallace, Omaha	1918

This board was created by the legislature of 1905. It consists of five dentists appointed by the state board of health for terms of five years. It is their duty to examine and certify dentists and annually to register all dentists. They are also required to send two of their number to be present at all final examinations given by dental colleges or departments within the state. The fees of the office must pay all its expenses.

BOARD OF EMBALMERS.

	Term expires
President—Geo. H. Brewer, South Omaha	1915
Secretary—W. M. Hill, Hebron	1914
Treasurer—A. H. Fellers, Humboldt	1916

The board was created in 1899. It consists of three persons appointed by the state board of health for terms of three years. The fees of the office support it.

This board examines and certifies embalmers.

BOARD OF OSTEOPATHY.

	Term expires
Dr. J. M. Kilgore, York	1915
Dr. J. T. Young, Fremont	1916
Dr. W. H. Cobble, Fremont	1917
Dr. C. B. Atzen, Secretary, Omaha	1918
Dr. E. M. Cramb, Lincoln	1919

The legislature of 1901 provided for the certification of osteopaths by the state board of health. The legislature of 1909 provided for a state board of osteopathy, consisting of the governor and five examiners appointed by the governor for terms of five years. The fees of the office maintain it.

The board examines and grants certificates to persons desiring to practice osteopathy.

BOARD OF OPTOMETRY.

	Term expires
President—D. L. Davies, Superior	1915
Secretary—J. H. Riffe, Hastings	1916
Vice-President—E. J. Niewohner, Columbus.....	1917

This board was created by the legislature of 1907. It consists of three examiners appointed by the governor for terms of three years. The fees of the office maintain it.

The board examines and grants certificates to persons desiring to practice optometry.

FOOD, DRUG, DAIRY AND OIL COMMISSION.

Commissioner—John H. Morehead, Governor.

	Salary
Deputy Commissioner—Clarence E. Harman, Holdrege.....	\$2,250
Chemist—E. L. Redfern, Lincoln	1,800
Secretary—Marion E. Hebmahn, Arapahoe.....	1,080
Stenographer—Tillie Eppens, Lincoln.....	840
Clerk—Grace A. Trott, Lincoln.....	840
Inspector—Fred Ayres, Holbrook	\$4 per day
Inspector—V. E. Stahl, Seward.....	
Inspector—J. W. Moore, Lincoln	
Inspector—Anton Tusa, Omaha	
Inspector—James Murphy, Lincoln	
Inspector—W. S. Austin, Central City	
Inspector—George S. Mayo, North Loup.....	
Inspector—W. W. Hecox, Kearney.....	
Inspector—P. J. Biglin, O'Neill	
Inspector—J. G. P. Hildebrand, Lincoln	
Inspector—E. C. Kemble, Lincoln	

HISTORY.

The legislature of 1899 created the food, drug and dairy commission. The governor was food commissioner, with power to appoint a deputy. This law was replaced by a more inclusive act in 1907.

The office of oil inspector was created by the legislature of 1887. The inspector and deputies were appointed by the governor. The legislature of 1909 repealed the existing law and designated the governor as oil inspector with power to appoint a deputy. This office is supported by fees collected. The legislature of 1913 consolidated the pure food and oil inspection business of the state in one office, of which the governor is commissioner, with power to appoint a deputy, a state chemist, food inspectors and other employees. The deputy is required to have knowledge of chemistry, drugs, food products, dairy products and oils.

DUTIES AND POWERS.

The food, drug, dairy and oil commissioner is required to—

1. Execute all the provisions of present and future laws relating to food, drug, dairy and oil products.
2. Upon recommendation of the deputy commissioner, employ and station inspectors.

The deputy food, drug, dairy and oil commissioner is required to—

1. Direct the inspectors.
2. Make an annual report to the governor.
3. Furnish county clerks a certified list of all foods, food products, liquors, beverages, medicines found by analysis to be adulterated, with the name and brand of the articles, the name of the manufacturer and the name of the injurious adulterant.
4. Certify facts concerning the violation of the food, drug, dairy and oil laws to the proper county attorney.
5. Act on report and complaints from owners or managers of creameries, cheese factories, farmers and others.
6. Inspect, or cause to be inspected, farm dairies, milk and cream receiving stations, factories where dairy products are made.
7. Issue permits to creameries and cheese factories.
8. Examine and test oils and gasoline and certify those entitled to it.
9. Decide disputes between the oil inspectors and other persons.

The state chemist is required to analyze all samples of foods, drugs, oils, dairy products, stock foods and linseed oil submitted to him by the deputy commissioner or his inspectors.

HISTORY.

The legislature of 1911 created this commission and designated the governor as hotel commissioner. The legislature of 1913 repealed the law of 1911 and enacted a complete law covering the subject. The governor is the hotel commissioner and is required to appoint a deputy to attend to the duties of the office. This office is supported from the registration fees collected.

DUTIES AND POWERS.

The hotel commissioner is required to—

1. Register and annually inspect all hotels, rooming houses, apartment houses and restaurants in the state and enforce the hotel laws and regulations.

Clerk—T. C. Palmer, Broken Bow.....	960
Clerk—Ethel Meier, Lincoln	720
Clerk—Jessie Austin, Lincoln	840
Clerk—Mrs. Morris Harris, Fremont	720

HISTORY.

The earliest stallion registration law was that approved March 12, 1909. It required the professor of animal husbandry of the University of Nebraska to approve and file the registration certificates. The legislature of 1911 repealed this law and created a stallion registration board composed of the secretary of the state board of agriculture, the professor of animal husbandry in the University of Nebraska and the deputy state veterinarian. The legislature of 1913 amended this law so that the governor, treasurer and commissioner of public lands and buildings constitute the board, and the deputy state veterinarian acts as its secretary. The fees of the office are applied towards its maintenance.

DUTIES AND POWERS.

Issues certificates to owners of stallions and keeps a record of such certificates.

State Veterinarian—John H. Morehead, Governor.

	Salary
Deputy Veterinarian—L. C. Kigin, Lincoln.....	\$2,400
Clerk—Grace Erwin, Lincoln	1,200
Field Veterinarian—C. M. Day, Omaha.....	2,500

HISTORY.

This office was created by an act approved March 5, 1885. This act provided for a live stock sanitary commission of three members, and a state veterinary surgeon, all appointed by the governor. The legislature of 1887 made slight amendments to this original act. The legislature of 1901 repealed existing legislation and made the governor the state veterinarian, with power to appoint a deputy for the actual work of the office. The legislature of 1913 repealed this law and created a live stock sanitary board of five members appointed by the governor, who still acts as state veterinarian, and appoints a deputy upon

nomination of the live stock sanitary board. This deputy is required to be a licensed veterinarian and graduate of some regularly organized school of veterinary medicine and surgery which is recognized by the bureau of animal industry, and he must have had three years of actual practice. The members of the live stock sanitary board are required to be, one a breeder of horses, one a breeder of cattle, one a breeder of swine, one a representative of the Union stock yards in South Omaha, and one a veterinarian with qualifications identical with those required of the deputy state veterinarian.

DUTIES AND POWERS.

The live stock sanitary board is required to—

1. "Protect the health of the live stock of Nebraska, to determine and employ the most efficient means for the prevention and eradication of contagious and infectious diseases of live stock, to exercise by authority of the state veterinarian the power of quarantine when necessary to regulate the arrival into and departure from the state or any point therein of animals infected or having been exposed to infection."
2. Make rules to carry the live stock sanitary laws into effect, and print and distribute such rules and the law.

The deputy state veterinarian is required to—

1. Secure accurate information regarding the existence of contagious, infectious and epizootic diseases of animals and make a scientific study of the same.
2. Report in plain terms at the quarterly meetings of the sanitary board the results of such study.
3. Enforce all orders and rules made by the sanitary board.

RELATION TO OTHER BOARDS AND BUREAUS.

Deputy veterinarian is secretary of the stallion registration board.

BOARD OF VETERINARY EXAMINERS.

Term expires

President—J. S. Anderson, Seward 1916
 Secretary—G. R. Young, Omaha 1917
 Treasurer—C. A. McKim, Norfolk 1915

HISTORY.

This board was created in 1905. It consists of the governor, secretary of

state and auditor, who appoint a board of examiners. The examination fees defray the expense of the office.

DUTIES AND POWERS.

Examines for licenses to practice veterinary medicine; grants and revokes certificates.

CONSERVATION AND PUBLIC WELFARE COMMISSION.

John H. Morehead, Governor.

Samuel Avery, Chancellor of University.

George E. Condra, Director Conservation and Soil Survey.

W. R. Mellor, Secretary Board of Agriculture.

A. E. Sheldon, Director Legislative Reference Bureau.

HISTORY.

This commission was created by the legislature of 1913. Its membership consists of the governor, chancellor of the University of Nebraska, director of the conservation and soil survey, secretary of the board of agriculture, and director of the legislative reference bureau.

DUTIES AND POWERS.

1. This commission is to serve as an advisory board for the various state surveys, and assemble data regarding the resources and industries of the state and the physical, economic and social conditions existing therein.

2. It must gather annually the statistical facts with regard to production in the state and the economic and social conditions existing therein.

3. It must study and cause to be studied these facts for the purpose of developing the resources of the state and improving the welfare of its inhabitants.

4. It must make and execute plans for the purpose of developing the resources of the state and improving the welfare of its inhabitants.

5. It must give publicity to these facts and plans.

APPROPRIATION, 1913-15.

Deputy Warden—William Kentopp, Verdon	600
Deputy Warden—Rasmus Anderson, Valentine.....	600

HISTORY.

An act approved February 24, 1879, created a board of fish commissioners "for the propagation and distribution of fish in the public waters of Nebraska." The legislature of 1901 passed the act now in force. It provides for a game and fish commission, of which the governor is the commissioner with two deputies, one of whom must reside in Lincoln and manage the office, while the other manages the fish hatcheries at South Bend and Valentine.

DUTIES AND POWERS.

The commission has charge of—

1. The protection, propagation and breeding of such fish, game, song, insectivorous and other birds as may be deemed valuable to the people of the state.

2. The collection and distribution of statistics and information concerning the propagation and protection of fish and game.
 3. The control of all state fish hatcheries.
 4. Enforcement of laws for the protection of fish and game.
- The deputy game and fish commissioner—
1. Issues hunters' licenses.
 2. Prosecutes offenders against the game laws.

Librarian—H. C. Lindsay, Clerk of Supreme Court, Pawnee City.....	\$1,500
Assistant Librarian—Mary K. Ray, Kearney	1,000
Assistant Librarian—Elizabeth Mallalieu, Kearney.....	900

HISTORY.

The library of this state had its origin in the earliest territorial days. The Kansas-Nebraska act of May 30, 1854, provided for the purchase of a territorial library to be kept at the seat of government for the use of the executive departments and the general officials of the territory under certain regulations. By legislative enactment approved November 4, 1858, it was a misdemeanor to take any books or records out of the library. In an act creating the office of territorial librarian, approved March 16, 1855, it was provided that "The said librarian, auditor, and treasurer shall be elected at the first general election to be held in the year 1855, and biennially thereafter, and shall hold their offices, respectively, until the 1st day of January, 1857, and until their successors are elected and qualified. Provided, That those officers when first appointed by the governor shall hold their offices until the 1st day of January, 1857."

The librarian, by an act approved January 26, 1856, had to give a bond in the sum of \$10,000 for the faithful performance of his duty. Among these numerous duties was the keeping of a file of each of the newspapers published in the territory. This was not done, and had it not been for a few private individuals who collected and preserved the territorial newspapers the present generation would have but meager knowledge of the political and social conditions of that period.

By an act approved January 13, 1860, the duties of the territorial librarian were further defined, and more drastic restrictions enacted concerning the taking of books from the library. At this time the salary of the librarian was fixed at \$400. By an act approved January 11, 1861, the office of territorial librarian was abolished and the duties and records of the office placed under the supervision and control of the territorial auditor.

This was later changed by an act approved February 13, 1865, which created anew the office of territorial librarian and declared that "the governor of this territory is hereby authorized and empowered to appoint some suitable person to discharge the duties of said office until the next general election, * * * and at said general election a territorial librarian shall be elected, and every two years thereafter." The revised statutes of 1866 contained a provision for an elective librarian.

By an act approved June 22, 1867, the office of state librarian was created, and the secretary of state was designated, ex officio, state librarian. The act of March 3, 1871, made two divisions of the state library, one to be under the charge of the secretary of state, the other to be in the charge of the clerk of the supreme court. The governor, secretary of state, and auditor constituted a board of directors for the miscellaneous division, under the supervision of the secretary of state, and the judges of the supreme court constituted a board of directors of the law division of the state library, under supervision of the clerk of the supreme court. The act of June 5, 1871, authorized the librarian of the law division of the state library to send reports and laws of this state to other states for the use of their respective libraries. The constitution of 1875 provided that "There shall be appointed by the supreme court a reporter, who shall also act as clerk of the supreme court, and librarian of the law and miscellaneous library of the state, whose term of office shall be four years, unless sooner removed by the court, whose salary shall be fixed by law, not to exceed \$1,500 per annum."

The number of volumes in the library November 30, 1912 was 65,871. The library is now chiefly a law library, means and space for development of the miscellaneous library being lacking.

PUBLIC LIBRARY COMMISSION.

F. L. Haller, President Omaha
 Samuel Avery, Chancellor of the University.
 H. C. Lindsay, State Librarian.
 James E. Delzell, State Superintendent.
 Malcolm G. Wyer, Librarian of the University.

	Salary
Secretary—Charlotte Templeton, Omaha	\$1,500
Librarian—Guesa Humphrey, Pawnee City	900
Librarian State Institutions—Florence E. Waugh, Lincoln.....	900

HISTORY.

The legislature of 1901 established this commission and designated as its members the state librarian, state superintendent, chancellor and librarian of the University of Nebraska, and one person to be appointed by the governor.

DUTIES AND POWERS.

This commission is required to "encourage the establishment of libraries where none exist and the improvement of those already established." It circulates traveling libraries and visits libraries and advises and assists library boards and librarians. In 1911 and again in 1913 the legislature appropriated money to be expended by the library commission in providing libraries for the penal and charitable institutions.

HISTORY.

This board was created by an act approved June 20, 1867. The treasurer, superintendent of public instruction and five persons appointed by the governor constitute the board. The legislature of 1909 passed an act creating a new board designated as the "Normal board of education." This law was declared by the supreme court to be unconstitutional in a decision rendered November 15, 1909.

DUTIES AND POWERS.

This board has the control of four state normal schools.

NORMAL SCHOOLS.

PERU.

President—D. W. Hayes.

The territorial legislature in 1860 granted a charter for the establishment of a school of college grade in the village of Peru, a little town that had been laid out in 1856. There was nothing done, however, towards the establishment of this school until in 1865 when Peru had gotten to be a village of thirty or forty families. It is said that Rev. Hiram Burch and Mr. William Dailey had the honor of leading the way to the planting of the state normal school at Peru. The first funds were solicited under the direction of Rev. Hiram Burch. The purpose was to erect a building forty by eighty feet and three stories high to give to the Conference of the M. E. Church for the purpose of a female seminary. In March, 1865, sufficient funds had been raised to warrant the letting of a contract for the erection of the building. Seventy-two acres of ground was donated to the trustees for a campus. The land was paid for by Dr. J. F. Neal, Rev. Hiram Burch, and Mrs. C. B. McKenzie. Twelve acres was afterward deeded to Mrs. C. B. McKenzie for her services as a teacher, thus leaving sixty acres of campus.

Not being willing to wait for the erection of the building, school was opened in a building that was formerly used as a saloon. Dr. J. M. McKenzie was president of the school. This was opened in September, 1866. The new building was completed ready for occupancy in January, 1867. The enrollment the first term numbered 58 students. In the fall of 1867 the school was offered to the M. E. Conference, but the offer was rejected. The school was therefore offered to the state of Nebraska, and the legislature of 1867 established on the 60-acre campus Nebraska's first state normal school. Dr. J. M. McKenzie was elected its first president.

The doors and floors of the new building were made of green cottonwood lumber, as were also the door latches and catches. The campus of sixty acres is still covered with a native forest of oak, hickory, elm, Linden and birch trees, and is a place of great natural beauty.

The present faculty includes forty-two full time instructors—nineteen men and twenty-three women.

KEARNEY.

President—George E. Dick.

The conviction that a normal school was needed in the western part of the state having become wide spread, the legislature of 1903 provided for such a school. Kearney was selected by the state board of education as the location of this school. In June of 1905 the school opened for a summer term with 120 students. By the end of the first year 863 students had matriculated. There have been 758 graduates. The enrollment for 1913-14 was 1,257. The faculty consists of thirty-four persons.

CHADRON.

President—Joseph Sparks.

The legislature of 1909 provided for the location of a normal school in the northwestern part of the state. The state board of education selected Chadron as this location and accepted a gift of 85 acres of land on which the brick building of Chadron academy stood. School was opened for the summer term in June, 1911. Fifty-four students have graduated. The enrollment for 1913-14 was 443. There are twenty persons in the faculty.

WAYNE.

President—U. S. Conn.

The legislature of 1909 also provided for the purchase of the Nebraska normal college at Wayne. This was a well established private normal, and went into operation as a state normal on September 19, 1910, with an attendance of nearly 200. The enrollment for 1913-14 was 714. The graduates of the first four years number 103. There are twenty-four members of the faculty.

UNIVERSITY OF NEBRASKA, LINCOLN.

BOARD OF REGENTS.

	Term expires
George Coupland, Elgin	1915
C. B. Anderson, Crete	1915
Charles S. Allen, Lincoln	1917
W. G. Whitmore, Valley	1917
Frank L. Haller, Omaha	1919
V. G. Lyford, Falls City	1919
J. Stuart Dales, Secretary.	
Samuel Avery, Chancellor.	

HISTORY.

The university was established by act of legislature, February 15, 1869. Its object was declared to be "to afford to the inhabitants of this state the means of acquiring a thorough knowledge of the various branches of literature, science and arts."

The congressional act of July 21, 1862, provided an endowment of land for the several states for the maintenance of at least one college in each, where branches related to agriculture and the mechanic arts should be the leading subjects of instruction. By the terms of this grant instruction must be given in military science. Nebraska's share of this land endowment amounted to 90,000 acres. The enabling act of April 19, 1864, set aside seventy-two sections of land for the support of a state university. By legislative act of February 15, 1869, the government of the university was vested in a board of regents of twelve members, nine of whom were to be elected by the legislature, three from each judicial district. These, with the governor, superintendent of public instruction and the chancellor, constituted the board. The constitution of 1875 included the university for the first time in the organic law of the state and provided for a board of six regents elected as other state officers are elected, for terms of six years.

The school was opened to students on September 7, 1871. There were eight regular and twelve irregular collegiate students and 110 preparatory students the first year.

The university act provided for a model farm on two sections of agricultural land or on saline lands. In his message in 1871, Governor Butler recommended the sale of some state land and the purchase of half a section of land near Lincoln. The lands set aside were sold, and on June 25, 1874, Moses M. Culver and his wife, in consideration of \$6,050 in cash and \$11,550 payable in four years, deeded to the regents the farm of 320 acres which is known as the university farm. This farm is about two and one-half miles from the main campus. The 90,000 acres in the original government grant were selected in Antelope, Cedar, Cuming, Dakota, Dixon, L'Eau qui Court (afterwards Knox), Pierce and Wayne counties. The proceeds of the sale of these lands and the lands still held constitute the permanent endowment funds, now amounting to \$753,432.15 (November 30, 1912). The other revenues of the university are derived from special annual funds from the United States, a one mill levy on the grand assessment roll of the state, and additional appropriations made by the legislature.

In addition to the various colleges of the university established on the main and farm campuses in Lincoln and the medical college in Omaha, the university maintains experimental substations at North Platte, Culbertson, Valentine and Scottsbluff, and agricultural high schools at the university farm and at Curtis. During the year 1912-13, 3,812 students registered at the university.

In addition to the usual and necessary activities of an institution for higher education, the university has been made, from time to time, the custodian of certain instrumentalities for the furthering of scientific and scholarly research and public welfare. These include farmers' institutes and farm demonstrators, geological survey, botanical agricultural work, hog cholera serum distribution, state entomologist, legislative reference bureau, the conservation and soil survey.

EXPERIMENT STATION.

(1) The agricultural experiment station fund was established by the United States government under authority of an act of congress known as the Hatch bill, approved March 2, 1887. This act was supplemented by what is known as the Adams bill, approved March 16, 1906. The funds appropriated are to be used for experimental agricultural work only. There is, however, this difference between the Hatch and the Adams funds: the Hatch fund may be, and is, used in case of sudden local emergencies, such as an outbreak of some new disease, to determine the nature of such disease and advise as to its treatment and quarantine. On the other hand the Adams fund is for research work only. It makes a study of disease with the hope of finding a cure. The Hatch bill provides for an annual payment of \$15,000 to the state; this appropriation began with the fiscal year of 1887. Five per cent of the annual appropriation may be used for the purchase or rental of land, and the construction of buildings. The Adams bill appropriated \$5,000 as an additional sum to that named in the Hatch bill, for the year ending June 30, 1906. This \$5,000 was to be added to at the rate of \$2,000 per annum until the sum of \$15,000 per annum was reached. The combination of the Hatch and Adams funds gives the state of Nebraska the annual sum of \$30,000 to be expended by the university in "conducting original researches or experiments bearing directly on the agricultural industry of the United States."

(2) The agricultural college endowment fund, known as the Morrill fund, was established by an act of congress approved August 30, 1890. The appropriation therein made to "be applied only to instruction in agriculture, the mechanic arts, the English language, and the various branches of mathematical, physical, natural and economic science, with special reference to their applications in the industries of life, and to the facilities for such instruction." This act was supplemented by a further act approved March 4, 1907, known as the Nelson bill. The Morrill bill provided an appropriation of \$15,000 for the first year, to which was to be added \$1,000 each year until the sum of \$25,000 was reached, which would then remain the fixed annual appropriation. The Nelson bill provided for an appropriation supplementary to this. For the first year \$5,000 was appropriated and an annual increase of \$5,000 until the sum of \$25,000 was reached, which would remain the fixed annual appropriation. A combination of the Morrill and Nelson funds gives the state of Nebraska the annual sum of \$50,000 to be expended by the university in giving instruction in agriculture and the mechanic arts. The four funds combined, namely, the Hatch, Adams, Morrill and Nelson funds, make available for experimental and instructional work in agriculture the annual sum of \$80,000.

STATE ENTOMOLOGIST.

Lawrence Bruner, Entomologist Nebraska Experiment Station.

The legislature of 1893 provided that the professor of entomology in the University of Nebraska should be acting state entomologist. The legislature of 1911 repealed this law and empowered the regents of the university to designate a member of the teaching staff as state entomologist. It is further provided that "such extraneous services shall not be permitted to interfere with the prime duty" of a university teacher. It is the duty of the state entomologist "to seek out and suppress pernicious insect pests and injurious and contagious plant diseases destructive to the horticultural and agricultural interests of the state, and conduct experiments when necessary to that end." An act of 1913 provides for nursery inspection by the state entomologist or his assistants. They are empowered to collect fees for such inspections. The legislature of 1907 provided for a bureau for the "investigation, control and extermination of insect pests and plant diseases," which should be in charge of the state entomologist and the state botanist.

STATE GEOLOGIST.

E. H. Barbour, Director of Nebraska Geological Survey.

The legislature of 1893 designated the professor of geology in the University of Nebraska as state geologist. The act of 1911 empowers the regents to

appoint a member of the teaching staff to be state geologist. The appropriations for the Nebraska geological survey are spent under the direction of the state geologist.

NEBRASKA CONSERVATION AND SOIL SURVEY.

George E. Condra, Director.

In 1908 Governor Sheldon, upon his own initiative, appointed a commission which was called the Nebraska conservation commission. The legislature of 1909 gave this commission a small appropriation, and the next legislature increased this appropriation, making it payable to the conservation and soil survey and requiring it to be expended by the director under control of the regents of the university. An act of 1913 legalized this survey and defined its work. Its scope includes a survey of the natural resources of the state, with special reference to soil, water, forests, a study and report upon water power and road building resources, a study of the leading industries, the investigation of special conservation problems, and information bureau service with reference to the state's resources, industries and development. The regents appoint a director.

STATE BOTANIST.

E. M. Wilcox, Botanist Nebraska Experiment Station.

An act of 1893 required that the professor of botany in the University of Nebraska should be acting state botanist. The act of 1907 provided that the botanist of the experiment station should be state botanist. This act also provides for a bureau for the investigation, control and extermination of insect pests and plant diseases, under the control of the state entomologist and the state botanist. The appropriations for botanical surveys are spent under the direction of the state botanist.

LEGISLATIVE REFERENCE BUREAU.

	Annual Salary
Addison E. Sheldon, Director.....	\$2,000
William E. Hannan, Assistant Director.....	1,400
Myrtle Keegan, Librarian-Stenographer.....	900

History.

The Nebraska legislative reference bureau dates its official beginning May 10, 1906. On that day the executive board of the state historical society authorized the organization of this new department of its work. The real author of the idea in its application to this state was Dr. E. A. Ross, then professor of sociology in the University of Nebraska, now at the University of Wisconsin.

The work of organizing the new department was assigned by the historical society board to Addison E. Sheldon, director of field work of the historical society, and was to be carried on in connection with his other duties. Only \$350 was available for the beginning of the work and with this sum the head of the department, after spending six weeks in study of the methods in use at Madison, Wisconsin, assembled a small library of material to meet special legislative needs and with one stenographer as assistant met the legislature when it convened.

The session of 1907 was one of the most important and remarkable in the annals of Nebraska legislatures. At least a dozen public questions of first rate importance were fought to a conclusion that winter and many more of minor rank. The demands upon the small force of the reference library for information upon all sides of these questions were incessant and imperative. As an expression of its interest in the new line of work, the legislature added \$5,000 to the appropriation of the state historical society. It also appropriated \$25,000 as related elsewhere, for beginning a building as a permanent home for the historical society and the legislative reference department. During this session Mr. W. E. Hannan, then a graduate student of the university, began his efficient service as assistant which has continued through subsequent years.

The two years between the legislative session of 1907 and that of 1909 were spent by the director of the reference library in research and publication in the

field of Nebraska history, in gathering material for the next legislative session and in a year's study at Columbia university, New York, leaving Mr. Hannan in charge of the department.

The legislative session of 1909 presented new problems and opportunities to its members and the reference bureau. In this session the university class in practical legislation conducted by the head of the reference department became an important factor in meeting the demand for organized and verified information. It has continued to be at every subsequent session. The calculation made at the close of the 1909 session was that this body of students had furnished free to the state service, which, if paid for at the rate the legislature has paid for similar help, would have cost at least \$6,000. Without this aid the reference library would have been swamped beyond possibility of performing the work required of it. The statistics of the work during the sessions of 1907 and 1909 include the following:

1907—

Number of legislative members calling for information.....	106
Number of bills drafted	150
Number of resolutions	56
Number of legal and statistical briefs prepared.....	30
Number of calls for information responded to.....	612

1909—

Number of legislative members making use of the department.....	108
Number of other state departments.....	12
Number of bills drafted.....	273
Number which became laws.....	72
Number of amendments to bills drawn.....	180
Number of legal and statistical briefs made.....	65
Number of calls for information responded to.....(over)	1,100

After the adjournment of the legislature of 1909 an organized effort was made to destroy the legislative reference department by wrecking its organization and diverting the funds the legislature had designed for its use. In this sketch there is not space for the details of this unsuccessful effort which crippled both the historical and legislative work of its staff during the next two years. It was happily thwarted and the attempt ultimately laid the foundation for the establishment of the new reference bureau, with its allied scientific and historical functions upon a better basis, with more freedom and financial support and with the cordial co-operation of fellow workers in the university and state.

One of the first acts of the legislature of 1911 was the passage of a resolution providing a committee to investigate and report on the "present and future needs of the legislative reference department." This committee reported a resolution, which was adopted, providing for the expenses of the department from the legislative incidental fund during the session and asked leave to introduce later a committee measure making provisions for its future needs. Later in the session House Roll No. 418, establishing the Nebraska legislative reference bureau, prescribing its duties, and providing for its government was introduced by the house library committee and became a law April 7, 1911. While all members of all parties in the legislature united in this work of placing the reference bureau on a secure foundation, especial credit is due to Representatives S. C. Bassett of Buffalo county and I. H. Hatfield of Lancaster county in the house and Senators W. H. Reynolds of Dawes and J. A. Ollis of Valley in the senate. Their disinterested efforts at this time made them the real founders of the present legislative and municipal reference library. During the year 1911, also, was completed an important historical reference work, which had been under way for several years, viz.: A Descriptive Catalogue of the Archives of Nebraska. This work was carried on by the reference library in co-operation with the American historical association, which gave \$150 of its funds toward it and subsequently published it in the eleventh report of the Public archives commission.

The year 1912 was marked by the beginning of what has now become an

important part of the reference bureau's work, the preparation of special reports upon some phase of modern legislation undertaken in co-operation with special committees. The legislature of 1911 provided for an inquiry into workmen's compensation laws and a report thereon to the next legislature by a special committee of seven with the director of the reference bureau as secretary. In May, 1912, Miss Myrtle Keegan became librarian-stenographer for the bureau and has remained since.

The legislature of 1913 was the most strenuous session experienced by the reference bureau. With the aid of several additions to its force, the co-operation of a university class numbering over sixty members and by working practically every day and night during the winter the calls upon its service were met. Statistics of legislative session reference work 1913 are as follows:

Number of members making use of reference department.....	125
Number of bills drafted.....	634
Number of motions, resolutions and amendments drafted.....	89
Number of legal and statistical briefs.....	84
Number of separate calls for information.....	1,600
Calculated free service to state rendered by university class in practical legislation	\$9,000

Three new features of the reference bureau work became established parts of its regular program at this session:

- (1) The Nebraska Blue Book and Historical Register, designed to be a general reference book on all Nebraska subjects.
- (2) Publication of research studies in Nebraska subjects, carried on in co-operation with the university departments and the Nebraska Academy of Sciences.
- (3) Investigation and report on special phases of legislation and public questions in co-operation with special standing committees and commissions.

During this session Miss Jennie M. Hitchcock, Mr. Earl H. Davis and Miss Edna D. Bullock became temporary members of the reference bureau staff and have since assisted in the creation of the Blue Book. Miss Bullock, as an expert librarian and indexer, made the index for the house journals of 1911 and 1913, and senate journal of 1913—the beginning of thorough indexing on these Nebraska publications.

To render efficient service to the state at large as well as the legislature it is now clear that important and difficult public questions require special investigation and compilation of results. This must be carried on between sessions of the legislature, since there is no time for this thorough work in the hurry and rush of the session. It is also clear that the material prepared by the reference bureau for the use of the legislature, often at expense of months of special research, ought to be made available for the great body of intelligent citizens by publication. To attain these purposes the legislature of 1913 provided that the reference bureau should work in co-operation with the following special committees in preparing reports for presentation to the next legislature:

Joint committee on reform in legislative procedure and budget.
 Temporary state tax commission.
 School code commission.
 Legislative water power committee.

The last legislature also provided for the publishing of the Blue Book, bulletins of the reference bureau and the publications of the Nebraska Academy of Sciences, which offices with the reference bureau. Under these provisions the following books and pamphlets have been edited and published from the reference bureau library during the past two years:

Nebraska Blue Book and Historical Register for 1915.
 Legislative Procedure in the Forty-Eight States.
 Reform of Legislative Procedure and Budget in Nebraska.
 Nebraska Municipalities.

The Legislative Reference Bureau as a Factor in State Development.
 History of Bank Guaranty in Nebraska.
 The Direct Primary in Nebraska.
 Nebraska Aborigines in the Eighteenth Century.

Under its present charter (the act of April 7, 1911) the Nebraska legislative and municipal reference bureau is placed under the government of the state university regents, provided with a permanent home on the university campus and a temporary home in the state house during the legislative session. It is by statute affiliated with the department of political science and sociology and the college of law at the state university. It is authorized "to carry on research in subjects of special public interest, to publish the same and in every way to promote the diffusion of accurate and reliable information upon questions connected with the development of civic life in Nebraska." It has a regular staff of three members with provision for additional help as the work requires.

Throughout the year the reference bureau acts as a general information bureau for all citizens of the state. It answers hundreds of letters of inquiry each year from the general public. It sends packages of documents and specially prepared briefs annually to between fifty and one hundred high schools, colleges and women's clubs for use in debates and the preparation of addresses. In co-operation with the Academy of Sciences and university departments it institutes and furnishes the means for carrying on scores of important research studies in all the fields of Nebraska interest. The work of municipal reference, compiling special information relating to cities and towns and furnishing the same to the state municipalities, which in a number of states has a special department and library, is by the act of 1911 united with the legislative reference work in Nebraska.

The reference bureau library and collections now occupy the rooms formerly used by the college of law library on the third floor of University Hall, with floor space 43x60 feet. They include at present the following:

Library Material.

Bound volumes	1,250
Pamphlets	5,000
Mounted clippings	10,000
Unmounted clippings	5,000
Manuscripts	200
Total	21,450

Photographic and Phonographic Material and Lantern Slides.

(Used in Nebraska History classes and lectures.)

The Clements collection of legislative negatives and photographs, including members of Nebraska legislatures, governors and prominent citizens, historic scenes in early eastern Nebraska, etc., covering the period of 1868-1914.....	2,000
The Butcher collection of early western Nebraska historic scenes, sod houses, Indians, industries, etc.....	4,000
(Said to contain the finest collection of frontier sod house pictures in the world.)	
The Sheldon collection of historic and scientific Nebraska negatives, results of 20 years' work.....	1,500
Nebraska history lantern slides.....	300
Nebraska Indian music and folk lore phonographic records.....	100
Total	7,900

The reference library and collections and the Academy of Sciences library (which is cared for in the reference library rooms) are in constant use by students of many departments of the university, especially by graduate students

engaged in various lines of research work. Books and pamphlets from this library also are sent out over the state in response to requests.

Courses in Nebraska history and institutions are given in the university by the director of the reference bureau. The Nebraska history seminar, a university class of advanced students which carries on special investigations in subjects of Nebraska history and political science, has its headquarters in the rooms of the reference bureau. An intimate and exact knowledge of Nebraska history is a first requisite to the efficient work of the reference bureau in furnishing information upon present Nebraska problems, and the results of special university research in this field are published from time to time under the editorship of the reference bureau.

HOG CHOLERA AND OTHER ANIMAL DISEASES.

The legislature of 1907 made an appropriation of \$1,500 for an investigation of malarial or swamp fever in horses, and \$1,000 for an investigation of tuberculosis in hogs. This work was under the direction of the Nebraska experiment station. The legislature of 1909 made an appropriation for the investigation of hog cholera to be expended by the regents of the university. In 1911 the legislature established a plant for the production and distribution of hog cholera serum under direction of the regents. Succeeding legislatures have continued this work.

FARMERS' INSTITUTES AND AGRICULTURAL EXTENSION.

The first appropriation for farmers' institute work by the university was made in 1897. Succeeding legislatures have increased the appropriations for this purpose, and the work has widened in scope and become an organized department of university activity.

GROWTH OF THE UNIVERSITY OF NEBRASKA AS ILLUSTRATED BY THE DEVELOPMENT OF COLLEGES, SCHOOLS, DEPARTMENTS AND COURSES, AND REGISTRATION OF STUDENTS.

COLLEGES—

Literature, science and arts, 1872 to date.

Since 1909 called College of arts and sciences.

Agriculture, 1872-1876, 1909 to date.

Included in the industrial college, 1876-1909.

Industrial college, 1877-1909.

Reorganization of colleges in 1909 subdivided this group into colleges of agriculture and engineering.

Medicine, 1883-1888, 1902 to date.

No courses in medicine were given between 1888-1902.

Law, 1892 to date.

Teachers' college, 1908 to date.

Graduate college, 1909 to date.

Engineering college, 1909 to date.

All engineering courses grouped in this college in 1909.

SCHOOLS—

Latin school (two-year preparatory course), 1872-1901.

This school was discontinued in 1895, but registrations were made in a preparatory school under University auspices until 1901.

Graduate school, 1896-1909.

Graduate college established in 1909.

Sugar school, 1896-1900.

Mechanic arts, School of, 1896-1909.

Agriculture, School of, 1895 to date.

Domestic science, School of, 1898-1906.

Since 1906 these courses were included in the industrial and agricultural colleges.

Fine arts, School of, 1898 to date.

SCHOOLS (Concluded)—

Music, Affiliated school of, 1898-1911.

Connection with the University terminated in 1911.

Pharmacy, School of, 1908 to date.

Teachers' college high school, 1911 to date.

Commerce, School of, 1913 to date.

Nebraska school of agriculture, Curtis, 1914 to date.

Education, Graduate school of, 1914 to date.

COURSES—

Classical, 1872-1909.

Scientific, 1872-1908.

After 1896 called General scientific.

Agricultural, 1873 to date.

In 1898 divided into general and technical courses.

Latin scientific, 1873-1880.

Greek scientific, 1873-1878.

Literary, 1877-1909.

Civil engineering, 1877-1898.

Given in engineering group after 1898.

Medicine, 1884-1888, 1902 to date.

Law, 1892 to date.

English, 1896-1898.

Philosophical, 1896-1898.

Biological, 1896-1898.

Chemico-physical, 1896-1898.

Electrical and steam engineering, 1896-1898.

Given in engineering college after 1898.

Mathematical-physical, 1896-1898.

Special professional courses, 1896-1899.

Preparatory to teachers, law, journalism, medicine.

Sugar, 1896-1900.

Mechanic arts, 1896-1909.

Graduate, 1896-1909.

Language, 1896-1897.

Practical science, 1897-1898.

Municipal engineering, 1897-1898.

Agriculture (School), 1898 to date.

Special classical, 1898-1899.

Engineering, 1898 to date.

All engineering courses grouped here in 1898.

Teachers, 1898 to date.

Domestic science, 1898 to date.

After 1909 called Home economics.

Fine arts, 1898 to date.

Pre-medical, 1899-1905.

Forestry, 1903 to date.

Pharmacy, 1908 to date.

Liberal arts, 1909 to date.

The original classical, scientific and literary courses grouped here in 1909.

Home economics, 1909 to date.

Commerce, 1914 to date.

¹ Includes those registered in the college of agriculture.

² Includes those registered in the industrial college.

³ Includes those registered in the schools of agriculture, domestic science and mechanic arts.

⁴ Includes those registered in the school of agriculture.

⁵ Farmers' short course.

⁶ Includes those registered in the affiliated school of music.

⁷ Includes those registered in the school of pharmacy.

⁸ Teachers college reorganized to include only the junior and senior years, the freshman and sophomore years being in another college granting the bachelor's degree.

⁹ The Latin school was discontinued as a part of the university in 1895, but registration in a private preparatory school under university auspices was continued until 1901.

¹⁰ Catalogs published in October for the calendar year and not for the academic year.

¹¹ In absentia ¹² Special ¹³ School of domestic science.

* North Platte experiment station was established by the legislature of 1903 and has 1,920 acres of land and sixteen buildings.

† Scottsbluff experiment station was established by the legislature of 1909 and has 160 acres of land, the title to which is held by the federal government. The station has but two buildings.

‡ Valentine experiment station was established by the legislature of 1909 and owns 40 acres donated by the city of Valentine. It also has 1,050 acres of the military reservation under perpetual easement from federal government as long as the station uses it for experimental purposes. The station has but two buildings.

§ Culbertson experiment station was established by the legislature of 1891. No appropriations were made to carry on its functions until 1911.

ACADEMY OF SCIENCES.

Chas. E. Bessey.....	President
Addison E. Sheldon.....	Secretary
W. G. Bishop.....	Treasurer
A. A. Tyler.....	First Vice-President
E. F. Schramm.....	Vice-President Earth Sciences Section
G. D. Swezey.....	Vice-President Physical Sciences and Mathematics Section
H. B. Latimer.....	Vice-President Biological Sciences and Medical Section
R. F. Gilder.....	Vice-President Ethnology and Folk Lore Section
J. D. Hoffman.....	Vice-President Engineering Section

The Nebraska Academy of Sciences was organized January 1, 1891, at Lincoln with the following charter members:

J. T. Armstrong.	Henry Duncanson.	T. H. Marsland.
Charles E. Bessey.	E. T. Hartley.	Roscoe Pound.
Miss Rosa Bouton.	J. S. Kingsley.	Wells H. Skinner.
Lawrence Bruner.	Rachel Lloyd.	Andrew B. Stephens.
Horace S. Clason.	A. S. Von Mansfelde.	Goodwin D. Swezey.
J. S. Dales.		

The purposes of the organization were to promote investigation and fellowship, secure friendly criticism and exchange of thought, and aid in the spread of knowledge and interest in the various fields of scientific study. The society has held annual meetings in Lincoln with the exception of the year 1901, when a change was made from December to January, and in 1910, when an epidemic of smallpox prevented. It will celebrate its quarter centennial at its annual meeting next May.

Important papers and very valuable discussions upon scientific discoveries have been presented at each annual meeting of the academy. Publication of these papers and discussions has been attended with great difficulty. In 1897 an arrangement was made for publishing its proceedings and papers that year as part of a volume by the state historical society. During most of the time publication has been secured by use of the small fund received from annual dues of \$1 each from the members and by personal donation. The legislature of 1913 included the printing of the academy's bulletins in the appropriation for the legislative reference bureau.

The present active membership of the society is between one and two hundred and includes most of the persons actively engaged in scientific research within the state. Original investigation in the Nebraska fields has been very largely conducted by members of this academy. Scientific surveys of the state designed to collect, organize and publish all available material in each field for the use of the general public are now being carried on in the following subjects:

Botanical survey, under Charles E. Bessey, E. M. Wilcox, and R. J. Pool.

Biological survey in various subdivisions, under F. D. Barker, R. H. Wolcott, Lawrence Bruner, J. H. Powers, and Myron H. Swenk.

Ethnological survey, under Addison E. Sheldon, R. F. Gilder, and Melvin R. Gilmore.

Conservation and soil survey, under George E. Condra and N. A. Bengtson.

Geological survey, under E. H. Barbour and E. F. Schramm.

In 1911 the society's work was reorganized and divided into five sections, each one of which is presided over by a vice-president and holds a sectional meeting at the time of the annual meeting, viz.:

Biology and medicine

Earth sciences

Engineering sciences

Ethnology and folk lore

Physical and mathematical sciences

Scientific field excursions at the time of the annual meeting, with a study of principal features of Nebraska natural resources, have been a prominent feature of the academy's work. The library of the academy, secured chiefly by exchange with other scientific societies, is kept in the rooms of the legislative reference bureau.

Temporary Boards and Commissions.

CODE COMMISSION AND REVISION AND PURCHASE OF STATUTES.

HISTORY.

An act approved February 13, 1865, provided for the revision of the territorial laws. Governor Saunders appointed Experience Estabrook as commissioner on revision. With some amendments, his revision was adopted and is known as the Revised statutes of 1866.

In 1872 the legislature appointed Guy A. Brown to compile and revise the general laws. This compilation is known as the General statutes of 1873.

In 1877 a commission to revise the laws was created. The governor appointed John H. Ames, A. H. Connor and S. H. Calhoun as members of this commission. They reported their work chapter by chapter to the legislature of 1879 for adoption. After struggling with the subject through several chapters, the legislature dropped the matter, and the revision was never adopted.

The state having failed to provide a revision, a compilation was edited by Woolsey and Wheaton in 1881, and printed by the State Journal Company under the title, Annotated statutes of Nebraska.

The legislature of 1881 authorized Guy A. Brown to prepare a compilation of the laws. This publication, in time, became known as the Compiled statutes. After Mr. Brown's death, the publication was continued as a private venture by H. H. Wheeler. From 1881 to 1913 large sums were spent by the state in the purchase of copies of private compilations.

In 1891 and 1893, J. E. Cobbey, under legislative authority, published the Consolidated statutes. In 1903 Mr. Cobbey was authorized to publish the Annotated statutes, and the next legislature made provision for the publication after every legislature.

An act approved March 30, 1901, provided that the supreme court should appoint five judges of the district court as a board of revision for the statutes. No additional compensation was allowed the members of this board or their stenographers for the work involved, and the legislative journals of the next legislature are silent concerning the report which this act required the board to make.

The legislature of 1911 created a code commission of three persons to be appointed by the governor upon advising with the supreme court. This commission, consisting of A. M. Post, E. L. King, and J. H. Broady, was continued by the legislature of 1913 for a period of eight months. An edition of 5,000 copies of the Revised statutes was provided for. Certain state officers and libraries are to receive copies, and the remaining copies are to be sold at five dollars each.

APPROPRIATIONS, 1875-1915.

Years	For Revision	For Purchase	Total
1875-76	\$22,519.13		\$22,509.13
1877-79	10,000.00		10,000.00

1913-15	30,000.00		30,000.00
Totals	\$87,569.13	\$61,700.00	\$149,269.13

SCHOOL LAW REVISION COMMISSION.

State Superintendent James E. Delzell.....	Chairman
William Ritchie, Jr., First district.....	Lincoln
N. M. Graham, Second district.....	South Omaha
Charles Arnot, Third district.....	Schuyler
Earl M. Cline, Fourth district.....	Geneva
Edith M. Lathrop, Fifth district.....	Clay Center
P. M. Whitehead, Sixth district.....	Gothenburg

A house resolution adopted January 27, 1913, created this commission. The governor was required to appoint one member from each congressional district to act with the state superintendent. The commission is required to study actual school conditions in Nebraska; the means of securing more unity, economy and efficiency in the plan and expenditures of the schools of the state; the systems of other states and countries, and to report a proposed code with recommendations. The commission served without pay or any other expense to the state and was empowered to call on the legislative reference bureau for secretarial or other assistance.

REVENUE AND TAXATION COMMISSION.

Chairman—J. H. Grosvenor	Aurora
Vice-Chairman—C. W. Sears	Omaha
Secretary—Earl B. Gaddis	Lincoln
C. W. Schappel	Pawnee City
George O. Virtue	Lincoln

This commission was created by the legislature of 1913. It consists of five residents of Nebraska appointed by the governor. They were paid \$10 a day for actual time employed up to a maximum of sixty days.

The commission is required to make a careful study of revenue and taxation in Nebraska and to investigate the systems of raising revenue and administering the same in other states and countries. It must prepare a concise report, 10,000 copies of which shall be printed for general distribution in the state. In case of the adoption of an amendment to the constitution relative to taxation which was submitted by the legislature of 1913, this commission is required to prepare a bill for introduction in the legislation session of 1915. An appropriation of \$5,000 was made for this commission.

JOINT COMMITTEE ON REFORM IN LEGISLATIVE PROCEDURE.

For the House—J. N. Norton, of Polk county, Chairman; O. A. Corbin, of Johnson county; H. C. Palmer, of Clay county.
For the Senate—Walter Klechel, of Nemaha county; J. M. Talcott, of Knox county; B. K. Bushee, of Kimball county.
Addison E. Sheldon, Secretary.

A joint resolution of the legislature of 1913 provided for a joint committee on reform in legislative procedure. This committee consists of three members from each house. It is required to make a careful study of legislative methods, and formulate a report and recommendations. The legislative reference bureau is required to aid in the work of this committee. An appropriation of \$500 was made.

PUBLICATIONS.

Report (Bulletin No. 4, Legislative reference bureau).

COMMISSION ON FORESTATION OF SAND HILL SCHOOL LANDS.

Carl RhodeColumbus
 A. H. MetzgerRolf
 Woodruff BallValentine

This is a temporary commission of inquiry created by the legislature of 1913. It consists of three persons appointed by the governor. It is required to investigate the situation and submit a full report to the legislature of 1914. Its members serve without salary and have no appropriation for expenses.

WATER POWER COMMISSION.

John H. Morehead, Governor.
 J. J. McAllister, ChairmanDakota City
 G. E. CondraLincoln
 C. H. GustafsonMead
 H. C. PalmerClay Center
 George JacksonNelson

This is a temporary commission provided for by a resolution of the house of representatives passed on April 16, 1913. The governor is a member, and has appointed five other members. The commission is required to investigate water power laws of other states and countries, and, in cooperation with a competent hydraulic engineer, to make a survey and investigation of the water power resources of Nebraska and report the result of such investigation, together with their recommendations, to the next legislature. The members serve without pay, and the necessary expenses are to be paid out of the incidental fund of the legislature of 1913.

GETTYSBURG REUNION COMMISSION.

L. D. Richards, ChairmanFremont
 F. J. HaleNorfolk
 J. H. CulverMilford
 A. M. Trimble, SecretaryLincoln

This commission of three persons was appointed by the governor to supervise the expenditure of \$4,000 which was appropriated by the legislature of 1913 to pay the expenses of attendance upon the fiftieth anniversary of the battle of Gettysburg by veterans who participated in that battle and who are residents of Nebraska.

INSPECTOR OF CONSTRUCTION AND REPAIR OF PUBLIC BUILDINGS.

The legislature of 1911 designated the governor as inspector of construction and repair of all public buildings erected by the state of Nebraska. A deputy was appointed to do the work. With the inauguration of the work of the board of commissioners of state institutions, this office ceased to exist.

APPROPRIATIONS, 1911-1915.

Years	Salary	Expenses	Deficiency	Total
1911-13	\$4,000.00	\$1,000.00	\$1,046.24	\$6,046.24
1913-15	1,200.00*			1,200.00
Totals	\$5,200.00	\$1,000.00	\$1,046.24	\$7,246.24

* Includes salary and expenses from April 1, 1913, to July 1, 1913.

STATE HORTICULTURAL SOCIETY.

President—C. H. BarnardTable Rock
 Secretary—J. R. Duncan, Lincoln \$1,000

The Nebraska state horticultural society was organized on the state fair grounds at Nebraska City, September 23, 1869. Appropriation was made by the legislature of 1872 and each subsequent legislature to aid this society in its work.

The society was recognized by a statute approved February 25, 1879. Slight amendments have been made. The officers are elected at the annual meeting, which is held for the purpose of deliberating and consulting as to the wants and conditions and prospects of the horticultural interests of the state.

It is the duty of the society to encourage the organization of district and county societies and give them representation therein, and to further the fruit and tree growing interests of the state.

The secretary is required to make an annual report to the governor. This report contains the proceedings of the annual meeting.

PUBLICATIONS.

1903-05	2,000.00		
1905-07	2,000.00		

CORN IMPROVERS' ASSOCIATION.

President—R. Hogue Crete
 Secretary—T. A. Kiesselbach Lincoln

The legislature of 1909 legalized this society, which was organized in 1903, as a state institution and made an appropriation for its support. It is required to hold an annual convention and corn show, to gather statistics, and to publish and distribute an annual report of its proceedings.

APPROPRIATIONS, 1911-1915.

Years	Amount
1911-13	\$2,000.00
1913-15	2,000.00
Total	\$4,000.00

IMPROVED LIVE STOCK BREEDERS' ASSOCIATION.

President—J. O. Ollis Ord
 Secretary—H. J. Gramlich Lincoln

This association was founded in 1891. Beginning with 1909, the legislature has appropriated funds for its support. It was incorporated in 1911, but is not a legalized state institution.

APPROPRIATIONS, 1911-1915.

Years	Amount
1911-13	\$2,000.00
1913-15	2,000.00
Total	\$4,000.00

STATE HISTORICAL SOCIETY.

Established as a State Institution February 27, 1883.

	Annual Salary
Clarence S. Paine, Secretary.....	\$1,500
Albert Watkins, Historian.....	1,500
Minnie P. Knotts, Librarian.....	1,000
M. R. Gilmore, Curator.....	1,200
Nelle Phillips, Stenographer.....	720
Mary Hergenrader, Janitor.....	250

On July 29, 1867, David Butler, Thomas P. Kennard and John Jay Gillespie located Lincoln, the future capital of Nebraska, upon the tract of land lying between Salt and Antelope creeks in Lancaster county, more definitely described as "the S. E. $\frac{1}{4}$ of section 23, W. $\frac{1}{2}$ of the N. W. $\frac{1}{4}$ and the W. $\frac{1}{2}$ of the S. W. $\frac{1}{4}$ of sections 25 and 26 of township No. 10 north of range 6 east of the 6th principal meridian."

Upon the 26th day of August, 1867, a plat of the proposed city of Lincoln was filed certified by the same commissioners and by A. D. Smith and August W. Harvey, surveyors. Upon this plat, block 29, lying between Q and R, Ninth and Tenth streets, at the southwest corner of the present university campus, was designated "State Historical and Library Association Block." On the 26th day of August, 1867, articles of incorporation of the State Historical and Library Association were filed in the office of the county clerk of Lancaster county.

On the 15th of February, 1869, the state legislature by joint resolution approved the report of the three commissioners locating Lincoln and therewith the plat filed by them carrying this legend: "The following blocks are reserved for public purposes: * * * Block 29 for State Historical Library Association incorporated August 26, 1867."

This account exhibits the beginnings of the State Historical Society idea and the conception of a site for a future historical building adjacent to the state university. Nothing further is of record in the years which immediately followed. The struggle for existence absorbed all the energies of the pioneers who were subduing the raw prairie soil and constantly under fire from drouth, grasshoppers, hard times and Indians. The very existence of Lincoln as the state capital was itself in jeopardy for the next eight years. "Historical Block," as it was called in these early years, was the camping ground of immigrants on their way to future homesteads and the writer of this sketch has himself, when a boy, slept under a wagon on that block many times with a yoke of oxen feeding on the other side of the wagon.

On February 24, 1875, the state legislature passed an act donating block 29 to the city of Lincoln for market purposes only. The occasion for this act was the fact that Lincoln had just donated "Market Square," as it was then known, to the United States as a site for a post-office building and the farmers who had used that block as a market for loads of hay, wood, potatoes and other farm produce were about to be forced off by the excavation and construction of the post-office. The Lancaster county delegation in the legislature urged that nothing had ever been done by the State Historical Library Association and that the people of Lincoln desired to accommodate the frontier farmers with a definite place for marketing their produce. Thus, at once, the State Historical Library Association and the block dedicated to its use seemed to disappear forever.

The next chapter in the story of the historical society opens with a letter, dated Brownville, Nebr., August 1, 1878, and signed by Robert W. Furnas. This letter was addressed to a number of prominent citizens and asked the use of their names in calling a meeting at Lincoln during the state fair to organize a state historical society. Favorable responses were received and soon after a call for such a meeting to be held at the Commercial hotel in Lincoln on the evening of September 25, 1878, signed by twenty well known citizens, was published generally in the newspapers of that time.

At this first meeting committees were appointed and an address delivered by Dr. George L. Miller. On the following day a constitution was adopted and permanent officers chosen, Robert W. Furnas, president, and Prof. Samuel Aughey of the state university as secretary.

The record of the annual business meetings held in subsequent years is briefly summarized under the respective dates of these meetings to show the main points in the development of the society's work, the method of electing officers, its relation to the university and its building plans:

- 1879, Jan. 23—Met at Library hall, University building. Old officers re-elected. Secretary Aughey reported the beginnings of historical collections; also that room could be had in University building free of cost for property of the society. This tender from the university was accepted with thanks.
- 1880, Jan. 20.—Met in university chapel. The question of Historical Block was brought up and a committee consisting of C. O. Whedon, J. M. Woolworth and J. R. Webster was appointed to report on legal aspects of the case and to obtain unity of action on the part of the old and dormant "Nebraska Historical and Library Association" and the present organization. The secretary reported a good deal of feeling in the state on account of the legislature taking away Historical Block from the society and giving it to the city of Lincoln.
- 1881, Jan. 11—Met at university chapel. The old officers were re-elected. The committee on Historical Block unanimously reported that in their judgment the grant to the city of Lincoln was void and recommended a legal action to restore the block to the society. It was also reported that the old "Nebraska Historical and Library Association" had revived and was ready to work in harmony with the present organization. A committee was appointed to draft a bill for enactment by the legislature recognizing the historical society as a state institution and providing money to print its reports as public documents.
- 1882—No annual meeting held, owing to absence of officers.
- 1883, Jan. 17—Met at Commercial hotel parlors. Old officers re-elected. A committee was appointed to again ask the legislature for recognition as a state institution, for a small appropriation to collect historical data and to obtain, if possible, a room in the capitol building for library and other accumulating matter. The legislature of 1883 passed the act making the Nebraska State Historical Society a state institution and appropriating \$1,000 for publication of its reports. The suit to secure restoration of Historical Block to the society finally decided in supreme court adversely, chiefly on the ground that the old "Nebraska Historical and Library Association" did not perfect title to the land. (14 Nebr. 336.)
- 1884—No printed record of meeting.
- 1885, Jan. 13, 14—Dr. George E. Howard was appointed temporary secretary. The president stated that the organization of a society had fallen into some confusion and that it would be necessary to determine by payment of dues who were active members. The old officers were re-elected, R. W. Furnas, president, and Dr. George E. Howard, secretary. By consent of the society all books and documents of the organization were to be placed in the hands of the secretary, provided a suitable room in the university building could be secured for their safe keeping. State appropriations increased to \$2,500 for biennium.
- 1886, Jan. 12, 13—Met in university chapel. Old officers re-elected. The secretary was allowed \$100 a year salary and the treasurer \$25 a year. These payments were made out of the fund received from membership fees and dues. The secretary reported the publication of the first volume of the society's reports and that a place for storing the collection of the society had been secured in the university. The first list of the society's library was printed.
- 1887, Jan. 11, 12—Met in university chapel. Old officers re-elected.
- 1888, Jan. 10—Met in university chapel. The old officers re-elected. A com-

mittee consisting of Chancellor Manatt, W. W. Wilson and C. H. Gere was appointed to consult the authorities of the state university and the state board of public lands and buildings with a view to securing a suite of rooms for the permanent use of the society.

1889, Jan. 8, 9—Met in the university chapel. Old officers re-elected. Question of securing better rooms for accommodation of the society was discussed. A committee was appointed to consult with a committee of the State Agricultural Society with reference to rooms for their joint use.

1890, Jan. 14, 15—Met in the university chapel. The old officers were re-elected with one or two changes. A committee was appointed for the purpose of obtaining assistance from the state and elsewhere for grounds and erection of a building.

1891, Jan. 13, 14—Met in university chapel. New constitution and by-laws adopted. Robert W. Furnas retired as president. J. Sterling Morton was elected president. George E. Howard, secretary, re-elected. The society accepted with thanks the offer of the regents of the university of ample and commodious quarters in the new library building. A committee appointed to consider plans for the future of the historical society made a report as follows, which was adopted:

"The society is to be congratulated upon its present secretary, who, without means and without assistance, has in six years built up a library of about four thousand volumes from a beginning of five volumes and a hundred and fifty pamphlets. They would recommend that he be given such assistance as the funds will allow. They would suggest that such assistance may be readily obtained among the graduate students of history and social and economic science in the university. Such assistants would bring to the society just the training that is needed, and while conducting the clerical work necessary they would at the same time be in the best position to advance the knowledge of our history. Such positions would be of the nature of fellowships, the return for the emoluments being made by clerical labor and by investigation, the latter being as important as the former."

1892, Jan. 12—Met in university chapel. J. Sterling Morton re-elected president and Professor Howard E. Caldwell secretary. Resolutions of appreciation for the work of Dr. George E. Howard as secretary and regret for his removal to California adopted.

1893, Jan. 10, 11—Met at university chapel. Old officers re-elected. The by-laws were amended by adding this clause: "Provided, that in case the legislative appropriation shall in the judgment of the board of directors warrant they may authorize the secretary to employ an assistant to act as librarian, and to do the general work of the society under his supervision, at such salary as they may determine, not to exceed \$1,400, and in that event the salary of the secretary shall be \$100. Jay Amos Barrett so employed." Secretary Caldwell was authorized to employ the necessary help for removing into the new library building. The secretary's report showed the beginning of the work of securing complete files of Nebraska newspapers in accordance with plan presented by him at a previous meeting. The arrangement between the state university and historical society is stated thus: "The state university has offered the historical society free rooms and agrees to heat, light and janitor them without expense."

1894, Jan. 9, 10—Met in university chapel. President and secretary re-elected by unanimous ballot. Secretary was instructed to have files of newspapers bound which had been collected.

1895, Jan. 16—The president and secretary re-elected unanimously. The secretary's report showed the employment of Mr. J. Amos Barrett as assistant secretary, giving half his time for \$500 per annum. The librarian's report showed 7,000 books and pamphlets on hand. State appropriation increased to \$3,000.

1896, Jan. 14, 15—Met in university chapel. The president and secretary re-elected. A telegram read from the President J. Sterling Morton at Washington.

1897, Jan. 12, 13—Met in university chapel. The old officers were re-elected. A communication was received from Dr. C. E. Bessey as follows:

"1. That Professor Bessey be requested to lay before the State Historical Society a plan to incorporate the proceedings of the Nebraska Academy of Sciences with the publications of the society.

"2. That the Historical Society be requested to give the matter immediate attention.

"3. In case this proposition is accepted, the Academy hereby pledges itself to use its best endeavors to further the several undertakings of the Historical Society. * * * G. D. Swezey, Sec. Nebr. Acad. of Sciences."

After discussion, the proposition was accepted and the Academy of Sciences' material incorporated in the succeeding volume. State appropriations increased to \$3,500.

1898, Jan. 11, 12—Met in university chapel. The old officers were re-elected. It was announced that the manuscript of ex-Senator Thomas W. Tipton had been placed in the hands of the society for publication. State appropriation increased to \$5,000.

1900, Jan. 9, 10—Met in university chapel. The old officers were re-elected. A committee was appointed to confer with the territorial pioneers and to plan for an annual banquet. At a meeting of the executive board following the annual meeting a communication was received from Acting Chancellor Bessey of the state university suggesting that the historical society request the university regents to set aside a location on the campus for a building to be used by the historical society, this request to be presented to the regents at their February meeting. Secretary Caldwell was instructed to draw up and present such a request. Mr. C. S. Paine was made the society's agent for collecting curios, Indian relics, newspapers, etc., without salary, under the title of the State Historical Society's "Collector."

1901, Jan. 8, 9—Met in university chapel. The old officers were re-elected. A committee was appointed to consider and devise plans for housing the historical society. Another committee was appointed to consider the constitutions of other historical societies and recommend changes in the Nebraska constitution. State appropriation increased to \$10,000. Addison E. Sheldon was employed as assistant in connection with service as instructor in university. Archeological survey of state begun by society, E. E. Blackman being employed in the work.

1902, Jan. 14, 15—Met in university chapel. The old officers were re-elected. At a meeting of the executive committee \$1,000 was set aside for work in archeology under E. E. Blackman.

1903, Jan. 13, 14—Met in university chapel. The death of President J. Sterling Morton was announced. Robert W. Furnas was elected president and H. W. Caldwell secretary. Mr. Barrett presented a plan to raise money by soliciting gifts from Andrew Carnegie and other wealthy men for a historical society building. He was authorized to make the effort and \$200 of the society's private funds were appropriated for preliminary expenses. This effort continued by Mr. and Mrs. Barrett through several years and resulted disastrously.

1904, Jan. 12, 13—Met in university chapel. The old officers were re-elected. Report was made of the placing of a tablet in memory of J. Sterling Morton on one of the great redwood trees at Santa Cruz, California.

1905, Jan. 10, 11—Met in university chapel. President R. W. Furnas announced that he had had the honors of presidency long enough and nominated H. T. Clarke of Omaha, who was unanimously elected president. Professor George E. Howard, former secretary of the society, who had recently returned to Nebraska university, was elected second vice-president and Howard W. Caldwell re-elected secretary. Addison E. Sheldon presented resolutions for co-operation with other societies in marking historic sites and thoroughfares in Nebraska; also to confer with the state agricultural and state horticultural societies in asking the legislature for funds to erect a historical building with offices therein for the other societies. At a meeting of the

executive board Mr. Sheldon was instructed to prepare and have introduced into the legislature a bill for a historical building to cost not less than \$100,000 and to be erected on land donated by the city of Lincoln. A plan for division of work for the staff was agreed to.

1906, Jan. 17, 18—Met in university chapel. Dr. George L. Miller was elected president, Robert L. Harvey of St. Paul, first vice-president, the other officers re-elected. A plan presented by Addison E. Sheldon for the restoration of "Historical Block" to the historical society and the erection of a fire-proof historical building to cost not less than \$100,000 and to be maintained as a free public library, museum, art gallery and historical study was approved. At a meeting of the executive board May 10, 1906, a new department of the historical society, to be known as the "Legislative Research and Reference Bureau," was created. At a meeting of the executive board October 9, 1906, the resignation of Mr. Barrett was presented and accepted.

1907, Jan. 15, 16—Met in university chapel. C. S. Paine declared elected secretary. Dr. George E. Howard retired from executive board. At a meeting of the executive board the plan of Director of Field Work Sheldon to secure the restoration of Historical Block to the society and an appropriation of \$25,000 to erect the basement of a historical building thereon was approved. State appropriations increased to \$15,000. William E. Hannan employed as assistant in reference department and Mrs. Minnie P. Knotts as librarian.

1908, Jan. 13, 14—Met at University temple. Old officers re-elected. Committee appointed by president reported favorably on work of Secretary Paine during year past. Committees appointed to negotiate the site for historical building.

1909, Jan. 12, 13—Met in University temple. Old officers re-elected. Contract let to Louis Jensen for erection of basement of historical building at 16th and H streets. C. S. Paine, secretary, and Albert Watkins, historian, added to salaried employees.

No printed records of the society's proceedings are available later than 1909.

The true history of how the appropriation of \$25,000 was secured from the legislature of 1907 for the erection of the basement of a historical building may properly be given here. Entire charge of this matter, both in plan and execution, was placed by the historical society in the hands of Director of Field Work Sheldon. At the two previous sessions of 1902 and 1905, bills for beginning a historical building had been drafted by Mr. Sheldon and failed to pass. The demands for funds for regular state institutions always exceeded the state's revenues. The house finance, ways and means committee in 1907 was facing the same situation. The legislative reference department of the historical society was just entering upon its first winter's work and was freely consulted on problems of state revenue by the finance, ways and means committees. Late one night the house finance committee and director of the reference department were at work in adjoining rooms within earshot of each other. The item of historical society was reached by the committee.

A member of the committee said: "We must save money somewhere. I move we cut out the entire item." The motion was seconded, put by the chairman and unanimously carried.

"Come in here, Mr. Sheldon," said the chairman. "This committee has cut out your appropriation."

This was the long awaited opportunity. "I have a proposition to lay before you," said the director. "You are at your wits' end to secure revenue to meet the state's expenses. If I will show you a way to restore \$40,000 of property to the state will you vote \$25,000 to start a historical building? More than that: If I show you a plan, equitable and constitutional, used in other states, not proposed by any other person in the state of Nebraska, to add \$200,000 to the state's revenue the next biennium without raising the general levy, will you grant the historical society the \$25,000?"

There was enthusiastic affirmative response from the committee. Mr.

Sheldon drew from his pocket three bills and a long legal brief. Two of the bills were revenue bills. The brief was the economic and legal abstract of court decisions and expert opinion backing the bills made by the reference department and approved by Dean Roscoe Pound of the law college. The third bill was one appropriating \$25,000 for the basement story of a historical building on condition that the city of Lincoln cede Historical Block as a site, or an equally desirable site.

The entire plan, long considered and cherished, for a historical building to be located on lots adjoining the university campus and to be used as a home for the state museum, state historical society and reference department was gone over in detail before the committee that night and subsequently laid before each member of the senate and house in typewritten form. The subsequent voting of the money was upon this understanding of the location of the building.

All three of the bills presented that night were adopted by the finance committee. Both the revenue bills became laws, one in 1907, the other in 1909. The historical building bill passed both houses by practically unanimous vote and was signed by the governor April 10, 1907.

*There are six permanent employees, but during the biennium one or two extra assistants are employed for varying lengths of time.

†Salaries were paid out of current expenses from 1883 until April 1, 1911. This latter year the legislature took the distribution of the funds out of the hands of the board of directors of the historical society by itemizing both the salary and current expense list.

Institutions Under the Control of the Board of Commissioners of State Institutions.

PENITENTIARY.

LINCOLN.		Salaries
Warden—W. T. Fenton		\$2,000
Deputy Warden—N. T. Harmon		1,250
Chief Clerk—James O'Connell		1,200
Steward—W. A. Kirby		1,200
Physician—G. E. Williams		1,200
Chaplain—E. M. Johnson		600
Matron—Minnie Murphy		600

The first territorial act concerning the penitentiary, after the adoption of the criminal code of Iowa in 1855, was that approved January 22, 1856, naming a board of commissioners to locate a penitentiary within one mile of the public square in Tekamah, Burt county. An act approved February 13, 1857, named a new set of commissioners to locate the institution. The legislature of 1859, as a part of the criminal code, provided that convicts should be kept in county jails until a territorial penitentiary should be erected. An act approved January 6, 1860, authorized the territorial governor to "contract with the proper authorities of any of the states of the Union having a penitentiary or state prison, for the confinement of Nebraska convicts." In joint resolutions approved January 7, 1860, and January 4, 1861, the legislature memorialized congress for an appropriation to build a penitentiary at or near Bellevue, Sarpy county. Again in a joint resolution the legislature made this petition, asking for \$40,000. Another petition for an appropriation for a penitentiary in the territory, without reference to location, was approved February 12, 1864. This petition asked for \$100,000.

The criminal code of 1866 provided for the confinement of convicts in the county jails of the territory, and an act approved February 18, 1867, made an appropriation of \$3,000 for the support of the territorial convicts, the jailers not to receive more than fifty cents a day for boarding each prisoner. In his message of January 8, 1869, Governor Butler stated that prisoners were in county jails, and that a penitentiary was very much needed.

On March 3, 1870, a joint resolution of the legislature created a joint committee to draft a bill providing for the "immediate concentration, care and keeping of the state convicts." On the following day, March 4, 1870, a bill providing for the erection of a penitentiary at or near Lincoln was approved. A board of three inspectors elected by the legislature had the management of the penitentiary, the warden, only, being appointed by the governor. The state received grants of land amounting to 32,000 acres from the United States for a penitentiary, and the inspectors were directed to sell the lands and place the funds so derived in the treasury.

The inspectors were required to concentrate persons under sentence at or near Lincoln in a temporary penitentiary. They were also required to put the prisoners "at work upon the public buildings and in stone quarries for the use and benefit of the state, for the hours specified in their respective sentences." The inspectors were also authorized to "hire out or contract the labor upon the best terms that can be obtained." The temporary penitentiary was ready for the occupancy of thirty-seven convicts in July, 1870.

The contract for the permanent buildings was let on June 13, 1870, to Stout and Jamison, who employed the prisoners at forty-two cents a day each. The buildings were erected on land which Judge Hilton and W. T. Donovan donated to the state for that purpose. An act approved March 9, 1871, made further provisions concerning the sale of the lands, and the extension of the con-

tractor's limit for the completion of the building. An act of March 9, 1871, granted prisoners a deduction from the time of sentence for good behavior.

On March 20, 1871, it was provided that the "rents and revenues and profits derived from the leasing of the penitentiary shops, grounds and convict labor * * * shall be paid into the state treasury and shall be held by the treasurer for the care and support of state prisoners."

The legislature of 1873, through a special committee of the house, investigated the penitentiary and failed to find any serious criticism of the contractor's work. An act approved February 24, 1873, levied a tax of one-half mill on the grand assessment roll of the state for 1873 and 1874 for the penitentiary building fund. A supplemental act made a one mill levy for the years 1875 and 1876. An act of February 19, 1877, transferred the balance remaining in this fund to the sinking fund.

The constitution of 1875 placed the penitentiary under the control of the board of public lands and buildings. On October 1, 1877, this board entered into a six-year contract with W. H. B. Stout, who was to pay all the "expense necessarily incurred in the maintenance of the prison, including the board and clothing of the convicts, and the salaries of all the officers and guards," for which he received from the state the labor of the convicts and sixty cents a day per capita for each convict for two years, and fifty-five cents and fifty cents a day per capita, respectively, for the succeeding terms of two years each. By an act approved February 26, 1879, this contract was extended for an additional six years from October 1, 1883, provided the contractor should build a cell-house of specified size and quality, and should receive only forty-five cents in cash, or its equivalent, a day for each convict for the first three years of the extended lease, and forty cents a day for each convict for the second three years of this lease, and provided that, after the first day of January, 1880, there should be one cell for each and every Nebraska prisoner, and that after January 1, 1884, only Nebraska prisoners should be kept at the penitentiary. The legislature of 1883 passed an act permitting the keeping of other than Nebraska convicts until 1889. During 1883 to 1889 the lessee employed convicts in the erection of the state capitol, for which he had the contract.

The legislature of 1887 extended the lessee's contract for ten years from October 1, 1889. W. H. B. Stout had assigned and transferred his contract to C. W. Mosher. It was stipulated that Mosher was to receive forty cents a day, cash, for each convict in full compensation. The employment of convicts in the manufacture of cigars, brick, or the cutting of stone, except for use at the penitentiary, was forbidden.

A special investigating committee of the legislature of 1895 strongly advocated the abolition of the contract with the lessee. Accordingly, an "act to annul a contract between the state of Nebraska and W. H. Dorgan, alleged assignee of C. W. Mosher," was approved April 11, 1895. The entire appropriation of \$35,000 was exhausted in the culmination of this annulment. In spite of this legislative action, the board of public lands and buildings proceeded to make another contract, over the protest of Governor Holcomb, who caused the matter to be submitted to the supreme court. The court decided that the board had exceeded its authority and that the attempt to lease the prison and the labor of the convicts was illegal. The legislature of 1897 passed a general act governing the penitentiary, which made it the duty of the warden, subject to the approval of the governor and the board of public lands and buildings, to provide employment for the convicts and to contract out the labor of such as he had no employment for.

In general, the industries maintained by the subcontractors in the penitentiary have been the making of buttons, brooms, trunks, barrels, chairs, machinery and harness.

The legislature of 1893 empowered the governor to parole prisoners. The legislature of 1911 created the prison board to handle the paroling of convicts. An appropriation was made by the legislature of 1913 to build a reformatory to which certain classes of convicted persons are to be sent. The legislature of 1913 provided for a night school for prisoners, and for a grading of prisoners

with reference to character and conduct. Only three times in the history of this institution have serious mutinies occurred—on January 11 and May 26, 1875, and March 14, 1912.

A constitutional amendment of November, 1912, vested the government of the penitentiary in the board of commissioners of state institutions.

* The first parole act in Nebraska bears date April 10, 1893, and empowers the governor to parole any prisoner who has served the minimum term provided by law for his first offense (except for murder in first or second degree), and anyone serving for murder in first or second degree who has served twenty-five full years.

† State prison board act of April 7, 1911, provided for a board of three persons appointed by the governor, removable by him for misconduct, incompetence or neglect of duty. This board has power to establish rules and regulations for parole of prisoners in the penitentiary who have served minimum sentence fixed by law. This act repealed the first parole law of 1893.

‡ 1913-14: 7 transferred to asylum, 6 on temporary leave.

The above table computed from governor's messages and reports of prison warden.

* From 1877 to 1895 the state penitentiary was leased to a contractor. The lessee paid the salaries of all prison officials and maintained the prison population, for which the state paid to lessee a per diem for each prisoner. This per diem varied from fifty-five cents per capita to forty cents. Beginning with 1895 the state annulled the lessee system and assumed entire charge of the penitentiary, leasing the convicts to various contractors, who paid the state a per diem per capita for convicts used. This per diem varied from thirty cents to sixty-two and a half cents.

HOSPITALS FOR THE INSANE.

LINCOLN.		Salary
Superintendent—B. F. Williams		\$2,500
Assistant Physician—L. B. Pillsbury		1,500

Steward—M. O'Meara		1,500

CARE OF NEBRASKA INSANE AT LINCOLN, NORFOLK AND HASTINGS.

The Nebraska territorial assembly by legislative act approved February 13, 1865, authorized the governor "to make arrangements with the proper authorities of the state of Iowa for the admission of the territory's insane into the Iowa hospital for the insane." The territory paid the expense if the insane persons or their natural guardians were unable to do so. Arrangements were made with Iowa, and nine of Nebraska's insane admitted to the asylum located at Mount Pleasant, in 1865. Nebraska continued to send her insane there until July, 1870. At this time the asylum at Mount Pleasant was unable to further care for Nebraska's insane. Nebraska's governor was forced to move six of the incurable patients and confine them in the Pawnee county jail until the asylum at Lincoln was completed. This institution has the legal name of the Nebraska hospital for the insane. The legislature of 1869 appropriated \$50,000 from the amount received from the sale of lots in the townsite of Lincoln for the erection of an insane asylum. On November 8, 1870, the building was accepted and the first patient admitted November 26, 1870. By December 1 it was completely furnished and ready for patients. The patients from the Iowa hospital and the different jails throughout the state, numbering thirty in all, were removed to this asylum. On the morning of April 17, 1871, this building was burned, the insurance carried amounting to \$95,000. On June 6, 1871, an act was approved appropriating \$70,000 for the erection of a new building and appointing a commission to make settlement with the insurance companies for the amount due, the amount accepted to be not less than \$72,000. This second building opened for admission of patients November 21, 1872.

Until 1891 the expenses of caring for the insane in the various institutions of the state were borne by the relatives of the patients or by the counties. By legislative act of 1891, the state assumed the entire expense of caring for the insane in state institutions.

The hospital for the insane at Norfolk was established by an act approved March 4, 1885, \$75,000 being appropriated for the erection of a building. This

institution was established there upon the condition that the city of Norfolk should donate 320 acres of land, which it did. On the morning of September 23, 1901, the entire main ward building was destroyed by fire. 160 patients were immediately transferred to Lincoln and Hastings and on December 6, 1901, the remainder of the patients were likewise transferred. The legislature of 1903 appropriated \$100,000 to restore the damaged building.

The state hospital for the insane at Hastings was established by an act approved March 30, 1887, and \$75,000 appropriated for buildings. The establishment and appropriation were conditioned upon the donation by the city of Hastings of not less than 160 acres of good land. This condition the city met. The purpose of this institution originally was to take the more chronic and incurable insane, thus relieving the institutions at Lincoln and Norfolk of this class. The legislature, by act approved April 11, 1903, appropriated \$15,000 for the purchase of 320 acres of land.

The legislature of 1907 amended the law so as to strike the word "incurable" from the name of the Hastings institution, and the board of public lands and buildings divided the state into three hospital districts.

Dipsomania are cared for at the Lincoln hospital.

By an act approved February 12, 1866, the legislature authorized and required the governor to make proper arrangements with the state of Iowa, or some other state, looking to the education of all deaf mutes and blind children between the ages of 12 and 20 years. One individual only seems to have profited by this act (see governor's message, January 8, 1869, Neb. House Journal, 1869, p. 20) at an expense to the state in 1866-68 of \$352.91, \$600 having been appropriated.

By an act approved February 7, 1867, the legislature incorporated an institute for the deaf and dumb, naming six individuals as directors. This board was to make proper provision for the care of the deaf and dumb in the state. The act located the institution at Omaha, or within three miles of the court house, and authorized the board of directors to purchase sufficient land, not to exceed fifty acres, and to erect the necessary buildings. An appropriation of \$5,000 was made therefor, also \$600 was set aside for care of deaf and dumb. A further act approved June 5, 1871, authorized this board of directors to "erect upon grounds near the city of Omaha, donated to the institute for that purpose, a building to be used as an institute for the deaf and dumb" and an appropriation of \$15,000 made therefor.

The name of this institution was changed by act of the legislature of 1909 from "Institute for the deaf and dumb" to "Nebraska school for the deaf."

"All deaf and dumb residents of the state, and those deaf to such an extent that they cannot acquire an education in the common schools of the state, of suitable age and capacity and of good moral character, shall be entitled to an education in the institute for the deaf and dumb without charge."

The institute for the blind was established at Nebraska City by act of the legislature approved February 19, 1875. The citizens of Nebraska City were to raise \$4,000 and turn the amount over to the board of trustees. The institute was located on ten acres of land and within one mile of the court house of the city. The legislature of 1897 placed the institute for the blind and the Nebraska school for the deaf under one governing board.

This institution has been defined by statute and by a court decision (43 Neb. 184) to be an educational institution, not an asylum. Secretary Joel A. Piper of the board of charities and corrections reported on November 30, 1912, as follows:

"The enrollment at the institution is gradually declining, and this is one of our state institutions that is not overcrowded. This, in a measure, may be attributed to the medical inspection which is now given pupils in the public schools, as many people become blind from causes that might be prevented if attention were given them at the proper time."

The statute provides that "all blind persons and those blind to such an extent that they cannot acquire an education in the common schools of the state, of suitable age and capacity and of good moral character, shall be entitled to an education in the institution for the blind without charge."

INSTITUTION FOR FEEBLE-MINDED YOUTH.

BEATRICE.		Salary
Superintendent—W. S. Fast		\$2,500
Steward—Louis Werner		1,200
Teachers—	Monthly Salaries	
Jack O'Donnell		\$60
Martha Dillon		45
Ione Storey		35

The institution for feeble-minded youth was established at Beatrice by act of the legislature approved March 5, 1885. An appropriation of \$50,000 was made at the same time for the erection of proper buildings. The city of Beatrice donated forty acres of land to the state. The act authorized the levying of an annual tax of one-eighth of one mill on the dollar for the support of the institution. The legislature of 1887 did not continue this tax, but adopted the method of appropriating from the general fund for the support of this institution.

Parents or guardians, if able, are expected to furnish transportation, clothing and incidentals for the children committed to this institution, and counties are required to furnish for indigent or dependent children clothing, transportation and \$40 annually. Imbecile and feeble-minded youth between the ages of five and eighteen years and who have resided in Nebraska at least a year are entitled to admission.

Cooking Teacher—Ida Clark	35

The State industrial school for boys was established at Kearney by act of the legislature approved February 27, 1879. To obtain this institution the citizens of Kearney were required to donate not less than 320 acres of good arable land. The original name of this school was "Nebraska state reform school for juvenile offenders." The original act provided for the care and instruction of both girls and boys. By an act approved March 31, 1887, the name of this school was changed to "State industrial school for juvenile offenders," and still provided for the commitment of both boys and girls. On March 4, 1891, a legislative act was approved calling for the establishment of a "Girls' industrial school for juvenile delinquents" at Geneva. This new school was ready for occupancy March 14, 1892, at which time the 57 girls in the school at Kearney were transferred to Geneva, Kearney becoming from that date on a school for boys only.

Matron—Louise Shaffer		450

The Nebraska soldiers' and sailors' home at Grand Island was established by legislative act approved March 4, 1887. The home was opened to applicants July 1, 1888. The federal government contributed an amount equal to \$100 per capita on the average daily attendance of men. The citizens of Grand Island donated 640 acres of land as a site for the institution. This institution being overcrowded, a branch home was located at Milford in 1895. A site of thirty-five acres was leased at an annual rental of \$800. This site contained a brick and stone building three stories in height. The site was purchased by the state in 1899, the sum of \$13,500 being appropriated for that purpose. These homes are designed to care for such veterans of the several wars and the United States military service, and the wives, widows or mothers of such veterans, as are eligible to admission.

The legislature of 1887 established this home for the purpose of affording "shelter and protection" and also to provide "employment and means of self-support for penitent women and girls." An advisory board of five women was provided for. Applicants are required to remain one year. Instruction in the domestic arts and the common school branches is given. On November 30, 1912, there were 43 adult inmates and 31 infants.

The legislature of 1905 provided for a "hospital for crippled, ruptured and deformed children and those suffering from diseases from which they are likely to become deformed," to be located at Lincoln on the grounds of the home for the friendless. This latter institution having had its functions transferred to the board of control for dependent children, its buildings and grounds are now used by the orthopedic hospital. On November 30, 1912, the hospital was caring for 100 patients. Applicants for admission must be examined by the county physicians of their respective counties, upon whose report the entrance permit may be issued. The cost of such examination and the conveying of the patient to Lincoln, when not borne by relatives and friends, must be borne by the county. The hospital is also a school, regular instruction for the children being provided.

Physician—Inez Philbrick	500

In 1876 charitable women organized home for the friendless societies in various parts of the state, having for their object the maintenance of a home in Lincoln for friendless women and children. In 1881 the home for the friendless became a semi-public institution, an act of legislature providing for its government by the home for the friendless society under the supervision of the board of public lands and buildings. By an act approved April 13, 1897, the home for the friendless was placed under the immediate control of the state and an advisory board of women provided for.

It became apparent that the policy of collecting children and old ladies in a home, without adequate provision for placing the children in private homes by adoption or otherwise should be abandoned. In 1909 the legislature created the state public school for dependent children and located it at the home for the friendless, where, on July 2, 1909, 38 boys and 18 girls were taken charge of by the new board. By a decision of the attorney general, given April 16, 1914, the board of commissioners of state institutions assumed the direction of this institution. It has been renamed by the board "Home for dependent children."

This institution is to receive those "children under sixteen years of age and of sound mind who have been committed to it by any juvenile court, district court, or county court, acting under the juvenile court law," as children who are dependent for support, neglected or ill-treated. The law requires the officers of this board to place the children in homes. The buildings formerly occupied by the home for the friendless have been transferred to the orthopedic hospital, and the governing board maintains offices and a temporary receiving home in a rented building in Lincoln. During the biennial period 1910-12, 129 children were placed for adoption, 4 placed in free homes, 62 returned from homes, 8 removed from homes, and 5 transferred from one home to another.

*\$5,016.89 of the total maintenance returned to the state treasurer, thus reducing the per capita cost.

HOSPITAL FOR TUBERCULOUS PATIENTS.**KEARNEY.****Salary**

Superintendent—Nelle C. G. Deffenbaugh \$1,200

The legislature of 1911 established this hospital, which was opened for patients January 22, 1912. Fifty patients had received treatment within the first year. Applicants for admission must be examined by qualified physicians and all expense of such examination and transportation to the hospital, if not borne by the patient or the relatives or friends, must be borne by the county.

APPROPRIATIONS, 1911-1915

Years	Buildings	Salary and Maintenance			
		Salary	Care of Inmates	Deficiency	Total Maintenance Cost
1911-13	\$40,000.00		\$10,000.00*	\$6,980.12	\$16,980.12
1913-15	25,000.00	\$3,600.00	33,000.00		36,600.00
Totals	\$65,000.00	\$3,600.00	\$43,000.00	\$6,980.12	\$53,580.12

* This amount used for salaries as well as maintenance of inmates. Institution so recently organized no data available on per capita cost.

REFORMATORY.

The legislature of 1913 appropriated \$150,000 for the establishment of a reformatory for certain classes of convicts. The board of commissioners of state institutions has not yet located the institution.

CONDENSED LIST OF STATE DEPARTMENTS, INSTITUTIONS, BOARDS, SOCIETIES, COMMISSIONS AND SURVEYS.

The original organization of the state's business, in the constitution of 1875, provided for three main divisions of the state government, legislative, executive and judicial, with seven executive departments. In the thirty-nine years since the adoption of this constitution additions have been made to this list until there are now eighty-one distinct objects of appropriation and expenditure which may be roughly classified as follows:

Constitutional departments, 12:

Legislature.
Governor.
Auditor.
Treasurer.
Secretary of State.
Attorney General.
Commissioner Public Lands and Buildings.
Superintendent of Public Instruction.
Supreme Court.
District Courts.
State Railway Commission.
Board of Commissioners for State Institutions (Board of Control).

Statutory departments and bureaus, 7:

Adjutant General.
State Insurance Department.
Bureau of Labor.

Statutory departments and bureaus—Concluded.

State Library (under Supreme Court).

State Veterinarian.

State Bureau of Printing.

Legislative Reference Bureau (under University Regents).

Institutions, 29.

The following are under State Board of Control, 15:

Asylum for Insane, Hastings.

Hospital for Insane, Lincoln.

Hospital for Insane, Norfolk.

School for Blind, Nebraska City.

School for Deaf, Omaha.

Institute for Feeble Minded, Beatrice.

Industrial School for Girls, Geneva.

Industrial School for Boys, Kearney.

Women's Industrial Home, Milford.

Orthopedic Hospital, Lincoln.

Soldiers' and Sailors' Home, Grand Island.

Soldiers' and Sailors' Home, Milford.

State Penitentiary, Lincoln.

Tuberculosis Hospital, Kearney.

Nebraska Reformatory (not yet located).

The following are under State Board of Education, 4:

State Normal School, Peru.

State Normal School, Kearney.

State Normal School, Wayne.

State Normal School, Chadron.

The followings are under University Board of Regents, 7:

University of Nebraska, Lincoln.

Agricultural School, Curtis.

Medical College, Omaha.

Experiment Station, North Platte.

Experiment Station, Valentine.

Experiment Station, Scotts Bluff.

Experiment Station, Culbertson.

The following are under State Fish and Game Commission, 2:

Hatchery Station, South Bend.

Hatchery Station, Schlagle Creek, Cherry County.

The following are under State Board of Agriculture, 1:

State Fair Grounds, Lincoln.

Boards, 11:*

Live Stock Sanitary Board.

Advisory Board of Pardons.

State Banking Board.

State Board of Education.

State Board of Irrigation.

Board of Educational Lands and Funds.

State Prison, Charities and Corrections Board.

State Board of Health.

Board of Control for Dependent Children (now under Board of Commissioners for State Institutions).

Board of Mediation and Investigation.

Commissions, 9:

Game and Fish Commission.

Hotel Commission.

* Two boards (Board of Purchase and Supplies, Board of Public Lands and Buildings) abolished in 1912-14 by merging their work with that of Board of Commissioners for State Institutions. The Oil Inspection Bureau was consolidated with the Pure Food, Drug and Dairy Commission.

Commissions—Concluded.

State Library Commission.
 Commission for Revision of Laws (temporary).
 Taxation and Revenue Commission (temporary).
 Conservation and Public Welfare Commission.
 Legislative Procedure and Budget Commission (temporary).
 Water Power Commission (temporary).
 Minimum Wage Commission (no appropriation made).

Societies and Associations, 7:

(Each of the following organizations is a voluntary association of private citizens, receiving appropriations from the state):

State Board of Agriculture.
 State Board of Horticulture.
 State Poultry Association.
 Live Stock Breeders' Association.
 Nebraska Corn Improvers' Association.
 State Dairymen's Association.
 State Historical Society.

Surveys and Special Work, 6:

(Each of the following is under the University Board of Regents):

State Entomologist.
 Geological Survey.
 Conservation and Soil Survey.
 Agricultural and Botanical Work.
 Hog Cholera Serum Distribution.
 Agricultural Extension.

Miscellaneous Appropriations.**DISCONTINUED OFFICES.****DISTRICT ATTORNEY.**

An act approved March 16, 1855, provided for the election of a district attorney in each of the three judicial districts on the first Tuesday in November, 1855, and every two years thereafter. An act approved on January 26, 1856, fixed the annual salary of a district attorney at \$300 and allowed him to collect fees for certain services. An act approved October 12, 1858, abolished the office of attorney general and provided that the powers he had exercised should devolve on the district attorneys. On January 9, 1861, it was provided that the salary of district attorneys should be \$700. On January 11, 1861, an act abolishing the office of district attorney and substituting county prosecuting attorneys therefor was approved.

An act of June 11, 1867, restored the office of district attorney and provided for the immediate appointment of district attorneys to serve until their successors could be elected at the next general election. The salary was fixed at \$1,500 and the term of office at two years. The legislature of 1885 repealed this statute and provided for the election of county attorneys.

APPROPRIATIONS, 1867-1887.

* Beginning with 1897 the state university entered upon a field of broader service to the state. In that year a separate appropriation of \$3,000 was made for farmers' institutes and the work placed in charge of the university. In the year 1901 the geological survey and the botanical survey departments were added. In 1907 the hog cholera experimental work was placed in charge of the university. In 1911 four other activities were added, viz.: State entomologist, Nebraska legislative reference bureau, Nebraska conservation and soil survey and Curtis agricultural school. These various activities are provided with appropriations separate and apart from the funds for maintaining the university.

^a By legislative act approved June 20, 1867, the state normal school at Peru was established and twenty sections of state land set aside for its endowment. By an act approved April 5, 1903, provision was made for a new normal school to be located "at any point west of a point not exceeding five miles east of the 98th meridian," and \$50,000 set aside for a building. The state normal school board located this school at Kearney. In 1909 provision was made for two new normal schools. One, by act approved April 5, 1909, was to be established by the state normal board "at some suitable location west of the east line of the sixth congressional district and north of the 42d parallel of latitude in the state," and \$35,000 was appropriated for a building. This school was established at Chadron. The establishment of the other school was authorized by an act approved April 6, 1909; \$90,000 was appropriated, and the normal school board authorized to purchase the Nebraska normal college at Wayne, a private institution. The board paid for this school the sum of \$70,000.

¹ \$12,600.09 of the total amount credited to suspended account, arising from defalcation of State Treasurer Joseph S. Bartley, 1893-97.

The legislature of 1913 made a levy of 85-100 of one mill to care for the four state normal schools. Money raised under this levy is to be expended for buildings and maintenance under the direction of the state board of education.

* The state university cash fund is composed of the following items: Student fees, which consist of matriculation, library and laboratory charges; women's dormitory (board and lodging); sales of live stock, dairy and other products; official certificates; special services and receipts from sale of hog cholera serum. The receipts from the whole field of general and special activities in which the university is engaged are covered in this fund.

† The legislature, from time to time, has placed under the supervision of the board of regents of the state university various activities other than instructional, viz.: Agricultural extension (farmers' institutes), geological survey, botanical survey, hog cholera serum manufacture and sale, state entomologist, Nebraska conservation and soil survey, Nebraska legislative reference bureau, Curtis agricultural school and agricultural experiment substations located at North Platte, Scottsbluff, Valentine and Culbertson.

‡ The legislature of 1869 provided for an annual tax of one mill for the support of the university. In 1871 it was made one-fourth of one mill; in 1877 it was fixed at three-eighths of one mill, and in 1899 the present annual levy of one mill was provided.

NOTE.—The legislature of 1913 provided for a referendum on the question of removal, or extension of the university campus, and for an annual levy for six years of a three-fourths mill tax, the proceeds of which shall be expended for land and improvements only.

[illegible]

*Where the biennial appropriations, especially since 1909, show an amount in excess of the total taxes for the same period it means that the legislature has appropriated the income received by the state from departmental fees, cash receipts, and earnings of the various state institutions. For the years prior to 1905 the state faced a constantly growing deficit through inability to collect state taxes.

EMANUEL J. SPIRK (Republican), Senator from sixteenth district. Born in Merklin, Bohemia, January 1, 1865. Came directly from Bohemia to Nebraska in 1874. Graduated from Wilber high school 1882, later attended business college in Davenport, Iowa. Is engaged in lumber business at Wilber. Was county treasurer of Saline county for two terms. Affiliates with the progressive element of the Republican party. Was formerly a Catholic, but is now a member of the Unitarian church. Has lodge membership in the Knights of Pythias, Modern Woodmen, Royal Highlanders, and Zapadni Bratiska. Address: Wilber.

J. M. TALCOTT (Democrat). Senator from eighth district. Was born in Dow City, Iowa, September 17, 1871. Is a graduate of Salina normal school, Salina, Kansas, and of the University of Iowa medical school, 1896. Came to Nebraska in 1896 and is at present a physician at Crofton. Has always belonged to the Democratic party. Elected state representative, 1909, and was chairman of committee on medical societies; sundry laws and regulations; and a member of the committees on libraries; and miscellaneous subjects. In 1911 he was elected state senator and was made chairman of the committee on enrolled and engrossed bills; and also of the committee on medical societies. He was member of the committees on labor; libraries; miscellaneous subjects; privileges and elections; revenue; and soldiers' homes. He is both a Mason and an Odd Fellow. Address: Crofton.

RAYMOND H. WEST (Democrat). Senator from the eighteenth district. Born near Wood River, Hall county, Nebraska, January 21, 1885. Has been engaged in farming and railroad contracting. Is at present in the hardware and implement business at Hazard. Served as local assessor at one time. He belongs to the Methodist church and has membership in the fraternal orders of Odd Fellows, Masons, and Modern Woodmen. Address: Hazard.

ORGANIZATION OF THE LEGISLATURE AND LEGISLATIVE PRACTICE.

FOREWORD.

For the convenience of members of the Nebraska legislature and others the following brief statement of the procedure followed in the organization and conduct of legislative business is prepared. Some changes from the methods here outlined are made from session to session, but the principal forms abide with little modification:

CONSTITUTIONAL PROVISIONS.

Art. III, Sec. 7. "The session of the legislature shall commence at 12 o'clock, (noon) on the first Tuesday in January in the year next ensuing the election of members thereof, and at no other time, unless as provided by this constitution. A majority of the members elected to each House shall constitute a quorum; each House shall determine the rules of its proceedings and be the judge of the election, returns, and qualifications of its members, shall choose its own officers and the senate shall choose a temporary president, to preside when the Lieutenant-Governor shall not attend as president, or shall act as Governor. The Secretary of State shall call the House of Representatives to order at the opening of each new legislature, and preside over it until a temporary presiding officer thereof shall have been chosen, and shall have taken his seat. No member shall be expelled by either House, except by a vote of two-thirds of all the members elected to that House, and no member shall be twice expelled for the same offense. Each House may punish by imprisonment any person not a member thereof who shall be guilty of disrespect to the House by disorderly or contemptuous behavior in its presence, but no such imprisonment shall extend beyond twenty-four hours at one time, unless the person shall persist in such disorderly or contemptuous behavior."

Art. V, Sec. 17. "The lieutenant-governor shall be president of the senate, and shall vote only when the senate is equally divided."

TEMPORARY ORGANIZATION.

The legislature convenes at 12 o'clock M. on the first Tuesday in January, biennially.

At the hour appointed the secretary of state calls the house of representatives to order, and the lieutenant-governor the senate.

CLERK PRO TEM.

It has of late years become the custom for the secretary of state to select some one to act as clerk pro tem.; formerly on motion of some person claiming to be elected, a clerk pro tem. is selected, and the roll of members, as prepared by the secretary of state from the official returns, is called over to see who of the regularly elected members of the legislature are present and entitled to participate in the organization. After this roll-call the next thing in order is the election of a

SPEAKER PRO TEM.

As soon as the speaker pro tem. is elected, the secretary of state selects a committee of two members to conduct the speaker pro tem. to the chair.

CHIEF CLERK PRO TEM.

The next thing in order is the election of a chief clerk pro tem.

COMMITTEE ON CREDENTIALS.

A committee of five on credentials is appointed, on motion of some member whose seat is not contested, and the speaker pro tem. should select for such committee only those whose right to act is unquestioned by any contest.

The representative districts will be called over and the credentials handed to the clerk as the numbers are called.

RECESS.

The house then takes a recess long enough to allow the committee on credentials to make up its report.

No business can be transacted until the legislature is organized; therefore the committee on credentials should report back to the house as soon as possible the names of all who are entitled to seats, as all contested cases must go before the standing committee of the house after it is permanently organized.

REPORT OF CREDENTIALS COMMITTEE.

When the house is called to order the committee on credentials makes a report, and when adopted, a committee of three is appointed to wait on the chief justice or one of the associate judges of the supreme court, and request him to administer the oath of office to the members elect.

THE OATH OF OFFICE.

The following oath must be sworn to and subscribed by each member:

"We and each of us do solemnly swear (or affirm) that we will support the constitution of the United States and the constitution of the state of Nebraska, and will faithfully discharge the duties of members of the legislature according to the best of our ability, and that at the election at which we were chosen to fill said office, we have not improperly influenced in any way the vote of any elector, and have not accepted, nor will we accept or receive, directly or indirectly, any money or other valuable thing from any corporation, company, or person or any promise of office (for any vote we may give or withhold on any bill, resolution, or appropriation)."

The house is now ready for

PERMANENT ORGANIZATION.

A motion is made "to proceed to a permanent organization," which being agreed to, nominations are in order for speaker.

The roll is called by the clerk, and each member announces his choice for speaker. A majority of all the votes cast is necessary for a choice. Upon the election of a speaker, a committee of two is appointed to escort him to the chair.

Upon taking the chair, the speaker-elect usually delivers a short address.

OTHER OFFICERS ELECTED.

The following officers are then elected.

Chief clerk, assistant clerks, sergeant-at-arms, doorkeeper, enrolling clerk, engrossing clerk, and chaplain.

Other officers and employes, as may be deemed necessary for the proper transaction of business, may then be elected or appointed by resolution.

The speaker has no authority to appoint officers or employes, except a resolution of the house gives him that authority.

OATH OF OFFICE FOR OFFICERS.

All officers elected or appointed must take and subscribe the following oath:

"We, and each of us, do solemnly swear that we will support the constitution of the United States, and the constitution of the state of Nebraska, and faithfully discharge the duties of our respective offices. So help us God."

ORGANIZATION OF THE SENATE.

Art. V, Sec. 17. "The lieutenant-governor shall be president of the senate, and shall vote only when the senate is equally divided."

The organization of the senate proceeds in like manner, except it is called to order by the lieutenant-governor, voting only when the senate is equally divided. A president of the senate is, however, chosen, who presides over the senate when the lieutenant-governor shall not attend or shall act as governor. (Const., Sec. 7, Art. III.)

The senate also elects a secretary, assistant secretary, sergeant-at-arms, doorkeeper, enrolling clerk, engrossing clerk, chaplain, and such other officers and employes as may be elected or appointed by resolution of the senate.

PERMANENT ORGANIZATION OF BOTH HOUSES.

As soon as a permanent organization is effected, a committee of three is then appointed to wait upon the senate and inform it that the house is organized and ready for business.

As soon as the senate and house are organized, a joint committee of both houses, consisting of two senators and three representatives, is appointed to wait on the governor and inform him that the legislature is organized and in readiness to receive any communication from him.

JOINT CONVENTION TO CANVASS VOTE.

The first business of the legislature is to meet in joint convention and canvass the vote for state officers. (Const., Sec. 4, Art. 5.) This is usually done on the second day of the session.

GOVERNOR'S MESSAGE AND INSTALLATION OF OFFICERS.

On the third day a motion is made for the appointment of a committee of the house to meet with a like committee of the senate to arrange for a joint session to hear the message of the governor. This joint committee agrees upon an hour which is reported to the respective houses. Each house meets separately and a motion is made in the lower house for the appointment of a committee to inform the senate that the house has convened and is awaiting the arrival of the senate for the joint session. The joint convention is called to order by the lieutenant-governor or by the president pro tem of the senate. After roll call motions are usually made for the appointment of committees to escort the governor before the joint convention, also the state officers elect to take the oath of office and the chief justice to administer the oath. Preceding the installation of the state officers elect the retiring governor reads his message. The oath is then administered by the chief justice to the governor-elect who then delivers his inaugural message. At the conclusion of this address the chief justice administers the oath of office to the state officers-elect, after which the joint convention usually adjourns, the senate going to the senate chamber and the house convening for any special business.

At the first opportunity after hearing the message read, the various recommendations therein contained are referred by resolution to appropriate standing committees.

STANDING COMMITTEES.

Appointment to standing committees in the senate is made by the committee on standing committees composed of seven members. This committee recommends and the senate as a whole elects. In the house the standing committees are made up by committee on committees. Later it is moved that the speaker appoint the membership agreed upon for each committee. This method of procedure in the house has been the rule since 1909. Prior to that time the speaker appointed the committees.

RULES.

A committee on rules is appointed early in the session, and pending its report it has been customary to adopt the rules of the preceding legislature.

SEATS.

Seats in the house have generally been selected by members in advance of the session.

STATIONERY.

It has been the custom to furnish every member with the necessary stationery required in his official capacity, which will be issued by the direction of the chief clerk as needed.

MAIL FACILITIES.

The legislative mail will be taken from the United States post-office to the capitol building as soon as distributed, and will be opened by the postmaster of the house immediately.

All mail matter deposited with the postmaster at the capitol will be taken to the United States post-office in time to make connections with the regular mail trains leaving Lincoln.

OF LETTERS, PETITIONS, MEMORIALS, ETC.

If a letter, petition, bill, memorial or remonstrance be sent to a member to be by him presented to the house or senate, his first duty is to fold it in a neat form and endorse on the back of it, in brief, the subject on which it treats, and immediately below this he signs his name and county. For example, a member has a petition for the passage of a bill, etc., he endorses it in this way:

"A petition signed by 100 citizens of Polk county praying for the passage of House Roll No. 33. J. N. Norton of Polk County."

In presenting it, the member rises in his place, when the order of "petitions and memorials" is reached and says:

"Mr. Speaker (or Mr. President) I present the petition of the citizens ofpraying, etc." He then hands it to one of the pages, to be handed to the chief clerk (or secretary of the senate), who also reads the indorsement, by way of information to the house or senate, after which the speaker (or president) refers it to the appropriate committee. The same course is pursued in regard to memorials and remonstrances.

OF RESOLUTIONS.

The parliamentary meaning of "resolution" is the expression of the will or sympathy of the house in regard to any subject before it, public or private, as for example, that the use of the hall be granted for a particular purpose; that certain companies be required to furnish statements, etc., that the house extends its sympathy to the Typographical Union, etc. If information is desired from any of the departments, or from the executive, the resolution assumes the form of a request as for example:

"Resolved, That the auditor be requested to furnish the house with a statement," etc.

When a member is desirous of bringing before the house any proposition for its determination, he usually has it typewritten in the form of a resolution, and as soon as the speaker announces the order of "Resolutions" he rises in his place and says:

"Mr. Speaker (or president), I offer the following resolution and move its adoption." He then delivers it to one of the pages, to be handed to the chief clerk (or secretary of senate). The speaker (or president) then directs the clerk to read the resolution, which is then put to the house for its adoption or rejection, or may lie over under the rules.

Joint resolutions, being in the nature of bills, cannot be submitted to the house under the order of "Resolutions." The proper time to offer them is under the order of "Introduction of bills."

Concurrent resolutions are those on which action of both senate and house are required, and are treated, in each house, the same as resolutions.

OF BILLS.

Art. III, Sec. 4. " * * * Each session, except special session, shall not be less than sixty days. After the expiration of twenty days of the session, no bills nor joint resolutions of the nature of bills shall be introduced, unless the governor shall by special message call the attention of the legislature to the necessity of passing a law on the subject-matter embraced in the message, and the introduction of bills shall be restricted thereto. Provided, that the general appropriation bills may be introduced up to and including the fortieth day."

Art. III, Sec. 9. "Any bill may originate in either house of the legislature, except bills appropriating money, which shall originate only in the House of Representatives, and all bills passed by one House may be amended by the other."

Art. III, Sec. 10. "The style of all bills shall be "Be it enacted by the people of the State of Nebraska," and no law shall be enacted except by bill. No bill shall be passed by the legislature unless by assent of a majority of all the members elected to each house of the legislature and the question upon final passage shall be taken immediately upon its last reading and the yeas and nays shall be entered upon the journal."

Art. III, Sec. 11. "Every bill and concurrent resolution shall be read at large on three different days in each house and the bill and all amendments thereto shall be printed before the vote is taken upon its final passage. No bill shall contain more than one subject, and the same shall be clearly expressed in its title. And no law shall be amended unless the new act contain the section or sections so amended and the section or sections so amended shall be repealed. The presiding officer of each house shall sign in the presence of the house over which he presides, while the same is in session and capable of transacting business, all bills and concurrent resolutions passed by the legislature."

Too much care in the preparation and passage of bills cannot be taken. The decisions of our courts whereby laws are held unconstitutional merely on account of some slight defect in title or want of proper observance of constitutional requirements in their passage, are growing in frequency. Our present constitution throws numerous safeguards around the passage of bills with a view of preventing hasty and improvident legislation.

All bills should be written in ink and legal cap paper, or typewritten; folded up in neat form and the title of the bill endorsed on the upper end of the back of it and the member shall sign his name and the county immediately under the title.

When the order of introduction of bills is reached, the member rises in his place and says: "Mr. Speaker, I ask leave to introduce a bill," when he hands it over to one of the pages to be handed to the chief clerk, when it is read the first time and ordered to a second reading. On the next or a subsequent day, when the order of "bills on the second reading" is reached the bill is read the second time, ordered to be printed, and referred to a committee.

ACTION OF COMMITTEES.

When a committee, to whom has been referred a bill for their consideration, make amendments to it, they should be careful to make them in such a way as to be readily comprehended by the clerks. But no part of any bill should be mutilated, nor any interlineations made, and no amendments made in pencil should be entertained. They should be written plainly and pinned to the bill. The chief clerk furnishes proper blanks upon which to make the reports to the house.

REPORTS OF COMMITTEES.

A bill reported from a committee should be accompanied by a written report and whether "with amendments," or "without amendments." If reported favorably and concurred in by the house the bill goes on "general file."

COMMITTEE OF THE WHOLE.

The committee of the whole is an expedient to simplify the business of legislative bodies. No record is made of its proceedings except roll call may be demanded by any ten members of the house (in the senate five) and the roll call, together with complete proceedings relative to the question on which the roll call was taken, shall be placed in the Journal and be made a part of the records of the house. This committee has no officer except of its own creation for temporary purposes. It is liable to instant dissolution in case of disorder when the speaker takes the chair to suppress it; in case of lack of quorum when the speaker takes the chair for a call of the house or an

adjournment, and in case of a message from the senate or governor when the speaker takes the chair to receive it.

Either house may resolve itself into a committee of the whole on some particular bill, resolution, or subject; or it may go into committee of the whole upon the general file of bills. In the first case the motion is—

"That the house do now resolve into a committee of the whole upon (bill No....., a bill.....), or (joint resolution No....., providing, etc.), or (upon all bills relating to.....), as the case may be."

In the second case it is—

"That the house do resolve itself into a committee of the whole upon the general file of bills."

Bills, resolutions, and general matters which have been once considered in committee of the whole, in which progress has been made and leave granted for further consideration, have the preference. The motion of the committee of the whole for their further consideration, must be made under the head of "bills in which the committee of the whole made progress and obtained leave to sit again;" and in which case the member who presided when the same matter was previously considered in committee of the whole, resumes the chair, unless the speaker name a different member.

The motion of the committee of the whole upon the general file must be made under the order of "bills not yet considered in committee of the whole."

When the house resolves itself into committee of the whole the speaker selects a chairman, as follows:

"The gentleman from....., Mr....., will take the chair." The appointed chairman advances to the speaker's desk, and, having taken the chair, receives from the clerk the papers indicated by the motion for the committee, when the chairman announces:

"Gentlemen: The committee have under consideration bill No.....entitled (reading the title from the back of the bill), or (in case of consideration of the general file) the committee have under consideration the general file of bills; the first in order is bill No....., entitled....."

"The clerk will read the first section."

The section read, the chairman asks:

"Are there any amendments proposed to the first section? If none, and no objections heard the section will be considered approved." This process is continued through the whole bill, when at the close of the reading the chairman says:

"The.....th section and the whole bill have now been read, and are open to amendments."

At this point, after the friends of the bill have perfected it, it is customary for the opponents of the bill to open their attack. After the discussion of the bill to such an extent as may be desired, if no amendments are made, the final vote is generally upon a motion: "That the bill be reported back to the house without amendment."

If any other bills are before the committee, they are proceeded with in the same manner.

If it is desired to have a further consideration of any matter before the committee, or if the general file has not been gone through with, the motion is,

"That the committee rise, report progress, and ask leave to sit again."

If the committee has completed its duties, the motion is,

"That the committee rise and report."

Which being analogous to a motion to adjourn, is not debatable. The chairman states the matter as follows:

"It is moved that the committee do now rise and report" (or otherwise as the case may be).

"Is the committee ready for the question?"

"Gentlemen: Those who are of the opinion that this committee do now arise and report (or as the case may be), say aye; those of the contrary opinion, say no."

In case of doubt, a division is usually had by standing. The ayes and noes may now, however, be called in committee of the whole, on demand of ten members.

When the committee rises, the speaker resumes his seat, and the chairman, through the chief clerk, reports as follows:

"Mr. Speaker."

"The committee of the whole have had under consideration bill No..... entitled....., and have instructed me to report the same to the house with amendments" (or as the case may be).

When the general file has been under consideration, the report is as follows:

"The committee of the whole have had under consideration the general file of bills, have gone through the same and have directed me to report to the house the bills contained therein, with sundry amendments and recommendations, as follows, to-wit:" (Here follow the titles of bills considered, with action taken upon them.)

In case the file has been left untouched the report is—

"The committee of the whole have under consideration the general file of bills, and have made some progress therein. I am directed to report back the following bills with the amendments and recommendations hereinafter specified, and ask leave for the committee to sit again." (Here follows the report of amendments, etc., as above.)

On the latter report the question is—

"Shall leave be granted?"

When, upon a count, it is ascertained that a quorum is not present, the report is—

"The committee of the whole have had under consideration..... and after some progress therein, find there is no quorum present; that fact I herewith report to you."

In case of confusion or disorder, the speaker of his own accord resumes the chair temporarily and without any formality, for the purpose of suppressing it. When order is restored, the chairman resumes the chair and the business proceeds.

Upon the coming in of a report, the recommendations are at once acted on by the house.

When, in committee of the whole, any member desires to offer an amendment, it must be reduced to writing and sent to the clerk, who reads it, and asks—

"Is the committee ready for the question upon the amendment?"

And if no further amendment or debate, he puts the question in the usual manner.

After a section is once passed, with an unsuccessful effort to amend it, no further amendments are in order. The strictness of this rule, is, however, not always adhered to—an amendment once made, may, however, be reconsidered. Such a motion is—

"That the amendment offered by the gentleman from.....to the.....th section be reconsidered:"

And it is stated as follows:

"The gentleman from.....moves that the amendment offered by the gentleman from..... to the.....th section be reconsidered."

"Is the committee ready for the question?"

"Those who are of the opinion that said amendment be reconsidered, say aye; those of a contrary opinion, say no."

In case the amendment is reconsidered, the chairman says:

"The motion is carried. The amendment is reconsidered. The question now recurs upon the adoption of the amendment. Is the committee ready for the question?" etc.

PASSAGE OF BILLS.

When the order of business entitled "Bills on third reading" is reached, at the conclusion of the reading of each bill, the speaker says: "This bill has been read at large on three separate days, and printed with all the amendments thereto. Agreeably to the constitution the yeas and nays will be taken on the final passage of the bill."

Upon the passage of a bill the presiding officer reads its title and says: "A constitutional majority having voted for the bill the bill is passed; the

question is as to the title. Is the title agreed to?" The title is generally agreed to, though it may be changed if the house so order.

FORMS.

The following forms are used when bills have become laws, as provided by the constitution other than by approval of the executive:

When a bill has not been returned by the executive within five days (Sundays excepted) after it has been presented to him for approval, the following certificate is attached, signed, and sent with the bill to the secretary of state:

"We hereby certify that the bill (here insert title) was presented to the governor on the.....day of.....A. D....., and the same not having been returned by him within five days (Sundays excepted) after such presentation, it has become a law agreeably to the constitution of this state.

Attest:

.....
Lieutenant-Governor.

.....
Secretary of the Senate.

.....
Speaker of the House.

.....
Chief Clerk of the House."

Or in case the legislature, by their adjournment, prevent the return of the bill, the following certificate should be made:

"We hereby certify that the bill (here insert title) was presented to the governor on the.....day of.....A. D....., that the legislature have thisday of.....adjourned, and that said bill has become a law agreeably to the constitution of this state unless the governor shall, within five days after such adjournment, file his objections thereto in the office of the secretary of state.

Attest:

.....
Lieutenant-Governor.

.....
Secretary of the Senate.

.....
Speaker of the House.

.....
Chief Clerk of the House."

When a bill has been passed over the veto of the governor by a three-fifths vote of all the members elected to each house, the certificates attached are as follows:

"We hereby certify that the bill entitled (here insert title) which has been disapproved by the governor, and returned with his objections to the senate (or house of representatives), in which it originated, was passed by three-fifths of the members elected to the senate on the.....day of.....A.D., and the foregoing is the act so passed by the senate.

.....
Lieutenant-Governor.

Lincoln, (date).

.....
Secretary of the Senate."

"We hereby certify that the bill entitled (here insert title) which has been disapproved by the governor, and returned with his objections to the house of representatives (or senate) in which it originated, was passed by three-fifths of all the members elected to the house of representatives on the.....day ofA.D....., and the foregoing is the act so passed by the house of representatives.

.....
Speaker of the House.

.....
Chief Clerk of the House."

RULES OF THE SENATE—1915.**QUORUM.**

1. The president having taken the chair and a quorum being present, the journal of the preceding day shall be read, to the end that any mistake may be corrected that may have been made in the entries. A quorum shall consist of a majority of the members of the senate.

COMPELLING ATTENDANCE OF ABSENTEES.

2. No member shall absent himself from the service of the senate without leave of the senate being first obtained. In case a less number than a quorum of the senate shall convene, they are hereby authorized to send the sergeant-at-arms, or any other person or persons by them authorized, for any or all absent members, as a majority of such members present may agree, at the expense of such absent members respectively, unless such excuse for non-attendance is made as the senate, when a quorum is convened, may judge sufficient; and in that case the expense shall be paid out of the contingent fund.

ORDER OF BUSINESS.

3. The following shall be the order of business:

1. Roll call.
2. Prayer by chaplain.
3. Correction of printed journal.
4. Petitions and memorials.
5. Reports from standing committees.
6. Reports from select committees.
7. Resolutions.
8. Notices and introduction of bills.
9. Bills on first reading.
10. Bills on second reading.
11. Special order.
12. Bills on third reading.
13. Bills on their passage.
14. Unfinished business.
15. Special order of the day.

UNFINISHED BUSINESS.

4. The unfinished business in which the senate was engaged at the last preceding adjournment shall have the preference in the special orders of the day.

HOURS OF MEETING.

5. The hours of meeting of the senate shall be at 10 o'clock a. m. and at 2 o'clock p. m. of each day, unless otherwise specially ordered by a vote of the senate.

CALLING MEMBERS TO THE CHAIR.

6. The president of the senate, or the temporary president, shall have the right to name a member to perform the duties of the chair, but such substitution shall not extend beyond an adjournment.

PARLIAMENTARY RULES.

7. The rules of parliamentary practice comprised in Gregg's Parliamentary Law shall govern the senate in all cases in which they are applicable, and in which they are not inconsistent with the standing rules and orders of the senate, and the joint rules of the senate and house of representatives.

DECORUM.

8. No member shall speak to another, or otherwise interrupt the business

of the senate, or read any newspaper, while the journals or other public papers are being read, or when any member is speaking in any debate.

9. Every member when he speaks shall address the president, and shall speak standing in his place, and when he has finished shall sit down.

RESTRICTIONS ON DEBATE.

10. No member shall speak more than twice in any one debate on the same day, without leave of the senate.

11. When two members rise at the same time, the president shall name the person to speak, but in all cases the member who shall first rise and address the president shall be entitled to the floor.

WHEN A MEMBER IS CALLED TO ORDER.

12. If any member in speaking, or otherwise, transgress the rules of the senate, the president shall, or any member may, call him to order; in which case he shall immediately sit down, unless permitted, on motion of another member, to explain; and the senate shall, if appealed to, decide on the case, without debate; if the decision is in favor of the member called to order, he shall be at liberty to proceed, but not otherwise; and if the case requires it, he shall be liable to censure or such punishment as the senate may deem proper.

13. If a member be called to order for words spoken, the exceptional words shall be immediately taken down in writing, that the president may be better enabled to judge the matter.

MOTIONS.

14. No motion shall be debated until the same is seconded, and the question stated by the chair.

15. When a motion is made and seconded, it shall be reduced to writing, if desired by the president or any member, and be delivered at the table and read before the same is debated.

DEBATE.

16. When a question is under debate, no motion can be received but to adjourn, for the previous question, to lay on the table, to postpone indefinitely, to postpone to a certain day, to commit or amend; which several motions shall have precedence in the order they stand arranged.

17. Any motion may be withdrawn or modified by the mover at any time before decision, amendment, or ordering of the yeas and nays, except a motion to reconsider, which cannot be withdrawn without leave of the senate. A motion to adjourn is always in order; that and any motion to lay on the table shall be decided without debate.

DIVISION OF QUESTION.

18. If a question in debate contains several points, any member may have the same divided; but on a motion to strike out and insert, it shall not be in order to move for a division of the question; but the rejection of a motion to strike out and insert one proposition shall not prevent a motion to strike out and insert a different proposition, nor prevent a subsequent motion to simply strike out; nor shall the rejection of a motion simply to strike out prevent a subsequent motion to strike out and insert.

RECONSIDERATION.

19. When a question has been once made and carried in the affirmative or negative, it shall be in order for any member of the majority to move for the reconsideration thereof; but no motion for the reconsideration of any vote shall be in order after a bill, resolution, message, or report, amendment or motion upon which the vote was taken, shall have gone out of possession of the senate, announcing their decision; nor shall any motion or reconsideration be in order unless made on the same day on which the vote was taken or within the next three days of actual session of the senate thereafter.

AYES AND NAYS.

20. When the ayes and nays are called for by two of the members present, each member called upon shall declare openly and without debate his assent or dissent to the question, unless for special reason he is excused by the senate. In taking the ayes and nays, and upon the call of the senate, the names of the members shall be taken alphabetically.

21. When the ayes and nays are taken on any question, in pursuance of the above rule, no member shall be permitted to vote after the decision is announced from the chair.

CALL OF SENATE.

22. A call of the senate shall be seconded by seven members, and the proceedings under the call may be suspended at any time thereafter by a majority vote of the members present.

PAIRING.

23. Whenever a senator desires to be absent he may make a pair with any senator who may agree to the same; the president of the senate to be notified of such pair.

STANDING COMMITTEES.

24. All standing committees of the senate shall be appointed by the senate.

25. The senate shall have the following standing committees:

Accounts and expenditures, in number.....	5
Agriculture	7
Banks and currency	7
Constitutional amendments and federal relations.....	7
Drainage, irrigation and water power.....	7
Education, university and normal schools and library.....	7
Enrolled and engrossed bills	5
Finance, ways and means	9
Claims and deficiencies	5
Fish and game	5
Highways, bridges and ferries	7
Insurance	9
Judiciary	9
Labor	5
Live stock and grazing	5
Manufactures, retail and commerce	7
Medical societies	5
Miscellaneous corporations	7
Miscellaneous subjects	5
Municipal affairs	5
Privileges and elections	5
Public institutions (including insane hospitals, reform schools and other asylums, soldiers' homes, state penitentiary, deaf, dumb and blind institutions, public lands and buildings)...	8
Railroads	9
Revenue and taxation	7
Rules	5
School lands and funds	5

SIFTING COMMITTEE.

26. A sifting committing consisting of seven senators may be elected by the senate, who shall have charge of all bills on general file, and report such bills as are deemed most important for consideration, and bills so reported and recommended shall take precedence in preference to other bills before the senate, except appropriation and claim bills, which shall be subject to special order at any time.

27. Each standing committee shall give notice in writing to this body through its chairman, at least twenty-four hours in advance, of the time and

place of meeting and of the bills to be considered by it, so that all persons interested may appear and request a hearing, subject to such limitations as the committee may impose.

MEMBERS EXCUSED ON COMMITTEE WORK.

28. All members of the senate shall be reported present by the secretary when absent on committee work, except when the ayes and nays are called. At such time absentees shall be notified to appear.

AMENDATORY BILLS.

29. If a section is to be amended, the formula should be, after the enactment clause:

That section.....of chapter.....of the code of civil procedure of the state of Nebraska (or the statute, as the case may be) be amended so as to read as follows: (Then follow the sections desired as amended, full and complete in themselves, and the last section of the new act should repeal the section which has been amended.)

Amendatory bills shall be so prepared and printed as to show the new matter proposed, old matter to be retained and old matter to be omitted from the statutes.

BILLS—READING, PRINTING, RECOMMITMENT.

30. Every bill shall receive three readings previous to its being passed, and the president shall give notice at each whether it be first, second or third, which readings shall be on different days. All resolutions to which the approbation and signature of the governor may be requisite, or which may grant money out of the contingent or any other fund, shall be treated in all respects, in the introduction and form of proceedings on them in the senate in a similar manner with bills; all other resolutions shall lie on the table one day for consideration.

REFERENCE OF BILLS.

31. No bill shall be committed or amended until it shall have been twice read. It shall then be printed, unless otherwise ordered by the senate, and then referred to its appropriate standing committee or to special committee. All amendments recommended by the committee to which it was referred shall be printed. After which it may be amended in committee of the whole or otherwise, and all amendments thereto shall be printed before the vote is taken on its final passage.

REPORT OF BILLS BY COMMITTEES.

32. Every bill and resolution referred to any special or standing committee shall be reported to the senate by such committee within four days after such reference, unless further time is especially granted by the senate, and if the committee desire to report favorably upon any bill or resolution, with amendments or otherwise, their recommendation shall be that it be placed upon the general file.

MEMORIALS AND PETITIONS.

33. Every petition, or memorial, or other paper, shall be referred of course, without putting a question for that purpose, unless the reference is objected to by a member at the time such petition, memorial or other paper is presented. Before any petition or memorial addressed to the senate is received and read at the table, whether the same be introduced by the president or a member, a brief statement of the contents of the petition or memorial may verbally be made by the introducer.

REFERENCE.

34. When motions are made for reference of the same subject to a select committee and to a standing committee, the question on reference to the standing committee shall be first put.

COMMITTEE OF THE WHOLE.

35. All bills or joint or concurrent resolutions, after they have been referred

to their appropriate standing or special committees, and have been reported back to the senate and printed, shall be placed on general file or calendar in the order in which they are reported back to the senate, and be considered by the senate in the committee of the whole before they are taken up and proceeded on by the senate, agreeably to the standing rules, unless otherwise ordered, and no bill shall be considered in committee of the whole on the same day it is placed on general file unless the senate by majority vote otherwise directs. When a bill or resolution is considered in committee of the whole, it shall be read section by section, and the amendments recommended by the standing committee shall first be considered for adoption or rejection, after which any other amendment may be offered; and the chairman of the committee of the whole shall report the action of said committee upon the several bills before it, back to the senate; and if the action of said committee upon any bill or resolution, originating in the senate, be favorable, then the recommendation of said committee shall be that such bill be engrossed for a third reading, with or without amendments, as the case may be. When the senate considers a bill or resolution, as a committee of the whole, the president or temporary president shall call a member to fill the chair during the time the senate remains in committee of the whole; and the chairman so called shall, during such time, have the power of a temporary president.

36. In filling up blanks, the largest sum and longest time shall be first put.

37. The rules of the senate shall be observed in the committee of the whole, so far as they may be applicable, except limiting the time of speaking and providing that the yeas and nays shall be taken upon the request of five members of the senate. When so taken the result shall be recorded and made a part of the report of the committee of the whole proceedings.

38. A motion that the committee rise shall always be in order and shall be decided without debate.

BILLS ON THIRD READING.

39. No amendment shall be offered or considered at a third reading of any bill, resolution or motion, unless by unanimous consent of the members present; but it shall, at all times, be in order before the final passage of any bill, resolution or motion, to move its commitment to the committee of the whole for specific amendment or to a standing committee, and such motion to commit shall be subject to discussion; and should such commitment to the standing committee take place, and any amendment be reported by the standing committee, the said bill, resolution or motion shall be again considered in committee of the whole.

40. When an emergency is expressed in the preamble or body of an act, as a reason why such act should take effect from and after its passage, or some day less than three calendar months after the adjournment of the session, the question shall be, "Shall the bill pass?" and if decided affirmatively by a vote of two-thirds of all the members elected to the senate, then the bill shall be deemed passed; but if upon such vote a majority of less than two-thirds of said members vote affirmatively on said question, then the vote on said bill shall be deemed reconsidered, and the chair shall state that the bill having failed to receive the two-thirds majority required by the constitution, has failed to pass with the emergency clause, and the question shall then be, "Shall the bill pass with the emergency clause stricken out?" whereupon the secretary shall again call the roll.

41. Engrossed and enrolled bills shall be typewritten.

42. There shall be a printed daily journal placed upon the desks of the members. The presiding officer shall call in the regular order for corrections thereof. After corrections are made the journal shall stand approved without motion. The bound journal shall be printed from the corrected forms.

MESSAGES.

43. Messages shall be sent to the house by the secretary, who shall previously certify the determination of the senate upon all bills, joint resolutions

or other resolutions which may be communicated to the house, or in which its concurrence may be requested.

44. Messages are introduced in any state of business, except when a question is being put, while the yeas and nays are being called, or while the ballots are being counted.

NOMINATIONS BY GOVERNOR.

45. When nominations are made in writing by the governor to the senate a future day shall be assigned, unless the senate unanimously direct otherwise, for taking them into consideration.

SECRET SESSION.

46. On a motion made and adopted to shut the doors of the senate on the discussion of any business which may, in the opinion of a member, require secrecy, the president shall direct the senate to be cleared of all persons, as provided in rule 48, and during the discussion of such motion the door shall remain shut.

47. No motion shall be deemed in order to admit any person or persons whomsoever within the doors of the senate chamber to present any petition, memorial, or address, or to hear any such read.

CONFIDENTIAL COMMUNICATIONS OF GOVERNOR.

48. All confidential communications made by the governor to the senate shall be by the members thereof kept secret. All information or remarks touching or concerning the character or qualifications of any person nominated by the governor to office shall be kept secret. When acting on confidential or executive business, the senate shall be cleared of all persons except the secretary and assistant secretary of the senate, sergeant-at-arms and doorkeeper. The legislative proceedings, the executive proceedings, and the confidential legislative proceedings of the senate shall be kept in separate and distinct books.

DISCLOSING SECRETS—PUNISHMENT FOR.

49. Any officer or member of the senate convicted of disclosing any matter directed by the senate to be held in confidence shall be liable, if an officer, to dismissal from the service of the senate, and in case of a member, to suffer expulsion from that body.

PRINTING PAPERS AND DOCUMENTS.

50. No paper or document, except bills, shall be printed for the use of the senate without special order.

PROCEEDINGS ENTERED ON JOURNAL.

51. The proceedings of the senate, when not acting in committee of the whole, shall be entered on the journal as concisely as possible, care being taken to detail a true and accurate account of the proceedings; but every vote of the senate shall be entered on the journal and a brief statement of the contents of each petition, memorial, or paper presented to the senate, shall also be inserted on the journal.

52. The titles of bills and such parts thereof only as shall be affected by proposed amendments shall be inserted on the journal.

SUPERVISION OF CAPITOL AND PASSAGES.

53. The senate shall have the regulation of such parts of the capitol and its passages as are or may be set apart for the use of the senate and its officers.

FLOOR, PRIVILEGES OF.

54. No person shall be admitted to the floor of the senate nor its offices except as follows: The members of the senate and its officers and employees, members of the house of representatives and its officers, state officers and their deputies and clerks, judges of the supreme court and the commissioners and district judges, senators and representatives in congress, and such other persons

as shall be admitted by card issued by the members of this body, which card shall contain the name of the person admitted and be signed by some member of the senate or its secretary and a record of the same kept by the sergeant-at-arms.

REPORTERS.

55. Reporters may be admitted to the floor of the senate, under the direction of the president, and are required to inform him what paper they report for.

SMOKING.

56. No smoking shall be allowed in the senate chamber or galleries during the session of the senate.

RULES AMENDED OR SUSPENDED.

57. These rules may be altered, amended or suspended by a majority of the members of the senate voting therefor.

RULES OF THE HOUSE—1915

1. The hour for convening shall be 9 o'clock a. m. and 1:30 o'clock p. m. each day, unless otherwise especially ordered.

2. Order of business of the day:

1. Prayer by the chaplain.
2. Roll call.
3. Call for correction of journal.
4. Petitions and memorials.
5. Reports of standing committees.
6. Reports of select committees.
7. Resolutions.
8. Introduction of bills.
9. Bills on first reading.
10. Bills on second reading.
11. Bills on third reading.
12. Special order of the day.
13. Unfinished business and messages on the speaker's desk.
14. Miscellaneous business.

3. Provided, however, that after correction of printed journal each day, the house shall proceed with the regular orders, commencing in the order upon which it was last engaged at the time of adjournment of the preceding day, first disposing of the particular business of the order which may have been pending at the adjournment, and as soon as the regular orders have been called through, the calls shall be resumed, beginning with the fourth order of business.

THE DUTIES OF THE SPEAKER

4. The speaker shall take the chair every day precisely at the hour to which the house shall have adjourned on the preceding day; shall immediately call the members to order, and on the appearance of a quorum shall call for corrections of the journal of the preceding day.

5. The speaker shall have general direction of the hall, shall preserve order and decorum, and shall permit no smoking therein.

6. The speaker shall have a right to name any member to perform the duties of the chair, but such substitute shall not extend beyond the adjournment, and in case of the absence of the speaker, the chairman of the judiciary committee shall act as speaker.

7. The speaker shall rise to put a question, but may state it sitting.

8. Questions shall be distinctly put in this form, to-wit: Those who are in favor of the question, say "Aye," and after the affirmative vote is given, those who are opposed to the question say "No."

9. If a division is called for, or if the speaker is in doubt, he shall call for a rising vote; those in the affirmative of the question shall rise and remain

standing until counted, and afterwards those in the negative shall do likewise. Provided, that when requested by two members the speaker shall appoint two tellers, who shall assist the clerk in making the count.

10. The speaker may speak to the point of order in preference to other members, rising from his seat for that purpose, and shall decide questions of order, subject to an appeal to the house by any two members, on which appeal no member shall speak more than once, unless by leave of the house.

11. All votes shall be taken viva voce, except when division or roll call is demanded.

12. All committees, except standing committees, shall be appointed by the speaker unless otherwise especially directed by the house. All standing committees shall be selected by the house in such manner as it may direct.

13. All acts, memorials, and joint resolutions passed by the legislature shall be signed by the speaker in the presence of the house, while in session and capable of transacting business, all writs, warrants, and subpoenas issued by the order of the house shall be under his hand and seal, attested by the clerk.

ORDER OF MOTION.

14. When a question is under debate no motion shall be received but to adjourn, to lay on the table, for the previous question, to postpone to a certain time, to commit or amend, or to postpone indefinitely; which several motions shall have precedence in the order in which they are arranged; and no motion to postpone to a certain time, to commit, or to postpone indefinitely, being decided, shall again be allowed on the same day at the same stage of the bill or proposition. A motion to strike out the enacting words of a bill shall have precedence over a motion to amend, and if carried, is equivalent to rejection of the bill.

EVERY MOTION TO BE REDUCED TO WRITING.

15. Every motion shall be reduced to writing, if the speaker or any member desire it.

MOTION TO BE STATED BY THE SPEAKER BEFORE BEING DEBATED.

16. When a motion is made and seconded, it shall be stated by the speaker or being in writing shall be read aloud by the clerk before being debated.

MOTION MAY BE WITHDRAWN BY CONSENT.

17. After the motion is stated by the speaker, or read by the clerk, it shall be deemed in possession of the house, but may be withdrawn at any time before a decision or amendment by unanimous consent.

THE MOTION TO ADJOURN.

18. A motion to adjourn, a motion to fix the day to which the house shall adjourn shall always be in order, except

- (a) While a member is speaking.
- (b) When a motion to adjourn has just been defeated.
- (c) When a motion to fix the day to which the house shall adjourn has just been defeated.
- (d) After the third reading of a bill and during roll call thereon.

HOUR OF ADJOURNMENT TO BE ENTERED ON JOURNAL.

19. The hour at which the house adjourns shall be entered on the journal.

THE PREVIOUS QUESTION.

20. The previous question shall be in this form: "Shall the debate now close?" It shall be admitted when demanded by five or more members and must be sustained by a majority vote, and until decided shall preclude further debate and all amendments and motions except one motion to adjourn and one motion to lay on the table.

NO DEBATE ON PREVIOUS QUESTION.

21. On a previous question there shall be no debate. All incidental questions of order, arising after a motion is made for a previous question, and pending such motion, shall be decided, whether on appeal or otherwise, without debate.

RECONSIDERATION.

22. When a motion has been once made and carried in the affirmative or negative, it shall be in order for any member of the majority to move a reconsideration thereof on the same day or the succeeding day, and such motion shall take precedence of all other questions except a motion to adjourn, and shall require for its adoption a majority of the members elected to the house.

DECORUM AND DEBATE.

23. When any member is about to speak in debate or deliver any matter to the house, he shall arise from his seat and respectfully address himself to "Mr. Speaker," and when recognized shall confine himself to the question upon debate, and avoid personalities.

NO MEMBER SHALL SPEAK MORE THAN ONCE EXCEPT.

24. No member shall speak more than once on the same question without leave of the house, except in explanation, unless he be the mover or proposer or introducer of the matter pending, in which case he shall be permitted to speak in reply, but not until every other member choosing to speak shall have spoken.

25. If a question pending be delayed by adjournment of the house and resumed on the succeeding day, no member who shall have spoken on the preceding day shall be permitted again to speak without leave, except it be the mover, proposer, or introducer of the matter pending, who shall have the same right as in the last preceding rule.

NO MEMBER OR COMMITTEE TO BE ABSENT WITHOUT LEAVE.

26. No member shall absent himself from the service of the house unless he have leave, or be sick or unable to attend. And no standing committee shall absent itself except by leave of the house.

EVERY MEMBER SHALL VOTE UNLESS EXCUSED.

27. Every member who shall be in the house when the question is put shall give his vote.

NO MEMBER WITHOUT THE BAR SHALL BE COUNTED.

28. Upon division and count of the house on any question, no member without the bar shall be counted.

ANY TWO MEMBERS MAY CALL FOR THE YEAS AND NAYS.

29. Any two members may call for the yeas and nays upon any question, and when taking the yeas and nays, the names of the members shall be called alphabetically.

ANY FIVE MEMBERS MAY DEMAND A CALL OF THE HOUSE.

30. Any five members may demand a call of the house; a majority of the members present may compel the presence of all members to a call of the house.

CALL OF THE HOUSE.

31. Upon the call of the house, the names of the members shall be called over by the clerk and the names of the absentees noted, after which the names of the absentees shall be again called over. The doors shall then be closed, and a majority of those present, if five in number, may compel the presence of all members subject to a call of the house. Provided, that a call of the house may be suspended at any time by vote of a majority of the members present.

VERIFYING THE VOTE.

32. Any member may demand the verification of the vote on roll call. Provided, that on the final passage of bills the verification shall be made.

ANY MEMBER MAY CALL FOR A DIVISION OF THE QUESTION.

33. Any member may call for a division of the question, which shall be divided if it comprehend propositions in substance so distinct that, one being taken away, a substantive proposition shall remain for the decision of the house. A motion to strike out and insert shall be deemed indivisible; but a motion to strike out being lost, shall not preclude an amendment nor a motion to strike out or insert.

INTRODUCTION OF BILLS.

34. Members shall introduce such bills only as they are willing to give their personal endorsement and defend.

35. Every bill shall be introduced on the report of a committee, or by any member, when the introduction of bills is called for; or at any time by leave.

36. Every bill and concurrent resolution shall be read at large on three different days, and the bill and all the amendments thereto shall be printed before the vote is taken upon its final passage.

37. Every bill, joint and concurrent resolution, upon its introduction, shall be read the first time.

38. Amendatory bills shall be so prepared and printed as to show the new matter proposed, old matter to be retained and old matter to be omitted from the statutes.

39. Upon the second reading of a bill, the speaker shall refer it to the proper standing committee, which shall report it back within five legislative days, unless referred by the house to the committee of the whole, and if not ordered to be engrossed on the day of its being reported, it shall be placed on a general file on the speaker's table to be taken up in its order.

40. Two hundred and fifty (250) copies of every bill shall be printed, after a second reading, unless otherwise ordered, and all bills, resolutions, and memorials that shall be printed shall remain at least one day on the files after being printed, before being considered.

41. After commitment and report thereof to the house, or any time before a bill is ordered to a third reading, it may be recommitted.

42. After a bill shall have been ordered to a third reading, two hundred and fifty (250) copies of the amendments thereto shall be printed, unless the house orders the entire bill printed as amended, and no amendments thereto shall be afterwards allowed except for special corrections.

43. Bills shall be engrossed and enrolled by typewriter.

44. Upon the passage of every bill or joint resolution, the vote shall be yea and nay, and this rule shall not be suspended.

45. The question after the third reading of the bill shall be stated as follows: "This bill having been read at large on three different days, and the same with all its amendments having been printed, the question is, shall the bill pass?"

JOURNALS.

46. There shall be a printed daily journal placed upon the desks of the members. The presiding officer shall call in the regular order for corrections thereof. After corrections are made the journal shall stand approved without motion. The bound journal shall be printed from the corrected forms.

47. When an emergency is expressed in the preamble or body of an act as a reason why such act should take effect prior to the expiration of the three calendar months after the adjournment of the session at which it was passed, the question shall be: "Shall the bill pass?" And if two-thirds of all the members elected to the house shall vote in the affirmative the bill is passed with the emergency clause; but if, upon such vote, a majority of all the members elected, but less than two-thirds, vote in the affirmative, then the emergency clause is considered as stricken out and the bill without the emergency clause is pending on its third reading.

APPROPRIATION BILLS.

48. All necessary appropriation bills for the general state government for the biennium shall take precedence over all other bills on the general file.

SPECIAL ORDER.

49. When a bill shall have been made a special order for a definite time and an adjournment should intervene for a time beyond the time fixed for such special order, then in that event the bill so made a special order shall be placed in its order on the general file.

50. It shall require a vote of a majority of the members elected to the house to expend money by the legislature or to change the compensation of any officer or employee.

THE ORDER OF COMMITMENT.

51. When a resolution shall be offered or a motion made to refer any subject, and different committees proposed, the question shall be taken in the following order: The committee of the whole; standing committee; a select committee.

DIFFERENT PROPOSITION UNDER COLOR OF AMENDMENT NOT ADMISSIBLE.

52. No motion or proposition, or subject different from that under consideration shall be admitted under color of amendment. No bill or resolution shall at any time be amended by annexing thereto, or incorporating therewith, any other bill or resolution before the house.

READING OF PAPERS MUST HAVE CONSENT.

53. When the reading of a paper is called for, and the same is objected to by any member, it shall be determined by vote of the house.

RESOLUTIONS TO LIE OVER.

54. All resolutions, except by unanimous consent of the members present, shall lie over for consideration until the following day, or until the next day's session of the house.

MESSAGE TO THE SENATE.

55. All messages from the house to the senate shall be transmitted by the clerk or assistant clerk of the house, or by a special committee appointed for that purpose.

STANDING COMMITTEES.

56. Twenty-nine standing committees shall be selected by the house, which shall name one member of each committee to be chairman. The names and membership of said committees shall be as follows:

Accounts and expenditures	5
Agriculture	11
Banks and banking	9
Cities and towns	11
Claims and deficiencies (combined)	11
Constitutional amendments	7
Corporations	9
Education (includes university and normal schools, public schools and libraries)	11
Irrigation, drainage and water power (first two combined, last one added)	11
Employees	3
Engrossed and enrolled bills	3
Fees and salaries	7
Finance, ways and means	11
Fish culture and game	7
Insurance	9
Judiciary	11
Labor	7

Live stock and grazing	7
Manufactures, retail and commerce (combined).....	5
Medical societies	5
Miscellaneous subjects	11
Privileges and elections	7
Railroads	9
Revenue and taxation	11
Roads and bridges	11
Rules	6
School lands and funds	7
State institutions (includes insane hospitals, other asylums, public lands and buildings, soldiers' homes, state peniten- tiary)	9
Telegraph, telephone, and electric companies.....	9

57. The several standing committees of the house shall have leave to report by bill or otherwise.

FINAL COMMITTEE ACTION ON BILLS.

58. Final action in reporting bills shall be taken only at regular meetings of committees. A record of the vote in standing committees shall be kept and made a part of each report on bills and in the house journal.

COMMITTEES ENTITLED TO CLERKS.

59. There shall be a clerk for each of the following committees, and for any other committee to which the house, by a vote thereof, may allow such clerk; Provided, the clerk shall be appointed and removed by the committee on employees:

- Judiciary.
- Finance, ways and means.
- Engrossed and enrolled bills.
- Claims and deficiencies.

A PRIVILEGED COMMITTEE.

60. It shall be in order for the committee on engrossed and enrolled bills to report at any time.

SERGEANT-AT-ARMS.

61. A sergeant-at-arms shall be elected, to hold his office during the pleasure of the house, whose duty it shall be to attend the house during its sittings, to execute the commands of the house from time to time, together with all such processes issued by authority thereof, as shall be directed to him by the speaker.

HOUSE MAY REMIT PENALTY.

62. When a person shall be discharged from custody and admitted to his seat, the house shall determine whether such discharge shall be without fees; and in like manner, whether a delinquent member taken into custody by a special messenger shall, or shall not, be liable to defray expense of such messenger.

ALL OFFICERS TO BE SWORN.

63. All officers shall be sworn to keep the secrets of the house, in case of an executive session.

WHO ADMITTED TO THE PRIVILEGE OF THE FLOOR.

64. No person shall be admitted to the floor of the house except members and officers of the house and senate, judicial and state officers, and such other persons as the house may deem proper to admit. Provided, that during the third reading of bills no one but members and officers of the house shall be admitted to the floor thereof and during roll call on the passage of bills, the members present shall be in their seats.

ROLL CALL IN COMMITTEE OF THE WHOLE.

65. When the house is in committee of the whole, any ten members may

demand a roll call on any question. And the roll call, together with completed proceedings relative to the question on which the roll call was taken, shall be placed in the journal and shall be made a part of the records of this house.

TELLERS IN COMMITTEE OF THE WHOLE.

66. When the house is in committee of the whole and division is called for on any question, any two members may ask for the appointment of two tellers to assist the clerk in making the count.

67. Final action in reporting bills shall be taken only at regular meetings of committees. A record of the vote in standing committees shall be kept and made a part of each report on bills and in the house journal.

68. List of officers and employees as recommended, with addition of two proof-readers, a house messenger instead of one jointly with the senate and with postmaster and mail carrier stricken out. One clerk shall be assigned to the committee on claims and deficiencies. This makes a total of 33, as follows:

OFFICERS AND EMPLOYEES OF THE HOUSE.

Chief clerk	1
First assistant	1
Second assistant	1
Chaplain	1
Sergeant-at-arms	1
Assistant sergeant-at-arms	1
Clerks—Claims and deficiencies	1
Enrolling and engrossing room	1
Bill room	4
Judiciary committee	1
Finance committee	1
Mimeographer	1
Subject to call	2
Stenographers—For chief clerk's office	2
For enrolling and engrossing room	2
Subject to call	4
Timekeeper and bookkeeper	1
Custodians	2
Messenger	1
Pages	2
Proof-readers	2
<hr/>	
Total	33

69. Time of Employees. Employees shall be allowed the amount provided by statute for regular service for eight hours per day and for overtime on the basis of time and a half per each hour of such overtime.

70. Selection of Employees. The following shall be chosen by ballot of the members:

Chief clerk.
First assistant clerk.
Second assistant clerk.
Chaplain.
Sergeant-at-arms.
Assistant sergeant-at-arms.

Other employees of the house shall be selected by a committee of three members, one of whom shall be from the eastern part of the state, one from the central part and the third from the western part. Such committee shall be chosen by the house.

This committee on employees shall have authority to select and employ such number of persons as may be determined upon by the house, and they shall have complete supervision of all such employees and shall have power to discharge the same. No additional help shall be employed by such committee except by a majority vote of the house. The committee on employees shall make

a detailed and itemized report to the house once every two weeks concerning the number of house employees, and the amount paid out for their services, especially setting out the amount of regular time and overtime and to whom paid.

GREGG'S PARLIAMENTARY LAW SHALL GOVERN EXCEPT.

71. The rules of parliamentary practice comprised in Gregg's Parliamentary Law shall govern the house in all cases to which they are applicable, and in which they are not inconsistent with standing rules of the house, and the joint rules of the senate and house.

RULES, HOW CHANGED.

72. No standing rule or order of the house shall be rescinded, changed or suspended, except by a vote of at least a majority of the members elected; nor shall the order of business, as established by the rules of the house, be postponed or changed, except by a vote of a majority of the members elected.

JOINT RULES—1915.

CONFERENCE COMMITTEES.

1. In every case of an amendment of a bill agreed to in one house and dissented to in the other, if either house shall request a conference and appoint a committee for that purpose and the other house shall appoint a committee to confer, such committee shall, at a convenient hour, to be agreed upon by their chairman, meet and state to each other verbally, or in writing, as either shall choose, the reason of their respective houses for and against the amendment, and confer freely thereon.

MESSAGES FROM THE SENATE.

2. When a message shall be sent from the senate to the house of representatives, it shall be announced at the door of the house by the sergeant-at-arms, and shall be respectfully communicated to the chair by the person by whom it may be sent.

MESSAGES TO THE SENATE.

3. The same ceremony shall be observed when a message shall be sent from the house of representatives to the senate.

WHEN MESSAGES MAY BE TRANSMITTED.

4. Messages may be transmitted from one house to the other at any time while the house to which the message is sent is in session; provided neither house shall have adjourned for a longer period than one day.

ALL BILLS SHALL BE SIGNED.

5. All bills shall be signed by the secretary or chief clerk of the house in which they originated, before the transmission to the other house.

BILLS THAT HAVE PASSED TO BE ENROLLED.

6. After a bill shall have passed both houses, it shall be duly enrolled by the enrolling clerk of the house in which it originated before it shall be presented to the governor.

DUTY OF JOINT COMMITTEE ON ENROLLED BILLS.

7. When a bill is duly enrolled, it shall be examined by the committees of the two houses on enrolled bills, acting jointly, who shall carefully compare the enrolled bill with the engrossed bill as passed by the two houses. Said committee shall correct any errors that may be discovered in the enrolled bill, and make their report forthwith to their respective houses.

8. After examination and report each bill shall be signed in their respective house, first by the speaker of the house of representatives, then by the president of the senate, there being endorsed on the roll a certificate of the secretary or chief clerk of the house in which the same originated.

9. After a bill shall have thus been signed in each house, it shall be presented by said committee to the governor for his approval, and the said committee shall report the day of presentation to the governor, which time shall be carefully entered on the journal of each house.

10. All orders, resolutions and votes which are to be presented to the governor for his approval shall also, in the same manner, be enrolled, examined and signed, and shall be presented in the same manner and by the same committee as provided in the case of bills.

JOINT ADDRESS TO THE GOVERNOR.

11. When the senate and house of representatives shall judge it proper to make a joint address to the governor, it shall be presented to him by the president of the senate, in the presence of the speaker and both houses.

A MEASURE ONCE REJECTED IN ONE HOUSE CAN BE RENEWED BY A TWO-THIRDS VOTE.

12. When a bill, or resolution, which has been passed in one house shall be rejected in the other, it shall not be brought in during the same session, without leave of two-thirds of that house within which it shall be renewed.

EACH HOUSE SHALL TRANSMIT PAPERS WHEN DEMANDED.

13. Each house shall transmit to the other, in case they are demanded, all papers on which any bill or resolution shall be founded.

EACH HOUSE TO GIVE NOTICE TO THE OTHER.

14. When a bill or resolution which has been passed in one house shall be rejected in the other, notice thereof shall be given to the house in which the same originated; and after each house shall have adhered to its disagreement, a bill or resolution shall be lost.

JOINT CONVENTION.

15. Whenever there shall be a joint convention of the two houses the proceedings shall be entered at length on the journal of each house. The president of the senate shall preside over such joint convention, and the secretary of the senate shall act as clerk thereof, assisted by the chief clerk of the house.

NO ADJOURNMENT LONGER THAN THREE DAYS.

16. Neither house shall adjourn during any session thereof, without the consent of the other, for a longer period than three days.

CALL OF THE HOUSE.

17. A call of the house may be made when in joint session on motion seconded by five members, and the proceedings under the call shall not be suspended except by a majority of the members elected.

18. That hereafter, when members of either of said bodies pair with each other on their vote for United States senator, the same shall be expressed in writing, signed by the parties and presented to and announced by the presiding officer of the body of which they are members, and made a part of the record. And neither party, thus paired, shall be allowed to cast his vote for United States senator during the continuance of the time for which the pair was made, unless, both parties being present, the same shall be withdrawn.

LEGISLATIVE EMPLOYES AND EXPENSES.

SECRETARIES OF SENATE, CHIEF CLERKS OF HOUSE AND PAY RECEIVED

NEBRASKA LEGISLATIVE APPORTIONMENTS, 1854-1911.

There have been eleven legislative apportionments of Nebraska, five in the territorial and six in the state period.

The organic act of Nebraska territory, known in history as the Nebraska-Kansas bill, signed by President Franklin Pierce, May 30, 1854, fixed the membership in the upper house (called council) of the Nebraska legislature at 13 and that of the lower house at 26 members. The legislature was authorized to increase the membership in the lower house to 39 members, but was not to alter that of the council. The first apportionment was made by Acting-Governor Cuming November 23, 1854, under authority of a clause in the organic act. There was violent objection to the fairness of this apportionment arising chiefly out of the contest between Bellevue and Omaha for the territorial capital.

The first territorial legislature met January 16, 1855, at Omaha and passed an apportionment bill specifying that the number of members in the house should not exceed 29.

The next apportionment was made the following year, 1855-56, by Governor Izard, under an act of the legislature fixing the membership of the house at 35 and leaving the governor to make the apportionment. There was strong criticism of this apportionment, which gave the North Platte section, with a population less than one-half of the South Platte, 7 members of the upper house against 6 to the South Platte.

The next apportionment in 1858 was made under an act of the legislature itself which provided for a membership of 39 and included five new counties. The governor's apportionment seems to have provision for only 35 and in the next session there were but 33 lower house members. Between 1857 and 1864 there were no new general legislative apportionments, but numerous changes were made by creation of new districts or attaching counties to other districts.

In 1864 another legislative apportionment was made. Representation from the North Platte was reduced from 7 to 6 in the council and from 19 to 16 in the house.

The first state apportionment was made in 1867, under the new constitution adopted June 2, 1866, and did not alter the total number of members in either house. It changed the name of the upper house from council to senate.

The next apportionment was made in 1871. At the time it was made it appears to have been a very fair one. But immigration was pouring into the state at a very rapid rate and by the autumn of 1873, two years and a half after the apportionment, the population of the state had doubled and most of the increase had been in the counties west of the sixth principal meridian. The sentiment in the western counties for additional representation in the legislature had grown to a positive demand. Ten of the thirteen members of the senate represented the Missouri river counties and the first tier of counties west of them leaving but three senators to represent the rest of the state. The 12th senatorial district included 23 counties in the South Platte with a population of 50,000, or one-fourth of the total population of the state, with one member in the house. Eight of the South Platte counties together had one member in the house, while Richardson county with less population had three members.

The movement for an increased representation of the western part of the state grew steadily during the winter of 1874. On May 14 of the same year a convention of western Nebraskans was held in Lincoln to discuss this subject. The convention decided to await the result of the October election which would indicate the popular demand for a new constitution, and then advocate a called session of the legislature to secure the political rights of the western counties. This plan failed and a new one was adopted. A meeting of the friends of the western section was arranged to be held at Kearney Junction immediately after the state central committee had made the call for the republican state convention in 1874. If the west did not obtain from the state committee the representation it was entitled to in the convention, it resolved to oppose all

candidates nominated by the faction which denied them their rights. The threat succeeded. The state central committee issued the call for a convention of 259 delegates, and the republicans west of the sixth principal meridian secured what they asked, one additional delegate being given to each county in that region.

The constitutional convention of 1875 made the next legislative apportionment. It increased membership in the senate from 13 to 33 and fixed the upper limit in the house at 100. The entire state was re-districted and representation of the western counties greatly increased. On the basis of population both North and South Platte were fairly treated. Only 30 senators and 84 representatives were apportioned by the constitutional convention, the future increase to 33 for the senate and 100 for the house being left for future acts of the legislature. The constitution of 1875 also required the legislature to make a new apportionment at its first session after the United States census and after each state census which it required to be taken in 1885 and each ten years thereafter.

The legislature of 1881 made a reapportionment, increasing membership in the senate to 33 and in the house to 100, the full number permitted by the constitution. This apportionment on the whole seems to have been fairly made.

A state census was taken in 1885, the only one taken under the requirement of the constitution, and in 1887 the legislature reapportioned the state. In this apportionment Nemaha and Johnson counties, Rock and Brown were given larger representation than they were entitled to, due perhaps to the unwillingness of the committee to form large float districts.

The western half of the state filled very rapidly with new settlers in the years following 1887. By the time of the next United States census in 1890 all the unorganized territory had been formed into counties. A reapportionment at this time would have taken representation away from the eastern part of the state and placed it in the west. After a long and acrimonious debate the legislature of 1891 killed the apportionment bill required by the state constitution. The same action was repeated in 1897 and again in 1901.

It was not until the session of 1911, fourteen years after the previous apportionment, that the legislature redistricted the state. The maps which accompany this chapter set forth in graphic form the equity of different apportionments. The tables which follow present the condensed data of these apportionments.

APPORTIONMENTS NORTH AND SOUTH

The plus mark denotes that the following was a divided representation with the other section.

Years	Senate			House		
	North Platte	South Platte	Total	North Platte	South Platte	Total
1855	7	6	13	14	12	26
1855-6	7	6	13	12	16	28
1858	7	6	13	19	20	39
1864	5 + 1	7 + 1	13	16	23	39
1867	5	8	13	15 + 2	22 + 2	39
1871	4 + 2	7 + 2	13	15 + 3	21 + 3	39
1875	11 + 2	17 + 2	30*	26 + 5	49 + 5	80*
1881	13	20	33	40	60	100
1887	14 + 4	15 + 4	33	43 + 3	54 + 3	100
1911	17 + 1	15 + 1	33	55 + 1	44 + 1	100

*1875. This apportionment of members has only 30 senators and 80 representatives.

The Platte river with its south fork divides Nebraska into north and south groups of counties, as follows:

NORTH.			SOUTH.		
Antelope.	Deuel.	Madison.	Adams.	Hamilton.	Pawnee.

MILITARY HISTORY AND MILITIA.

In September, 1819, Colonel Henry Atkinson, then of the Sixth Infantry, established a military camp near the site of the Council Bluff where Lewis and Clark first held a council with the Indians. Subsequently Fort Atkinson was established on this bluff. This was the first military post and the first settlement of consequence on Nebraska soil. A regiment of infantry and another of riflemen made up the garrison. The fort was abandoned on June 15, 1827. The present village of Fort Calhoun adjoins the site of old Fort Atkinson.

Protection of whites from Indians and of warring Indian tribes from each other later made the establishment of other forts necessary. In July, 1847, old Fort Kearney was established on the west bank of the Missouri river fifty miles south of Omaha, where Nebraska City was afterward located. Lieutenant-Colonel Ludwell E. Powell and five companies of soldiers wintered there, but this fort was abandoned in May, 1848, and its name was given to Fort Childs which had just been established on the Platte river about five miles from the present site of the city of Kearney. The block house at Old Fort Kearney was used as a newspaper office in 1854, the *News of Nebraska City* being printed there. The new Fort Kearney was permanently established in July of 1848, after one or two trial sites had been abandoned. Its name was given in honor of Brigadier-General Stephen W. Kearney who died October 8, 1848. This fort was one of the defenses of the stream of west-bound adventurers and settlers for many years. It was abandoned on May 17, 1871. During this time it was occupied by both regular and volunteer troops—the First Nebraska regiment being among the latter. In 1850 a military road was established which connected Fort Leavenworth in Kansas with Fort Kearney.

The policy of the government was to have a string of forts to protect the Oregon trail.

Fort Laramie, now in Wyoming, was the most famous of all Nebraska territory's forts. It was established by fur traders as early as 1834, and was sold to the United States June 26, 1849. It was abandoned as a military post on April 27, 1890.

In 1855 two forts were located in Nebraska Territory. Fort Grattan at Ash Hollow, 188 miles west of Fort Kearney, was established on September 8, and almost immediately (October 1) abandoned. Fort Pierre, now in South Dakota, was established July 7, 1855, and abandoned May 16, 1857.

Nebraska having established a territorial government in 1854, a proclamation of Acting-Governor T. B. Cuming of date December 23, 1854, recited that settlers were continually threatened by Indian depredations and recommended that two regiments of volunteers, one north and one south of the Platte be organized. Governor Cuming appointed the regimental officers. Early in 1855 General John M. Thayer was commissioned as brigadier-general, A. J. Hanscom as colonel of the First regiment, and John W. Boulware as colonel of the Second regiment. On July 30, 1855, Governor Izard ordered General Thayer to raise a volunteer company, which, with the "First company" were to be stationed near Fontanelle, Dodge county, to protect the lives and property of settlers until the federal government should afford adequate protection. A company was, accordingly, stationed in that vicinity, another at Elkhorn City, and another at Tekamah.

On January 23, 1856, the legislature passed an act organizing the Nebraska volunteer militia. The organization was to consist of one brigade on either side of the Platte river. The first major general and brigadier generals were to be chosen by the legislature in joint convention and after that by the commissioned brigade and regiment officers. Each company was to elect its own officers. On January 24, 1856, the legislature in joint session elected John M. Thayer major general, L. L. Bowen brigadier general of the First brigade, and H. P. Downs brigadier general of the second brigade. On July 1 or 2, 1859, General Thayer headed an expedition to deal with Pawnees who had been

troubling settlers in the vicinity of West Point and beyond. A detachment of the United States Fourth artillery regiment joined this expedition.

The beginning of the Civil war found Nebraska Territory with only Fort Kearney and Fort Laramie maintaining garrisons, and the necessity for protection from the Indians as imperative as ever. Nevertheless, Nebraska furnished 3,307 men and officers to the Union armies. The First Nebraska volunteer regiment was organized in June and July, 1861, as an infantry regiment, with 1,370 officers and men. On July 30, 1861, Colonel John M. Thayer and the First battalion left for Missouri. The rest of the regiment joined the First battalion in August and were in service during the winter at Fort Donelson and the battle of Shiloh. In November, 1863, the regiment was transferred to the cavalry service and later was sent to Arkansas. In January, 1864, the veterans were granted a furlough and returned at once to Omaha. Upon the expiration of the furlough in August, they were ordered to Fort Kearney, arriving there on August 23, 1864. The regiment was reorganized by an order dated January 31, 1865, under the name of First Nebraska cavalry, and was engaged in scouting and fighting Indians until it was mustered out on July 1, 1866.

In December, 1861, the Nebraska battalion of what became known as the Curtis horse regiment was recruited at Nebraska City and Omaha. After being in active service in Kentucky until June 25, 1862, this regiment became the Fifth Iowa cavalry and served until the close of the war. Many Nebraskans were enlisted in the companies recruited in neighboring states. In addition to white troops from Nebraska, there were in the government service two companies of Indian scouts, one of Pawnees and one of Omahas. These served during the latter part of the war.

During the absence of the Nebraska troops at the front, there was great need of protection from Indians. An additional fort was established on September 27, 1863, near Cottonwood Springs in what is now Lincoln county about six miles from Maxwell on the south side of the Platte. The first name of this fort was Cantonment Fort McKean. This was changed to Post of Cottonwood in February, 1864, to Fort Cottonwood in May, 1864, and to Fort McPherson February 20, 1866. In 1873 a portion of this reservation was set aside for a national cemetery in which have been buried over 700 of those who died on the frontier—pioneers and soldiers. Fort McPherson was abandoned as a military post in 1880.

To meet the necessities of the frontier on July 31, 1862, Governor Saunders issued an order requiring "all male residents of the territory between the ages of 21 and 45" to enroll forthwith in independent militia companies of not less than thirty-five nor more than sixty-four persons each.

At this time government recruiting officers had been sent into Nebraska to fill up regiments credited to other states. This was resented by many Nebraskans because of the need of protection from Indians. On August 18, 1862, Governor Saunders issued a proclamation notifying such recruiting officers to desist immediately, and forbidding all citizens of the territory to enlist in any regiment not recruited under his authority.

In September, 1862, upon representations of Acting-Governor Paddock concerning the necessity for frontier defense, federal officers came to Nebraska to organize the Second regiment of Nebraska cavalry. This regiment was mustered in with R. W. Furnas as colonel and was sent to do frontier work. On September 3, 1863, this regiment took part in an engagement with Indians at Whitestone Hills, now in South Dakota. Their enlistment was for nine months, at the expiration of which the regiment was mustered out.

In August, 1864, Sioux and Cheyenne Indians raided settlements in Nebraska, and Governor Saunders called out four companies of militia and a detachment of artillery. The most conspicuous depredation of this time occurred at Plum Creek, now Lexington, and is known as the Plum Creek massacre. So great was the excitement that Adjutant General W. H. S. Hughes* on August 22 called on all able-bodied men in the territory between the ages of

* The office of adjutant general had been created by legislative act approved February 15, 1864.

18 and 45 to enroll themselves in the militia. The companies called out by Governor Saunders furnished their own horses and rendered important service in guarding the overland trail. One of these companies served in the active campaign against the Indians, under Major General S. R. Curtis. Under General Curtis, also, Captain (afterwards Major) Frank J. North, of Platte county, served with his company of Pawnee scouts. At intervals from this time until the spring of 1877 Major North and his Pawnee scouts were of the greatest service to the military authorities and settlers on the frontier.

Fort Sidney (formerly Sidney barracks) was established December 13, 1867, as a sub-post of Fort Sedgwick, Colorado Territory. It became an independent post November 28, 1870, and was abandoned June 1, 1874.

Fort Omaha, four miles above Omaha, was established December 5, 1868. It was known as Omaha barracks until 1878. Since September 16, 1896, when the troops were withdrawn after Fort Crook became an accomplished fact, it has served as a quartermaster's depot, and afterwards as a U. S. signal service station.

Continued warfare on the border was characteristic of the period during the building of the Union Pacific railroad. After the close of the civil war, more regular troops could be spared for frontier work.

On September 5, 1874, Fort Hartsuff was established on the north side of the Loup river, seventy-six miles from Grand Island, and abandoned May 9, 1881. On May 8, 1874, Fort Robinson was established at the Red Cloud agency, about three miles from the present site of Crawford. There is no longer an Indian agency at this point.

Fort Niobrara, at Valentine, Nebraska, was established April 22, 1880, and abandoned October 22, 1906. On August 1, 1911, all but 1,093.50 acres of this military reservation were transferred to the department of the interior to be thrown open to settlement. The land reserved by the war department was to be held for military purposes and reserved for an experimental farm. The University of Nebraska has had this land under easement for use as an experimental sub-station. A recent act of congress has opened this land to settlement, but the university is given the privilege of purchase at \$1.25 an acre. The legislature of 1915 will be asked for an appropriation for this purpose.

On January 11, 1912, part of the original Niobrara reservation was set aside by the department of the interior as a bird reservation.

The first act concerning a military establishment after Nebraska became a state was the act of February 15, 1869, establishing the office of adjutant general as a state office. On March 4, 1870, an act authorizing the raising of troops on extraordinary occasions was approved. This was repealed by the military code of February 28, 1881. This code provided for the establishment of the Nebraska national guard, and re-established the office of adjutant general which had been abolished in 1871. This act has been variously amended.

Since the close of the border wars, the Nebraska national guards have had a comparatively peaceful existence. They were called out to guard the northern border of the state in the winter of 1890-91 during the Sioux disturbance following the battle of Wounded Knee. Their services have been necessary at the scenes of such calamities as a riot at smelting works in Omaha, May 21, 1880; a strike at Omaha, March 11, 1882; a threatened riot in the capitol at the outset of the Boyd-Thayer contest, January 8, 1891; strike at South Omaha stock yards, August 10, 1894; escape of convicts from the penitentiary March 14, 1912; and the Omaha tornado of March 23, 1913.

On May 2, 1898, the First and Second regiments of Nebraska national guards were ordered to Lincoln to be mustered into the United States service for the Spanish-American war. On May 16 the First Nebraska volunteers left Lincoln for the Philippines. On May 17 recruiting for the Third Nebraska volunteers was ordered. On May 19 the Second Nebraska volunteers left for Chickamauga. On July 18 the Third Nebraska, with William J. Bryan as colonel, left Omaha for Jacksonville, Florida. Later the regiment went to Cuba. It returned to Nebraska in May, 1899. The First Nebraska volunteers served in the Philippines until June 22, 1899. The regiment took part in many

battles, and lost 64 members from wounds and disease. It was mustered out on August 23, 1899, and arrived in Lincoln on a special train which was furnished by citizens of Nebraska, on September 14.

The Second Nebraska volunteers were mustered out of the service at Fort Omaha on October 24, 1898, having spent their whole term of service outside Nebraska at Chickamauga park.

The Nebraska national guard is now organized into two regiments of infantry called the Fourth and Fifth regiments, a signal corps of one company, and an engineer corps of one company.

FEDERAL GOVERNMENT IN NEBRASKA.

Upon Nebraska's admission to statehood, March 1, 1867, the federal government relinquished local government to the state. Many points of contact with the general government are still in existence, and federal activities within the borders of the state continue to multiply. Numerous Nebraskans, also, are in the federal service in Washington, and elsewhere.

These relationships of Nebraska and Nebraskans with the federal government are evidenced by the following roster of persons engaged in these various activities under control of the federal government:*

SENATORS AND REPRESENTATIVES IN CONGRESS.

Salary of senators and representatives is \$7,500.

SENATORS.

Gilbert M. Hitchcock	Omaha
Term expires 1917.	
George W. Norris	McCook
Term expires 1919.	

REPRESENTATIVES.

Terms expire March 1, 1915.

John A. Maguire, Lincoln.....	First district
C. O. Lobeck (re-elected 1914), Omaha.....	Second district
Dan V. Stephens (re-elected 1914), Fremont.....	Third district
Charles H. Sloan (re-elected 1914), Geneva.....	Fourth district
Silas R. Barton, Grand Island	Fifth district
Moses P. Kinkaid (re-elected 1914), O'Neill.....	Sixth district

JUDICIARY.

Nebraska is under the jurisdiction of the eighth circuit court of appeals and circuit court. There are two judges for the Nebraska district of the federal district court system.

CIRCUIT COURT, EIGHTH CIRCUIT.

Judges—	Salaries of judges, \$7,000.
Walter H. Sanborn	St. Paul
William C. Hook	Leavenworth
Elmer B. Adams	St. Louis
Walter I. Smith	Council Bluffs
John E. Carland	Washington, D. C.
John D. Jordan, Clerk.....	St. Louis

DISTRICT COURT, NEBRASKA DISTRICT.

Judges—	Salary
W. H. Munger	\$6,000
T. C. Munger	6,000
R. C. Hoyt, Clerk.....	Fees not exceeding 3,500
Francis S. Howell, District Attorney.....	4,000
A. W. Lane, District Attorney	2,200
W. P. Warner, Marshal	4,000
James B. Nickerson, Chief Deputy Marshal.....	1,800
	<hr/>
	\$27,500

* This roster was compiled from data furnished by the several departments in 1913, with the exception of names of post-office employees and the forest service, which are taken from the U. S. Official Register for 1911.

REFEREES IN BANKRUPTCY.

These are appointed by the judges of the federal district court.

Ernest C. Ames	Lincoln
Daniel H. McClanahan	Lincoln
District includes Fillmore, Gage, Hamilton, Jefferson, Johnson, Lancaster, Nemaha, Otoe, Pawnee, Polk, Richardson, Saline, Saunders, Seward, Thayer and York counties.	
W. V. Hoagland	North Platte
District includes Banner, Cheyenne, Dawson, Deuel, Garden, Keith, Kimball, Lincoln, Logan, McPherson, Morrill, and Scott's Bluff counties.	
Charles McDonald	Omaha
J. A. C. Kennedy.....	Omaha
District includes Burt, Cass, Douglas, Sarpy and Washington counties.	
August Wagner	Columbus
District includes Boone, Butler, Colfax, Merrick, Nance and Platte counties.	
Fred. W. Vaughan	Fremont
District includes Cuming and Dodge counties.	
Bayard H. Paine	Grand Island
District includes Buffalo, Garfield, Greeley, Hall, Howard, Sherman, Valley and Wheeler counties.	
J. A. Armour.....	Broken Bow
District includes Blaine, Custer, Grant, Hooker, Loup and Thomas counties.	
G. Norberg	Holdrege
District includes Adams, Chase, Clay, Dundy, Franklin, Frontier, Furnas, Gosper, Harlan, Hayes, Hitchcock, Kearney, Nuckolls, Perkins, Phelps, Red Willow and Webster counties.	
E. P. Weatherby	Norfolk
District includes Antelope, Boyd, Brown, Holt, Keya Paha, Knox, Madison, Pierce and Stanton counties.	
Fred A. Crites	Chadron
District includes Sioux, Box Butte, Cherry and Dawes counties.	

Thurston, Wayne and Dixon counties have never required the services of a federal referee in bankruptcy.

INTERIOR DEPARTMENT.

The activities of the interior department within the state consist of land offices, Indian service and reclamation service.

LAND OFFICES.		Salary
William W. Wood, Register, Alliance.....		\$3,000.00
Harvey J. Ellis, Receiver, Alliance.....		3,000.00

LOCAL GOVERNMENT AND STATISTICS.

COUNTY GOVERNMENT. '

County government in Nebraska began with the proclamation of Acting Governor Cuming in November, 1854, establishing the boundaries of the eight original counties and appointing places and officers of election in the designated precincts. These counties were Burt, Washington, Dodge, Douglas, Cass, Pierce (afterwards Otoe), Forney (afterwards Nemaha) and Richardson.

The first territorial legislature, in a series of acts passed in March, 1855, re-defined the boundaries of the original counties, located the county seats in some of them and changed two county names. This legislature also provided for the organization of Gage, Loup, Greene, York, Lancaster, Buffalo, Blackbird, Dakota, Pawnee, Clay, Cuming, McNeal, Saline, Jackson, Johnston and Lizard counties. None of these counties retain their original boundaries, and the names of several of them and of other counties subsequently created have disappeared from the map. The original Clay county was divided and merged with Lancaster and Gage in 1864. The original Loup county afterwards became Platte and Colfax counties. Many other counties have been created—the latest being Arthur county in 1913.

The first county officers were appointed by the territorial governor. The legislature of 1855 provided for the election of "one probate judge, one register, one sheriff, one treasurer, and one surveyor for each county," and fixed the amount of their official bonds. The legislature of 1856 provided for the election of county commissioners, justices of the peace, and constables. The election of county superintendents was provided for in an act of March 16, 1855.

The first definite method of organizing new counties was specified in an act of March 14, 1855. It provided that "whenever the citizens of any unorganized county desire to have the same organized, they may make application by petition in writing, signed by a majority of the legal voters of said county, to the judge of probate of the county to which such unorganized county is attached, whereupon said judge of probate shall order an election for county officers in such unorganized county." The probate judge was to appoint three disinterested commissioners from his county to locate the seat of government in the new county. Some of the early acts describing county boundaries included the names of the commissioners of location for the county seat.

The passage of a legislative act establishing a county did not necessarily signify that the county had been or would be established. The act creating Lancaster county was approved March 6, 1855, while the first steps to perfect a county organization were not taken until the fall of 1859—over four years later. Meantime, the legislature had changed the original boundaries of the county so that it covered comparatively little of its original territory. This is typical of the early period of county government in Nebraska.

The functions of pioneer county government were simple. The heaviest item of taxation was that levied for roads. It consisted of a poll tax and a land tax of three dollars on a quarter section. These taxes could be paid in labor or money at the option of the taxpayer. Both territorial and county roads were being made, and the work of surveying, grading and bridging took much of the time of the early settlers. The tendency was to put all public offices on the elective basis, so that by 1864 all county and precinct officers were elected. These included practically the full complement of officers that obtains today, except that, for a time, the county clerk was also register of deeds, and that from 1858 to 1867, there was no provision for the office of county superintendent.

In 1877 the legislature provided for the township form of county government at the option of the county. At present twenty-eight out of the ninety-three counties have adopted the township form of government. The govern-

ing boards of these counties consist of supervisors elected from seven supervisor districts, or, at the option of the electors of the county expressed by ballot, supervisors elected from each of the townships. At present but one county (York) has adopted the latter system. The law provides for changes from one form to the other of county government.

In all counties under 125,000 in population under commissioner government, three commissioners resident in their respective districts but elected by the entire county constitute the county board. The other elective county officers are clerk, treasurer, surveyor, county superintendent, county judge, sheriff and coroner; in counties having more than two thousand inhabitants, a county attorney; in counties having sixteen thousand or more inhabitants a register of deeds, and a county assessor unless the county by legal process elects to abolish the office. Terms of office are two years except for commissioners and supervisors, registers of deeds and county assessors, all of which are four years. The elective precinct officers in counties under commissioner government include two justices of the peace and two constables. Road overseers are elected for road districts. The terms of these officers are two years. Township officers include town clerk, town treasurer, justices of the peace and constables. Election officers are appointed by the clerks of the district courts.

Vacancy to be filled by appointment

COUNTY COMMISSIONERS AND SUPERVISORS.

R., Republican; D., Democrat.

Adams—Supervisors:

D. N. Bltner, Hastings; John Heye, Glenville; B. F. Schlegel, Kenesaw; J. L. Hynes, Bladen; J. F. Heller, Hastings; F. J. Benedict, Hastings; N. D. Kidder, Hastings.

Antelope—Supervisors:

L. Thomsen, Tilden; Geo. Sweet, Oakdale; P. W. Payne (D.), Elgin; Hans Schutt (D.), ———; A. D. Wyman (D.), ———; M. M. Mitchell, ———; S. Greenamyre, ———.

Arthur—Commissioners:

D. L. Boggs (R.), ———; F. R. Summers (R.), ———; J. R. Hawkins, ———.

Banner—Commissioners:

T. H. Smith (R.), Redington; G. A. Millett, Flowerfield; Lars Olsen (D.), ———.

Blaine—Commissioners:

Geo. B. Houder (D.), Dunning; Ross Wilkinson (D.), Brewster; A. J. Donahoo (R.), Purdum.

Boone—Commissioners:

M. Cavey, ———; H. R. Smith (D.), ———; Andrew J. Lathammer (D.), ———.

Box Butte—Commissioners:

C. L. Hashman (R.), Hashman; J. M. Wanek, Hemingford; George W. Duncan (R.), ———.

Boyd—Supervisors:

A. R. Gardner, Monowi; J. W. Long, Lynch; J. M. Johnson, Bristow; S. S. Parsons, Spencer; Geo. Sanders, Butte; H. W. Kenaston, Butte; C. L. Klein, Naper.

Brown—Commissioners:

W. F. Justice (R.), ———; L. O. Wolfe (D.), ———.

Buffalo—Supervisors:

George Conroy, Shelton; A. V. Hlava, Ravenna; J. W. Higgins, Amherst; E. L. King, Kearney; John W. Reedy, Gibbon; Chas. Krassman, Kearney; John A. Larimer, Kearney.

Burt—Supervisors:

W. J. Isgrig (D.), Tekamah; M. S. Wilcox (D.), Tekamah; H. C. Stork, (R.), Tekamah; A. J. Miller (D.), Decatur; M. F. Kennedy (R.), Craig; Nels Johnson (R.), Oakland; Wm. Miller (D.), Lyons.

Butler—Supervisors:

Thomas Duda, ———; F. C. Judevine, Bellwood; Wm. Kunzman, Surprise; John Glock, Millerton; George Dobson, ———; John Kriz, Brainard; H. W. Keller, ———.

Cass—Commissioners:

Julius A. Pitz, Plattsmouth; Henry Snoke (D.), Eagle; C. E. Hoebner (R.), Nehawka.

Cedar—Commissioners:

A. W. Jones, Wynot; Chas. Samuelson, Hartington; G. N. Jorgensen, Magnet.

Chase—Commissioners:

H. E. Athey, Wauneta; Henry Greim (D.), ———; Emery Norman (D.), ———.

Cherry—Commissioners:

J. A. Adamson, Valentine; Arthur Bowring, ———; D. M. Sears, ———.

Cheyenne—Commissioners:

L. R. Barlow, Lodge Pole; Frank X. Rihu, Dalton; N. H. Trolstrup (D.).

Clay—Supervisors:

Geo. England, Eldorado; A. W. Clark, Sutton; G. C. Fishback, Harvard; Smith Ingalsbe, Inland; Philip Schwab, Clay Center; Frank Westering, Edgar; John Myler, Spring Rancho.

Colfax—Commissioners:

A. Kloppel, Leigh; D. S. Conrad, Schuyler; F. K. Sindelar (D.), Howells.

Cuming—Supervisors:

H. G. Paulsen, Bancroft; John Skala, Wisner; Robert Leisy, Wisner; Aug. Reichlinger, West Point; Martin Bysong, West Point; Wenzel Maly, West Point; P. F. O'Sullivan (D.), West Point.

Custer—Supervisors:

R. D. Mills (D.), ———; Geo. W. Dewey, Gates; Fred W. Hayes (R.), ———; J. H. Phillips, Anselmo; H. B. Schneringer (D.), ———; Ira E. Blakeslee, Oconto; John Walker (R.), ———.

Dakota—Commissioners:

Thomas Long, Hubbard; Oliver W. Fisher, Dakota City; A. Ira Davis (R.).

Dawes—Commissioners:

Mike Christensen (D.), ———; John Blundell (D.), ———; J. J. Harvey, Crawford.

Dawson—Commissioners:

E. A. Calling (R.), Gothenburg; Ed A. Lavery (R.), Sumner; August Simmons (R.), Lexington.

Deuel—Commissioners:

Simon Hopper, Chappell; George Kalb (R.), Julesburg, Colo.; James Brown (D.), Big Springs.

Dixon—Supervisors:

W. A. York (R.), Newcastle; John P. Downey (D.), Newcastle; A. L. Sencerbaugh (D.), Ponca; C. S. Wilson (R.), Dixon; A. L. Holmberg (R.), Wakefield; Isaac Ellis (R.), Allen; Henry Harney (D.), Ponca.

Dodge—Supervisors:

A. W. Murphy, Fremont; Duncan Livingston, Fremont; Maurice Nelson (R.), ———; J. H. Forney (R.), Dodge; Z. T. Rector, North Bend; Peter Parkett (D.), Hooper; P. J. Flanagan, Snyder.

Douglas—Commissioners:

Henry S. McDonald (R.), Omaha; John C. Lynch (R.), Omaha; Thomas O'Connor (D.), South Omaha.

Dundy—Commissioners:

L. J. Nettleton, Haigler; Ashby Morrison, Ough; A. J. Horn, Rollwitz.

Fillmore—Supervisors:

Dennis Songster (D.), Exeter; George A. Perkins, Fairmont; Henry Mueller (R.), ———; R. A. Matteson, Fairmont; Frank Stech (D.), Milligan; Frank C. Demaree, Ohiowa; J. C. Boe (R.), ———.

Franklin—Supervisors:

James Jameson (D.), ———; J. Warnken, Hildreth; S. Lienemann (R.), Bloomington; J. A. Kelso, Franklin; James Grout (D.), ———; Wm. H. Cowan, Riverton; D. T. Mosbarger (R.), ———.

Frontier—Commissioners:

Henry Oelkers (R.), Eustis; Joseph Henggeler (R.), Stockville; E. M. Freeman (R.), Maywood.

Furnas—Commissioners:

E. R. Keyes (D.), Cambridge; J. E. Atwood (D.), Edison; A. W. Hunt (R.), Wilsonville.

Gage—Supervisors:

B. H. Siefkes (R.), Pickrell; W. E. Chittenden, Clatonia; Wm. Carrithers (D.), Beatrice; John O. Essam, Beatrice; J. W. Marples (R.), Wymore; M. J. Moran, Wymore City; J. R. Salling (R.), Odell.

Garden—Commissioners:

J. R. Woolery, Oshkosh; Wm. L. Law (R.), Oshkosh; Roscoe Vance (R.), Lewellen.

Garfield—Commissioners:

F. N. Smith (D.), Blake; H. Matthews, Burwell; Chas. Demaree, Burwell.

Gosper—Commissioners:

F. H. Harm (D.), Elwood; Aug. Gennrich (D.), Bertrand; C. G. Nelson (D.), ———.

Grant—Commissioners:

A. J. Abbott (R.), Hyannis; Sid Manning (D.), Hyannis; F. Corrothers, Whitman.

Greeley—Commissioners:

C. Weber, Spalding; F. C. Weeks (R.), Scotia; W. E. Reed (D.), Greeley.

Hall—Supervisors:

S. Y. Bryson (D.), Grand Island; Fred J. Miller (D.), Wood River; Wm. Stoeger, Cairo; W. H. McDowell, Doniphan; M. L. Dolan, Grand Island; L. T. Geer (R.), ———; John Sass, (D.), ———.

Hamilton—Commissioners:

Uriah Bush, Marquette; Thos. Tallich, ———; John Mintun, ———.

Harlan—Supervisors:

Oscar Peterson (D.), Ragan; Sam L. Roberts, Alma; F. W. N. Brown (R.), ———; Stephen Schmitz, Oxford; Nic Nielsen (R.), ———; J. F. Zeigler, Alma; Rich Workman (D.), Republican City.

Hayes—Commissioners:

W. E. Counce (D.), ———; W. D. Evans, Hayes Center; J. F. Schneider (D.), St. Ann.

Hitchcock—Commissioners:

J. O. Hardy, Stratton; Abe Gillaspie (R.), ———; C. T. Korell (R.), ———.

Holt—Supervisors:

Henry Bausch (D.), ———; H. W. Tomlinson, Minneola; M. P. Sullivan (D.), O'Neill; T. D. Siefers, Ewing; H. U. Hubbard (R.), ———; J. O. Hubbell, Inez; W. T. Hayes (R.), ———.

Hooker—Commissioners:

A. J. Gragg (R.), Mullen; S. T. Elwood, ———; H. L. Pierce (R.), ———.

Howard—Commissioners:

C. J. Frandsen, Elba; C. Theo Krogh (D.), ———; J. F. Bower (D.), ———.

Jefferson Commissioners:

Louis Jarchow, Daykin; J. M. Koch (D.), ———; Homer Yeakle (D.), ———.

Johnson—Commissioners:

Geo. D. Rothell (R.), Vesta; E. B. Platt (R.), Cook.

Kearney—Supervisors:

Chris Hove, Minden; Jno. Borgaard, Minden; Ernest Peterson, Axtell; Elbert Haws, Heartwell; Erik Dahl, Axtell; Pete Oman, Minden; Rasmus Haagen-
sen, Campbell.

Keith—Commissioners:

John McKeag (D.), Ogalalla; D. A. Lawler (D.), Paxton; O. P. Kilgore (R.),
Brule.

Keya Paha—Commissioners:

L. L. Larsen (R.), ———; E. L. Snyder (R.), ———; Albert Stoltenberg,
Mills.

Kimball—Commissioners:

Harry Phillips (R.), ———; W. D. Atkins (D.), ———; C. F. Snyder,
Bushnell.

Knox—Supervisors:

Frank H. Lenger, Niobrara; G. H. Wardell (D.), Royal; L. B. Crew (R.),
Creighton; F. Q. Kinney (D.), Bloomfield; J. D. Brandfas (D.), Crofton; C. A.
Holmquist, Wausa; John A. Schreier (D.), Verdigris.

Lancaster—Commissioners:

C. J. Mitchell (R.), Lincoln; C. O. Johnson, Havelock; J. R. Bennett (R.),
Lincoln.

Lincoln—Commissioners:

F. W. Herminghausen, North Platte; E. H. Springer (R.), ———; D. B.
White, Hershey.

Logan—Commissioners:

James Philpot (R.), Gandy; E. F. Phillipsen (D.), Stapleton; John Halstead,
Logan.

Loup—Commissioners:

John Boll (R.), Burwell; J. R. Fergusson (D.), Taylor; John Dunbar (R.),
Moulton.

McPherson—Commissioners:

N. E. Trego (R.), Mayflower; L. A. Worden (R.), ———; A. A. Hale (R.),
———.

Madison—Commissioners:

W. L. Purdy, Madison; Fred Terry, Warnerville; W. S. Crook (R.), Meadow
Grove.

Merrick—Supervisors:

Wm. Wegner (D.), Archer; M. J. Harry (D.), ———; Wm. Douglas, Clarks;
Ed Foster (D.), ———; Marcus Cornelius, Chapman; Fred Witt, ———; Dr.
N. J. Hoagland (D.), ———.

Morrill—Commissioners:

H. E. Randall, Bayard; Fred Lindberg (D.), Bridgeport; J. J. Grimes (R.),
Broadwater.

Nance—Supervisors:

E. T. Vancleave, Fullerton; F. L. Rumsey, Fullerton; Ed Hunt (R.), Bel-
grade; A. L. Wolles (R.), ———; R. Widdle (R.), ———; C. D. Kremer (D.),
———; G. L. Collins, St. Edward.

Nemaha—Commissioners:

Daniel Casey (D.), Johnson; John M. Clark, Auburn; A. N. Harris (R.),
Nemaha.

Nuckolls—Commissioners:

T. T. Kauffman (R.), Nelson; E. M. Wright, Ruskin; Hugh Allison (R.),
Superior.

Otoe—Commissioners:

Jas. A. White, Palmyra; Fred Markel (D.), Nebraska City; Henry Heesch (R.), ———.

Pawnee—Commissioners:

E. O. Jones, Table Rock; D. B. Drake (R.), Burchard; Henry Hunzeker (D.), ———.

Perkins—Commissioners:

W. G. McClintock, Elsie; H. E. Pankonin, ———; Thomas Meade, ———.

Phelps—Supervisors:

Carl E. Peterson (D.), Bertrand; John Young (D.), Holdrege; C. A. Larson (R.), Holdrege; J. L. Miller (R.), Holdrege; H. E. Erickson (D.), Holdrege; F. M. Magill (D.), Funk; J. J. Danielson (R.), Elm Creek.

Pierce—Commissioners:

Jacob Pilger, Plainview; Geo. W. Holmes, Foster; Robert Neumann (D.), Osmond.

Platte—Supervisors:

John Goetz (D.), Creston; J. F. Schure, Humphrey; C. E. Peterson (R.), ———; Geo. C. Anderson, Genoa; M. E. Clothier (D.), Platte Center; Adam Smith, Columbus; John B. Kyle (D.), ———.

Polk—Commissioners:

E. P. Pike, Stromsburg; O. F. Branting, ———; Fred Hennings, ———.

Red Willow—Commissioners:

Edward Sughroue, Bartley; E. S. Moore (D.), ———; Matt Stewart (R.), ———.

Richardson—Supervisors:

Henry Wyatt (D.), ———; Maurice Sheehan, Falls City; J. A. Weaver, Verdon; Christ Madowse (R.), Falls City; T. R. Edwards, Stella; E. J. Duryea (R.), ———; John D. Shrauger (D.), ———.

Rock—Commissioners:

J. H. Copeland, Carns; J. R. Ammon (R.), Ponylake; F. W. Lake (R.), Bassett.

Saline—Commissioners:

H. P. Schmidt, Friend; Herman Wahl (D.), Western; Joseph Cerny (D.), ———.

Sarpy—Commissioners:

Gates Lilley, South Omaha; W. S. Ely (D.), Springfield; W. B. Wykert (R.), ———.

Saunders—Commissioners:

Geo. Heldt, Yutan; Soren Miller (D.), Cedar Bluffs; Emil Helsing (D.), Wahoo.

Scott's Bluff—Commissioners:

Chas. Raymond, Scottsbluff; Robt. G. Walsh, Morrill; H. T. Johnson, Minatare.

Seward—Supervisors:

William Wullenwaber (D.), Seward; Chas. Scheumann (D.), Staplehurst; Oscar Craige, Utica; Sid Ransom, Beaver Crossing; Frank Walker (R.), Milford; R. J. Fuller (R.), Seward; J. C. Petri, Germantown.

Sheridan—Commissioners:

Perry S. Parker, Gordon; J. F. McFarland, Rushville; I. R. Bray, ———.

Sherman—Supervisors:

J. H. Welty, Arcadia; W. O. Brown (R.), Loup City; Dan McDonald, Austin; Hlyo Aden, Hazard; Wenzel Rewollinski (D.), Ashton; F. T. Richmond (R.), ———; Emil Kozel (R.), ———.

Sioux—Commissioners:

J. H. Lacy, Harrison; Robt. Harrison, Orella; G. B. M. Will, Morrill.

Stanton—Commissioners:

Thos. Kingston, Stanton; John W. Blunt, Pilger; Paul Kingsley (D.), ———.

Thayer—Commissioners:

J. W. Miller (D.), Davenport; A. F. Velte (R.), Hebron; A. E. Hellmer (R.), Byron.

Thomas—Commissioners:

J. C. Ewing, Purdum; W. A. Howell, Thedford; R. A. Parrish, Seneca.

Thurston—Commissioners:

C. C. Frum (R.), ———; Walter K. Mitchell (R.), ———; Frank Baker (D.), ———.

Valley—Supervisors:

J. H. Carson, Ord; E. H. Stacy, Ord; Wilson Bell, Ord; John Fogt, Elyria; J. H. Mason, ———; D. E. Mather (D.), ———; Clem N. Meyers (D.), ———.

Washington—Commissioners:

James E. Moher (D.), Blair; Fred Heuermann (R.), Arlington; E. W. Burdick, Herman.

Wayne—Commissioners:

Henry Rethwisch, Carroll; Geo. S. Farran (R.), Winside; P. M. Corbit (D.), Wayne.

Webster—Commissioners:

T. J. Chaplin, ———; Paul Storey, Red Cloud; W. G. Hoffman, Blue Hill; Grant Shidler (R.), ———; Floyd McCall (R.), ———.

Wheeler—Commissioners:

Peter Dahlsten (D.), ———; J. D. Reimer (D.), ———; Matt L. Dwyer, Arden.

York—Supervisors.

F. C. Williams (R.), Gresham; W. E. Prather (R.), Thayer; E. O. Jenkins (D.), Benedict; J. L. Dorsey (D.), Bradshaw; H. M. Miller (R.), Bradshaw; W. R. Devine (D.), York; J. M. Tucker (R.), York; M. B. Stream (R.), Waco; Wm. Tieken (D.), Waco; Jas. Neville (D.), York; John Morgan (D.), York; A. Prohaska (D.), Charleston; Cornelius Peters (R.), Henderson; F. M. Churchill (R.), McCool Junction; Ernest Green (D.), McCool Junction; S. W. Gillan (D.), Exeter; W. K. Williams (R.), York; M. L. Diehl (R.), York; A. J. Martin (R.), York; R. R. Copsey (R.), York.

MUNICIPALITIES.

The following material is from a pamphlet, "Nebraska Municipalities," issued by the Reference Bureau:

How many of our people live within municipal corporations? What is the flow of our population between the city and the country and how strong is its current? What is the distribution of our population between the larger cities, the smaller cities, the villages and the country and what are the forces back of this distribution? The issues raised by these questions are vital for the future of Nebraska.

Nearly one-half the population of the state lives in incorporated cities and villages. More than one-fourth of our total population now lives in cities of more than 2,500 inhabitants. During the past ten years the growth of Nebraska's municipal population and rural population has been nearly equal. This has been chiefly due to the settlement of free government land in the western part of the state. In the eastern half of Nebraska the increase of town population has far exceeded that of the country. In fact many rural counties and precincts in eastern Nebraska show an absolute decrease of population between 1900 and 1910. Without going into any broad discussion of these facts or their causes, the general conclusion is that under present tendencies the Nebraska city and village population will soon exceed the rural population. The problems of municipal government, even in our own farming and grazing region, will then directly involve more than half our population.

The figures of the United States census in the tables which follow are not wholly satisfactory, for two principal reasons:

(1) The censuses of 1860, of 1870, and of 1880 in many cases did not separate the population of incorporated towns from that of the precincts where they were situated.

(2) In Nebraska the United States census of 1890 was a stuffed and fraudulent census, the population of a number of cities being grossly exaggerated.

The tables which follow tell the story of municipal growth in Nebraska in a graphic way:

COMPARISON OF NEBRASKA CITIES AND VILLAGES WITH RURAL POPULATION, 1860-1910.

Year	Number of Places with More Than 2,500 Population	Population of Places Having More Than 2,500 Population	Number of Places with Less Than 2,500 Population	Population of Places Having Less Than 2,500 Population	Population of All Incorporated Places	Rural Population	Total Population of State	Rural Population (in per cent)
1860			49	12,939	12,939*	15,902	28,841	55.4
1870	2	22,133	50	37,184	59,317*	63,676	122,993	51.8
1880	7	86,872	180	64,077	140,949*	311,453	452,402	68.6
1890	16	291,641	231	141,808	433,449†	629,207	1,062,656	59.2
1900	21	252,702	346	188,955	441,657	624,643	1,066,304	58.6
	27	310,352	427	243,292	554,144	638,070	1,192,210	53.5

* Population of cities and villages not separated from precincts by this census except in some cases.

† City population as shown by this census report greatly in excess of true population.

TABLE SHOWING GROWTH OF PRINCIPAL NEBRASKA CITIES, 1860-1910.

Year	Omaha	Lincoln	South Omaha	Grand Island	Beatrice	Hastings	Fremont	York	Kearney	Norfolk	Nebraska City	Fairbury	Columbus	North Platte	Platte-mouth

THE DATA OF NEBRASKA MUNICIPALITIES.

Hitherto there has been no comprehensive, state-wide data in print on the subject of Nebraska municipalities. The United States census has presented statistics from the larger cities. Sundry enterprising municipalities, large and small, have compiled and printed valuable information for advertising purposes. The Nebraska municipal league has brought together at its meetings an exchange of local information in a limited field. But upon the important municipal questions of revenue and expense for the different items in the municipal budget; upon the vital points of public utilities, their ownership, amount invested, income and charges for services, there has been no general data in print. Residents of one city or village in Nebraska have been ignorant of the experiments in other municipalities.

It is highly important for the Nebraska of the future that her cities and villages should know what their neighbors are doing, should profit by their mistakes, take advantage of their successes and by comparison of experience grow into a better knowledge of each other and better service to their citizens. This pamphlet is the first step in the direction of a general municipal information service for Nebraska. Its data is not complete. Four separate circular letters have been sent to the municipal clerks asking for information upon the points covered in this bulletin. Each successive letter brought responses. There still remain gaps in the columns. We hope to close every gap in the year 1914. A copy of this bulletin is sent to the mayor or municipal clerk of every city and village. Go over the returns from your town. Fill the gaps and correct the figures. In this way the next edition will present correct information from every place in the state.

NUMBER AND SIZE OF NEBRASKA MUNICIPALITIES.

There are four hundred fifty incorporated cities and villages in Nebraska. Three of these, Omaha, Lincoln and South Omaha, may be called the larger cities of the state, their population ranging from 25,000 to 125,000. There are ten cities of the first class, with population between 5,000 and 11,000, which may be called middle sized Nebraska towns. There are sixty-eight cities with a population of from 1,000 to 5,000, which may be called the smaller Nebraska cities. There are three hundred sixty-nine incorporated towns and villages with a population of less than 1,000.

PUBLIC UTILITIES.

In the matter of ownership of public utilities the account stands as follows:

SUMMARY SHOWING NUMBER OF MUNICIPALLY AND PRIVATELY OWNED WATER AND LIGHT PLANTS IN THE CITIES AND TOWNS REPORTING.

Class of City	Number Reporting	Total Number of Cities in the Class Named	Water		Light			
			Municipally Owned	Privately Owned	Electric		Gas	
					Municipally Owned	Privately Owned	Municipally Owned	Privately Owned
Cities 25,000 to 125,000.....	3	3	2	1	1	3	0	3
Cities 5,000 to 25,000.....	6	10	4	2	2	4	0	3
Cities 1,000 to 5,000.....	51	68	47	2	20	26	2	9
Towns and villages 200 to 1,500.....	238	369	116	4	28	41	6	11
Totals	298	450	169	9	51	77	8	26

**MAXIMUM CHARGE FOR WATER, ELECTRIC LIGHT AND GAS IN MUNICI-
PALLY AND PRIVATELY OWNED PLANTS IN EACH CLASS OF CITIES.**

Class of Cities	Water		Electric Light		Gas	
	Munici- pally Owned	Privately Owned	Munici- pally Owned	Privately Owned	Munici- pally Owned	Privately Owned
Cities 25,000 to 125,000	17½¢ per 100 cu. ft.		5¢ per K. hr.	15¢ per K. hr.		\$1.20 per M. feet
Cities 5,000 to 25,000	15¢ per M. gals.	30¢ to 15¢ per M. gals. or 25¢ per M. gals.		15¢ per K. hr.		\$1.80 per M. feet
Cities 1,000 to 5,000	60¢ per M. gals.	35¢ per M. gals.	20¢ to 9¢ per K. hr.	18¢ per K. hr.	\$1.50 per M. feet	\$2.00 per M. feet
Towns and villages 200 to 1,000	60¢ per M. gals. for 1st 1,500 gals.	\$1.00 per M. gals. for 1st 3,000 gals.; 40¢ each add'l 1,000 gals.	20¢ to 10¢ per K. hr.	20¢ per K. hr.	\$1.80 per M. feet	\$2.25 per M. feet

**MINIMUM CHARGE FOR WATER, ELECTRIC LIGHT AND GAS IN MUNICI-
PALLY AND PRIVATELY OWNED PLANTS FOR EACH CLASS OF CITIES.**

Class of Cities	Water		Electric Light		Gas	
	Munici- pally Owned	Privately Owned	Munici- pally Owned	Privately Owned	Munici- pally Owned	Privately Owned
Cities 25,000 to 125,000	6¢ per 100 cu. ft.			Res. rates 14¢ to 6¢ per K. hr.		\$1.00 per M. ft.
Cities 5,000 to 25,000	15¢ to 5¢ per M. gals.	30¢ to 15¢ per M. gals.		13¢ to 6¢ per K. hr.		\$1.35 per M. ft. and down
Cities 1,000 to 5,000	10¢ per M. gals.; 15¢ to 7¢ per M. gals.	35¢ per M. gals.	14¢ to 3¢ per K. hr. or 10¢ to 6½¢ per K. hr.	10¢ per K. hr. or 15¢ to 5¢ per K. hr.	\$1.25 per M. ft.	\$1.25 per M. ft.
Towns and villages 200 to 1,500.	10¢ per M. gals.	35¢ per M. gals.	10¢ per K. hr. or 8¢ to 15¢ per K. hr.	10¢ per K. hr. or 15¢ to 2¢ per K. hr.	\$1.50 per M. ft.	\$1.00 per M. ft.

GENERAL MUNICIPAL STATISTICS.

The tables which follow have been gathered by correspondence with municipal clerks of the four hundred and fifty cities and villages of the state. It has required several thousand letters to secure this data, and many months of time. While incomplete the material which they contain is valuable.

POPULATION, ASSESSED VALUATION, TAX LEVY AND CLASSIFIED EXPENSES
OF NEBRASKA CITIES OF THE METROPOLITAN CLASS AND FIRST CLASS,

FINANCIAL STATISTICS.

OUTLINE OF TAXATION IN NEBRASKA, 1854-1913.

Prepared by W. E. Hannan, Assistant Director, Legislative Reference Bureau.

CHAPTER I.

Constitutional Provisions on Taxation.

The institution of a government in the territory of Nebraska was effected by the organic act of May 30, 1854. This act was the charter which guided the deliberations of the legislature throughout the territorial period. In matters of revenue it was provided in section 6 of the organic act: "That the legislative power of the territory shall extend to all rightful subjects of legislation consistent with the constitution of the United States and the provisions of this act. * * * No tax shall be imposed upon the property of the United States. Nor shall the lands or other property of non-residents be taxed higher than the lands or other property of residents." This same inhibition was laid upon legislative action concerning taxation by section 4 of the enabling act of April 19, 1864.

Until the admission of Nebraska into the union, March 1, 1867, upon which date the constitution of February 9, 1866, became operative, the legislature had no limitation placed upon it as to taxation other than that contained in section 6 of the organic act. During this period forty-one separate revenue acts became laws. The first general revenue law, that of February 13, 1857, was preceded by a number of smaller measures passed in 1855 and 1856. These latter were merely fragmentary and a more comprehensive system was provided by the act of 1857. This act was sixty sections in length and was taken entire from the Iowa revenue code. Four other acts of some length were later adopted, two of them being amendatory and two the result of a general revision of all statutes. Of the amendatory acts, one was adopted November 6, 1858, and contained sixty-four sections; the other January 11, 1861, which had seventy-nine sections. Of the acts of revision, one was made and approved February 15, 1864, and contained ninety-one sections; the other February 12, 1866, with one hundred and ten sections.

The next period, that of the constitution of February 19, 1866, is marked by as little limitation upon the power of the legislature in matters of taxation as was evidenced in the period governed by the organic act. This constitution provided as follows:

Art. V, Sec. 3. "The legislature shall provide for an annual tax sufficient to defray the estimated expenses of the state for each year."

Art. VII, Sec. 1. "* * * The legislature shall make such provisions, by taxation or otherwise, as * * * will secure a thorough and efficient system of common schools throughout the state."

Art. VIII, Sec. 3. "The property of corporations now existing, or hereafter created, shall forever be subject to taxation, the same as the property of individuals."

In none of these provisions is found either a method or manner that would place a bar upon legislative action in establishing a revenue system other than that contained in section 3, article VIII, prohibiting the exemption of the property of corporations from taxation. This freedom from constitutional limitations on taxation was not taken advantage of by the legislature, for it continued the policy of the general property tax instituted during the territorial period. This was evidenced in the one general revenue act passed during this period, February 15, 1869, sections 1-110, and in the various amendments thereto.

The constitution of 1866 was felt to be inadequate to care for the growing state. The constitutional convention of 1871 resulted and a new constitution

was proposed which the people, by a majority of six hundred and forty-one, rejected. One reason for this failure was the clause in section 3, article VIII, which provided that "the buildings and grounds belonging to and used by any religious society for religious purposes, to the value of five thousand dollars, may be exempted from taxation." Upon this principle the whole of the church property might be taxed—depending upon the viewpoint of any special legislature—at least all such property in excess of five thousand dollars in value would be taxed.

The constitution of 1871 was the first to prescribe the limits of revenue legislation, by declaring in section 1, article VIII, that: "The legislature shall provide such revenue as may be needful, by levying a tax by valuation, so that every person and corporation shall pay a tax in proportion to the value of his, her or its property. * * * The legislature shall have power to tax peddlers, auctioneers, brokers, hawkers, merchants, commission merchants, showmen, jugglers, innkeepers, grocery keepers, liquor dealers, toll bridges, ferries, insurance, telegraph and express interests or business, venders of patents, and persons or corporations owning or using franchises and privileges. * * * uniform as to the class upon which it operates." In section 3, article VIII, instead of the usual declaration exempting the property of the state, counties and municipal corporations from taxation, we find such public property classed with educational, charitable and religious property which may be exempt from taxation. In addition to this class of exemptions, it is provided that "the legislature may provide that the increased value of lands by reason of live fences, fruit and forest trees, grown and cultivated thereon, shall not be taken into account in the assessment thereof." This latter principle had been in practice since the adoption of the first law on this subject, January 4, 1861.

The people having negatived the proposed constitution of 1871, a further one was drafted by the constitutional convention of 1875, submitted to the people and adopted. The principle of taxation by valuation uniform as to class and of a modified exemption, which was proposed in the rejected constitution of 1871, was continued in the constitution of 1875. This latter provided as follows:

Art. IX, Sec. 1. "The legislature shall provide such revenue as may be needful, by levying a tax by valuation, so that every person and corporation shall pay a tax in proportion to the value of his, her or its property and franchises, the value to be ascertained as the legislature shall direct, and it shall have power to tax peddlers, auctioneers, brokers, hawkers, commission merchants, showmen, jugglers, inn-keepers, liquor-dealers, toll-bridges, ferries, insurance, telegraph and express interests or business, venders of patents, in such manner as it shall direct by general law, uniform as to the class upon which it operates."

Art. IX, Sec. 2. "The property of the state, counties and municipal corporations, both real and personal, shall be exempt from taxation, and such other property as may be used exclusively for agricultural and horticultural societies, for school, religious, cemetery and charitable purposes, may be exempted from taxation, but such exemptions shall be only by general law. In the assessment of real estate incumbered by public easement, any depreciation occasioned by such easement may be deducted in the valuation of such property. The legislature may provide that the increased value of land, by reason of live fences, fruit and forest trees grown and cultivated thereon, shall not be taken into account in the assessment thereof."

Upon the two foregoing sections all revenue legislation since 1875 has been based. In that time two general revenue measures have been enacted, one approved March 1, 1879, the other approved April 4, 1903. And, in addition to these two general measures, over one hundred amendments have been made. The following amendment to section 1, article IX, of the constitution was proposed by the legislature and rejected by the people at the general election held November 3, 1914:

"The rules of taxation shall be uniform as to any given class and taxes shall be levied upon such property as the legislature shall prescribe. Taxes

may also be imposed on incomes, privileges and occupations, which taxes may be graduated and progressive, and reasonable exemptions may be provided, in addition to those hereinafter specifically mentioned in section 2 of this article."

The above amendment was for the purpose of giving the legislature unhampered power in matters of revenue legislation. Up to the present time, because of constitutional limitations, few innovations of principle have been made in our revenue system. The chief departures have been the inheritance tax of 1901, the taxation of railway terminals since 1907, and the occupation tax on all corporations since 1909. The discussion in this chapter shows only the constitutional development of the principle of taxation in our state. The following chapters will discuss the statutory development from 1855 to the present.

CHAPTER II.

Taxable Property and Its Valuation.

The constitution of 1866, except by implication, was silent upon the subject of the taxation of property by valuation. The exception was the proviso that: "The property of corporations now existing or hereafter created shall forever be subject to taxation, the same as the property of individuals." A study of the statutes preceding and contemporary with the constitution of 1866 shows that all the property of individuals was taxed at a fair cash value. We see in this the anomaly of a constitution seeking in a statutory enactment its principle of action. The second constitution, that of 1875, provided that all property should be taxed in proportion to its value. This was but the solidification, in constitutional form, of the requirements of the various statutes since 1857.

The forms of property at the beginning of the territorial period, and even throughout its continuance, were simple, consisting of land and its products, live stock and what little personalty was accumulated by the pioneer builders of the future state. Such elements of property, as shares of stock and the more material forms of corporate property upon which such stock was based, while taken cognizance of in our revenue system as early as 1856, did not become a problem nor a source of great revenue until a later period.

What property is taxable and what valuation is placed thereon is not clearly disclosed in the first revenue measure, "an act to provide for a county revenue," approved March 15, 1855. The levy is to be made upon "the assessed value of the taxable property," but what constitutes "taxable property" is found only in such descriptive terms as "claims" and "town lots." More definite is the act approved January 26, 1856, "relating to assessors," wherein both "real and personal" property is to be assessed at its "marketable value in cash at the time of assessment," and village, town and city lots are to be listed separately from real estate. For the first time a corporate form of property is noted—e. g., shares of stock which are to be assessed to, and the owner and number of shares declared by, the president of the corporation. This act marks the beginning of the attempt to define "taxable property" and the method of its valuation. However, the first serious definition of taxable property into its kinds and classes is made by the "act providing for the collection of revenue," approved February 13, 1857. The territorial legislature in enacting this measure adopted entire chapter 37 of the "Iowa Code," entitled, "Revenue." It was our first comprehensive revenue law, in that it provided for a complete system of assessment, levy, collection and administration of the revenues.

This law defined taxable property in the following terms:

"Lands and lots in towns, including lands bought from the United States and from this territory, and whether bought on credit or otherwise; ferry franchises to be considered real property.

"Horses and neat cattle, mules and cattle; money in possession or on deposit, including bank bills; money, property or labor due from solvent debtors on contract or on judgment, and whether within this territory or not; mortgages and other like securities, and accounts bearing interest; stock or

shares in any bank or company, incorporated or otherwise, and whether incorporated by this territory or any other state and whether situated in this territory or not. Public stock or loans; household furniture, including gold and silver plate, musical instruments, watches and jewelry; private libraries for their value over one hundred dollars; pleasure carriages, stages, hacks, and other vehicles for transporting passengers, wagons, carts, drays, sleds and every other description of vehicles or carriage; boats and vessels of every description wherever registered or licensed, and whether navigating the waters of this territory or not, if owned either wholly or in part by persons who are inhabitants of this territory; annuities, but not including pensions from the United States, or any of them, nor salaries, or payments expected for services to be rendered.

Property used in the business of merchants or manufacturers, to be taxed upon the average value of property in their possession during the year previous to listing. In case of a manufacturer, the value shall be estimated upon the materials only that enter into the combination or manufacture."

This same act—1857—defines the term "credit" as follows:

"The term credit includes every claim and demand for money, labor or other valuable thing, and every annuity or sum of money receivable at stated periods, and all money in property of any kind, and secured by deed, mortgage or otherwise.

"In listing money and credits, person entitled to deduct from their gross amount all bona fide debts owing by him; indebtedness to be founded on actual consideration, amount of liability as security for another deducted: no deduction allowed for notes given insurance company for premiums nor for unpaid subscriptions to any institution, society, or to the capital stock of any corporation."

Such a minute division of taxable property into its various kinds and classes was evidently made so that nothing should be left to the whim of the assessor. Despite the care exercised to include all species of property in this measure, several items escaped, to be added when, in 1858, the whole revenue measure was rewritten for the purpose of making specific corrections. The act of 1857 included as taxable property "land bought from the United States." This was amended by the law of 1858 by adding "lands donated by the United States." To the numerous vehicles of transportation designated by the act of 1857 a further one, "omnibuses," is included by the amended act of 1858. Merchants and manufacturers, in addition to being taxed on the "average value of the property in their possession during the year previous to that in which they are assessed," which was required both by the law of 1857 and 1858, are further by the latter act—1858—made subject to a tax on "money invested in manufactories, including buildings, machinery and materials; also moneys used in merchandising." This latter method of taxing manufacturers and merchants was continued in the general revision of the revenue law made in 1864, but the method of taxing them upon the "average value of the property in their possession during the year previous to listing" was amended to read: "the value of such property in his possession or control at the time of listing." This amendment was more favorable to the merchant and manufacturer than the original law, in that the amount of such property at the time of the assessment would be at a minimum. A further species of property was added by the act of 1864 by including "toll bridges," which for purposes of taxation were declared to be "real property." No further additions or changes were made to the list of taxable property either by the revised revenue law of 1866 or by the "act to provide a system of revenue," approved February 15, 1869. This latter act was based upon the first state constitution adopted in 1866 and which became operative March 1, 1867. The constitution of 1866, being virtually silent upon the subject of taxation, had, therefore, no influence upon the revenue measure adopted in 1869, which throughout its one hundred and ten sections continues the principle and practice initiated in 1857.

The revenue article in the constitution adopted in 1875 made necessary a general revision of the revenue system of the state. A few amendments

were made in 1877, the most important, in so far as it related to the kinds of property taxable, being the one limiting the kinds of property exempt from taxation. This step was made compulsory upon the legislature by section 2 of article IX of the constitution of 1875, which dealt with the classes of property exempt from taxation. The constitution and the statutory amendment narrowed the field so that a certain amount of personal property, which had hitherto been exempt, was now returned to the field of taxable property. Such property was as follows:

"The wool shorn from the sheep of the person giving the list, and his crop harvested within one year previous to the listing; private libraries not exceeding one hundred dollars in value, and family pictures; the kitchen furniture of each family, the beds and bedding requisite for the use of the family, and one bed and bedding thereof for each single person not a member of another family; the apparel of every person and family actually used for wearing, with all food provided for each family.

"The polls or estates, or both, of persons who by reason of age or infirmity may . . . be unable to contribute to the public charge."

A further act, dealing with non-resident stock growers, provided that:

"When a person not a stock-grower in this state shall drive any stock into a county of the state, for the purpose of grazing therein, at any time previous to the last day of December of any year, it shall be liable to be assessed for all taxes leviable in that county for that year, the same as if it had been in the county at the time of the annual assessment."

The object sought to be obtained by the foregoing was some return for the protection afforded and benefits conferred upon the stockmen who brought their stock to this state to finish them for the market.

The whole revenue code was re-enacted March 1, 1879. This measure contained one hundred and eighty-four sections and was the tardy recognition of the revenue article in the constitution of 1875. A complete change is noted in the form taken to declare what is "taxable property." All previous measures, beginning with 1857, had been specific to the minutest detail in declaring what property should be taxed. The act of March 1, 1879, is more general. The property to be assessed and taxed shall be:

"First. All real and personal property in this state.

"Second. All moneys, credits, bonds or stocks or other investments, the shares of stock of incorporated companies and associations, and all other personal property, including property in transitu to or from this state used, held, owned or controlled by persons residing in this state.

"Third. The shares of capital stock of banks and banking companies doing business in this state.

"Fourth. The capital stock of companies and associations incorporated under the laws of this state."

Provision was made at this time to care for a new form of property interest which arose by reason of the fact that the state possessed, as proprietor, a large acreage of school land. This the state sold on contracts, holding the deed until the right of the purchaser to the deed became absolute. The purchaser, however, was gradually acquiring an interest in such land, and provision was therefore made to tax this new form of property as follows:

"School lands sold under any provisions of any law of this state, or such as have been heretofore sold, shall not be taxable until the right to a deed shall have become absolute, except the value of the interest of such purchasers shall be taxable, which interest shall be determined by the amount paid and invested in improvements on such lands." (Saline lands included under this same provision in 1907.)

A further method of obtaining the use of school lands was in the form of a lease. Such lessors who improved their leasehold estates at once came within the purview of those seeking new additions to the list of taxable property. An act of 1903, therefore, provided that:

"All improvements put on leased lands shall be assessed to the owner of such improvements as personal property."

A still further value, for purposes of taxation, was found to exist, in leased educational lands by an amendment of 1911 to the above act, as follows:

"All improvements put on leased public lands shall be assessed to the owner of such improvements as personal property, together with the value of the lease."

This amendment assesses the "value of the lease" as well as the "value of the improvements."

The general revenue law, approved April 4, 1903, was the answer to the demand for a better system of administration of the revenues. No new form of taxable property was created, other than the taxing of improvements on leased school lands. The declaration of the new measure upon the question of taxable property is concise and brief. It states as follows, that: "All property in this state, not expressly exempt therefrom, shall be subject to taxation." But careful definitions and instructions for listing brings out each item of property that shall be taxed.

The method of valuing "taxable property" underwent various changes. As early as 1856, property was to be assessed "according to its marketable value in cash at the time of the assessment." The next year, 1857, a more definite provision was enacted, as follows:

"All taxable property shall be listed and valued each year, real property to be assessed at its true value in money at private sale, having regard to its quality, locality, natural advantages, the general improvement in the vicinity and all other elements of its value."

The above method was followed until 1861, when a further amendment provided as follows:

"All taxable property, personal and real, to be listed and valued each year, that in the assessment of real property used and occupied exclusively for agricultural purposes and other than lots situated within the limits of any city, town, or village, the assessor shall not value the same higher by reason of any improvements thereon made exclusively for agricultural purposes, unless such improvements exceed the sum of \$1,000, when such excess only shall be assessed."

No further change was made in the principle of valuation until 1879, when it was amended as follows:

"Personal property shall be valued as follows:

"First. All personal property, except as herein otherwise directed, shall be valued at its fair cash value.

"Second. Every credit for a certain sum, payable either in money or labor, shall be valued at a fair cash value for the sum so payable, if for any article of property, or for labor, or service of any kind, it shall be valued at the current price of such property, labor or service.

"Third. Annuities and royalties shall be valued at their then present total value.

"Real property shall be valued as follows:

"First. Each tract or lot of real property shall be valued at its fair value, estimated at the price it would bring at a voluntary sale thereof, where public notice had been given, and a payment of one-third cash and the balance secured by a mortgage upon the property."

"Second. Leasehold estates, including leases of school and other lands of the state, shall be valued at such a price as they would bring at a fair voluntary sale for cash."

"Third. Where a building or structure owned by a lessee is located on land leased from another, the same shall be valued at such a price as such building or structure would sell at a fair voluntary sale for cash."

We are rescued from this rather complex method of ascertaining the value of taxable property by the amendment of 1903 which provided as follows:

"All property subject to taxation, shall be valued at its actual value which shall be entered opposite each item and shall be assessed at twenty per cent. of such actual value. * * * Actual value as used in this act shall mean its value in the market in the ordinary course of trade."

"All real property subject to taxation shall be assessed April 1, 1904, and every fourth year thereafter, which assessment shall be used as a basis of valuation for taxation until the next quadrennial assessment."

"The assessor in his annual valuation of personal property shall list and value real property becoming subject to taxation for the first time, and new improvements over \$100 in value not previously included in the value of land and lots; the value of such improvements is ascertained by considering for how much more the land would sell for by reason of such improvements. In case of the destruction of any improvement the value of the land is ascertained by determining for how much less such land or lot would sell for by reason of such loss."

The principle of valuation adopted in 1903 still governs in the assessment of taxable property. Its chief departures from the principle in use prior to 1903 were, first, in taking twenty per cent. of the actual value as the assessed value for purposes of taxation. In this respect the change consisted rather in putting in the statutes that which had been the custom and practice since 1857; second, in fixing a valuation of real estate once every four years instead of each year.

Such classes of property as mortgages, railroads, express and insurance companies, banks and corporations have been omitted from the discussion in this chapter as each such class will be treated by itself.

CHAPTER III.

Property Exempt From Taxation.

The exemption of certain classes of property from taxation is based either upon public policy or upon the fact that the state should not tax itself. That the principle of public policy governed the actions of our early legislators is evidenced from a study of the classes of property exempted. These exemptions were as follows: For educational, religious and charitable purposes; for the purpose of encouraging the development of fruit and forest trees; for the encouragement of the sheep industry; exempting a certain amount of personal property for the purpose of lessening the burden and encouraging the pioneer settler; certain other miscellaneous exemptions among which are the property of the territory, state, county and municipalities.

The first exemption of property is that contained in section 6 of the organic act, May 30, 1854, which provides as follows: "No tax shall be imposed upon the property of the United States," and the same principle is re-enacted in section 4 of the enabling act, April 19, 1864, in the following language: "No taxes shall be imposed by said state on lands or property therein belonging to or which may hereafter be purchased by the United States." This restriction meant more to the people of that period than it does to us now, as the United States still controlled millions of acres of public land. Even the land which had been homesteaded, but upon which final proof had not been made was still the property of the United States and therefore could not be taxed by the territory.

The desire to promote and foster education is evidenced by the acts approved by the first legislative session of the territory. Three measures were introduced: first, to "Incorporate the Nebraska University," approved February 28, 1855; second, to "Incorporate Simpson University at Omaha City," approved March 9, 1855; third, to "Incorporate Nebraska City Collegiate and Preparatory Institute," approved March 15, 1855. In each of these measures it was provided that "all the real or personal estate belonging or which may hereafter belong to said corporation, shall be exempted from taxation for any and all purposes whatever." The following year, 1856, an act to "authorize religious societies to elect officers and hold property" was approved January 26, 1856. Section 5 of this act provided that "all property held by such societies or corporations, as prescribed in this act, shall be exempt from taxation." Thus early, without opposition, was initiated the principle of exemption, for purposes of taxation of the property of educational and religious institutions. However, sporadic opposition to this principle later developed.

The exemption of a species of property differing from schools and churches

was provided for in section 13 of the "Act incorporating the Platte Valley and Pacific Railroad Company," as follows:

"Property of the corporation shall be liable for taxation, but not unless the net proceeds exceed ten per cent per annum."

This same provision was contained in the "Act incorporating the Nebraska Central Railroad company." A different method of exempting corporate property is disclosed in the "Act to incorporate the Missouri and Western Telegraph Company," approved January 11, 1861. Section 11 of this act provided as follows:

"The property of said company shall be wholly exempt from taxation within this territory for the period of five years from and after the passage of this act; and after the expiration of said five years the property of said company shall be assessed for taxes as other property."

Such exemptions were rather unusual and were evidently intended to encourage investment in and the development of such property.

The revenue code of 1857 provided the first general list of the kind of property that should be exempt from taxation. Section 2 of this act declared as follows:

"The following classes of property are not to be taxed, and they may be omitted from the lists herein required:

"First. The property of the United States and that of this state, including the university and school lands;

"Second. The property of a county, township, incorporated town, and school district, when devoted to the public use, and not held for pecuniary profit;

"Third. Public grounds, by whomsoever devoted to the public, including all places for the burial of the dead;

"Fourth. Fire engines and implements used for extinguishing fires, with the grounds used exclusively for their buildings, and for the meetings of fire companies;

"Fifth. The grounds and buildings of library, scientific, benevolent and religious institutions or societies devoted solely to the appropriate objects of those institutions, not exceeding three acres in extent, and not leased or otherwise used with a view to pecuniary profit;

"Sixth. The books, papers, furniture and apparatus pertaining to the above institutions, and used solely for the purposes above contemplated, and the like property of students in any such institutions used for their education;

"Seventh. Money and credits belonging exclusively to such institutions and devoted solely to sustaining them, but not exceeding in amount or income the sum prescribed by their charter;

"Eighth. Animals not specified in the next section (the next section specifies horses and neat cattle, mules and asses, sheep and swine); the wool shorn from the sheep of the person giving the list, and his crop harvested within one year previous to the listing; private libraries not exceeding one hundred dollars in value, and family pictures; the kitchen furniture of each family, the beds and bedding requisite for the family, one bed and the bedding thereof for each single person not a member of another's family, the apparel of every family and person actually used for wearing, with all food provided for each family;

"Ninth. The polls or estates, or both, of persons who by reason of age or infirmity may in the judgment of the assessor be unable to contribute to the public charges; such opinion being subject to reversal by the county court;

"Tenth. Mutual insurance companies."

The only change made in this list, before the passage of the amendment to this section in 1877 required by the constitution of 1875, was that made in 1864 which omitted mutual insurance companies from the class of exemptions. As the constitution of 1875 required all property to be taxed an amendment enacted in 1877 eliminated "clause eighth" from the list of property exempted.

In the first irrigation law, an "Act to provide for water rights and

irrigation," etc., approved March 27, 1889, we find a provision that seems to be contrary to the revenue article of the constitution. Section 4 of article 1 of the irrigation law provided as follows:

"Section 4. All ditches, canals or laterals used for the purpose of irrigation shall be exempt from all taxation, whether for state, county or municipal purposes."

This section was readopted in the amended law of 1896 and is now part of the present irrigation code.

In order to encourage the planting and growth of forest trees, as a protection against the terrific winds that swept this prairie region and for the further purpose of developing a fruit industry in the territory and state, various measures were enacted providing for a partial exemption from taxation for this purpose.

The first measure on this subject was an "Act to encourage the cultivation of fruit, forest, and ornamental trees in the territory of Nebraska," approved January 4, 1861. Sections 1 and 3 provided as follows:

"Section 1. That a valuation of fifty dollars on the real estate belonging to any individual, situated in one tract, * * * is * * * exempted from taxation. Provided, The said real estate shall have in a good state of cultivation one acre of land on which there shall not be less than one hundred fruit or ornamental trees, or four hundred forest trees in artificial groves; and that for each additional acre cultivated as herein described, there shall be the sum of fifty dollars exempt from taxation."

"Sec. 3. The cultivation of fruit, forest, or ornamental trees on any tract of land, as described in the first section of this act, shall in no case increase its valuation for revenue purposes."

Encouraged by this measure the small fruit grower had enacted into law an "Act to encourage the cultivation of grapes," approved January 10, 1862. Section 3 contained the same principle as that in section 3 of the act of 1861. Section one of the new act provided as follows:

"Section 1. That a valuation of one hundred dollars on real estate belonging to any individual, situated in one tract, * * * is * * * exempted from taxation; Provided, The said real estate shall have in a good state of cultivation, one acre of grapes; and that for each additional acre cultivated, * * * there shall be the sum of fifty dollars exempted from taxation."

The high exemptions afforded by the acts of January 4, 1861, and of January 10, 1862, led to their repeal February 15, 1864. The repealing measure, however, re-enacted a provision contained in each of the former acts, as follows:

"Section 2. The cultivation of fruit, forest, and ornamental trees, or grape vines upon any land in this territory shall in no case increase the value of said land for revenue purposes."

This principle was maintained until 1869, in which year the high rate of exemption contained in the earlier acts of 1861 and 1862 was again adopted. In an "Act to encourage the growth of timber and fruit trees," approved February 12, 1869, it was provided as follows:

"Section 1. There shall be exempt from taxation of the property of each taxpayer who shall * * * plant and suitably cultivate one or more acres of forest trees for timber, the sum of one hundred dollars annually for five years, for each acre so planted and cultivated.

"Sec. 2. There shall be exempt from taxation of the property of each taxpayer who shall * * * plant and suitably cultivate one or more acres of fruit trees, the sum of fifty dollars annually for five years, for each acre so planted and cultivated.

"Sec. 5. That persons without real estate and living on homesteads, under the act of Congress, shall be allowed for each acre of timber under this act, fifty dollars exempt from taxation annually for five years."

The fact that there was no limitation placed upon the number of acres for which an exemption from taxation of from fifty to one hundred dollars was allowed led to some abuse of the law. In order to curb this tendency to

have the acreage planted to trees and the taxable value of their property balance so as to offset each other, the legislature of 1873 provided an amendment to section 3 of the act of 1869 as follows:

"Section 3. * * * Provided, That there shall not be an exemption from taxation of the property of any person owning less than one hundred and sixty acres of land, of more than five hundred dollars, nor shall more than five acres of land planted and cultivated, as hereinbefore provided, be taken into the account for every one hundred and sixty acres owned by any person, which said five acres shall be a part of the tract of land for which the exemption is claimed."

The immediate effect of this legislation was to narrow the acreage planted to the limitations declared in the statutes which had also placed a maximum on the amount of the exemption.

The constitution of 1875 gave pause to indiscriminate exemptions of property from taxation. In sections 1 and 2 of article IX the constitution declared as follows:

"Section 1. * * * every person and corporation shall pay a tax in proportion to the value of his, her or its property and franchises.

"Sec. 2. * * * the legislature may provide that the increased value of lands by reason of live fences, fruit and forest trees grown and cultivated thereon, shall not be taken into account in the assessment thereof."

This being the paramount law the legislature of 1877 in an amendment to section 1 of the revenue code provided as follows:

"Section 1. * * * That the increased value of lands by reason of live fences, fruit and forest trees, grown and cultivated thereon, shall not be taken into account with the assessment thereof."

Despite the constitutional provision and its interpretation by statute in 1877 the law of 1869 "to encourage the growth of timber and fruit trees" still continued to be followed by at least some of the local assessing officers. A decision of the state supreme court, 1878, in the case of "The Union Pacific R. R. Co. v. The Board of County Commissioners of Saunders Co.," declared the act of 1869 null and void. A further decision on this particular point of exemption, so tenacious was this law of 1869, was required in 1880 in the case of the "B. & M. R. R. Co. v. Seward Co."

In accordance with section 2 of article IX of the constitution of 1875, which provides among other items that "Property * * * used exclusively * * * for cemetery purposes, may be exempted from taxation," the legislature of 1913 passed an act "to authorize the incorporation of mausoleum associations, etc." Section 5 of this law provided that such property shall be exempt from taxation.

CHAPTER IV.

Administration of the Revenues.

Administration of the revenue system begins with the local assessor and concludes with the state board of equalization and assessment. Between these official extremes the county clerk, county treasurer and the county board of equalization perform certain functions in the assessment and collection of the revenues.

The assessment of property as well as collection of the tax was assigned to the sheriff and his deputies by an "Act defining the duties of the sheriff and other officers," approved March 16, 1855. The sheriff or his deputies apparently continued to perform the duties of the assessor until 1861 when the act "creating the office of precinct assessor," approved January 10, 1861, became a law. This measure provided that the assessor should be elected annually. A year later, 1862, "An Act respecting elections," approved January 10, 1862, held for a biennial election of this officer. The term of two years was evidently not satisfactory, for "An Act to provide for elections," approved February 15, 1864, declared a return to the "annual election" of the precinct assessor. No further change was made in the term of the assessor until 1903 when, in a general revision of the revenue code, the elective precinct assessor as such gave way to the plan of a county assessor, who was elected for a term of four years and who was declared ineligible to two consecutive terms.

The county assessor was to be aided in his duties by deputies. The number of deputies were determined by the county assessor and the county board at their annual meeting in January. The number agreed upon were appointed by the county assessor with the consent of the county board. The selection of the deputies was, as far as practicable, to be made from different townships, precincts, villages, cities and wards and the district to be assessed by the deputy was assigned by the county assessor. The term of office of the deputy was at the pleasure of the county assessor, but it could not extend beyond the completion of the equalization of the assessments by the county board.

This initial attempt to centralize the administration of the assessment in one officer—an elective county assessor with a long term—was in response to the demand that a constantly decreasing grand assessment roll with its concomitant of a constantly increasing state debt be checked. Prior to the year 1904 the grand assessment roll of the state reached its highwater mark in 1893, when it showed an assessed valuation for purposes of taxation of \$194,733,124.73. This amount was not exceeded until 1904, the first year under the county assessor system, when it reached the total of \$294,779,244.65. The principle of centralized control of the local assessor by having him appointed was gradually being opposed by the forces who believed in decentralization in the administration of the assessment and therefore a return to the principle of an elective precinct assessorship. The question was made an issue in 1908 by the democrats in their state platform when they declared in favor of "a law to provide for the election of the precinct and township assessors by the direct vote of the people." This platform pledge was redeemed by them in 1909 by the passage of an act which provided for the biennial election of precinct and township assessors with ineligibility to two successive terms. Certain provisions were also made relative to assessors in municipalities. Cities having one thousand population or more were to elect one assessor. Cities having a population over 4,000 were to be divided by the county board into suitable assessment districts, apportioning as nearly as practicable by voting wards or precincts 4,000 inhabitants to each assessor who was to be elected from his district. The county assessor at this time was left undisturbed.

A further attack was made in 1911 on the principle of centralization when the office of county assessor was, by a petition of at least ten per cent of the electors, put up at the general election for continuance or discontinuance; if the latter, the duties of the assessor devolved upon the county clerk. The term of office of precinct assessor was increased from one biennial term to two biennial terms with non-succession. The right of cities, having over 4,000 population, to elect their assessors by districts was taken away in 1911 by an act which provided that the county board and county assessor should determine the number of assessors required and such number should be elected "en masse" and assigned by the county assessor. The continuance of this method, in cities with over 4,000 population, was sought by the "code commission" appointed to revise the statutes in their bill amending section 19 of chapter 20, entitled "Elections," approved April 18, 1913. A further amendment to this same section was introduced by Senator N. P. Dodge, Jr., of Douglas county, which, when originally introduced, provided that "In counties with a population of 150,000 • • • the county assessor with the consent of the county board should appoint all precinct, ward or township assessors." But in the passage of this bill through the senate an additional change was made which provided that "In cities with over 4,000 inhabitants • • • the assessors should be appointed en masse." This bill was approved April 19, 1913, and is held by the attorney general to be the law. At the present time then we have two methods of choosing the local assessor: one by appointment in counties with over 150,000 inhabitants and in cities with over 4,000 population; the other by election in districts outside the area not covered by the first method.

The duties of the assessor throughout the history of this office, in addition to the primary duty imposed of assessing the real and personal property,

have been varied. From 1855 to 1864 the local assessor was required only to assess the real and personal property of his district. The year 1864 marks the first departure when the assessor is required "to enumerate the inhabitants of their precincts." In 1865 he was required to make "returns of persons subject to military duty, to enumerate the inhabitants and to list separately the deaf and dumb, blind and insane, noting age, sex and condition of such persons." The foregoing was simple compared to the burden placed upon him in 1869, when he was required to "make a complete return of all births and deaths occurring the preceding year in their precinct; to further enter the nativity of all persons, and to note all cases of insanity, idiocy and the degree of either as far as practicable." In 1875 the assessor was required to "make a report of the census returns to the county clerk." In 1877 the further duty was laid upon him of "listing the number of acres of land under cultivation and the amount and kind of grain sown thereon for the year previous to the listing." There were certain duties peculiar to the assessor in counties under township organization. "He may act as a member of board of town auditors. He was required to be one member of the board of health and to sit as a member of the town board of equalization." In 1897 it was required of the assessor that he aid the "Bureau of Labor and Industrial Statistics," as follows: "At the time of the annual assessment, to enroll names of all persons over twenty-one years old, their occupation, products of farms and factories, length of employment past year of wageworkers and wages received." A further act approved April 21, 1913, created the "Bureau of Agricultural Statistics and Publicity" and imposed upon the precinct assessor the following: "To enroll the names of all persons over 21 years of age occupied in farming, with time employed and amount of wages earned, together with the present acreage and crops to which their several farms are planted and the number and kind of animals kept thereon." This was an additional duty to that imposed by the act of 1897 for the "Labor Bureau," which was continued in force by the amendment of 1913, omitting, however, "farm laborers."

The local assessor from the beginning bore certain relations to the county clerk, county board and territorial and state board of equalization and assessment. The county clerk's duties consisted in furnishing the assessor with certain assessment books and blanks, to correct errors in assessment roll and to assess property omitted by the assessor. The relation of the county board to the assessor was one of supervision, which included even from the beginning the power of removal. Upon the territorial and state board of equalization and assessment was early imposed the duty of furnishing "forms for use of county commissioners, assessors and clerks * * * as shall secure uniformity of proceedings and returns throughout the territory." The revenue code of 1903 conferred upon this board the "power to remove any county assessor for wilful neglect of duty."

The county board of equalization is the next factor in the administration of the revenue system. The history of this board is coeval with that of the assessor and reaches back to 1855. The prototype of this board is the "judge of probate," an official whose powers are determined by "An act defining the duties of the Judge of Probate," approved March 16, 1855. He determined the levy and submitted questions concerning additional taxes to a vote of the people. The probate judge was relieved of these duties by chapter 20 of the "Code of Nebraska," relating to "county commissioners," approved January 23, 1856. This county board was three in number and composed the first county board of equalization as appears from chapter 26 of the "Code of Nebraska," relating to "assessor," approved January 26, 1856. Section 15 of this chapter provided that "the county commissioners shall * * * hear and determine all appeals that may be made from the assessor's roll; if the commissioners are absent or unable to do so, the county clerk shall hear and determine such appeals." In 1857, when the "Iowa Revenue Code" was adopted, the practice in Iowa was followed and the composition of the board of equalization was changed from county commissioners to "county judge, county clerk and county treasurer." In a revision of the revenue code in

1858 the personnel of the board was changed to that of the three county commissioners. Upon the introduction of the township form of government in 1877 it was provided that the "board of supervisors" should constitute a board of equalization for the county, and that for the smaller unit—the township, the supervisor, town clerk and assessor should act as a board of equalization. In the revision of the revenue law in 1903 it was provided that the "county board, county assessor and county clerk shall constitute the county board of equalization." This was an addition of the county assessor and was in harmony with the idea of centralization advanced at this time.

The county board of equalization was, in the beginning, and now is the court of first instance for an aggrieved taxpayer. From the decision of this board the taxpayer may appeal to the district court and from there to the state supreme court. It is not evident until 1873 just what steps the county board took in the matter of adjusting the valuations made by the local assessors. In this year an amendment to the revenue law gave the county board "the right to raise or lower the valuations of any or all property (except property valued by the state board) as may be deemed just and proper." This unlimited action over valuations received a check by a provision in the revenue law of 1879, which provided that the board "may increase or diminish the aggregate valuation of property * * * as may be necessary to produce a just relation between all the valuations of property in the county, but it shall in no instance reduce the aggregate valuation * * * below the aggregate valuation * * * as made by the assessors; neither shall it increase the aggregate valuation * * * except in such an amount as may be necessary * * * to a proper and just equalization." Prior to 1903 real and personal property was valued and equalized each year. The revenue law of 1903 made a change in this method by providing that the board should "at its meeting in 1904 and every fourth year thereafter, equalize the valuation of real property of the county." And the limitations placed upon the action of the board in the matter of raising or lowering the valuations as returned by the assessors were removed so that the board was empowered without restriction to "increase or diminish the aggregate valuation of property." In practice the interval of four years in the valuation of real property proved to be too long. Inequalities intruded. To remedy this a further step was taken by an amendment in 1909 which provided for an annual or biennial correction of real property by lowering or increasing the assessed valuation of such tracts or lots as are assessed too high or too low. This did not change the rule of the quadrennial assessment of realty; it was but added power given the board to take up the slack in realty values between the four-year period.

A further step in the administration of the revenues is the state board of equalization and assessment. This office was established in 1857, but was called the "Census Board," the legislature using the terminology contained in the "Iowa Revenue Code." A revision of this "Code" in 1858 provided that "the territorial auditor and treasurer" (offices created by the act of March 16, 1855) "should constitute the territorial board of equalization." In 1864 the office of governor was included by an amendment which provided that "the governor, territorial auditor and treasurer shall constitute the territorial board of equalization." No further change was made in the personnel of this board until 1903, when a new board was authorized, composed of the "governor, auditor, treasurer, secretary of state and commissioner of public lands and buildings," and given authority to appoint a secretary. The name of the board was changed at this time to the "state board of equalization and assessment."

The powers of this board in relation to the local assessing and administrative officers were threefold: First, a loose administrative control; second, the authority to equalize the valuations within each county; third, sole power over the assessment of railroad and telegraph property. The extent of the administrative control of the state board over the local assessing officer consisted as early as 1857 in furnishing "assessment blanks and instructions necessary for a full and uniform assessment." Prior to 1903 the power of

removal of a local assessing officer did not lie in the state board. In the latter year the board was empowered to remove any county assessor who "wilfully neglected or refused to obey any of the provisions of law, or the rules, regulations or instructions of the board, or * * * to perform any of the duties imposed upon him by law, or by the rules, regulations or instructions of the board." This provision included peremptory dismissal without a hearing. This defect was corrected in 1911 by an amendment which declared that "no * * * county assessor shall be removed from office until after he has been notified and given a hearing." No county assessor has ever been removed under either of these provisions.

The second point wherein the state board comes in contact with the local administration of the revenues is in equalizing the values of each county. Beginning with 1857 the "Census Board" was authorized:

"To equalize the rate of assessment on real estate in the different counties whenever they are satisfied that the scale of valuation has not been adjusted with reasonable uniformity by the different assessors.

"Such equalization may be made either by changing any of the assessments or by varying the rate of taxation in any of the counties as may be found most convenient, but in either case the board is directed to preserve unchanged as far as practicable what would have been the aggregate amount of valuation had no such equalization been made."

The foregoing gave the board two methods to arrive at the true equalized value. First, either by increasing or decreasing the assessed value, or, second, by varying the rate of taxation. The latter method permitted the board to levy the full rate of territorial or state tax upon counties that made return of gross undervaluations, and of a less rate upon counties that made a more equitable return. The methods decreed by the law of 1857 remained in operation until 1879, in which year an amendment provided as follows:

"The state board of equalization shall * * * equalize and make the levy * * * but such equalization shall be made by varying the rate of taxation on the different counties, in case the board of equalization are satisfied that the scale of valuation has not been adjusted with reasonable uniformity by the different assessors."

This change confined the state board to the one method of equalizing values by varying the rate of state tax so that the rate would be higher in some counties than in others. The method employed by this and the former enactment was virtually to penalize and fine a county that made returns of a low valuation. The state board of equalization continued to equalize the valuations by this method until 1903, when in a general amendment of the "revenue code" it was provided that:

"The state board of equalization and assessment shall * * * have the power to increase or decrease the assessed valuation of any county, * * * by a per centum, and the per cent. of increase or decrease * * * shall be certified to the county clerk of the proper county, who shall thereupon add to or deduct from the assessment of each piece or parcel of property in the county affected, an amount equal to the per cent. of increase or decrease fixed by the state board."

To this method of equalization was added in 1905 the following:

"The state board shall have the power, in equalizing assessments, to increase or decrease the assessed valuation of any class, classes or kinds of property, whenever in their judgment it shall be necessary to make such assessments conform to law."

This amendment rendered less rigid the former principle of a flat increase or decrease on all the property in the county by providing that such property could be equalized by its classes or kinds. The reactionary tendency displayed by the legislature of 1909 in matters of revenue administration is further evidenced by an amendment the purport of which was to limit the powers of the state board. The substance of this amendment is as follows:

"The state board of equalization and assessment shall not increase the aggregate valuation of all the counties to an amount greater than that returned by the various county assessors."

In the event, however, that the state board finds that an equitable assessment of the property in the state cannot be made without increasing the aggregate valuation as returned by the county assessors, then, and in that case,

"The state board of equalization and assessment shall issue a notice to the counties that are undervalued and shall require such counties to appear and show cause why the assessment of such county should not be increased, and after a full hearing, the board may increase the valuation of such county by a per centum."

The immediate effect of this provision was to check the so-called "arbitrary" action of the state board in the matter of equalizations and to give the county in question a hearing before imposing an increase.

Lastly the state board of equalization and assessment has sole power in the assessment and valuation of the railroad and telegraph property of the state. The advent of the railroads brought problems, in a revenue way, too large for the local assessor to handle. Prior to 1864 this class of property was assessed by the local assessor; but beginning with 1864 the officers of railroad, telegraph and other transportation companies were required to make returns as follows:

"Of all the personal property which shall be held, to include road bed, depots, water and wood stations, and such other realty as is necessary for the daily running operations of the road, moneys and credits * * * within the territory, at the actual value in money. * * * the amount of said property situated in each incorporated village or city."

The returns included in the foregoing were to be made to the county clerk, who included them in his abstract which was reported to the territorial auditor. The value of this property was fixed before it was sent to the territorial board whose only method of equalizing the values before them was by varying the rate of taxes to be levied. An amendment to this method was made in 1867 which provided that the officers of these companies should make return of the amount and value of the property directly to the auditor in his capacity as a member of the board of equalization unless the property of the company was situated in one county only, in which case the return of the property was to be made to the assessor. The auditor then certified back to each county clerk the distribution of such property in the county, the valuation of which was then equalized by the county board. In 1873 it was provided that the state board of equalization "shall value and assess" railroad and telegraph property except "machine or repair shops or other buildings or grounds," this class of property being reserved for the local assessor. This latter class of property, by an amendment in 1879, was placed under the jurisdiction of the state board for valuation purposes, only to be again returned by an amendment in 1881 to the jurisdiction of the precinct assessors of the county "where such real or personal property (machine and repair shops, general office buildings, store houses, all real and personal property outside of right of way and depot grounds) may be situated." In 1889 the state board of equalization was given the further duty of assessing and valuing car companies and in 1907 they were required "to review and equalize local property of railway companies for purposes of terminal taxation and to forward the valuation made thereon to the respective county clerks.

The tendency of these various enactments show that gradually but surely the state board of equalization and assessment was obtaining sole control of the assessment and equalization of the railroad property of the state, and it stands out as the one solid, centralized administrative development in an otherwise decentralized and featureless administrative system.

The next step is the collection of the tax levied upon the assessed valuation as found by the assessors and the county and state boards of equalization. The office of collector of the local taxes first appears in the person of the sheriff. In section 13 of an "Act defining the duties of sheriffs and other officers," approved March 16, 1855, it was provided that the sheriff or his deputy shall collect the taxes of his county in accordance with the laws of this territory." The office of county treasurer was provided for by an "Act

regulating elections," approved March 16, 1855, and an "Act providing for the collection of the revenue," approved February 13, 1857, definitely stated: "That the county treasurer shall be collector of the revenue, and shall give bonds to the county commissioners in the sum of ten thousand dollars." Early legislation would indicate that the duties of the county treasurer were neither onerous nor exacting as he was only required to attend "at his office in September after receiving the tax list from the county clerk, and in the months of October, November and December to receive the taxes." In spite of the fact that the duties of this office were light an "Act providing for the appointment of deputies," approved October 8, 1858, authorized the county treasurer at his discretion to appoint a deputy. In 1858 a change was made in the methods of collecting the taxes. The designers of this method evidently considered it easier for the county treasurer to go about the county collecting the taxes than for the busy taxpayer to call upon the county treasurer at his office. The amendment was as follows:

"It shall be his (the county treasurer) duty to attend at the usual place of holding elections in each precinct of his county, for two days during the month of September * * * for the purpose of receiving taxes from any person who shall at that time wish to make payment; * * * and it shall be the duty of the treasurer to attend at the county seat for the balance of the month of September and during the month of October following to receive the taxes not yet paid."

By 1861 the fiscal conditions in each county were of sufficient importance to demand the full time of the county treasurer at his office in the county seat, and an amendment to this effect was approved January 11, 1861. All former revenue measures designated that the "county treasurer shall be collector of the taxes," but section 87 of the revenue code of 1879 provided that "the county treasurer shall be ex-officio county collector of taxes."

Prior to 1871 the county treasurer was collector of the taxes for the whole county. Beginning with an "Act to incorporate cities of the first class," approved February 8, 1871 and an "Act to prescribe the manner of collecting city taxes in cities of the second class," approved June 6, 1871, the city treasurer is authorized to collect city taxes, thus relieving the county treasurer of this duty. The distinction between these two fiscal officers was made more definite in 1873 by the following:

"The powers, rights, duties, and proceedings of the city treasurer in cities of the first class, shall * * * be the same in respect to the collection of municipal taxes and assessments as those of county treasurer in the * * * collection of county taxes."

Section 5, article X, of the constitution of 1875 made "it mandatory upon the legislature to provide for a township form of government. Conforming with this express declaration the legislature in 1877 passed an "Act to provide for township organization" which was approved February 16, 1877. This act provided for a town treasurer, for the collection by him of the taxes in his town, for the retention in his hands of the amount to be paid into the town treasury and for the payment of the residue to the county treasurer. The revenue code of 1879 in section 95 provided that "taxes assessed against railroad and telegraph property" in counties under township organization shall not be collected by the township treasurer but by the county treasurer. This divided responsibility was remedied by the general revenue code of 1903, which provided in section 144 that the "county treasurers of the several counties * * * shall be ex-officio county collectors of all taxes levied within their respective counties." With respect to municipalities those over 5,000 population made their own levy and collection. Cities and villages under 5,000 make their levy but the collection of the tax is made by the county treasurer who pays the amount due to the city or village treasurers. An amendment to the Omaha charter in 1905 provided that the county treasurer should be ex-officio city treasurer, thus superseding this officer. Under the act providing for the commission form of government, approved April 7, 1911, the fiscal department of cities adopting this form is in charge of an elective commissioner called the superintendent of public accounts and finances and the city treasurer is appointed.

A further administrative feature not provided for in the revenue laws was the tax commissioner. This officer was provided for in the municipal charters of Omaha, Lincoln and South Omaha. He appears for the first time in section 98 of the Omaha charter passed by the legislature in 1897. He was an elective official and his term was three years. Unlike the ordinary assessor he was to devote his entire time to his office. His duties were to "assess and value * * * all property, real and personal, and all franchises within the city limits, but he was to take the valuation and assessment of railroad property within the city limits from the returns made by the state board of equalization to the county clerk." To aid him in this work he was authorized to appoint as many deputies as he should find necessary and as were authorized by the mayor and council. In 1905 the legislature repealed the office of tax commissioner for the city of Omaha. The charter of the city of Lincoln approved March 27, 1901, provided for the office of tax commissioner with a term of two years. He was authorized to appoint with the consent of the mayor and council not to exceed five deputies. The duties of the commissioner were similar to those outlined in the Omaha charter. In the charter of South Omaha approved April 6, 1903, a like official with like powers and duties and an elective term of two years—changed to three years in 1911—was provided. This officer is still retained in the administration of the revenue systems of both Lincoln and South Omaha, but he performs his duty without the aid of deputies.

CHAPTER V.

Taxation of Railroads.

For purposes of taxation there was little tangible evidence of railroad property in Nebraska until the third year after the territory had become a state. In 1867 the value of shares of railroad stock for purposes of taxation is returned at \$1,032,393. For the year 1868 no return is made, but in 1869 the assessed value of the railroad property in the state was returned as \$7,440,800. The first rail of the Union Pacific in Nebraska was laid July 10, 1865. Governor Alvin Saunders in his message to the territorial legislature January 4, 1866, said: "The Union Pacific has laid its tracks for a distance of fifty-five miles." The year 1867 saw the completion of this road from Omaha to the west line of the state and beyond. Prior to the entrance of the Union Pacific in Nebraska a number of railroad companies were incorporated, but their material existence did not extend beyond their articles of incorporation. The incorporators of these paper railroads were jockeying for present position to care for a future contingency, as the then agricultural and industrial condition of the territory were poor guarantors of railroad dividends. The Union Pacific, therefore, was the only railroad—and that not until 1869—that was of value to the state for revenue purposes.

The property of railroads was early declared taxable. In an "Act to incorporate the Platte Valley and Pacific Railroad Company," approved March 1, 1855, it was declared that "the property of the corporation shall be liable to taxation, but not unless the net proceeds exceed ten per cent per annum." This same provision was contained in an "Act to incorporate the Nebraska Central Railroad Company, approved February 13, 1857. Of the eight separate acts, incorporating certain specific railroads, passed between the years 1855-1861, the above two were the only ones containing a clause relative to taxation. And the principle contained therein was virtually one of exemption from taxation, as these companies were not to be taxed "unless the net proceeds exceed ten per cent per annum."

The first general principle of arriving at the taxable value of railroad property is laid down in section 9 of the general revenue code of 1857, as follows:

"Sec. 9. The property of corporations or companies constructing canals, railways, plank roads, graded roads, turnpike roads, and similar improvements, is taxed through the shares of the stockholders; and when any such stockholders are non-resident, their interests are to be taxed in * * * the county in which is either terminus of the structure. * * * the assessor to require

the secretary to render under oath a list of the names and residences of such non-resident stockholders with the number of shares of each, and both the par value and the market value of such stock. * * * If such officer (whether resident or non-resident) refuses, the shares of non-residents shall be assessed to the company or corporation, and may be ascertained in the best manner within the power of the assessor. In such case the county first listing or assessing is to levy and collect the tax."

In a revision of the revenue code in 1858 the above method was retained entire and for refusal to return the shares of non-residents the following penalty was added:

"And the county commissioners may at their discretion add fifty per cent. to the amount so returned, and the property of the company shall be liable to sale as real estate for the taxes of the stockholders." The principle of taxing railroads and similar property, "through the shares of the stockholders" was maintained from 1857 to 1864. It was the only logical base upon which to lay a tax because the only material evidence of railroad property at this time was the shares of stock of the numerous paper railroad companies. The logic of events should have warranted the continuance of the principle of taxing railroad property through the shares of the stockholders, at least until 1866 or 1867, at which time the Union Pacific had completed its line across the state, and in consequence, for the first time offered any real tangible railroad property to be taxed. The legislature, anticipating by at least two years the constructive period of railroad development as distinguished from the stock or incorporation period, provided in 1864 a change from the former method of taxing railroads as follows:

"Section 17. The president, secretary, or principal accounting officer of every canal or slackwater navigation company, railroad company, turnpike company, plank road company, bridge company, telegraph company * * * whether incorporated by any law of this territory or not, shall list for taxation, verified by oath * * * all the personal property which shall be held to include road-bed, depots, water and wood stations, and such other realty as is necessary for the daily running operations of the road, moneys and credits of such company or corporation within the territory, at the actual value in money. * * * Return to be made to the clerk of each county where such property may be situated, together with a statement of the amount of such property which is situated in each incorporated village or city therein. The value of all movable property shall be added to the stationary and fixed property."

The property of railroad companies noted in this section of the revenue code of 1864 had no existence. Nor of little more effect was the continuance of this same provision in the revised revenue code of 1866 in force July 1, 1866. In fact, the assessment and taxation of railroad property as such does not appear in the abstract of the grand assessment roll of the territory or state before the year 1867, in which year from three counties out of a total of thirty-one, "railroad stock" is returned to the amount of \$1,078,050. For the year 1868 no return of this class of property is made.

In 1867 an amendment to section 17 of the revenue code as revised in 1866 continued the same principle of taxing railroad property, but changed the administrative feature by providing that the principal officer of the company should make return of all railroad property to the state auditor—unless all such property was situated in one county only, when the return should be made to the assessor. The auditor, after receiving all the returns, was to certify to each county clerk the distribution of such property in his county, and the county board was to equalize its value. If the proper officer of the company failed to make returns in the time and manner required and the auditor had to seek elsewhere for his information, he was to certify such fact to the county board, who were authorized to add a penalty of not to exceed fifty per cent to the valuation. This same amendment added "ferry companies" and additional personal property as "bridges and boats, books, papers, office furniture and fixtures." The general revenue code, approved February 15, 1869, made no further change in the principle of the assessment and administration of railroad property."

From 1857 to 1873 the assessment, valuation and administration of railroad property was virtually in charge of the local assessing officers and boards of equalization. It was not until 1867 that the state auditor was made receiver of the list of taxable railroad property and his only function was to certify the amounts of such property in each county to the county clerks. Neither the auditor nor the territorial or state board of equalization had any influence in determining the valuation of this class of property. This was made the duty of the county boards.

About the latter part of this first period and in the year 1867 two species of railroad property became discernible: First, the property used in operating the road, e. g., road-bed, tracks, rolling stock, depots, etc. Second, lands donated by congress to aid in construction of the road. These latter in the case of the Union Pacific were considerable, amounting, according to a memorial of the territorial legislature addressed to congress February 13, 1867, to 3,900,000 acres. The territory desired to tax this land, but was barred from so doing by the fact that patents would first have to issue from the federal government to the railroads. The territory therefore petitioned congress "to require all railroad companies to obtain the patents for any lands that may be justly due said roads within one year from the time when they first become entitled to apply for said lands." This question of taxing railroad lands continued to be an issue between the railroads and the taxing power as late as 1883.

As the amount and value of railroad property began to develop respectable proportions the inadequacy of the method to ascertain its value for purposes of taxation became more noticeable. The state auditor in his report to the legislature of 1873 said:

"Railroad property should be assessed as all other taxable property of the state; but owing to defects in the revenue law giving no authority to the state board of equalization to equalize and adjust the assessment, the result is, the assessment is made in the counties which results in litigation with railroad companies and in many instances they refuse to pay taxes."

This condition to which the auditor called attention resulted in an amendment to that section of the revenue code dealing with the taxation of railroads, as follows:

"Sec. 17. The president, secretary, superintendent or other principal accounting officers within the state at the time of the assessment of every railroad or telegraph, whether incorporated by any law of this state or not, when any portion of the property of said railroad or telegraph company is situated in more than one county, shall list for assessment and taxation, verified by the oath or affirmation of the person so listing, all the following described property belonging to such corporation within the state, viz.: road-bed, superstructure, right-of-way, rolling stock, side track, telegraph lines, furniture and fixtures, and personal property belonging to such corporation. Such list shall contain: First, the number of miles of such railroad or telegraph line in the state of Nebraska, and the number of miles of the same in each organized county therein. Second, return to be made to the auditor of state by March 1 annually. * * * State board of equalization to then value and assess the property of said corporation at its actual value in cash for each mile of said road or line, the value of each mile to be determined by dividing the sum of the whole valuation by the number of miles of such road or line. In making up such valuation or assessment, the said board shall examine and consider the return herein required to be made, or the information procured by the auditor in default of such return, together with such other reliable information relative thereto as they may be able to procure; said board shall not assess the value of any machine or repair shop, or other buildings, or grounds, or other real estate of any corporation or company within this state; but it shall be the duty of the assessor of the city, ward or precinct in which said machine or repair shops, or other buildings or grounds, or other real estate is situated, to assess the same and make return thereof in the manner now provided for the assessment and return of real estate. By April 1, or as soon as * * * said board * * * shall have made and determined said valuation and assessment, the state auditor shall certify to the county

clerks of the counties (having such property) * * * the assessment per mile made on such property, specifying the number of miles and amount in each of such counties. The county commissioners shall thereupon divide and adjust the number of miles and the amounts falling within each precinct, township, school district, or incorporated city or village in their respective counties, and cause such amounts to be entered and placed on the lists of taxable property returned by the several assessors. The auditor, in case the return was not made as required or being made was not sworn to, shall certify this fact to the county board, who shall add not to exceed fifty per cent. to the valuation (of the railroad property) brought before them."

The foregoing amendment eliminated items contained in all former legislation on transportation property as follows:

"Canal or slackwater navigation company, turnpike company, plank road company," and provided that "ferry and bridge companies engaged in ferrying or transporting of freight or passengers across the Missouri river shall be assessed and taxed on one-half of the value of such property and franchise * * * to be listed and assessed the same as all other property in the county or precinct wherein the end of such ferry or bridge or the principal place of business is located."

The real importance of this amendment, however, was, first, in the fact that it centered in the state board of equalization the duty of assessing and valuing all railroad and telegraph property in the state except that situated outside of the right-of-way; second, in fixing a method of ascertaining the value of each mile of road. The step taken at this time, therefore, tended to greater uniformity both in the assessment and administration of the property of railroads for purposes of taxation. That such concentration of authority was necessary is shown by the fact that by January 1, 1875, there were 1,107.69 miles of completed railroads in the state owned by ten different roads and having an assessed valuation of \$11,183,114.40. The revenue code of 1879 continued the principle, begun in 1873, of centering authority in the state board of equalization over the assessment and valuation of railroad property. The only change made by the act of 1879 was in placing the assessment of all railroad property in the hands of the state board, thus eliminating the local assessor from any part in assessing this class of property. The amendment that brought this about was as follows:

"The * * * principal officers of every railroad or telegraph company * * * shall list for assessment and taxation all property * * * including road-bed, right-of-way, main and side tracks, and turnouts, depot grounds, buildings, repair shops, warehouses, rolling stock of all kinds and descriptions, telegraph lines, furniture and fixtures and all other personal property belonging to the corporation." The classes of property taken away from the local assessor by this amendment were "depot grounds, buildings, repair shops and warehouses." The penalty of fifty per cent. was omitted by this amendment which also declared that "all such property (railroad and telegraph) shall for the purposes of taxation be deemed 'personal property.'"

The legislature of 1881 reintroduced the feature of control of certain classes of railroad property by the local assessor thus removing them from the province of the state board. This amendment was as follows:

"Sec. 39. That all machine and repair shops, general office buildings, storehouses, and also all real and personal property outside of said right-of-way and depot grounds, belonging to such railroad and telegraph companies, shall be listed for purposes of taxation by the principal officers or agents of such companies with the precinct assessors of any precinct of the county where said real or personal property may be situated in the manner provided by law for the listing and valuation of real and personal property."

The principle contained in this amendment was continued in section 85 of the new revenue code of 1903.

The state board of equalization and assessment were required by the revenue code of 1903 in addition to the kinds of property mentioned in the code of 1879 and continued by the new revenue code, to assess "moneys, credits, franchises and all other property of such railroad company used or held for operating the road." The real advance made at this time over all former

legislation on the taxation of railroad property was: (1) in the detailed schedule of all railroad property required to be made by the railroads to the state board of equalization and assessment. This schedule was to contain a complete list of the physical property; a complete statement of the shares of capital stock and their value, together with all indebtedness; the total gross and net earnings, the total amount expended in operations and maintenance and the number and amount of all dividends; (2) the state board of equalization and assessment was given the power to compel attendance of any officer or agent of a railroad company before it; (3) the penalty which attached for failure to return the schedule required was from \$1,000 to \$5,000. A further change for administrative purposes was made in that each railroad company was required to report its physical property to the county clerk of the county in which such property is located, the state board of equalization was required to report the same to the county clerk which report would enable him to have a check on the railroad corporation. The property of telegraph companies, up to this time assessed and valued by the state board, was by section 76 and 77 of the revenue code of 1903 placed under the local assessor.

The only departure from the method and principle laid down in 1903 was the act known as the "taxation of the terminal property of railroads by cities and villages." This act was approved March 28, 1907. Its main provisions were as follows:

"Every * * * corporation * * * operating a railroad, union station or depot in this state, also every car company and freight line company operating cars or doing business in the state of Nebraska shall cause all its taxable property to be listed for the purpose of local taxation by cities and villages, with reference to its amount, kind and value on March 1.

"The local assessor for each city and village * * * and the state board of equalization and assessment shall be the assessing officers on behalf of such city or village and shall make an annual assessment of such property.

"Each of the companies whose property is taxable in any city or village shall make an annual report to the assessor and the state board of equalization of all their property.

"The assessor * * * between March 1 and May 1 shall value and assess all of the local property of each company in each city and village. The valuation * * * shall be the true value and be taxed the same as other property. The returns made by the companies to the assessor shall not be held as conclusive.

"The assessor after assessing the value of local property * * * shall forward the assessment roll to the state board of equalization and assessment, who shall review and equalize it.

"The state board shall assess * * * all the property taxable, except local property, as follows: The board shall find the total value of all the property of each company in the state. From the amount so ascertained shall be deducted the value of all the tangible property of such company except rolling stock, and the residue so ascertained shall be divided by the total number of miles of railroad main track in Nebraska owned by each railroad company, and by the total number of miles of railroad main track over which each car company and freight line company has run cars during the preceding year, and the quotient shall be the unit basis of city and village taxation of such property. The assessed valuation of such intangible property and rolling stock in each city and village shall be computed by the board by multiplying the unit of valuation so found for each company by the number of miles and fraction thereof of the main track of such company in such city and village.

"After the equalization of such property by the state board they shall transmit the corrected assessment rolls to the several county clerks which shall be the basis of taxation of such companies by the city and village."

In the year 1889 a new class of railroad property was discovered for purposes of taxation. An "Act to tax sleeping cars and dining cars," approved March 23, 1889, provided as follows:

"Section 1. That all railroad companies in the state shall report to the

auditor of state the number of sleeping and dining cars not owned but used by them in the operation of the road in the state during each month in the year; also the number of miles each month such cars have been operated in the state; also the total mileage operated each month within and without the state, and the owners of such cars.

"Sec. 2. The state board of equalization shall, at the time of the assessment of railway property for taxation, assess for taxation against the owner or owners of said cars, the average number of said cars used by said railway corporations each month, and the assessed value of said cars shall bear the same proportion to the entire value thereof, that the monthly average number of miles that such cars have been run, or operated, within the state shall bear to the monthly average number of miles that said cars have been used or operated within and without the state, such valuation shall be in the same ratio as that of the property of individuals."

This provision relative to this class of property stood alone until 1903, when in a general revision of the revenue law it was elaborated upon. This same year the assessment of mercantile car companies operating or owning "stock, furniture, refrigerator, fruit, poultry and tank cars, or any kind of cars except sleeping cars" was included in the revenue code.

Sleeping car companies were defined by the revenue code of 1903 as any person, firm or corporation "owning any sleeping, parlor, buffet or tourist cars * * * upon which an extra charge in addition to the railroad transportation fare is made." The act of 1889 required the railroad operating this class of cars to report them to the state board of equalization who assessed and taxed them against the owner; the amended law of 1903 required the sleeping car company to make the report as well as pay the tax assessed. The report to be made to the state board of equalization by the company was as follows:

"First. The total number of cars of each class used in transacting the business upon all the lines running into or through this state.

"Second. The fair average value per car of each of the classes of such cars.

"Third. The total number of miles of railroad main track over which such cars were used within this state, and within each county in this state.

"Fourth. The total value of such cars due to this state as the number of miles of railroad main track over which such cars were used within this state bears to the total number of miles of railroad main track over which such cars are used, and the value per mile."

"After receiving this report the state board of equalization and assessment determine the number and true value of the different classes of cars and then "assess that proportion of such total value which the number of miles of railroad main track over which such cars were used within this state bears to the total number of miles of railroad main track over which such cars were used everywhere. Such assessment * * * shall be prorated among the several counties traversed by the railway carrying said cars, and shall be apportioned by the county clerk." For refusal or failure to make the required report the state board shall add to the value ascertained fifty per cent as a penalty.

The assessment of the other class of car companies, e. g., "stock, furniture, refrigerator, fruit, poultry and tank cars" was as follows: The car company was required to report to the secretary of the state board of equalization (1) the total number of cars owned; (2) the average number of miles traveled per day by cars of a particular class; (3) the aggregate number of miles made by their cars on the several lines of railroads in this state. This report of the car company was checked by a report required of every railroad company showing the total number of miles made by the cars of such car company on its tracks in the state and upon this latter report the state board based its assessment. From these statements was ascertained "the number of cars required to make the total mileage of the cars of each car company" and on this number the company was assessed. The state board fixed the true value of each particular class of cars which were then assessed to the owning company or individual. The assessment was then prorated by the state board

among the counties in proportion to the entire main track mileage of railways carrying such cars in the county. The county clerk then apportioned the assessed value as found by the state board. The same penalty which applied to sleeping car companies was also fixed for mercantile car companies.

The method of taxing mercantile car companies was changed by the legislature of 1913. The control of the state board of equalization and assessment was continued and made more complete and participation by the counties in the taxes accruing from this class of property was removed and such taxes paid into the general fund of the state. The new powers given to the state board of equalization and assessment were as follows: (1) The county clerks were required to certify to the state board by April 1, the total valuation and the total amount of all general taxes for the county. (2) The state board, from these returns of the county clerks, ascertained the average rate of all general taxes, state, county, municipal, school and local. (3) State board notified the car companies of the rate of levy and the amount of the tax and, in addition, certified to the state treasurer the owners and amount of tax levied. (4) Car companies required to pay the tax into the state treasury for the use of the general fund of the state. This amendment is virtually a beginning of the principle of the separation of sources.

CHAPTER VI.

Taxation of Express, Telegraph and Telephone Companies.

The modern express and transportation companies had their prototype in the lumbering freighter of territorial days. Until the advent of the railroad upon a utility basis in 1867 and for many years subsequent thereto "package freight" was conveyed by teaming and freighting companies. The business was of sufficient importance to awaken the interest of legislators seeking new classes of property as probable revenue producers. In the act revising the revenue code approved February 15, 1864, it was provided in section 2 as follows:

"Section 2. * * * personal property of every description belonging to persons or companies doing freighting or transporting business across the plains shall be valued at the usual prices of similar property at the time and place of listing, and shall be assessed at the respective places of residence of such person or persons."

As all other property, personal and real, was valued each year at its actual value, this class of property was likewise.

As the railroads of the state developed the express and transportation companies grew also. The revenue code of 1879 in section 17 takes cognizance of them as follows:

"Section 17. The personal property of express or transportation companies shall be listed and assessed in the county, township, precinct, city or village where the same is usually kept."

In addition to the personal property required by the foregoing section to be assessed it was further provided by section 32 of the act of 1879 as follows:

"Section 32. * * * express * * * and transportation companies, * * * shall * * * make out and deliver to the assessor a sworn statement of the amount of its capital stock, setting forth particularly: First. The name and location of the company or association. Second. The amount of capital stock authorized and the number of shares into which such capital stock is divided. Third. The amount of capital stock paid up. Fourth. The market value, or, if no market value, then the actual value, of the shares of stock. Fifth. The total amount of all indebtedness, except the indebtedness for current expenses—excluding from such expenses the amount paid for the purchase or improvement of property. Sixth. The assessed valuation of all its real and personal property. The aggregate amount of the fifth and sixth items shall be deducted from the aggregate value of its shares of stock, as provided by the fourth item, and the remainder, if any, shall be listed by the assessor in the name of such company or corporation as capital stock thereof."

Under this provision of 1879 express and transportation companies were assessed upon their real and personal property and also upon their shares

of stock. This principle stood until 1903 when this class of property was merged, as a subject of revenue, with telegraph and telephone companies.

Telegraph companies are early brought to our notice by two acts: One "to incorporate the Missouri and Western Telegraph Company," the other "to incorporate the Pacific Telegraph Company." Both acts were approved January 11, 1861. The act "to incorporate the Missouri and Western Telegraph Company" provided in section 11 as follows:

"Section 11. The property of said company shall be wholly exempt from taxation within this territory for the period of five years from and after the passage of this act; and after the expiration of five years the property of said company shall be assessed for taxes as other property."

This provision exempting the property of this telegraph company from taxation was not included in the act incorporating the "Pacific Telegraph Company." The revenue code of 1864 contained the first general provision for the assessment of telegraph property. It was included in section 17 of the act of 1864, which dealt with railroad property, and from 1864 until 1903 the officers which assessed and valued the property of railroads performed the same function for the property of telegraph companies. In other words, the state board of equalization—at least from 1873—assessed and equalized the value of telegraph property.

The assessment and valuation of express companies from the beginning had been localized in the counties, the state board of equalization having no jurisdiction over this class of transportation property. The property of telegraph companies for assessment purposes had, as elsewhere noted, been under the control of the state board. In the general revision of the revenue code made in 1903 the property of express, telegraph and telephone companies was, for purposes of taxation, placed under the jurisdiction of the local assessing officers. This change introduced the property of telephone companies for the first time and removed the property of telegraph companies from the taxing jurisdiction of the state board of equalization and assessment. The method of assessing this class of property is provided in sections 77 and 78 of the act of 1903, as follows:

"Sec. 77. It shall be the duty of each express, telephone and telegraph company to furnish to the local assessor on his demand made of any officer or managing agent, a true and verified statement of its personal property and of the gross receipts of its business in such local assessing district for the year ending April 1 of the current year, which verification shall be by one of the general officers of such company or by the local managing agent. Such assessor may also inspect such company's books of account for his district.

"Sec. 78. Each and every express, telegraph and telephone company shall be locally assessed on its tangible property wherever it shall have any such property in this state in like manner as other personal property is assessed, and in addition thereto on the amount of the gross receipts for the year next preceding the first day of April of the current year, such gross receipts to be taken and considered in their total as an item of property and be so listed and levied against the same as other property. Such gross receipts shall represent the franchise valuation, which shall not be otherwise assessed."

This method of assessing express, telegraph and telephone companies suffered a change in 1911 in that there was substituted the county assessor in lieu of the local assessor or the officer who should receive the statements of the property of express, telephone and telegraph companies. These three classes of property under the annual occupation tax on corporations, enacted in 1911, were subject to a tax on their capital stock for state purposes.

In 1913, a new and additional method to that required by the law of 1903 was employed in obtaining revenue from express companies. This measure was "An Act providing for an occupation tax to be levied against all express companies operating in this state," and was approved March 27, 1913. As noted in the law the express company was required to pay into the state treasury a tax of two per centum upon its gross earnings within the state for the privilege of exercising its corporate franchise or carrying on its business. The amount of such gross earnings was to be reported by the express company to the state board of equalization and assessment between July 1 and

October 1 annually, and for failure to make a report to the state board a penalty of ten per cent. is added to the amount of the tax. We have, therefore, two methods of taxing express companies: (1) on its tangible property and gross receipts at the local rate for local purposes; (2) a rate of two per centum on its gross earnings for state purposes. No such inroads have been made on the property of telegraph and telephone companies by the state, so that these two classes still continue to be assessed and taxed on their tangible property and gross receipts for local purposes at the local rate and an annual occupation tax on that paid-up capital stock for state purposes. By reason of this law express companies were exempted from the annual occupation tax laid on the paid-up capital stock of all corporations.

These three classes of businesses, express, telegraph and telephone, are also subject to an occupation tax by the authorities of cities and villages whenever such authorities see fit to impose this tax. This power is conferred by the various municipal charters.

CHAPTER VII.

Taxation of Public Utilities.

Public utilities naturally include railroads, express, telegraph and telephone corporations. But these classes have been treated elsewhere and will therefore be omitted from the discussion herein which will be confined to such municipal public utilities as street railways, water works, electric light and gas works and pipe line companies.

This class of public utilities is dependent upon urban development. Yet we find during the territorial period, when the towns were few and sparsely populated, an attempt to put in operation such utilities as gas and water. Special acts of incorporation were granted as follows: "To incorporate the Nebraska City Hydraulic Gas Light and Coke Company," approved November 3, 1858; "to incorporate the Brownville Hydraulic Gas Light and Coke Company," approved January 4, 1860; "to incorporate the Nemaha City Hydraulic Company in Nemaha County," approved January 11, 1861. These various acts were for the purpose of constructing, in towns named, such public utilities as water and gas. As early as 1867 the construction of street railroads was given an impetus by an "Act to promote the building of horse railways in the city of Omaha," approved February 18, 1867. This act authorized the incorporation of "The Omaha Horse Railway Company," with a capital stock of \$100,000. A general "Act to encourage the building of street railways in the cities of the state of Nebraska" was approved February 25, 1875. This act was followed by one of similar import approved February 15, 1877.

The first provision for the taxation of public utilities as considered herein is found in the revenue code of 1879. Section 15 provided as follows:

"Section 15. The personal property of gas companies, except the pipes laid down, shall be listed and assessed in the town, village, district or city where the principal works are located. Gas mains and pipes laid in roads, streets or alleys shall be held to be personal property, and listed and assessed as such, in the town, district, village or city where the same are laid."

In addition to being assessed upon their personal property gas companies were also assessed upon the amount of their capital stock. The same provision applies to street railroads which for the first time come within the purview of revenue legislation. The section in question provided as follows:

"Section 32. * * * gas and * * * street railroad * * * incorporated under the laws of this state shall, in addition to the other property required * * * to be listed, make out and deliver to the assessor a sworn statement of the amount of its capital stock."

The amount of capital stock was in each case ascertained by deducting the value of all the real and personal property from the aggregate value of the shares of stock and the remainder if any was listed by the assessor as capital stock. A rather indefinite provision in a different section of this same act (Sec. 8.) provided that in addition to the capital stock "franchises of corporations and persons" should be listed and assessed. No method, however, of ascertaining the franchise value of a corporation was provided. There

were, therefore, three methods employed under the revenue code of 1879 in the assessment of public utilities: (1) Upon their personal property; (2) upon their capital stock; (3) upon their franchises.

The principle of taxation upon this class of property enacted in 1879 was maintained until 1903. This latter year new legislation introduced several new kinds of public utilities in addition to gas and street railroad noted in 1879. It was provided in section 68 as follows:

"Section 68. Street railways, water works, electric lights and gas works, natural gas, * * * incorporated under the laws of, or doing business in this state * * * shall, in addition to the other property required to be listed, make out and deliver to the assessor a sworn statement of the amount of its capital stock."

There was also required a detailed statement of the value of the stock, the true value of the franchise, amount of indebtedness, the rate and amount of each dividend, gross and net earnings, surplus, amount of profit added to sinking fund, and the maximum, minimum and average price at which shares of stock sold during the year. In requiring such a detailed statement the law marks an advance over the method noted in 1879. The basis of assessment differed also. In the detailed statement given the assessor by such public utility corporation it was required that "the true value of its franchise" should be set out. After the assessor had received this statement, if he was not satisfied with the valuation made therein by the corporation he was authorized to make a valuation of the franchise of such corporation himself. In either case, whether he made the valuation himself or accepted that returned by the corporation, he was to "assess to the corporation the value of its franchise and of its tangible property." This method of assessment applied to foreign corporations owning a special or general franchise from any city in the state as well as to domestic corporations. A comparison then of the law of 1903 with that of 1879 would indicate a departure in the method and not in the principle of ascertaining the assessed valuation of the public utilities treated herein. In 1879 they were definitely assessed and valued upon their personal property and capital stock and, though the provision was rather indefinite, upon the franchise. Under the act of 1903, which still obtains, they are definitely assessed and valued upon their tangible property and the value of the franchise. In the method of ascertaining the value of this franchise marks the advance of the provision of 1903 over that of 1879.

The assessment and valuation of pipe line companies, "used for the transmission of oil, heat, steam or any substance to be used for lighting (electric light companies excepted) heating, power or other purposes, or for the transmission of articles by pneumatic or other power," was made upon the basis of their tangible property and gross receipts, the latter representing the "franchise valuation which shall not be otherwise assessed."

In addition to being amenable to taxation under the general revenue law of the state for local and state purposes, public utility corporations are also subject to an occupation tax by the authorities of cities and villages under power conferred in the various municipal charters.

CHAPTER VIII.

Taxation of Corporations.

The taxation of corporations, other than public service, banks and insurance companies whose assessment was cared for by specific provisions, was at first, from 1856 to 1869, based upon the shares of capital stock and assessed and taxed the same as other taxable property. From 1869 to 1873 they were still assessed upon the basis of their capital stock, but it was provided in 1869 as follows:

"Any lot with the buildings thereon in actual use by said company as their place of business, and all fixtures, furniture and personal property necessary, and in actual use in carrying on the business of said company, the same being owned as a part of their stock, shall be exempt from taxation."

This exemption virtually made the capital stock alone taxable. The period from 1873 to 1879 proceeded upon a different principle. Under the act of 1873

"real estate represented by the capital stock was exempt unless all the property of the corporation was real estate, in which case the capital stock was omitted from the tax list" and real estate taxed. The next period, 1879 to 1903, noted a change from the former method. The revenue code of 1879 provided in section 32 "that the aggregate amount of the corporation's total indebtedness and assessed valuation of its real and personal property should be deducted from the aggregate value of its shares of stock, and the remainder, if any, to be listed by the assessor as capital stock." The revenue code of 1903 provided that "the capital stock and franchise of corporations shall be listed and taxed at the situs of the corporation's principal place of business, or where its business is transacted." Grain brokers were to be assessed upon their real estate and other tangible property and in addition upon the average amount of capital invested in the business, exclusive of real estate and tangible property, which was to be assessed separately.

In addition to the method of taxing corporations under the general property tax the state now employs for state purposes the principle of the annual occupation tax on both foreign and domestic corporations. It was during the legislative session of 1907 that this method of obtaining revenue from the corporations of the state was first advanced. A bill was introduced in both houses (S. F. 357 and H. R. No. 432) "Providing for an annual license fee upon corporations," etc., but was indefinitely postponed. At this session, however, S. F. No. 358, relating to increasing the filing fees for articles of incorporation and amendments thereto, became a law. Fees had been charged corporations for filing their articles since 1877, and increased by an amendment in 1897. The proposition of an annual occupation tax on corporations was such a radical departure from the existing method that it got no further than the discussion of the principle in the session of 1907. This same bill was introduced in the legislative session of 1909 and was approved. All corporations, both foreign and domestic, were made subject to the payment of an annual occupation fee for the right to do business in the state. This fee was made payable to the secretary of state, who was required to pay the same into the state treasury. Such fee was based upon the amount of capital stock of each corporation and was as follows:

"Section 2. If the capital stock of such corporation is

\$10,000 or less	\$5.00
\$10,000 to \$25,000	10.00
\$25,000 to \$50,000	20.00
\$50,000 to \$100,000	30.00
\$100,000 to \$250,000	50.00
\$250,000 to \$500,000	75.00
\$500,000 to \$1,000,000	100.00
\$1,000,000 to \$2,000,000	150.00
Over \$2,000,000	200.00

For failure to pay this annual occupation fee, which was due July 1, and delinquent September 1, domestic corporations after proclamation by the governor forfeited their charters and foreign corporations their right to do business in the state on and after November 30. The secretary of state on or before December 31 was to certify to each county clerk a list of all domestic corporations who have forfeited their right to do business in the state. A fine of \$100 to \$1,000 or imprisonment in the county jail not less than 50 nor more than 500 days faces the corporation which attempts to exercise its power after such delinquency and failure to pay. The class of corporations exempt from the provisions of this law were "educational, religious, scientific and charitable corporations, and all banking, insurance and building and loan associations and corporations not organized for pecuniary profit."

It was felt that the act of 1909, which required the tax to be paid on the total amount of capital stock, worked an injustice. In order to remedy this an amendment in 1911 to the act provided that the occupation tax should be based on the paid-up and subscribed capital stock. The delinquent period was changed from September 1 to September 20, and provision made for the

reinstatement of those corporations which had forfeited their charters by the payment of the amount of the tax due and the penalties.

This law for an annual occupation tax on corporations was wholly redrafted in 1913 and the old law repealed. The principal changes made by the new law were as follows: Detailed reports required to be made to the secretary of state by both domestic by July 1 and foreign corporations during July of their organization and business. A report was also required in November of corporations not organized for profit for which a fee of \$1.00 was charged. A penalty of 15 per cent of the fee due is laid on corporations failing to make payment within thirty days, but penalty may be remitted by governor, secretary of state and attorney general for cause. Charter is forfeited if payment of fee is not made for three months after the thirty-day limit. Secretary of state in order to have a correct list of corporations shall be aided by county clerks in making the list. Corporations may appeal from the decision of the secretary of state as to the amount of fee due to the auditor of state, treasurer and attorney general, their decision final. Provision for dissolution and fees for filing same is made. Banking, insurance, building and loan associations exempted from provisions of this law.

The change in the amount of fees required to be paid by corporations for profit to the state was the most marked departure from the original law. Such fees were based upon the amount of paid-up capital stock and were as follows:

	Amount of Fee
\$1,000-\$10,000	\$5.00
\$10,000-\$20,000	10.00
\$20,000-\$30,000	15.00
\$30,000-\$40,000	20.00
\$40,000-\$50,000	25.00
\$50,000-\$60,000	30.00
\$60,000-\$70,000	35.00
\$70,000-\$80,000	40.00
\$80,000-\$90,000	45.00
\$90,000-\$100,000	50.00
\$100,000-\$125,000	60.00
\$125,000-\$150,000	70.00
\$150,000-\$175,000	80.00
\$175,000-\$200,000	90.00
\$200,000-\$225,000	100.00
\$225,000-\$250,000	110.00
\$250,000-\$275,000	120.00
\$275,000-\$300,000	130.00
\$300,000-\$325,000	140.00
\$325,000-\$350,000	150.00
\$350,000-\$400,000	160.00
\$400,000-\$450,000	170.00
\$450,000-\$500,000	180.00
\$500,000-\$600,000	200.00
\$600,000-\$700,000	250.00
\$700,000-\$800,000	300.00
\$800,000-\$900,000	350.00
\$900,000-\$1,000,000	400.00
\$1,000,000-\$10,000,000	400.00
(And \$75 for each million or fraction over \$1,000,000.)	
\$10,000,000-\$15,000,000	1,200.00
\$15,000,000-\$20,000,000	1,500.00
\$20,000,000-\$25,000,000	2,000.00
\$25,000,000 or in excess	2,500.00

This schedule of fees was the result of the conservative attitude of the senate. The desire of the house was for an increased schedule of fees over that which finally passed, but the senate felt that the corporate property of the state was not sufficiently developed to bear a heavier tax burden for state purposes, in addition to that under the general property tax for local purposes.

CHAPTER IX.

Taxation of Banks, Trust and Investment Companies and Building and Loan Associations.

The first provision relative to the taxation of banks was contained in the revenue code of 1857. Among the items of property liable to taxation was included "stock or shares in any bank or company, incorporated or otherwise, and whether incorporated by this or any other territory or state, and whether situated in this territory or not." There was a further provision closely connected with the subject of bank taxation as follows:

"Section 4. The term 'credit' * * * includes every claim and demand for money, labor or other valuable thing, and every annuity or sum of money receivable at stated periods, and all money in property of any kind, and secured by deed, mortgage or otherwise."

These credits to be listed at such sum as the person listing them believes will be received or can be collected. It was also declared that "depreciated bank notes and depreciated stock or shares in corporations or companies may be listed at their current value and rate."

The provisions of the revenue code of 1857 stood unchanged until 1867. In this year the question of the taxation of national banks arose out of the fact that congress had created a national banking system. The measure was introduced as an amendment and approved June 20, 1867. It provided as follows:

"That shares of stock, in all national banks, held by any person or persons in the state, shall be assessed at their par value, and the owner or owners thereof shall be required to pay tax thereon the same as though they were shares in banks chartered and incorporated by the laws of the state, or by the laws of any other state or territory of the United States and * * * that for the purposes of taxation no discrimination shall be made between any national bank and any other bank doing business in this state under the laws thereof."

This measure placed national banks upon the same basis for purposes of taxation as state banks i. e. upon their shares of stock. In 1869 the method of assessing bank stock was stipulated as follows:

"All the stock in any banking company * * * whether held by resident or non-resident owners, shall be assessed the same as other taxable property in the precinct where the company may have its principal place of business. Such stock to be listed by the officer or agent of the company if he fails or refuses by the assessor. Any lot with the buildings thereon in actual use by said company as their place of business, and all fixtures, furniture and personal property necessary and in actual use in carrying on the business of such company, the same being owned as part of their stock, shall be exempt from taxation."

This provision marks a departure from the act of 1867 in that (1) certain property owned as part of the capital stock is omitted, thus double taxation is prevented; (2) the officer or agent lists the amount of the stock, but each owner of stock paid the tax assessed though the officer of the bank listed the stock for it was stipulated that the owner of national bank stock shall be required to pay the tax thereon the same as owners of state bank stock.

Again in 1873 an amendment provided several important changes both in detail and principle from the law of 1869. This amendment was approved February 27, 1873 and provided in section 3 as follows:

"Section 3. The stockholders of every national bank located in this state, or of any bank incorporated under the laws of this state, shall be assessed and taxed on the value of their shares of stock therein, in the precinct where such bank is located, whether the stockholders reside in such place or not. Such shares shall be listed and assessed with regard to the ownership thereof, subject, however, to the restriction that taxation of such shares shall not be at a greater rate than is assessed upon any other moneyed capital in the hands of individual citizens of this state, in the county or precinct where such bank is located. The shares of capital stock of national banks not located in this state, held in this state, shall not be required to be listed under the provisions

of this act. Each national bank shall furnish to the assessor a full and correct list of the names and residence of its stockholders, and the number of shares held by each, and the assessor shall report the same to the county clerk in his assessment return. The taxes against such shares shall be levied against the holders of the same in the list of personal property, and shall be paid by such bank."

This provision, (1) made more definite the situs of the stock for purposes of taxation—this situs was the location of the bank; (2) declared that the rate of tax on shares of bank stock should not be greater than on other moneyed capital; (3) shares of national bank stock owned and held in this state on national banks located in other states should not be taxed here; (4) national banks required to furnish to assessor a list of the stockholders names, residence and number of shares each owned; (5) the tax was levied against the owner of the stock but paid by the bank.

The procedure established in 1873 was further amended in 1875 in several particulars: (1) To the restriction that "the shares of bank stock should not be taxed at a greater rate than other moneyed capital," was added, "or personal property." This in fact widened the area of taxable property within which banks should not be discriminated against; (2) all banks—in the previous act national banks only, were required to furnish the assessor with a correct list of the names, residence and number of shares held by each stockholder.

The revenue code of 1879 continued the general principle laid down in 1875 for the taxation of banks but made more specific the administrative features of the tax as follows: The assessor was to report the number and assessed value of the shares to the county clerk, who extended such valuation and the tax thereon the same as against other property. Provision was made to collect delinquent tax by sale of shares of stock. It was made incumbent upon the bank to pay the tax by withholding the amount of the tax from the accruing dividends on the stock, otherwise the officer of the bank became liable for the tax. The banks, both by the acts of 1873 and 1875, were required to pay the tax but the method was not provided until 1879. In order to prevent double taxation, the principle of exempting the real and personal property represented in the capital stock first enacted in 1869 but discontinued in the act of 1873, was again revived in the revenue code of 1879. This provision, while not mentioning banks, other than savings banks specifically applied to all incorporated companies and associations, in which class banks would be included. This section stipulated "that, the aggregate amount of all indebtedness and assessed valuation of all its real and personal property shall be deducted from the aggregate value of its shares of stock and the remainder, if any, shall be listed by the assessor in the name of the company or corporation as capital stock." In section 27 of the code of 1879, which provided for the deduction of debts from credits, it was provided that such section shall not be construed as to apply to any bank, company or corporation exercising banking powers or privileges.

Savings banks were included for the first time and were assessed upon a somewhat different basis. This class of banks in the act of 1879 were required to make a sworn statement to the assessor of the amount of capital stock, name and location, number of shares, capital stock paid up, market or actual value, amount of indebtedness and assessed valuation of its real and personal property. In order to ascertain the amount of the capital stock taxable the aggregate amount of the company's indebtedness and the assessed valuation of its real and personal property was deducted from the aggregate value of its shares of stock and the remainder, if any, was listed by the assessor as capital stock.

The revenue code of 1879 made certain provisions relative to the taxation of unincorporated banks which differed from those of national and incorporated state banks. Such banks as were unincorporated were required to make out a sworn statement with the assessor and to list for purposes of taxation (1) their moneys; (2) their personal and real property; (3) their credits; (4) their bonds and stocks. Brokers and stock jobbers were amenable to these same provisions:

The principles which, up to this time, had become well established in the

taxation of banks were as follows: (1) Stockholders assessed and taxed on their shares of stock at the situs of the location of the bank; (2) there should be no discrimination in taxation as against banks and in favor of other moneyed capital; (3) the banks pay the tax assessed on the shares of stock; (4) the value of the property owned and represented in the capital stock was deducted for purposes of assessment this prevented double taxation; (5) the property was listed with and assessed by the local assessor and taxed at the same rate as other property.

No further change was made in the method of the taxation of banks as laid down in the revenue code of 1879 until the adoption of the new revenue code in 1903. In which no change of principle is noted from those laid down in 1879. One thing, however, left obscure by the code of 1879 is made clear in the revenue code of 1903 as follows:

"Whenever any such bank, association or company shall have acquired real estate or other tangible property which is assessed separately, the assessed value of such real estate or tangible property shall be deducted from the valuation of the capital stock of such association or company."

This was a clear and unmistakable provision against the double assessment of the same property. An improvement in the method of arriving at the true value of the shares of stock was made in the code of 1903 over that of 1879, as follows:

"The assessor shall determine and settle the true value of each share of stock after an examination of such statement (made by the bank) and in case of a national bank an examination of the last report called for by the comptroller of the currency; if a state bank, the last report called for by the state banking board; and if the assessor deem it necessary, an examination of the officers of such bank * * * under oath, in determining and fixing the true value of such stock, and shall take into consideration the market value of such stock, if any, and the surplus and undivided profits."

This administrative detail would succeed in uncovering both the book value as well as the market value of the property in question.

Another class of property known as "loan and trust, or investment companies" was noted by the revenue code of 1903 and was assessed and valued upon the same basis and by the same method as the shares of stock and property of banks.

The taxation of building and loan associations as such was first provided for in chapter 14 of the act of 1891 regulating their establishment and organization. Section 8 of that act provided as follows:

"Section 8. Such associations shall not be subject to taxation on their capital stock, nor on their loans, advances, or mortgages, but shares in such association shall, for the purpose of taxation, be considered and held as credits, and members and holders of such shares shall list the same for taxation, and the same shall be taxed in such manner and subject to such deductions as may be provided by law for the taxation of other credits. The real estate of such association shall be subject to taxation in the same manner as provided by law in the case of other corporations and individuals."

This principle was not departed from when in 1899 the whole chapter on "building and loan associations" was redrafted, nor was any change made by the revenue code of 1903.

CHAPTER X.

Taxation of Insurance Companies.

Among the early acts of incorporation were two relating to insurance. One an "Act to incorporate the Franklin Insurance Company," approved March 15, 1855; the other an "Act to incorporate the Western Exchange Fire and Marine Insurance Company," approved March 16, 1855. These companies could insure both life and fire risks. Soon after three other companies received special charters, two being organized in 1857 and one in 1858.

The general revenue code of 1857 exempted from taxation "mutual insurance companies," but stipulated that "other insurance companies * * * shall be taxed one per cent. for county purposes and one per cent. for territorial purposes upon the amount of premiums taken by them during the year

previous to the listing in the county where the agent conducts the business. The agent was to render the list and be personally liable for the tax." This was in effect a tax upon the gross premiums of the business, the rate being equally divided between the territory and county.

The law of 1857 remained effective until the revised revenue code of 1864 in section 19 declared that

"Insurance companies of every description transacting business in this territory shall be taxed in the same amount and at the same rate that all other property is taxed, upon the amount of premiums taken by them during the year previous to the listing in the county where the agent conducts the business."

This amendment made no change in the base upon which the tax was laid, i. e., upon gross premiums, but it did change the method of making and the amount of the rate from a percentage to the local millage tax laid upon other property in the county. It would also appear that "mutual insurance" companies which, hitherto, had been exempt were no longer so, as the law made no mention of their exemption, but does specifically state that "insurance companies" of every description shall be taxed. In addition to insurance companies being assessed upon their gross premiums they were further required by section 17 of the revised code of 1864 to

"List for taxation all the personal property which shall be held to include * * * moneys and credits of such company * * * within the territory, at the actual value in money * * * and return to be made to the county clerk."

By 1864 then the principle had become established of taxing insurance companies upon their gross premiums and upon their personal property. The revised code of 1866 continued the principle noted in the code of 1864.

An amendment in 1867 to section 17 of the revised revenue code of 1866 provided that the personal property of insurance companies should be listed with the auditor of state as follows:

"Section 17. Insurance company * * * if property is situated in more than one county, shall list for taxation, * * * all the personal property, which shall be held to include * * * books, papers, office furniture and fixtures, and such other realty as is necessary for the daily business operations of said * * * insurance companies. * * * moneys and credits of such company * * * at the actual value in money."

If the property of such company was situated in more than one county the return was to be made to the auditor of state, who later certified the various amounts included in the governmental subdivisions of the county to the county clerk, who placed them upon the lists of the taxable property. If the property was in one county only, return was made to the local assessor. This same procedure was continued in section 17 of the revenue code of 1869 and the further feature of taxing the stock of such companies was added as follows:

"Section 17. * * * all the stock in any insurance company * * * whether held by resident or non-resident owners, shall be assessed the same as other taxable property in the precinct where such company may have its principal place of business. Such stock to be listed by the officer or agent of the company having charge of the business in the precinct, or in case of his absence or refusal by the assessor. Any lot with the buildings thereon in actual use by such company as their place of business, and all fixtures, furniture and personal property necessary, and in actual use in carrying on the business of such company, the same being owned as a part of their stock, shall be exempt from taxation."

The period beginning with 1867 marked a departure in the method of listing the personal property of insurance companies. Prior to 1867 the personal property was listed direct with the county clerk, beginning with 1867 and until 1873 it was listed with the auditor of state if situated in more than one county, otherwise with the assessor. From 1857 to 1873 insurance companies were taxed upon their gross premiums as an item of property, in 1857 at a percentage rate of one per cent. to the county and one per cent. to the state, which continued until 1864, when the rate was changed to the rate

laid upon other taxable property. In 1869 the stock of such companies was required to be assessed, but exemption was allowed of all real and personal property necessary to conducting the business of the company and owned as part of the capital stock.

Such was the rather involved method and principle of taxing insurance companies from 1857 to 1873. In this latter year we are confronted with two conflicting measures, each providing a different base for the taxation of insurance premiums. In an "Act regulating insurance companies," approved February 25, 1873, it was provided by section 38 that

"Every insurance company * * * shall be taxed upon the excess of premiums received over losses and ordinary expenses incurred within the state during the year previous to the year listing in the county where the agent conducts the business, at the same rate that all other personal property is taxed, and the agent shall render the list and be personally liable for the tax. * * * Insurance companies shall be subject to no other taxation under the laws of this state, except taxes on real estate, and the fees imposed by section 32 of this act."

The fees mentioned were (1) for examination and filing first application and issuing certificate of license, \$50; (2) for filing annual statement, \$20; (3) for each certificate of authority, \$2, all of which were paid to the auditor of state.

This act further made provision for reciprocal fines, license fees and taxes as follows:

"Whenever any state shall require of insurance companies * * * any payment for taxes, fine, penalties, certificates of authority, license fees * * * greater than the amount required for such purposes from similar companies of other states, by the then existing laws of this state, shall be required to make the same deposit for a like purpose with the auditor of the state."

The provision for reciprocal taxes and for annual fees stood without conflicting with any similar provision. The disagreement was between the principle of taxing insurance companies laid down in section 38 of the "act regulating insurance companies" and an amendment to section 19 of the revenue code of 1869, which was approved February 27, 1873. This amendment continued the principle of taxing insurance companies at the local rate * * * "upon the amount of premiums taken," but added a penalizing clause barring any insurance company from the state which refused to pay the tax. As this amendment to the revenue code was approved two days later than the approval of the act regulating insurance companies it stood as the law so that insurance companies would continue to pay taxes on their gross premiums.

By the amendment of 1873 the insurance companies were no longer required to list their personal property with the auditor. And it was further provided that in assessing the value of the stock of the insurance companies

"The actual value in cash of all the property that is represented shall be considered, deduction from debts allowed only from items of money and credits, and any real estate represented by the capital stock shall be omitted by the assessor from the return of taxable lands or town lots, * * * except in case all the property * * * be real estate, in which case the capital stock * * * shall be omitted from the list."

The conflicting provision of the acts of 1873 was removed by the repeal of section 38 of the act regulating insurance companies. The revenue code of 1879 made no change in the method of taxing insurance companies upon their gross premiums, but did add a phrase contained in the repealed section of the insurance code of 1873, as follows:

"Insurance companies shall be subject to no other taxation under the laws of this state, except taxes on real estate and the fees imposed by the chapter on insurance."

This removed the capital stock of insurance companies from the field of taxation. Mutual companies were exempted from the provisions of the section dealing with the taxation of insurance companies and disbarment from the state for failure to pay the tax assessed was repealed by the act of 1879.

An amendment in 1887 to section 38 of the revenue code of 1879 introduced a different base for the taxation of insurance companies than that which had obtained since 1857. The change was from a tax on gross premiums to one

on net premiums. The amendment approved March 10, 1887, provided as follows:

"Section 38. Each and every insurance company * * * shall be taxed upon the excess of premiums received over losses and ordinary expenses incurred within the state during the year previous to the year of listing in the county where the agent conducts the business, properly proportioned by the company at the same rate that all other personal property is taxed."

This was the only change made from the code of 1879 and was the same principle which section 38 of the act regulating insurance companies enacted in 1873 sought to establish, but which was found to be in conflict with another section amendatory of the revenue code which required that the gross premiums be taxed.

In 1899 the entire insurance code was redrafted by an act known as the "Weaver Act," and approved March 31, 1899. This law, in addition to creating a state insurance bureau, providing for the organization and incorporation of insurance companies for their admission from other states and to regulate their conduct, also provided for their taxation in sections 36 and 37. The fees and taxation of domestic companies were regulated by section 36, as follows: For charter, \$50; filing the annual statement, \$20. It was further required that they be "taxed upon the excess of premiums received over losses and ordinary expenses incurred within the state, etc." This was similar to the act of 1887. An occupation or volunteer fire department tax of \$5 was provided to be imposed by municipal ordinance. The fees and taxation of other domestic companies were regulated by section 37 and were as follows: For charter, \$100; copy of amended charter, \$75; annual statement, \$50. It was further required that they pay two per cent. of their gross premiums as an additional license fee to the state treasurer and that the payment of such taxes and fees shall be in full of all fees and taxes, except taxes on real estate, which may be imposed by any county, municipality or the state. An occupation or fire department tax of from \$5 to \$10 may be imposed on all fire insurance companies by ordinance.

So revolutionary were the administrative and taxation features of this law that its constitutionality was at once submitted to the state supreme court for decision in the case of "State of Nebraska, ex rel. John F. Cornell, v. William A. Poynter, 59 Neb., pp. 417-435." The court held that the rule of uniformity in taxation had been violated in that all insurance companies provided for by the law were not taxed alike, and further that foreign insurance companies would be relieved from taxation upon personal property which would be a commutation of taxes in violation of section 4, article 9 of the constitution, and that therefore sections 36 and 37 were invalid. The court held further that as the invalid part of the act (sections 36 and 37) influenced and induced the passage of the entire act the whole law was therefore void. This decision of the supreme court left the taxation of insurance companies upon the same basis as provided in the act of 1887.

The revenue code of 1903 marks the next attempt at a change in the taxation of insurance companies. This code classified insurance companies as foreign or domestic. Under foreign special classification was made (1) fire; (2) life, accident or life and accident; (3) surety. Under domestic all insurance companies life, fire, accident or surety were considered as one class for purposes of taxation. The provisions for the taxation of all insurance companies were as follows:

(1) "Foreign fire insurance companies taxed in the county, town, city, village and school district where the agent conducts the business, upon the gross amount of premiums received by it for insurance written upon property within the state during the preceding year. Such gross receipts to be taken as an item of property of that value and to be assessed and taxed on the same percentage of such value as other property. Agent to render the list and be personally liable for the tax."

Foreign life and accident companies were required, at the time of making their annual statement, to pay into the state treasury two per cent. of the gross amount of premiums received on business done in the state. Fraternal beneficiary associations and mutual companies with no capital stock and

which make no dividends exempted. Foreign surety companies also were required to pay into the state treasury two per cent. of their gross receipts.

Domestic life, fire or accident insurance company or surety company were required to be taxed.

"In the county, town, city, village and school district where the agent conducts the business upon the gross amount of premiums received for all Nebraska business done in the state during the preceding calendar year, less amount of same ceded to other companies as reinsurance * * * and less premiums returned or canceled policies. Such gross receipts, less reinsurance and cancellations, taken as an item of property of that value and be assessed and taxed on the same percentage of such value as other property."

From 1857 to 1887 insurance companies were taxed on their gross amount of premiums at the local rate. Capital stock was considered as an item of property and deductions of the personal and real property allowed when represented in the capital stock. An amendment in 1887 provided that insurance companies pay tax on their net premiums at the local rate and subject to no other tax except taxes on real estate and certain fees. The act of 1899 was declared unconstitutional so that the tax on net premiums enacted in 1887 obtained until the revenue code of 1903, which provided an annual tax of two per cent. on gross premiums and receipts of foreign insurance companies, and a tax on the gross premiums of domestic companies at the local rate.

In addition to the general property tax and annual license fees and taxes on the business and property of insurance companies there was the further tax permitted to be laid on fire insurance companies by municipalities having an organized fire department. The first general law in 1889 provided that "fire insurance companies in municipalities having an organized fire department of ten to twelve active members shall pay to city treasurer two per centum upon the amount of all premiums received in such city or village." This act was repealed in 1895 by the provision which gave municipal authorities of cities of first class with less than 25,000 inhabitants and cities of second class and villages power to impose an annual license tax of not more than \$5.00 on each fire insurance company for the use of the volunteer fire departments. Business taxes are also permitted by the various municipal charters.

The law of 1909 establishing the department of state fire commissioner provided that an annual tax of one-fourth of one per cent. on the gross premiums less cancellations and reinsurance, be laid upon all fire insurance companies, except farmers mutuals doing business in the state. The rate of this tax was increased in 1911 from one-fourth of one per cent. to three-eighths of one per cent.

CHAPTER XI.

The Inheritance Tax.

The first measure relative to the taxation of inheritances or legacies was introduced in the legislature of 1893. This was "H. R. No. 152. To tax inheritances." This bill was never reported out of the standing committee. This principle was again introduced in the session of 1895 this time in the senate. The measure was "S. F. No. 230. To tax gifts, legacies and collateral inheritances." The bill was reported by the judiciary committee for indefinite postponement but the senate ordered the bill placed on general file. It later failed to pass this body. Again in the sessions of 1897 and 1899 this principle of taxation was turned down, though in the latter year a house measure (H. R. No. 36) succeeded in passing that body but failed in the senate. It remained for the legislature of 1901 to enact a measure providing for the taxation of inheritances.

Two measures were introduced in the session of 1901, one H. R. No. 474, the other H. R. No. 364. The latter was introduced by Representative Hawxby and was an "Act to tax gifts, legacies and inheritances in certain cases and to provide for the collection of the same." This measure became a law and its main provisions were as follows: 1. Property taxable; (1) all real, personal and mixed property of any decedent a resident of this state, or, if not a

resident, but his property, or any part shall be within this state shall be subject to taxation; also the life estate, or estates for a term of years. 2. Classification of heirs: (1) Direct heirs. (a) Father, mother, husband, wife, child, brother, sister, wife or widow or the son or husband of the daughter, or adopted children; (2) Collateral heirs. (a) Uncle, aunt, niece, nephew, or lineal descendant; (3) Strangers or distant relatives. 3. Rate of tax; (1) Direct heirs. (a) One dollar on each \$100 of clear market value. (2) Collateral heirs. (a) Two dollars on each \$100 of clear market value. (3) Strangers or distant relatives. (a) Two dollars on each \$100 of clear market value; \$3 on each \$100 of \$10,000 or less; \$4 on each \$100 of \$10,000 to \$20,000; \$5 on each \$100 of \$20,000 to \$50,000; \$6 on each \$100 over \$50,000. 4. Exemptions; (1) Direct heirs. (a) Any estate valued at a less sum than \$10,000 shall not be subject to the tax; (2) Collateral heirs. (a) Not to be taxed on property valued at \$2,000 or less; (3) Strangers or distant relatives. (a) Estates valued at \$500 or less not subject to tax.

In the administration of this tax certain duties were placed upon the county judge, county attorney, county clerk and the county treasurer. The county judge appointed the appraiser, determined after the report of the appraiser was filed with him, the cash value of all estates, annuities and life estates the tax liable on each, and shall notify the parties by mail. County judge and county clerk make statement every three months to county treasurer of such tax due and unpaid. County treasurer notify county attorney of tax due and unpaid who shall prosecute in county court. County treasurer collect and pay to state treasurer all inheritance tax in his county and make report of same to state auditor in March and September. The secretary of state furnish county judge a book to enter the returns made by the appraiser. The administration and collection of this tax therefore involved the services of seven officers, four of them county officers and three state officials.

In 1905 a radical change was made both in the direction and the object for which the inheritance tax fund should be expended. The original law of 1901 required the taxes accruing from inheritances to be paid to the state treasurer but no special fund was designated. The amendment of 1905 provided that "the tax should be paid to the county treasurer for the use of a permanent road fund" and "that all money heretofore paid by the various county treasurers to the state treasurer * * * shall be paid back to the county from which the tax was received."

A further amendment in 1907 made a slight change in the rate of tax chargeable to inheritances left to strangers or distant relatives "on each \$100 or less up to \$5,000, two dollars; on \$5,000 to \$10,000, three dollars." This amendment was made to remove a conflict in the original law of 1901 which required a rate of \$2.00 and \$3.00 on estates of \$10,000 or less.

A further amendment was enacted in 1911 which made a change in the time when such inheritance tax should be paid. The original act of 1901 provided that the tax should be due and payable at the death of the decedent and that if the tax was paid within six months no interest should be charged otherwise interest at the rate of 7 per cent should be paid from that time. The amendment of 1911 increased the time within which the tax should be paid from six months to one year. The following table is appended to show the financial returns under this law:

¹ Alabama had an inheritance tax law in 1848. Constitution of 1901 says 2½ per cent may be imposed, but legislature has never passed statute.

² This applies to each person.

³ Varying less amount on certain non-resident estates.

⁴ Aliens 20 per cent—alien brothers and sisters 10 per cent.

⁵ Applies to aliens only.

⁶ Husband or wife exempt from any tax.

⁷ Supreme court held statute unconstitutional, but repudiated the arithmetical progression method of computing the tax, holding but one increase of rate over the primary rate in any class is provided for.

⁸ Estates of less than \$10,000 are exempt.

⁹ To certain lineals an exemption of \$20,000.

¹⁰ Exemption to widow \$15,000, and each other lineal \$10,000.

CHAPTER XII.

Taxation of Moneys and Credits.

The first legislative assembly of the territory made no provision in the "Act to provide for a county revenue" approved March 15, 1855, for the taxation of moneys and credits. Nor was this class of property specifically noted in the act relating to "assessor" and approved January 26, 1856. This measure simply made provision for the listing of real and personal property and for its valuation "according to its marketable value in cash at the time of the assessment." The first general revenue code, that of 1857, definitely noted this class of property and provided for the taxation of "money, whether in possession or on deposit, and including bank bills; money, property, or labor due from solvent debtors on contract or on judgment, and whether within this state or not; mortgages and other like securities and accounts bearing interest; annuities, but not including pensions from the United States, or any one of them, nor salaries, or payments expected for services to be rendered." The term "credit" is defined to include "every claim and demand for money, labor or other valuable thing, and every annuity or sum of money receivable at stated periods, and all money in property of any kind, and secured by deed, mortgage, or otherwise." It was further provided that "credits shall be listed at such sum as the person listing them believes will be received or can be collected; and annuities at the value which the person listing believes them to be worth in money."

The method for the deduction of just debts was as follows: "In making up the amount of money and credits which any person is required to list, he will be entitled to deduct from their gross amount the amount of all bona fide debts owing by him. * * * No acknowledgment of indebtedness not founded on actual consideration * * * shall be considered a debt, or which do not represent real liabilities * * * no deductions allowed on account of any obligation given as a premium to an insurance company, nor on account of an unpaid subscription of any institution or society, nor on account of a subscription to or installment payable on the capital stock of any company or incorporation."

It was further provided that "property under mortgage or lease is to be listed by and taxed to the mortgagor or lessor unless it be listed by the mortgagee or lessee."

These provisions were continued in the revenue codes of 1858 and 1861. In the latter year an attempt was made to reach the mortgages held by non-residents on lands in the territory. It was provided in sections 67, 68 and 69 that in addition to credits previously subject to taxation, all demands due or owing from residents of this territory to non-residents thereof; or due to such non-residents and secured upon lands in this territory where the owner of such lands is also a non-resident, and on mortgages, bond and deed, contract for the sale of land, judgment, decree or otherwise, whether secured or not, shall hereafter be subject to taxation the same as other demands or credits. The person owing the demand may pay the tax assessed, which with any penalty or interest shall apply upon the payment of such demand and the receipt of the county treasurer shall be prima facie evidence of such payment in any court of the territory.

In the revised revenue code of 1864 the foregoing method of reaching the credits of non-residents for purposes of taxation was repealed, and the method of taxing moneys and credits as outlined by the revenue code of 1857 was continued.

The revenue code of 1879 provided for the taxation of money and credits and stipulated that "every credit for a certain sum, payable either in money or labor, shall be valued at a fair cash value for the sum so payable; if for any article of property, or for labor, or service of any kind, it shall be valued at the current price of such property, labor or service. Annuities and royalties shall be valued at their then present total value." The foregoing was rather a change in phraseology than in method or principle of listing and taxing credits. An addition was made, however, by the code of 1879 in the principle of deducting debts from credits in that section 28 provided "that no person

shall be entitled to any deduction on account of any indebtedness contracted for the purchase of United States bonds or other non-taxable property." In section 29 of the same revenue code the assessor was required to verify all deductions by placing the claimant under oath.

The principles outlined by the revenue code of 1879 remained in force until 1903 in which year a general revision of the entire revenue code was made. The minute details and explanatory phrases used in the revenue code of 1879 and the earlier codes relative to "credits" and the "deductions" to be allowed therefrom are not contained in the revenue code of 1903. Section 5 of this code defines "credits" to include every demand for money, labor or other valuable thing, whether due or to become due." Money and credits are held to be personal property and in section 28 it is provided that "every person * * * a resident of this state, shall list all his moneys, credits, bonds, * * * moneys loaned or invested, annuities * * * royalties, and all other personal property." All property, under the code of 1903, was required to be valued at its actual value and assessed at twenty per cent. of such actual value. No change was made in 1903 in the principle of taxing credits from that in the code of 1857 and 1879. The provisions for guiding the administrative forces in the taxation of this class of personal property are less clear in the code of 1903 than in all former codes, so that it has required a number of decisions on the part of the state supreme court to fix the meaning of the term "credits."

In 1911 a radical change was effected in the principle of mortgage taxation, by the enactment of what is popularly known as the "Smith Mortgage tax law," approved April 3, 1911. Section 2 of this act provided that "A mortgage on real estate is hereby declared to be an interest in real estate for the purposes of assessment and taxation. The amount and value of any mortgage upon real estate in this state shall be assessed and taxed to the mortgagee or his assigns, and the taxes levied thereon shall be a lien on the mortgage interest; and the excess in value of the real estate above the mortgage or mortgages thereon shall be assessed and taxed to the mortgagor or owner of the premises and be a lien on the owner's interest." It was further made the duty of the assessor at the time of assessing property to "assess the mortgage interest and the value of the real property above the mortgage interest separately." As to who should pay the tax on such property it was stipulated "that when it is provided and agreed in any mortgage that the mortgagor shall and will pay the tax levied upon the mortgage, or the debt secured thereby, that such assessor or county clerk, shall not enter said mortgage for separate assessment and taxation, but both interests shall be assessed and taxed to the mortgagor or owner of the property mortgaged. Provided further, that such agreement contained in the mortgage will not destroy the negotiability of any note secured thereby." The provisions of this measure were not to apply to corporations "the property of which is now exempt from taxation."

An unsuccessful attempt was made in 1913 to repeal this measure. One of the principal and immediate effects promised by this law was that it would cause a lower interest rate on real estate mortgages. Upon this point no very extensive deductions can be made as the law has been in operation too short a period. As to what effect the law has upon the interest rate the following table is appended:

**INTEREST RATE ON REAL ESTATE MORTGAGES FILED DURING THE
YEAR PRECEDING AND THE YEAR FOLLOWING THE DATE WHEN
THE SMITH MORTGAGE TAX LAW BECAME EFFECTIVE.**

Top line shows average assessed valuation per acre of improved real estate in Nebraska for years 1880-1913.

Middle line shows average assessed valuation per acre of total land and improvements for years 1908-1913.

Bottom line shows average assessed valuation per acre of unimproved real estate in Nebraska for years 1880-1913.

BANKING IN NEBRASKA.

The early banks of Nebraska were established by specific acts of the legislature, naming the incorporators, powers, capital and place of business.

The first territorial legislature did not grant any bank charters, but it incorporated the Western Exchange Fire and Marine Insurance company, which by a liberal construction of its powers, became a bank. On January 18, 1856, the legislature chartered the Platte Valley bank at Nebraska City, the Fontenelle bank at Bellevue, the Bank of Florence, the Bank of Nebraska at Omaha and the Nemaha Valley Bank at Brownville. There was considerable hostility to "wild cat" banking, even then, J. Sterling Morton being one of the most pronounced objectors.

The charters of these earliest banks were almost identical. The companies were made up of a very few persons, the capital stock was \$50,000 or \$100,000 with liberty to increase it to \$500,000. The shares were to be \$100, and one half the capital stock in subscriptions was required for the commencement of operations. There was no requirement of any amount in cash to begin business. Power to issue bills, notes and other certificates of indebtedness and all banking powers were conferred. The stockholders were individually liable for the redemption of all the issues of the bank. An annual report of the condition of the bank was to be made to the territorial auditor and to be published in three newspapers of the territory. Efforts were made to throw further restriction on these banks but without effect.

The third legislature was confronted with more than a dozen proposals to grant bank charters, and a conflict of a considerable proportions was engaged in. On February 13, 1857, the Bank of De Soto and the Bank of Tekamah were granted charters by the legislature. These and four other charters were vetoed by Governor Izard, whose position was sustained in four of the six cases.

In the fall of 1857, the financial panic spread from the east into Nebraska and all of the chartered banks failed.

There were in the territory at this time a number of banks that were not chartered. These also had issued notes and bills. The chartered banks, with one exception, the Platte Valley bank of Nebraska City, were owned in other states.

On February 12, 1857, an act which repealed "so much of the chapter third of the code in relation to corporations, approved January 25, 1856, as authorizes the incorporation of banks," was approved.

On May 25, 1858, Governor Richardson directed James G. Chapman, district attorney of the first judicial district, to file information against certain banks, seven of which were operating without charters.

Upon repeal of the criminal code affecting banking and the failure of the chartered banks, the banking business of the territory was carried on for some time by private banks. There were seven of these banks in the territory in 1865, though one of them had become a national bank, and the others likewise reorganized shortly afterward.

The first general regulatory banking law was that approved March 29, 1869. The limitations upon banking corporations were chiefly the requirement of certain assets in excess of liabilities, the maintenance of certain reserves, provision for reports to the state auditor, and the inauguration of a system of bank inspection under control of the auditor, treasurer and attorney general. Savings banks also were provided for. Provision was made for the local publication of the required reports on the condition of the banks.

An act approved April 8, 1895, created a banking board composed of the auditor, treasurer and attorney general. This act provided for the chartering of all banking institutions operating under state law by the banking board; also for inspection by and reports to the board. Quarterly reports were required.

A general banking law, approved March 25, 1909, repealed the existing

1894	Weeping Water, Bank of					

Average dividend about 55%.

*The records of state bank liquidations were not collected by the state banking board until after 1899, as up to that time each receivership was entirely in the hands of the district court. This table contains the answers to two sets of questionnaires sent out by the Nebraska legislative reference bureau, first to neighboring banks, and then in the cases where no information was obtained from these, to the clerks of the district courts. In many cases the records appear to have been completely lost, in others they are unintelligible, and in a number of cases no answer was received to the questionnaire. The average dividend, however, established by the returns on half the failures, is probably very near the average dividend of all these early insolvent banks.

LOSSES FROM NEBRASKA BANK FAILURES.

* Statistics concerning national banks taken from report of the comptroller of the currency, 1913, p. 362; those relating to state banks are from the reports of the secretary of the state banking board, 1892 to 1913 inclusive.

† Records of the state bank statements prior to 1892 are not obtainable. The summary for 1890 is given in the 1892 report. The state banking board was not created until 1889.

‡ Individual deposits, not including due to banks.

BUILDING AND LOAN ASSOCIATIONS.

The earliest building and loan association of record was the Omaha building and loan association, incorporated by legislative act approved January 12, 1860.

The first building and loan law was called a mutual loan association law and was approved February 18, 1873. This act was repealed by an act approved March 31, 1891. The articles of incorporation, constitution and by-laws of these associations were to be approved by the auditor, treasurer and attorney general, or any two of them, and annual and any other required reports made to these officials by the associations. An act approved April 4, 1899, placed building and loan associations under the control of the banking board.

No reports are available prior to 1892. Detailed information subsequent to the law of 1891 may be obtained from the annual building and loan report made to the banking board.

STATEMENT OF TOTAL NUMBER OF ASSOCIATIONS, NUMBER OF SHARES IN FORCE AND TOTAL ASSETS, FROM 1892, THE FIRST YEAR THAT AUTHENTIC REPORTS WERE MADE DOWN TO THE PRESENT TIME.

(From Report of State Banking Board.)

1913	70	740,925.29	32,746,726.24

LEGAL RATE OF INTEREST.

An act approved on March 14, 1855, fixed the legal rate of interest at "ten cents on the hundred by the year." An act approved January 7, 1861, fixed the rate at ten per cent. unless a rate not to exceed fifteen per cent. had been agreed upon. The maximum rate was lowered to twelve per cent. by an act approved February 7, 1867. The law now in force was approved February 27, 1879. It places the legal rate at seven per cent., with a maximum of ten per cent.

BANK CLEARINGS.**OMAHA.**

The Omaha clearing house association was organized October 23, 1884, by the election of the following officers:

President—Herman Kountze, First National Bank.

Vice-President—Frank Murphy, Merchants National Bank.

Committee of Management—Henry W. Yates, one year; Wm. Wallace, two years; M. T. Barlow, three years.

Manager—W. H. S. Hughes.

A constitution and a set of by-laws had been presented at a meeting nine days earlier (October 14, 1884) by a committee appointed by the bankers of Omaha for the purpose of drafting said constitution and by-laws, this committee consisting of Messrs. F. H. Davis, H. W. Yates, and Wm. Wallace.

The constitution, as spread upon the records of the association, was signed by the following banks:

First National Bank, by H. Kountze, President.

Omaha National Bank, by J. H. Millard, President.

Nebraska National Bank, by H. W. Yates, President.

Merchants National Bank, by B. B. Woods, Cashier.

United States National Bank, by M. T. Barlow, Cashier.

Commercial National Bank, by A. P. Hopkins, Cashier.

The following banks have been admitted to membership since the organization of the association by the above six banks:

February 11, 1887—The State National Bank of Omaha, E. L. Lyon, Cashier.

June 8, 1887—The Union National Bank of Omaha, John W. Rodefer, Cashier.

September 3, 1889—The American National Bank of Omaha, Thomas H. McCague, Cashier.

March 25, 1892—The National Bank of Commerce of Omaha, E. L. Bierbower, Cashier.

October 28, 1907—South Omaha National Bank, H. C. Bostwick, President.

October 28, 1907—Union Stock Yards National Bank of South Omaha, E. F. Folda, Vice-President.

October 28, 1907—Packers National Bank of South Omaha, J. F. Coad, President.

October 5, 1909—City National Bank of Omaha, J. F. Flack, President.

January 5, 1911—Stock Yards National Bank of South Omaha, H. C. Bostwick, President. (Consolidation of South Omaha National and Union Stock Yards National Bank.)

August 3, 1914—Corn Exchange National Bank of Omaha, W. T. Auld, President.

August 3, 1914—Live Stock National Bank of South Omaha, C. F. McGrew, President.

The association is now (November, 1914) composed of the following banks:

First National Bank of Omaha.

Omaha National Bank.

Nebraska National Bank of Omaha.

Merchants National Bank of Omaha.

United States National Bank of Omaha.

Stock Yards National Bank of South Omaha.

Packers National Bank of South Omaha.

City National Bank of Omaha.

Corn Exchange National Bank of Omaha.

Live Stock National Bank of South Omaha.

Attached is a list of the officers of the Omaha clearing house association since its beginning, also a statement showing the annual clearings each year, and the clearings by months for the year 1914.

LINCOLN.

A meeting was held at the Columbia national bank March 1, 1906, for the purpose of organizing the Lincoln clearing house; the representatives from the different banks being P. L. Hall of the Columbia national bank, H. S. Freeman of the First national bank, L. J. Dunn of the City national bank, Carl Weil of the National bank of commerce, and L. E. Wettling of the Farmers and merchants bank. Dr. Hall acted as chairman and L. E. Wettling as secretary. A constitution was presented, read and adopted. Dr. P. L. Hall was elected president of the Clearing house association, L. J. Dunn vice-president, L. E. Wettling secretary. All of the banks represented at this meeting were duly elected members of the clearing house.

The present membership consists of the First national bank, City national bank, Central national bank, National bank of commerce, Nebraska state bank, Lincoln state bank, and the German-American state bank.

The present officers of the Lincoln clearing house are H. S. Freeman, vice-president of the First national bank, president, and C. H. Beaumont, cashier of the Nebraska state bank, secretary.

The office of the Lincoln safe deposit and trust company at 126 North Eleventh street is the place of meeting.

INSURANCE.

The first insurance company to incorporate in Nebraska was the Franklin Insurance company, which was authorized by legislative act approved March 15, 1855. The incorporators were J. W. Paddock, W. M. Hathaway, J. B. Ellsworth, William Kempton, Experience Estabrook, William Corfield and J. W. Richardson. This company was authorized to transact all sorts of insurance business. On February 12, 1857, the Platte Valley Insurance company of Bellevue and on the following day the Nebraska City Insurance company were chartered.

The first attempt to regulate insurance companies is found in an act approved February 15, 1864. This act related only to fire and marine insurance and required semi-annual statements to be filed with the territorial auditor and the county treasurer of the county where the company was located. Companies were also required to obtain from the territorial auditor certificates of right to do business in the territory. The revised statutes of 1866 applied these provisions to all insurance companies.

An act approved February 25, 1873, and which applied to all forms of insurance companies except life insurance companies, restricted companies to one of five specified forms of business. It empowered the state auditor, in his discretion, to have any insurance company inspected. It also fixed the auditor's fees for certification, filing semi-annual statements, and inspecting. The auditor was required to tabulate the statistics of insurance companies and submit them with his regular report.

From 1864 to 1913 regulation of insurance business in Nebraska was a part of the work of the auditor's office, except during part of 1899, when a legislative act created a separate bureau of insurance. This act was declared to be unconstitutional by the supreme court.

In 1913 a complete insurance code was enacted, and a separate insurance board created.

INDUSTRIES, COMMERCE, POPULATION AND
NATURAL RESOURCES.

POPULATION, WEALTH AND DEBT.*

The population of Nebraska in 1910 was 1,192,214, being an increase of 11.8 per cent over the census of 1900. The city population, including the inhabitants of twenty-seven cities and villages of 2,500 population or more constitutes 26.1 per cent of the whole. Twenty and four-tenths per cent. of the people live in villages of less than 2,500 inhabitants, and the remaining 53.5 per cent. live in the country.

Of the total population 53.9 per cent. are native whites of native parentage, 30.4 per cent. are native whites of foreign or mixed parentage, and 14.8 per cent. are foreign born. The total number of whites of foreign birth or of foreign parentage is 538,218, or 45.2 per cent. of the total population. Of this number 37.5 per cent. are Germans, 11.7 per cent. Austrians, 18.3 per cent. are Scandinavians, and 14.9 per cent. are from the British Isles.

Illiterate persons over ten years of age number 18,009, or 1.9 per cent of the total population. Of this number 13,755 are foreign born or of foreign parentage.

* Statistics for these topics are taken from the United States census reports, the latest figures being those of 1910.

* State census of 1885 corresponds to Federal census of 1880.

† Includes Burt county.

The rapid increase in wealth between 1900 and 1910 rests largely on the increase in the valuation of farm lands. The farm acreage of Nebraska in 1910 was approximately 38,622,021 acres, or 78.6 per cent. of the total area of the state. More than one-third of all the farms in Nebraska are between 100 and 174 acres in size, over one-fifth between 260 and 499 acres and nearly one-sixth between 175 and 259 acres. The average value of a Nebraska farm is \$16,038 including land, buildings, stock and implements. The average value of the lands and buildings is \$13,983. In 1910, 69.8 per cent. of all land in farms was in farms operated by their owners (including part owners), 2.8 per cent. in farms operated by managers, and 27.3 per cent. in farms operated by tenants.

The bonded local debt of the counties, cities and villages, school districts and drainage districts has been incurred chiefly by municipalities and school districts. The state has no bonded debt.

The total number of mortgaged farms in 1910 was less than two-fifths of the owned farms.

The following statistics, illustrative of the wealth and debt of Nebraska, are compiled from the United States census publications:

Years	Total Wealth	Total Public Debt of State, County, and All Minor Subdivisions †
1860	\$9,131,056	
1870	69,277,483 *	
1880	385,000,000	\$12,875,209
1890	1,275,685,514	26,776,205
1900	1,626,203,203	37,404,071
1910	2,079,816,647 †	
1912		32,796,624 ‡

* These U. S. census figures for 1870 are for taxable wealth only on a paper currency basis.

† Includes only farm property. Urban statistics are not yet available. In 1900 the value of Nebraska farm property was \$747,950,057.

‡ The figures for public debt are taken from the U. S. census report on wealth, debt and taxation, and from the reports of the state auditor.

§ The figures for 1912 do not include irrigation bonds, or floating indebtedness.

Free from mortgage	47,435	60.6	38,976	54.6	40,629	48.0
Mortgaged	30,839	39.4	32,411	45.4	43,991	52.0
Unknown	976		2,977			

* Includes all farms owned in whole or in part by the operator.

† The 1,600 "owned farm homes" for which no reports were secured were distributed between "free from mortgage" and "mortgaged" in 1890.

‡ Per cent of combined total of "free from mortgage" and "mortgaged."

RELIGION.

CHURCH STATISTICS OF NEBRASKA.

DISTRIBUTION OF COMMUNICANTS OR MEMBERS BY PRINCIPAL DENOMINATIONS, 1906

Statistics of church membership as gathered by the United States census bureau for the censuses of 1890 and 1906 are computed for protestant denominations on returns made as to actual, adult communicants. For the Roman catholic church the returns included all baptized persons, and the census bureau in making comparative statistics has deducted from such returns 15 per cent, in order to exclude persons under ten years of age. Even with this deduction the basis of comparison is unequal, as the actual reported membership of protestant churches is on a basis of the voluntary association of adult persons.

No religious statistics for the census of 1880 were ever published.

INDUSTRIES.

SOURCES OF NEBRASKA AGRICULTURAL STATISTICS.

The sources of statistical information for Nebraska crops and live stock are as follows:

UNITED STATES SOURCES.

I. The United States census 1860-1910.

Covers each ten-year period. These statistics are gathered by paid enumerators employed by the United States and having power to compel answers to questions. These enumerators work under the direction of supervisors who report to Washington. Special agents sent from Washington supplement the work of the enumerators in gathering data which requires special training and experience. The work of the enumerators, supervisors and special agents is revised by statistical experts familiar with the material resources of the country and experienced in the latest methods of gathering and editing statistics.

II. U. S. department of agriculture. Reports, 1859-1914.

Annual data upon Nebraska live stock from 1859 to date and upon Nebraska crops from 1864 to date. The earlier statistics on Nebraska crops and live stock down to 1893 were published in part 2 of the patent office report. The United States department of agriculture Year book is the successor of this part of the patent office reports. Figures for this Year book are gathered by regular correspondents resident in the various states and forwarded to Washington. At present there are 2,500 correspondents in Nebraska. The division of statistics, a section of the department of agriculture, puts this data in tabular form ready for publication. Before publication it is carefully examined and corrected by experts familiar with resources and conditions in the various states.

III. The United States statistical abstract.

This volume is published each year and contains agricultural statistics, as well as much other statistical data brought down to date. It secures its information on agriculture from the department of agriculture and the census bureau.

STATE SOURCES.

IV. Auditor's biennial reports, territorial and state, 1859-1914.

The statistics in these reports are gathered by precinct and county assessors, compiled by county clerks who forward abstracts of them to the auditor's office where they are tabulated and published in the biennial report. The assessors get this data while engaged in listing property for taxation. There is no provision in the law compelling persons to give this purely statistical information to the assessor, although in most cases it is freely given. In these printed auditor's reports are statistics of Nebraska live stock from 1859 to date and of Nebraska crops from 1879 to date. County clerks in some cases have failed to comply with the law in transmitting this information, thus leaving blanks in the auditor's report.

V. Bureau of labor and industrial statistics, 1887-1913.

The act of 1887 establishing the bureau of labor and industrial statistics provided that the bureau should compile and publish facts relating to the manufactures, industrial classes and material resources of the state. No special provision was made for securing crop and live stock statistics. In the third biennial report of the bureau for 1891-92, on pages 153 and 313, are the following statements regarding its methods for securing agricultural data:

"At the request of this bureau the ninety county clerks of the state furnished the names of at least ten good and practical farmers to whom blank crop and live stock reports were sent. * * * The various railroad companies

have cheerfully furnished the necessary data, and assisted in the investigation of this question."

In 1897 the law was amended to require the collection of detailed agricultural statistics by precinct assessors. The county clerks were required to compile these statistics and send them to the labor bureau which compiled them for the state and published them. There was objection on the part of some assessors because the law prescribed additional duties for their office with no increase in compensation. The supreme court, however (*State, ex rel. v. Eskew*, 64 Nebr. 600), sustained the law. From 1897 to 1913 the labor bureau compiled and published crop and live stock statistics under this law. The original sources were returns of the assessors and county clerks—the same as those used by the auditor. Variations in the figures of the auditor and labor bureau may be studied in the tables which follow.

VI. Nebraska board of agriculture. Reports 1859-1914.

The Nebraska board of agriculture was founded under an act of the territorial legislature approved October 14, 1858. Under this act it was made the duty of the board to make an annual report to the legislature giving a general view of the conditions of agriculture throughout Nebraska. Generally the printed volumes of these reports contain the data returned by the assessors through the county clerks to the state auditor. A number of the volumes, however, edited by Robert W. Furnas contain statistical data secured by sending out circular letters to well informed persons over the state. The tabular figures, however, in the state board of agriculture reports have the same common basis as those printed in the reports of the auditor and labor commissioner, viz.: The returns of the county clerks compiled from the assessors' schedules.

VII. Special financial and commercial reports.

At various times during the years volunteer-private institutions have gathered crop and live stock statistics in the state. The most important of these at present is the United States national bank of Omaha, which has gathered and published these statistics annually during the past five years. For 1914 its figures were compiled from reports of 700 banks and 600 elevator stations, covering every county and including almost every township in the state. The acreage of each crop is taken from the estimates of the United States agricultural department and state board of agriculture while the yield per acre is returned by the local banks and elevators in each district.

NEBRASKA LAWS FOR STATISTICAL WORK.

The Nebraska statutes since 1854 for gathering, compiling and publishing agricultural statistics are briefly summarized as follows:

1. Revenue act of February 13, 1857, copied by the Nebraska legislature from the Iowa code, was the first to specifically require the enumeration of live stock, number and value to be listed by the assessors and compiled by the county clerks.

2. The revenue law of February 15, 1864, required a uniform method of listing live stock.

3. The revenue law of February 15, 1869, required county commissioners to furnish precinct assessors with suitable blanks. Section 6 required the listing of live stock; section 24 gave the blank form to be used; section 28 required the county clerk to compile an abstract showing number and value and transmit to state auditor.

4. The act of February 19, 1877, required precinct assessors at the time of listing property for taxation to make return of the acres of land under cultivation and the amount and kind of grain sown the previous year.

5. The act of March 1, 1879, a general revenue law, attempted to secure more comprehensive and accurate live stock and crop statistics than any previous law. The assessor was required to secure the number and value of live stock of all ages, the number of acres in cultivation of each of the different principal crops. He was to make careful return of the same to the county clerks, who were required to make out and transmit to the auditor a complete abstract compiling all the information secured by assessors.

6. The act of March 31, 1887, creating the bureau of labor and industrial statistics, provided for the collection, compilation and publication of statistics and facts relative to manufacture, industrial classes and material resources of the state.

7. The act of April 13, 1897, provided for a census by the assessor each year of all persons over 21 years of age and their occupations, also of the products of all farms during the previous year in addition to the agricultural statistics required by the act of 1879. This act was held good by the state supreme court in the case *State, ex rel., v. Eskew*, 64 Nebr. 600.*

8. By the act of April 21, 1913, the bureau of agricultural statistics and publicity was created, consisting of the governor and the secretary of the state board of agriculture. It is the duty of this bureau to "collect, collate and publish agricultural statistics and material resources of the state and furnish statistical or other collected information to the press and the public upon request." Under this act it is the duty of all assessors to enroll the names of all persons over 21 years of age occupied in farming, with time employed and amount of wages earned, the present acreage and crops to which their several farms are planted and the number and kind of animals kept thereon. It is made the duty of county clerks on or before the first day of July in each year to forward a summary of these assessors' reports to the secretary of the state board of agriculture who shall compile and publish them. The labor bureau was by this act relieved of any further duties connected with agricultural statistics.

DIFFERENCES BETWEEN STATISTICAL SOURCES.

The differences between the figures of crop and live stock in Nebraska as found in the different sources are so great as to be incredible. In 1880 the U. S. Census found 758,550 head of cattle in Nebraska, the U. S. department of agriculture 570,900, the state auditor's report 675,244. In 1907 the U. S. department of agriculture reported 4,236,135 cattle, the state auditor 2,799,573. In crop reports equally wide differences exist. In 1893 the U. S. department of agriculture reported 157,278,893 bushels of corn, the Nebraska bureau of labor 61,931,024 bushels. The differences grow less in recent years, yet in 1910 the U. S. department of agriculture gives Nebraska's corn crop at 206,000,000 bushels and the Nebraska state board of agriculture at 178,923,128 bushels.

COMPARISON OF UNITED STATES AND STATE AGRICULTURAL STATISTICS.

From the foregoing it will be noted that there has been great variety of legislation and method in securing and publishing agricultural statistics through state agencies. One of the greatest obstacles to a sound statistical method in the state's work has been the frequent changes in office under our political system of appointment and removal. In the statistical work of the United States there has been much more continuity of persons in office trained in statistical work. The following quotation from the United States agricultural report for 1881-82, page 647, summarizes to some extent a comparison of the state and United States statistical work in this field:

"Comparing state returns with the United States census, it is found that they are always lower in aggregates than those of the national census and in states where the work is of recent origin or carelessly executed the disparity is still greater. Generally the labor is unpaid in state enumerations, and that fact is often openly made the excuse for failure to report with full completeness. The United States census was formerly taken under the direction of the United States marshals who were selected for other duties, and the work suffered inevitably from this cause, and was in a measure incomplete though still fuller than state returns. The recent national census has been taken under better auspices, and is nearer complete in returns than any former federal or state enumeration in this country."

* In the report of the bureau of labor for 1901-2 is quite a complete account of the cases arising under the statistics act of 1897 and the disposition of the same.

NUMBER AND VALUE OF LIVE STOCK IN NEBRASKA FROM 1855 TO 1914, INCLUSIVE, AND COMPARING DIFFERENT STATISTICAL AUTHORITIES FOR EACH YEAR.

STOCK YARDS.

STOCK YARDS AND PACKING INDUSTRY AT SOUTH OMAHA.

The Union stock yards company was organized in 1884 by William A. Paxton, John A. Creighton, Alex Swan, Thomas Swobe, P. E. Iler, J. A. McShane and other capitalists. The yards were located on the Drexel farm about five miles south of Omaha, and were opened in August, 1884. At first, the plant served chiefly as a feeding stop for stock on the road to the eastern markets.

The stock yards company also established a small slaughtering plant in 1884. This was leased to and later bought by the G. H. Hammond company who greatly enlarged it. The Anglo-American provision company opened a packing plant in November, 1885. This afterward became the Omaha packing company. Extensive plants of the Cudahy, Swift and Armour companies have since been erected at the stock yards, and also a number of smaller ones.

About six million cattle, hogs and sheep are annually required for these packing companies, and the outside packing companies for which they act as buyers. These represent a value of more than \$100,000,000, about \$60,000,000 of which are annually paid to the farmers and feeders of Nebraska. More than 10,000 people are carried on the pay roll of the stock yards and packing companies, the annual pay roll amounting to \$6,000,000. Less than two per cent. of the output is sold in Nebraska, which explains the enormous bank clearances of Omaha, which stands fifteenth in bank clearances among the cities of the country.

This immense industry has built up the city of South Omaha whose population now reaches over 26,000. The investment of capital in the packing house and stock yards industries amounts to approximately \$25,000,000. The packing industry represents one-half of the total of Nebraska's manufactures. The value of the live stock sold at the stock yards in 1913 was \$110,000,000.

TOTAL RECEIPTS OF STOCK FOR THIRTY YEARS.

MANUFACTURING.

(Data secured from U. S. Census of 1910.)

The manufacturing interests of Nebraska during the past fifty years have increased in greater proportion than the population for the same period. Nebraska is not, primarily, a manufacturing state, though in 1909 she produced nearly 1 per cent of the total value of products of manufacturing industries in the United States, and 2 per cent of the total population of Nebraska was employed therein.

The following table covers the most important details relative to all classes of manufacturing combined for the state as shown by the census returns of 1909, 1904 and 1899:

	Number or Amount			Per Cent of Increase *	
	1909	1904	1899	1904-1909	1899-1904
Number of establishments.....	2,500	1,819	1,095	37.4	7.3

Miscellaneous.....	13,067,000	8,490,000	6,160,000	53.9	37.6
Value of products.....	199,019,000	154,918,000	130,302,000	28.5	18.9
Value added by manufacture (value of products less cost of materials).....	47,938,000	30,866,000	34,377,000	55.3	-10.2

* A minus sign (—) denotes decrease.

† Figures not available.

Nebraska is essentially an agricultural state and her leading manufacturing interests, such as slaughtering, flour mill products and butter, reflect this fact. These and other industries rank as follows:

Industry	Number of Establishments	Wage Earners		Value of Products		Value Added by Manufacture		Per Cent of Increase			
		Average Number	Per Cent Distribution	Amount	Per Cent Distribution	Amount	Per Cent Distribution	Value of Products		Value Added by Manufacture	
								1904-1909	1890-1904	1904-1909	1899-1904
All industries	2,500	24,336	100.0	\$199,019,000	100.0	\$47,938,000	100.0	28.5	18.9	55.3	-10.2

Two per cent of the total population of Nebraska, or 31,966 people, are engaged in the manufacturing industries of the state. The following table for 1909 shows the number of proprietors, clerks and wage earners, respectively, among the total number of persons employed in manufacture with some enlargement of statement regarding the wage earners who themselves represent 76.1 per cent of this class:

Industry	Persons Engaged in Manufactures				Wage Earners			
	Total Number	Per Cent of Total			Average Number	Per Cent of Total		
		Proprietors	Clerks	Wage Earners (Average No.)		16 Years of Age & Over		Under 16 Years of Age
						Male	Female

TRANSPORTATION.

ROADS AND HIGHWAYS.

Since Nebraska had no organized government until it became a territory, the only roads prior to that time were trails blazed by travel across the plains. Some of these, the Oregon trail for example, were the most traveled roads in the world. The first government highway was authorized by congress on February 17, 1855. This road was to extend from a point opposite Council Bluffs to New Fort Kearney. Prior to this time a few post and military roads had been established by act of congress, and new ones were added by an act of March 3, 1855. On March 3, 1857, congress appropriated \$30,000 "for the construction of a road from the Platte river via Omaha reserve and Dakota City to the Running Water river." This road followed the Missouri river for 208 miles and was several years under construction.

The first territorial legislature, by an act approved March 16, 1855, provided for the manner of surveying public roads. Sixty-six feet was the prescribed width of such roads. A number of acts approved on March 14 and 15 of that session appointed commissioners to lay out territorial roads from certain settlements to certain other settlements or specified localities. In all 155 territorial roads were projected by the twelve territorial legislatures. For some years after 1867, the state legislatures passed similar laws. Most of these acts provided vaguely that the cost of a road should be borne by the counties through which it ran. In one case—that of the road from Platts-mouth to Archer—it was provided that all able-bodied male inhabitants between the ages of twenty-one and forty-five should work on the road two days of each year.

On January 26, 1856, the first county road law was approved. Authority concerning roads was vested in county commissioners. Roads were to be kept open and in repair forty feet wide. A poll tax of two days' labor annually was required of able-bodied male citizens between the ages of twenty-one and sixty years, outside of the incorporated municipalities. The commissioners might levy a tax, not to exceed two mills, on the county outside the municipalities for roads. Road districts were to be established and road supervisors appointed by the commissioners. Congress was memorialized by this legislature for aid in the building of certain roads. Congress was again memorialized by an act of November 4, 1858, to appropriate for the construction of a bridge across the Platte.

An amendment to the county road law approved January 11, 1860, named four rods (66 feet) as the legal width of a county road. Another amendment approved January 11, 1861, made the office of road supervisor elective. Another act of the same date regulated the disposal of the road fund. One-third of the entire road fund was to be expended by the commissioners for the general benefit of county roads, the other two-thirds to be spent in the several districts where the funds were collected. Men over forty-five were exempted from the poll tax. An act of January 10, 1862, was substituted for the existing road laws.

One of the early attempts at road making was the old steam wagon road, which was projected from Nebraska City out into the west in 1862. The county commissioners of Otoe county agreed to spend \$2,000 in preparing a road for the steam wagon. This pioneer motor vehicle broke an axle a few miles out of Nebraska City on its maiden trip and the steam wagon project was abandoned. The "Steam wagon road" remained as part of the Denver trail and was one of the most traveled highways in the west.

The legislatures of 1869, 1871 and 1873 declared section lines to be public roads in the various counties. Such roads were to be four rods wide.

The Platte river bridge fund was created by the legislature of 1871. The foundation of the fund was derived from the sale of fifty sections of land

from the government grant of lands for internal improvements. This fund was used to pay the interest on bonds issued by counties to construct bridges across the Platte.

The legislature of 1875 added to the duties of road supervisors that of putting fire guards along the roads, and required the secretary of state to publish and distribute the road laws to road supervisors.

The constitution of 1875 abolished special taxes by requiring all taxes to be levied upon valuation of property. This abolished the special road tax of four dollars on each quarter section then existing. This tax was levied, however, in certain counties in 1876, and the succeeding legislature formally legalized those levies.

The present road laws rest chiefly on an act approved March 1, 1879. County boards designate road districts outside of the incorporated municipalities, and road overseers are elected as other officers are elected, for terms of two years. The funds for maintenance of roads are derived:

1. From a county levy which may not exceed five mills for roads and four mills for the county bridge fund.

2. From a poll tax of \$2.50, payable by male inhabitants between the ages of twenty-one and fifty, with certain exemptions.

3. All inheritance taxes.

4. Registration fees for motor vehicles. One-half of all the money collected as road fund constitutes a county road fund to be divided equally among the several commissioner districts of the county; the other half of the money so collected and all money derived from labor or poll taxes is to be spent in the districts from which it is collected. In counties under township organization the electors of a town may levy an additional road fund not to exceed ten mills for roads and two for bridges for town purposes.

The county surveyor in counties of over 50,000 population is the superintendent of construction in road and bridge work. He makes all surveys and prepares plans and specifications, and inspects material. All bridges costing over \$500 must be built from uniform plans approved by the state board of highways and irrigation. The legislature of 1911 made an annual levy of one-fifth of a mill for aid to counties in building bridges over streams one hundred or more feet wide. Provision was also made for the appointment of county highway commissioners by county boards. In counties having 50,000 or more population the county surveyor is to perform the duties of highway commissioner.

¹ Report for year ending June 30, 1912. This same year \$675 was raised by subscription in towns on the North Platte river, in the counties of Morrill and Scott's Bluff.

² This amount, \$84,917.31, composed of two funds: the one raised by general levy, amounting to \$56,089.61; the other, called the "permanent road fund," made up of the inheritance tax, which amounted to \$28,827.70.

³ This amount, \$11,236.69, is the amount accredited to the "permanent road fund," due to the inheritance tax.

⁴ This amount, \$21,000, is an estimate for both roads and culverts.

⁵ In the amount, \$52,797, there is included payments of warrants issued prior to July 1, 1911.

⁶ Report for year ending August 1, 1912.

RADIO-TELEGRAPHY.

By Prof. Olin J. Ferguson, University of Nebraska.

Under date of December 15, 1914, there are six officially recognized radio stations within the confines of Nebraska. Five of these are amateur installations licensed by the government and one is a signal corps station. There are several other amateur stations which are preparing to ask at an early date for government license.

The Signal Corps station is located at Fort Omaha (call WUH), and is very similar to any other regular 3-kw. installation. It uses power from the Omaha lighting system and has a reserve generating set run by a gasoline engine. Its tower is 175 feet high and supports an umbrella aerial which has a natural wave length of 850 meters. Its normal sending wave is stated at 1,600 meters. Even under the most unfavorable conditions this station will send at least 300 miles. It can be expected to receive from any large station in the continent and even from ship board at a considerable distance from our shores.

Station 9AY, operated by Porter H. Quinby, Omaha, was licensed September 9, 1913.

Station 9AZ, operated by G. J. Gerhard, Omaha, was also licensed September 9, 1913. It has been in operation, however, for about four years. It uses a $\frac{1}{4}$ kw. transformer.

Station 9BW, operated by Wm. Reinhardt, Omaha, was licensed September 29, 1913, but has been in operation for about four years. Its rating is about $\frac{1}{4}$ kw. and it transmits over a distance of 25 miles, at 200 meters wave length. A large antenna is installed for receiving at 550 meters wave length.

Station 9EO, operated by Ralph Rivett, Lincoln, licensed February 13, 1914, uses about 0.4 kw. The 200 feet aerial at 50 feet elevation has received from stations about 1,500 miles distant.

Station 9JL, operated by Stanley L. Keller, Kearney, was licensed October 6, 1914.

Besides the above installations, which are all sending stations as well as receiving stations, there are numerous other receiving sets. These frequently may be for local or casual use and may receive from any distance, depending upon the design and the power of the sending station. Again they may be installed for the primary purpose of receiving time signals from the government station at Washington.

WATER POWER IN NEBRASKA.

By Donald D. Price, State Engineer.

LAWS OF 1877.

The first law relating to the use of water for irrigation or water power was passed by the Legislature of 1877. This law was very brief and merely gave the companies desiring to construct such works the right of eminent domain and declared them to be works of internal improvement. No mention whatever is made of any course of procedure whereby title or the right of priority to the use of the water could be acquired.*

LAWS OF 1889.

The next legislation covering the use of water was passed by the legislature of 1889. This act provided the right to acquire the use by appropriation of running water flowing in any river or stream or down any canyon or ravine; provided that the same be used for beneficial or useful purposes, and that when any appropriator or successor in interest ceased to use the water so appropriated for such a purpose the right ceased; that no land was to be burdened by more than one ditch, without the consent of the owner thereof; that all ditches were exempt from taxation; that the point of diversion might be changed if others were not injured; that water so diverted must be returned to the stream from which it was taken; that as between appropriators the one first in time was first in right; that a notice be posted by the party desiring to appropriate water at the point of the intended diversion, stating the point of diversion, the amount of the appropriation, the purpose claimed for, the place of intended use, and the means by which it was intended to divert; a copy of the notice recorded in the office of the county clerk of the county in which the notice was posted; that excavation must commence within sixty days from time of posting notice and continue to completion; that completion meant conducting the water to the place of intended use; that a permanent right was granted to the use of all water beneficially used through ditches which had previously been completed; that owners of lands bordering on streams were entitled to use of water on adjoining lands; that the right was given for condemnation for right of way, to condemn sites for reservoirs and to enlarge ditches; that ditch companies were authorized to borrow money and issue bonds; that canals constructed for irrigating or water power purposes were declared works of internal improvement; that ditches must be kept in proper repair; and provided a penalty for interfering with ditches or gates.†

LAWS OF 1895.

The next law governing the use of water was enacted by the legislature of 1895, which passed the first comprehensive law regarding and relating to the use of water for irrigation and water power purposes. The most important features of this law as pertaining to water power were as follows: The dedication of the water of every natural stream to public use; the right to divert unappropriated water for beneficial use was never to be denied; stated the priority of the use of water and gave preference to the use as follows, first, for domestic uses, second for irrigation and third for power and manufacturing purposes; divided the state into two water divisions and these divisions into districts; provided for the measurement of water in streams; created the state board of irrigation; required county clerks to send certified copies of the notices of all water appropriations on their record to the state board; provided for the adjudication of existing rights by the state board; provided for future applications for appropriations of water; the examination and approval or dis-

* Session Laws of Nebraska for 1877, page 168.

† Session Laws of Nebraska for 1889, chapter 1889, page 168.

allowance of said applications; appeals from the decision of the board; and a complete record of all water rights to be kept in the office of the state board.*

This law has been amended from time to time and improvements in it made thereby.

STATE BOARD OF IRRIGATION—CLAIMS.

The state board of irrigation organized itself on April 24, 1895, being composed of the governor, as president of the board, the attorney general and the commissioner of public lands and buildings. The state board appointed its secretary, state engineer, and other assistants and at once prepared claim blanks which were sent to water users, of record in the offices of the different county clerks, which were filled out and returned to the office of the state board. Hearings were had on these claims and the rights of the different claimants adjudicated. For convenience in keeping a record of these claims, the hearings were numbered in the order in which the hearings were held, and were called "Dockets." Thus all claims for the right to the use of water prior to April, 1895, are known as "Dockets." Special attention is called to this for the reason that it is necessary to know the docket number of a particular water right in order to look it up.

OPINIONS.

After a hearing on one of these claims which was presided over by the secretary, an opinion was rendered by the state board upon the evidence submitted, which determined the amount of water, the use to which it was applied, the point of diversion, the location of the project, and the date of priority. These opinions are bound in book form in the office of the state board and are final and binding except where appealed from to the district court.†

APPLICATION BLANKS.

For all water rights since April, 1895, the board upon its organization at once prepared blanks, known as "Application Blanks," which were supplied to persons desiring to obtain a permit for the use of the water of the state of Nebraska. These were filed on the date and hour received at the office of the board, given a numerical number and recorded. All rights acquired since 1895 are therefore known as "Application No. —." These blanks among other things set forth the name of the applicant, his address, source of the appropriation, amount, and use to which applied. The date of priority to the right to use water under all applications dates from the filing of the application in the office of the state board, which is considered the date of priority. These applications are taken up, investigated by the secretary and acted upon by the board through the secretary and either approved or dismissed.

APPEALS.

Under the law as it exists at present an applicant, feeling himself aggrieved by the action taken by the state board on his application for a permit to appropriate water, may ask for a hearing before the state board, at which hearing testimony may be submitted for and against any proposed appropriation, the state board having the right to summon any witnesses and in all things act as a court rendering a final decision in the matter, from which decision an applicant may appeal direct to the supreme court of the state, the same as in cases before the state railway commission. Cases pertaining to irrigation and water power coming before the supreme court are advanced on the docket, so as to receive prompt consideration.

PROSECUTION OF WORK.

Upon the allowance of an application the applicant shall begin the actual work of excavation and construction within six months from the date of ap-

* Session Laws of Nebraska for 1895, chapter 69, page 244.

† Copies of the claim blanks used for water power purposes together with the complete record of the adjudication of water rights may be found in the office of the state engineer.

proval of said application. The application being in fact simply a permit to the right of the water and no perfected rights are supposed to have been acquired until the project has been completed and the water beneficially used and applied. The work of construction of a power plant must be vigorously, diligently and uninterruptedly prosecuted to completion and one-tenth of the total work must be completed within one year from the date of approval. Also the applicant must file by the tenth of each month a report under oath to the state board, giving the actual amount of money expended on such power development during the preceding calendar month.

The time for completing the appropriation and applying the water to beneficial use is left to the discretion of the state board and in most cases a year is allowed after the completion of the construction work for the application of water to beneficial use. When the time for applying the water to beneficial use has expired the applicant is required to file a proof of appropriation on a blank furnished by the state. This proof of appropriation shows how much water has been applied to beneficial use and the purpose, and is made under oath and attested to by witnesses. Upon receipt of this the secretary of the board makes a personal investigation and verifies the proof.

CERTIFICATES.

If everything is found to be according to law the certificate is issued, which certificate grants the applicant the right to the use of the water which has been applied to the beneficial purpose and the right to the use of the same for as long as the applicant shall apply the same to said beneficial use.

ABANDONMENT.

Prior to 1911, ten years' non-use of a water right constituted an abandonment, this being a decision of the supreme court. Under the law of 1911, three years' consecutive non-use of the water under any water rights constitutes an abandonment and a forfeiture to the state. A water right for irrigation purposes attaches to the land to which it is applied. A water right for power purposes attaches to the project and a relocation of the same which would constitute a new project is not permitted.*

UNLISTED WATER POWER DEVELOPMENTS.

Attention is called to the fact that there are numerous flour mills over the state which have acquired the right to the use of water for power purposes by actual use long before the creation of the state board, many even before the law of 1877. Of these there is no record in this office and at the present time many of these plants are putting in generators and developing electric power. Some arrangement should be made whereby these unlisted power developments could be made to become of record in the office of the state board.

GENERAL CONDITIONS ALONG THE LOUPS AND PLATTE.

The most valuable water power sites in the state are those on the lower Platte, Loup and Niobrara rivers. The Platte river west of the mouth of the Loup, together with the North and South Plattes, does not play a very important part in the consideration of a study of water power of the state for the reason that all of the water in these streams is used for irrigation purposes, except in extraordinary seasons and for short periods during the winter months.

The Loup river by reason of its uniform flow has for many years attracted promoters looking for water power sites. This is evidenced by the number of filings which have been made on this stream and on the Platte below the point where it receives the water of the Loup. The first filing for power purposes on the Loup river was made in the year 1895. From that time on, filings covering different projects, utilizing the entire flow of the Loup, with proposed developments made at various points have been made. Many of these filings were in conflict with each other. Many of these were disqualified by reason of non-

* Blanks used for making application for water power purposes, proofs of appropriation, and certificate of appropriation, may be had upon application to the state board.

compliance with the laws, and during the year of 1912, the state board held numerous hearings, the final outcome of which was to clear up the records of the office, cancelling all applications which were in conflict and leaving a number of large projects free for development. Only the larger and more important of these filings will be discussed here.

Application No. 1077, for one thousand second feet of water, was allowed in 1911 to the Burwell electric power company for a development on the North Loup river at Burwell, Nebraska. The date for completion of work and applying the water to beneficial use was fixed as September, 1912. A field report under date of 1914 shows that no visible work has ever been done.

Application No. 1373, appropriating one thousand second feet of water from the Middle Loup river near Boelus, Nebraska, was allowed to the Grand Island electric company on July 20, 1914. A recent field report shows that the actual work of construction is now being carried on and that approximately eight thousand cubic yards have been moved. The date for completion of this project is January 15, 1916.

Three applications asking for twelve hundred second feet in each instance from the Loup river were filed in this office by H. E. Babcock. Under all three of these it is contemplated to develop power by building a dam across the Loup river and applying the water direct to a turbine. Application No. 1255 is for a power plant and dam located in the Loup river near Palmer; Application No. 1256, another dam in the Loup river near Kent; and Application No. 1257, a dam in the Loup river near St. Paul. All three of these applications are now pending before the state board.

Application No. 709 was allowed on January 30, 1906, to the Nebraska power company, for twenty-seven hundred second feet of water from the Loup river, the intake of the canal being south of Genoa and the development of the power near Columbus where the water was to be returned to the river. The line of the canal under this development follows approximately for a short distance the line of an old irrigation canal. Field reports show that during the past two years this canal has been cleaned out, widened and put into operation for a short time from the intake of the canal to the place where it crosses Beaver creek a distance of about four miles where a small water power plant was installed consisting of a small generator and small turbine. Current was furnished for a short time to the city of Genoa, but later was discontinued. Field reports indicate that some work has been done during the past year under this application. The original time for completing the construction was September 1, 1911, and that for applying the water to beneficial use was September 1, 1912. Under date of November 25, 1912, the board granted an extension of time of six months or until May 25, 1913. On said date an extension of time of two years was allowed by the board. From the record of the state board it would appear that there is no permit allowing the development of any power at Beaver creek.

Application No. 1029 was filed in this office on the 30th day of September, 1910, by Arnold C. Koenig, asking for a permit to appropriate thirty-two hundred second feet from the Loup river covering approximately the same location as Application 709. This application was fought through the courts and the supreme court finally decided that it belonged to the Nebraska power company. It is now pending before the state board.

Application No. 1187 was allowed November 25, 1912, to the Commonwealth power company, appropriating two thousand second feet from the Loup river, diversion to be made below the return of the tail waters from application No. 709, near Columbus, and the same to be returned to the Platte river near Schuyler, where the plant was to be located. The date for completing the appropriation was September 1, 1915. Field reports on this application show that work was commenced near the point of diversion and that approximately three thousand cubic yards were excavated. No work has been done on this for over a year.

Application No. 894 was allowed September 5, 1912, to the Fremont canal and power company and later transferred to the Central service corporation, which, it is understood, is owned by Kountze Brothers, Bankers. The grant

under this application conveyed the right to divert two thousand second feet from the Platte river, south of Schuyler, on the south side of the river and return the same south of Fremont. The time for completion of the appropriation was September 1, 1915. Field reports indicate that work was begun on this and prosecuted for a short time, about thirty thousand cubic yards being excavated. No work has been done under this project for over a year.

Application No. 970 was granted to Chas. P. Ross, on September 2, 1910, with permission to divert thirty-five hundred second feet from the Platte river south of Valley and returning the same to the Platte river near the state fisheries. Application No. 971 was granted to Mr. Ross under the same date with permission to divert five hundred second feet of water from the Elkhorn river near Waterloo, emptying the same into the same canal as under Application No. 970, and returning it to the Platte river near the state fisheries. Mr. Ross was held up by a contest filed against his right by Wm. J. Coad, which contest was finally dismissed. The original date for completion was September 20, 1914, which time was extended to April 1, 1916. Field reports indicate that some work has been done under this application.

Application No. 1343 was allowed April 17, 1914, to Chas. C. Parmalee and Carlos A. Rawls of Plattsmouth, granting them a right to divert twelve hundred second feet of water from the Platte river near Oreapolis and returning the same near Plattsmouth. The time for completing this application is September 1, 1915. Application No. 1379 made by Parmalee and Rawls covers approximately the same proposition as application No. 1243 and is now pending before the state board.

Two of the largest developments of water power in this state which have been accomplished by means of diverting the water through long canals in order to gain head are the ones at Gothenburg and Kearney, Nebraska, on the Platte river. These two developments approximately in the center of our state have undoubtedly escaped the attention and notice of a great many of our people who are enthusiastic over water power development in our state.

Docket No. 1023, of the Kearney water and electric power company, has a right to one hundred forty second feet of water which is diverted from the Platte river about three miles southeast of Elm creek and returns the water near Kearney. This plant has been in operation for a long period of time for power, being used at one time to operate a cotton mill and has been furnishing current to the city of Kearney since about 1886. This canal is approximately twenty-four miles long and is operated throughout the entire year.

Docket No. 645, of the Gothenburg canal, has a right to the use of two hundred second feet of water from the Platte river which is diverted about fifteen miles northwest of Gothenburg and the water returned to the river near Gothenburg. This plant is very similar to that of the Kearney plant and has been in operation for many years furnishing current to Gothenburg. These are both successful plants and give a person a very good idea of what can be accomplished on the Loup and lower Platte where the water supply is more plentiful.

GENERAL CONDITIONS ALONG THE NIOBRARA RIVER.

The next stream in importance in this state in the study of water power is the Niobrara river. There are proposed on this stream several projects covered by filings in this office. These filings, however, cover only a small portion of the river which is better adapted to the construction of power plants than the Loup and Platte rivers, owing to the character of the soil and the high bluffs which prevail along the stream. The main reason why power developments have not been made on this stream is the great distance to the market.

Application No. 652 was approved November 13, 1902, and granted C. H. Cornell of Valentine, Nebraska, a right to the use of sixteen hundred second feet in the Niobrara river, the project being to build a dam approximately fifty feet in height across the Niobrara river, just below Valentine. The original date for completion and applying the water to beneficial use was January 1, 1907. Later this time was extended to June 11, 1911, by the state board.

Also under date of June 21, 1911, Mr. Cornell filed another petition for further extension of time, which petition is now awaiting action by the state board. Field reports indicate that no actual work of excavation has been done but that there are several piles of stone at the proposed site of the dam aggregating 18,460 cubic feet of stone. Quite a bit of engineering work has been done on this and a number of extensive reports made.

Application No. 1243 was allowed to H. P. Buhman of Leigh, Nebraska, on December 16, 1912, allowing him the right to divert nine hundred second feet of water from the Niobrara river at the bridge across said river south of Spencer and to return the same to the river about twelve miles farther east. The time for completion under this application is July 1, 1915. Field reports indicate that there has been approximately twenty-six hundred cubic yards of earth excavated. Said reports indicate that no work has been done within the past few months.

Application No. 961 was allowed on February 19, 1910, to E. L. Kirk, of Sioux City, Iowa, granting him the right to use nine hundred second feet of water from the Niobrara river, diverting it about twelve miles southwest of Niobrara and returning it to the river a little southwest of the town of Niobrara, Nebraska. The original time for completion under this application was May 1, 1912, and later by the orders of the board the time was extended to January 1, 1913, and further extended again to January 1, 1915. Field reports indicate that a total of approximately three thousand cubic yards have been excavated, of which one hundred eighty-five yards of earth were moved during 1914.

GENERAL CONDITIONS ALONG THE BIG BLUE RIVER.

The next stream for consideration is the Big Blue river, which has well defined banks, comparatively high, and while the amount of water is not so great as some of the other streams of the state, its flow is fairly uniform and this combination affords many small power sites throughout its course. Power on this stream is not developed by means of diversion canals but by building dams directly across the stream and impounding the water and applying it at heads varying from ten to twenty-five feet. The cost of this style of development is less expensive and a number of small power plants have been developed and are now in operation along this stream, the more important of which will be enumerated.

Application No. 1006 was allowed on August 5, 1910, to Burdette Boyes, permitting him to use two hundred second feet of water from the Big Blue river about four miles southeast of Milford, which plant has been completed and in operation for over two years and is furnishing current to several small towns in the vicinity, including Milford and Seward.

Application No. 1035 was allowed on October 31, 1910, to Edmond J. Ashton, granting him the right to use five hundred second feet of water from the Big Blue river, near the junction of the main Blue and the west fork, which plant has been completed recently.

There is a power plant completed and in operation on the Big Blue river at Crete, which is not on record in our office, but is one of the examples where the original water right was obtained for flour mills and later changed to a hydroelectric plant. This is a very nice modern water power plant and is furnishing current to the city of Crete at a very low rate.

Applications Nos. 1355 and 1356 were allowed on November 30, 1914, for small power developments on the Big Blue river. The date for completion of these developments is September 1, 1916.

There is still pending before the state board applications Nos. 1363, 1366, 1247 and 1261, by different people, for small water power developments along the course of this stream, similar to the ones above described.

Docket No. 1021, of the Holmesville mill and power company, has a right to five hundred cubic feet of water at Holmesville, Nebraska, where a hydroelectric plant has been installed and in use for several years, furnishing current to Beatrice, Blue Springs and Wymore. There has been more power actually developed in the last few years on the Big Blue river than on any

1998, 1999, 2000, 2001, 2002, 2003, 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022, 2023, 2024, 2025, 2026, 2027, 2028, 2029, 2030, 2031, 2032, 2033, 2034, 2035, 2036, 2037, 2038, 2039, 2040, 2041, 2042, 2043, 2044, 2045, 2046, 2047, 2048, 2049, 2050, 2051, 2052, 2053, 2054, 2055, 2056, 2057, 2058, 2059, 2060, 2061, 2062, 2063, 2064, 2065, 2066, 2067, 2068, 2069, 2070, 2071, 2072, 2073, 2074, 2075, 2076, 2077, 2078, 2079, 2080, 2081, 2082, 2083, 2084, 2085, 2086, 2087, 2088, 2089, 2090, 2091, 2092, 2093, 2094, 2095, 2096, 2097, 2098, 2099, 2100, 2101, 2102, 2103, 2104, 2105, 2106, 2107, 2108, 2109, 2110, 2111, 2112, 2113, 2114, 2115, 2116, 2117, 2118, 2119, 2120, 2121, 2122, 2123, 2124, 2125, 2126, 2127, 2128, 2129, 2130, 2131, 2132, 2133, 2134, 2135, 2136, 2137, 2138, 2139, 2140, 2141, 2142, 2143, 2144, 2145, 2146, 2147, 2148, 2149, 2150, 2151, 2152, 2153, 2154, 2155, 2156, 2157, 2158, 2159, 2160, 2161, 2162, 2163, 2164, 2165, 2166, 2167, 2168, 2169, 2170, 2171, 2172, 2173, 2174, 2175, 2176, 2177, 2178, 2179, 2180, 2181, 2182, 2183, 2184, 2185, 2186, 2187, 2188, 2189, 2190, 2191, 2192, 2193, 2194, 2195, 2196, 2197, 2198, 2199, 2200, 2201, 2202, 2203, 2204, 2205, 2206, 2207, 2208, 2209, 2210, 2211, 2212, 2213, 2214, 2215, 2216, 2217, 2218, 2219, 2220, 2221, 2222, 2223, 2224, 2225, 2226, 2227, 2228, 2229, 2230, 2231, 2232, 2233, 2234, 2235, 2236, 2237, 2238, 2239, 2240, 2241, 2242, 2243, 2244, 2245, 2246, 2247, 2248, 2249, 2250, 2251, 2252, 2253, 2254, 2255, 2256, 2257, 2258, 2259, 2260, 2261, 2262, 2263, 2264, 2265, 2266, 2267, 2268, 2269, 2270, 2271, 2272, 2273, 2274, 2275, 2276, 2277, 2278, 2279, 2280, 2281, 2282, 2283, 2284, 2285, 2286, 2287, 2288, 2289, 2290, 2291, 2292, 2293, 2294, 2295, 2296, 2297, 2298, 2299, 2300, 2301, 2302, 2303, 2304, 2305, 2306, 2307, 2308, 2309, 2310, 2311, 2312, 2313, 2314, 2315, 2316, 2317, 2318, 2319, 2320, 2321, 2322, 2323, 2324, 2325, 2326, 2327, 2328, 2329, 2330, 2331, 2332, 2333, 2334, 2335, 2336, 2337, 2338, 2339, 2340, 2341, 2342, 2343, 2344, 2345, 2346, 2347, 2348, 2349, 2350, 2351, 2352, 2353, 2354, 2355, 2356, 2357, 2358, 2359, 2360, 2361, 2362, 2363, 2364, 2365, 2366, 2367, 2368, 2369, 2370, 2371, 2372, 2373, 2374, 2375, 2376, 2377, 2378, 2379, 2380, 2381, 2382, 2383, 2384, 2385, 2386, 2387, 2388, 2389, 2390, 2391, 2392, 2393, 2394, 2395, 2396, 2397, 2398, 2399, 2400, 2401, 2402, 2403, 2404, 2405, 2406, 2407, 2408, 2409, 2410, 2411, 2412, 2413, 2414, 2415, 2416, 2417, 2418, 2419, 2420, 2421, 2422, 2423, 2424, 2425, 2426, 2427, 2428, 2429, 2430, 2431, 2432, 2433, 2434, 2435, 2436, 2437, 2438, 2439, 2440, 2441, 2442, 2443, 2444, 2445, 2446, 2447, 2448, 2449, 2450, 2451, 2452, 2453, 2454, 2455, 2456, 2457, 2458, 2459, 2460, 2461, 2462, 2463, 2464, 2465, 2466, 2467, 2468, 2469, 2470, 2471, 2472, 2473, 2474, 2475, 2476, 2477, 2478, 2479, 2480, 2481, 2482, 2483, 2484, 2485, 2486, 2487, 2488, 2489, 2490, 2491, 2492, 2493, 2494, 2495, 2496, 2497, 2498, 2499, 2500, 2501, 2502, 2503, 2504, 2505, 2506, 2507, 2508, 2509, 2510, 2511, 2512, 2513, 2514, 2515, 2516, 2517, 2518, 2519, 2520, 2521, 2522, 2523, 2524, 2525, 2526, 2527, 2528, 2529, 2530, 2531, 2532, 2533, 2534, 2535, 2536, 2537, 2538, 2539, 2540, 2541, 2542, 2543, 2544, 2545, 2546, 2547, 2548, 2549, 2550, 2551, 2552, 2553, 2554, 2555, 2556, 2557, 2558, 2559, 2560, 2561, 2562, 2563, 2564, 2565, 2566, 2567, 2568, 2569, 2570, 2571, 2572, 2573, 2574, 2575, 2576, 2577, 2578, 2579, 2580, 2581, 2582, 2583, 2584, 2585, 2586, 2587, 2588, 2589, 2590, 2591, 2592, 2593, 2594, 2595, 2596, 2597, 2598, 2599, 2600, 2601, 2602, 2603, 2604, 2605, 2606, 2607, 2608, 2609, 2610, 2611, 2612, 2613, 2614, 2615, 2616, 2617, 2618, 2619, 2620, 2621, 2622, 2623, 2624, 2625, 2626, 2627, 2628, 2629, 2630, 2631, 2632, 2633, 2634, 2635, 2636, 2637, 2638, 2639, 2640, 2641, 2642, 2643, 2644, 2645, 2646, 2647, 2648, 2649, 2650, 2651, 2652, 2653, 2654, 2655, 2656, 2657, 2658, 2659, 2660, 2661, 2662, 2663, 2664, 2665, 2666, 2667, 2668, 2669, 2670, 2671, 2672, 2673, 2674, 2675, 2676, 2677, 2678, 2679, 26

The following table shows the results of the regression analysis for the dependent variable "Number of children in the household" (N = 1,000). The independent variables are "Age of the head of household" and "Gender of the head of household". The table includes the coefficient estimates, standard errors, t-statistics, and p-values for each variable.

Variable	Coefficient	Standard Error	t-statistic	p-value
Age of the head of household	0.001	0.001	1.2	0.23
Gender of the head of household (Male = 1, Female = 0)	-0.05	0.05	-1.0	0.32
Constant	1.5	0.5	3.0	0.01

The regression results indicate that the number of children in the household is positively related to the age of the head of household, although the relationship is not statistically significant at the 5% level. The gender of the head of household does not appear to have a significant effect on the number of children in the household.

PLATTE RIVER DRAINAGE AREA.

PHYSICAL GEOGRAPHY.

WEATHER AND RAINFALL.

By G. A. Loveland, U. S. Weather Bureau, Lincoln.

Records of the weather have been kept in Nebraska since 1850. The first settlers manifested an intelligent interest in climatic conditions, but the earliest preserved records were kept mostly at the frontier army posts by the soldiers. In many parts of the state the army posts preceded the settlers. The citizens have been generous with their time and efforts and have recorded weather conditions quite completely for many years.

The following facts have been collected from the voluntary work of Nebraskans for the most part.

Map 1 shows the average or normal annual temperature; also the six sections of equal area into which the state has been divided and to which reference is made in the discussion of precipitation.

RAINFALL.

The rainfall is perhaps the most important climatic element, and is the one that varies most. Map 2 shows the normal annual precipitation.

The tables give the average annual precipitation for the state and for the different sections, as shown on the map of normal temperatures, for the past year.

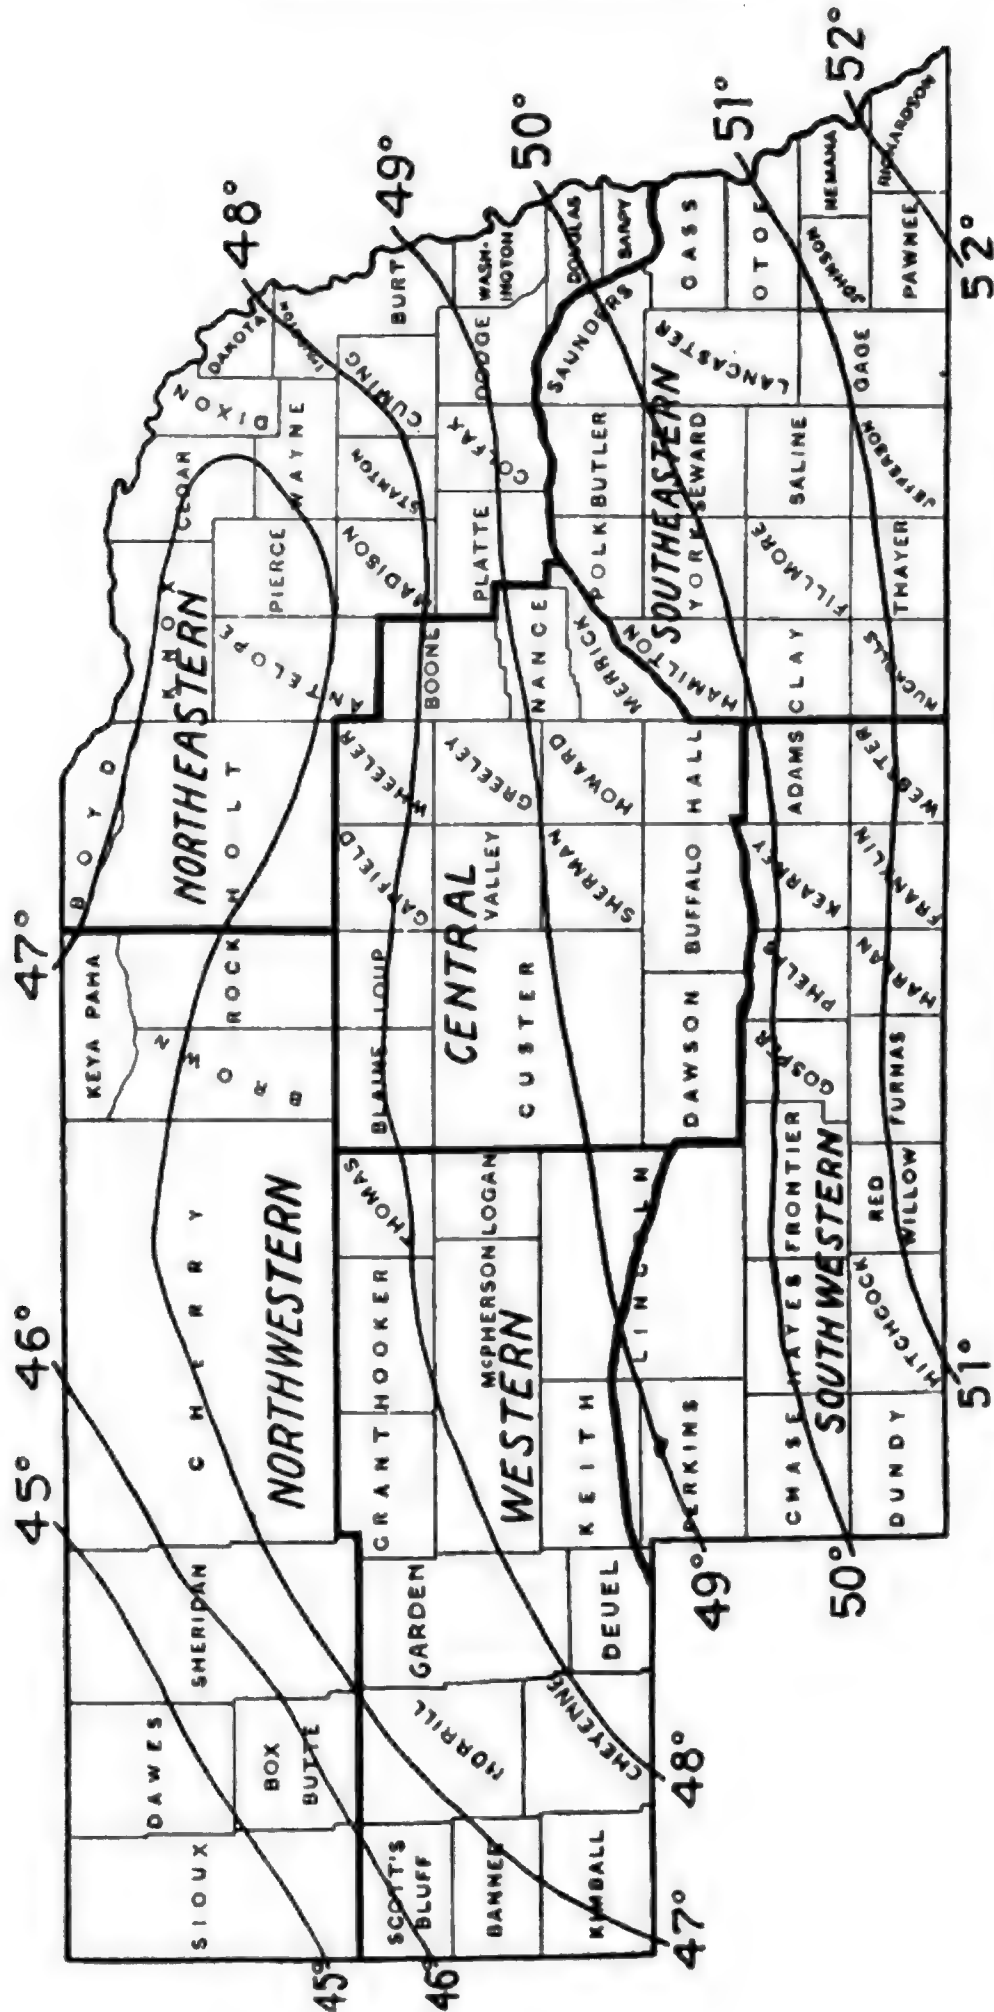

The average annual rainfall for the state of Nebraska as a whole is not obtained by averaging the rainfall of all stations in the state without regard to their geographical distribution, since this method would give too large a result, owing to the preponderance of stations in the eastern or wetter portion of the state. To obviate this difficulty the state is divided into six sections of very nearly equal area, as shown on map 1, with the normal annual temperature, and an average is taken of all rainfall data in each section, then these six sectional means are combined, and thus an average for the state is obtained.

The averages for the state and for each section for the year and the crop season. April to August, inclusive, for each year since 1876 are given in Table No. 2.

The averages for the years previous to 1876 are given in Table No. 1 for the year and the crop season. These averages are obtained in a somewhat different manner since there are too few records for the earlier years to make the above method available. Accordingly for these earlier years each station is taken by itself, and, taking account of its geographical position, a ratio is determined by an inspection of the monthly charts of normal precipitation, between the normal rainfall of that locality and the normal rainfall of the state as a whole; this ratio is then used to determine, from the rainfall of a given section for a given month, what amount of rainfall might be taken as a state average for that month. An estimate having been made in this manner from each of the stations at which rainfall was measured for that month, these estimates are then averaged and the results given as rainfall for the state as a whole for that month.

This probably gives a fairly reliable estimate of the rainfall of different months, excepting in the very earliest years, when records were kept at only one or a very few stations. Even here an estimate of the rainfall of the state made in this way is of considerable value for purposes of comparison with the rainfall of later years.

These monthly amounts have been added to obtain the annual and crop season values.

1899-00	16.5	1912-13	33.5
1900-01	27.1	1913-14	16.5
1901-02	19.6		

This table shows the average snowfall, in inches, for the state by seasons. The snow when melted makes about one-tenth as much water, that is, one inch of snow will melt to about one-tenth of an inch of water.

EVAPORATION.

The following table shows the monthly evaporation from a free water surface, measured in inches, at Lincoln and North Platte for the months free of ice and snow. This indicates the amount of water that would evaporate from reservoirs, lakes and ponds. The evaporation has been measured accurately only during these months but has been approximated for the other months. The annual evaporation from a free water surface is probably between 50 and 60 inches in most of the states. It is, of course, more in the western than in the eastern section. This means that the evaporation from a free water surface is nearly twice the rainfall in the eastern and about four times the rainfall in the western part of the state:

This table gives the average velocity of the wind, in miles per hour, computed from the records of the four Weather Bureau stations in Nebraska.

NEBRASKA ALTITUDES.*

Revised to 1913.

The topography of Nebraska is varied. The lowest elevation is 810 feet at water level on the Missouri river in the southeastern part of the state, and the highest point is Hogback mountain in Banner county, 5,084 feet. The grade westward from the Missouri river is about six feet to the mile for the first one hundred miles, seven for the second hundred, eight for the third, ten for the fourth, and eighteen to twenty feet for the last fifty miles.

The United States geological survey and the Nebraska geological survey have made topographic maps of the following counties: Adams, Butler, Clay, Deuel, Franklin, Hall, Hamilton, Harlan, Howard, Kearney, Keith, Lancaster, Merrick, Morrill, Nuckolls, Phelps, Polk, Sarpy, Saunders, Scott's Bluff and Webster counties. Maps for the following counties are approaching completion: Buffalo, Cass, Dawson, Fillmore, Furnas, Gosper, Nance, Nemaha, Otoe, Thayer and York. Work on maps of the following counties has been begun: Banner, Cheyenne, Colfax, Dakota, Dixon, Dodge, Frontier, Gage, Garden, Greeley, Johnson, Lincoln, McPherson, Platte, Saline, Seward, Sherman, Sioux, Valley and Washington. These maps may be secured from the United States geological survey at Washington or the Nebraska geological survey at the university, at ten cents each, by mail, eleven cents.

SOIL, FOREST AND WATER RESOURCES OF NEBRASKA.

By Dr. George E. Condra, Director of Conservation and Soil Survey.

SOIL RESOURCES.

Nebraska's leading natural resource is her soil, of which there are more than fifty kinds. They constitute a heritage of untold greatness. These soils are in three provinces known as the Loess, Sandhill and High Plains Regions.

The Loess Region occupies most of the southeast half of the state. It includes the following types of land—loess plains, alluvial and terrace plains, loess and drift hills, and small areas modified by bluffs and canyons. The loess plains are the broad stretch of country between Dundy and Saunders counties, and the many smaller plains to the north and east of this area. They are quite smooth, and well drained except for local basins. The prevailing soil is the Marshall silt loam, flat phase, which is deep, fertile and underlain by a subsoil thirty or more feet thick. These plains produce vast quantities of wheat, corn, alfalfa, oats, and other cultivated crops. Grazing is more generally practiced in the western than in the eastern part of the region because of the lower rainfall.

The loess and drift hills are in the northeastern and eastern counties. They vary from slightly undulating to steep, hilly land. The prevailing soils are the Marshall silt loam, and the Shelby silt loam, both rich, fertile and underlain by deep subsoil. These areas constitute the state's most natural corn land. They also produce large yields of the other crops.

The terrace or bench lands are well developed in the Platte, Republican, Big Blue, Loup, Elkhorn, and Salt creek valleys. They are capped with silt loam, silty clay loam, and fine sandy loam soils of which the Waukesha silt loam is the prevailing type. It produces a great variety of crops, such as alfalfa, corn, wheat and oats.

The flood plains have several soils, usually coarser in texture than those formed from loess. Much of the soil is a fine sandy loam, with local developments, either more clayey or sandy. These soils produce pasture, hay, corn and the cultivated crops. In many places the yield of corn is very large. Alfalfa does well, if the water table is not too close to the surface.

Bordering the Missouri and other principal valleys are narrow belts of bluff land well suited for forest, grazing, alfalfa and fruit. In some cases, the slopes are too steep for cultivation to corn, oats, and wheat. This type of land, the soil of which is called the Knox silt loam, is coming to be our leading apple land in the southeastern counties. Small canyon areas occur in the southwestern counties. They are used principally for grazing.

The Sandhill Region occupies about 20,000 square miles of the north central part of the state. The surface is modified by sandhills, basins and valleys. The hills are covered with dune-sand soil, which occupies between 75 and 80 per cent of the region. This soil grows a great number of grasses which support grazing. It is the type filed upon by the Kinkaiders in 640-acre tracts. Much of the rest of the Sandhill region is occupied by Gannett fine sandy loam. It covers most of the valleys and some of the basins, and is quite wet at places because the water table is near the surface. This type produces heavy yields of hay and is successfully cultivated to corn, wheat, potatoes, and other crops, being the most thoroughly utilized soil in the region.

There are other kinds of soil in the Sandhill region, but their extent is limited. Viewed as a whole this region is a vast grazing area, much of the forage of which is not yet utilized.

The High Plains Region, area about 15,000 square miles, occupies much of the western part of the state. Its subdivisions from north to south are as follows: (1) Pierre plains, or the so-called dark gumbo land, (2) White river plains, or the light colored gumbo land, (3) Pine Ridge with its rough land, (4) Box Butte table, (5) North Platte valley, including the first bottom and the bench lands, (6) Wildcat Range, mostly rough, (7) Pumpkinseed valley, and (8) Cheyenne table.

The High Plains region has marked diversity of soil and topography. The soils vary from those of fine texture to the rough stony lands. Both dry farming and grazing prevail throughout the White river and Pierre plains. The rough lands are devoted largely to grazing and forest growth. The Rosebud silt loam is the prevailing soil on the Box Butte plains. It is well suited for grazing and farming. The Sidney silt loam, similar to the latter, occupies much of the Cheyenne table. The bottoms and benches of the valleys are irrigated successfully over large areas, growing such crops as alfalfa, beets, wheat, oats and corn. Some of the largest irrigation canals of our country are on the benches of the North Platte.

The foregoing statement evidences the fact that the diverse conditions of soil and climate in Nebraska are the natural basis for the development of a many-sided agriculture. The opportunities in this line are inconceivably great.

The Conservation and Soil Survey of the state, from which information may be secured upon request, is mapping and describing the soils of four counties each year, in cooperation with the U. S. Bureau of Soils. This survey makes an inventory of the soil resources and tries to determine the best method for handling each type. This is a big task, for our state is large. Among the published Survey reports, available from the United States Bureau of Soils, Washington, D. C., are the following:

The Reconnaissance Survey of Western Nebraska—

- North Platte Area.
- Kearney Area.
- Grand Island Area.
- Stanton Area.
- Sarpy County Area.
- Lancaster County Area.
- Cass County Area.
- Otoe County Area.

The following are in preparation. Most of them are to be published this year:

- Scott's Bluff County Area.
- Gage County Area.
- Seward County Area.
- Saunders County Area.
- Nemaha County Area.
- Thurston County Area.
- Douglas County Area.

Some of the older reports are too general to be of use to farmers. Those recently published and those in preparation have much detailed accurate information.

FOREST RESOURCES.

Nebraska has more forest than is generally supposed. Early settlers tell us that the timber has, within their memory, thickened in the larger valleys, crowded into the ravines, and upon the uplands. It is evident that the forest is now rapidly increasing by natural reproduction.

A noticeable feature of the forest in much of the state is that it occurs along stream courses. Another natural distribution is on the bluffs lands bordering valleys, and on the rough lands of the western and northwestern counties.

The principal trees of nearly all the valley bottoms of the state are willow, cottonwoods, elms, ashes, and box-elders. The black walnut and sycamore grow in the southeastern counties. The walnut has considerable range, extending to beyond McCook in the Republican valley and across the state along the Missouri. The relative number of cottonwoods and willows increases westward. Birch occurs in the canyons of the Pine Ridge country and extends out along the streams of Hat creek basin in association with the other broad-leaved species. Much of the bottom land forest of the state is of merchantable size and quality.

The forest of the rough land differs from that of the bottom lands. The

bluffs of southeastern Nebraska, besides having some of the characteristic bottom land species extending up the lower slopes, have a number of distinctly upland trees. As the elms and ashes, the lowland trees, become less frequent up the slopes, the oaks, basswoods, and hickories become more frequent. Although scattered trees of many other species occur in these formations, they are of little economic importance. The oaks extend well into the state. Some of them, notably the burr oak, form dense stands on some of the rough land. They often extend farther back into the uplands than any other species, in practically pure stands. Growing among the broad-leaved trees are scattered red cedar. Natural growths of cedar occur along the Platte, Loup and Missouri rivers. Probably the most striking grove of these is on Fremont island.

The pine forest of the Niobrara, Pine Ridge, North Platte, and the Lodgepole country occupies an area of at least 500 square miles. Its stand, consisting mostly of western yellow pine and some red cedar, varies greatly. On Pine Ridge the trees are at their best, often being 12 to 24 inches in diameter, and having a height of forty feet or more. The quality of the timber is good and the trees are in a healthy condition. The stand, in the outliers of this forest, is very light. Pines occur in good stands at a number of places on Wildcat Range, and especially so along the Niobrara, as in Schlagel canyon south of Valentine, north of Ainsworth, and in Long Pine canyon. The broad-leaved species from the east and the pines and cedars from the west intermingle along the Niobrara.

The pine country of our state has been run over by many fires in the past, but the trees have persisted in spite of the many drawbacks. As we now see it, there appears no reason why all of this area would not support a thick pine forest if proper care were exercised. This is our most natural timber land and should be so managed.

Tree planting has produced quite favorable results in Nebraska. Under proper care, trees have been grown in every soil province, as throughout the Sandhills and even upon the table lands of the western counties. Planted groves, some of them presenting an imposing appearance, occur throughout the lengths of the Republican, Platte, Lodgepole, Loup, Elkhorn and Niobrara valleys. These have made rapid growths within recent years. Great credit is due the Nebraskans who made the plantings of thirty or more years ago. Monuments to their efforts are the groves of the many farmsteads and ranches. The results are widespread, even on the valleys of the sandhill region, where there are large groves of cottonwood, willow, and ash. A splendid result of tree planting is found at Agate, Nebraska, a point in the Niobrara valley where few trees occur naturally.

The early settlers planted the trees which they could secure. They sought those of rapid growth. In the west, as on the timber claim land, fires and cattle did much damage, and few trees were irrigated. The wonder is that any of the groves survived without care. In many cases, poor selection of species was made for planting. We now know more concerning the adaptability of the different kinds of trees to the various soil types and regions of the state. This will serve as a basis for future planting.

The government experiment, at a station near Halsey, has shown conclusively that certain pines and broad-leaved species can be grown throughout the sandhill region. Many ranchmen, profiting by this experience, have planted trees about their places. This one result is worth more than the expense incurred by the government experiment.

The amount of timber varies greatly in different parts of the state. In some counties less than one per cent of the area is forested. In others, for example in Thurston, the amount is about seven per cent. It is safe to say that fully three per cent of the state is covered with trees, including natural and planted timber. These figures are but estimates. The Conservation Survey will, however, within a few years, have considerable data on the matter from the surveys now under way.

The utilization of our forest resources has been very uneconomical. The burr oak of southeastern Nebraska probably leads the broad-leaved trees in

commercial production. It is used chiefly for posts and to a minor extent for firewood. Cottonwood is sawed into lumber, probably more than all other hardwoods. The yellow pine is used for posts, poles, ties and lumber. The walnut groves are sure to have a high value for lumber.

We are now facing the situation in which the utilization of the forest is the principal problem. We have a mixed stand of trees and no definite market for their products. The people do not understand the use of the axe and saw. The use for firewood is neglected in the presence of cheap coal. The lumber of the state comes largely through dealers who handle the lumber from certain districts. Consequently, the best thought of the state should be directed towards the utilization of the forests and toward future plantings. Our largest uses of the present forest are for shade, windbreaks, and parking.

With the many investigations of the past and the present, there seems to be no reason why trees cannot be economically raised and utilized on such land as is not especially suitable for agriculture. It is probable that before many years our strictly forest land will be used in a definite system of management for the purpose for which it is best suited.

WATER RESOURCES.

These are the rainfall, ground water, springs, lakes and streams. The source of supply is in the rainfall, much of which soaks into the soil, subsoil and bed rock forming the ground water. Most of the state's water is in the ground, not on the surface.

The upper part of the ground is not completely filled with water. This is in part the soil moisture, from which crops are supplied. Soil moisture is one of our most valuable resources and its conservation is of great importance.

Below the water table, the mantle rock and much of the bed rock are completely saturated. The amount of water in this storage would make a lake many feet deep. The water of this zone is of good quality, as a rule. It is the source of springs and well supplies. Shallow wells are 10 to 40 feet deep on the bottom lands and 40 to 250 feet deep on the uplands. The deepest wells of this kind are in the western counties. Probably no state possesses a better domestic water supply, or one freer from pollution. The maintenance of this quality of water will be a problem when the state becomes thickly settled. Its pollution from privies, cesspools, garbage and sewers should be prevented.

Artesian Wells.—Ground water under pressure is artesian. Flowing wells are obtained by tapping it where the pressure is heavy. Elsewhere, the water may rise part way in a well but not flow.

Our state has about 300 flowing wells. The whole of the state is underlain by artesian water, but many wells do not flow. The deep wells at Omaha and Lincoln extend into the Pennsylvanian and older formations. Most of them supply salt water. Much of the artesian water is in sandstone of the Dakota formation. Wells tapping it are in a belt between Nuckolls county and the northeastern part of the state. Such wells occur in Seward, Dodge, Dixon, Cedar and Boyd counties. Their depth ranges between 90 and 1,000 feet. Numerous wells, not flowing, reach this source of supply, as at Lincoln.

The shallow artesian wells in southwestern Holt and southern Brown and Rock, and western Chase counties tap Tertiary sands overlain by thin layers of clay. Most of these are 25 to 100 feet deep.

The artesian water is used for domestic, sanitarium, and city supplies and to some extent for developing power.

Lakes.—The area of the lake surface in our state is not known. In fact, it cannot be definitely determined because the lakes change so much in wet and dry periods.

There are many in the Sandhill region. They occur in districts, located in the southwestern part of Holt county, southwest of Ainsworth, south and southeast of Valentine, at Lakeside, and northwest of Oakkosh. Such lakes as Ender's, Dad's, Reed Deer, Swan, and Blue are quite well known. Most sandhill lakes are shallow. Some are charged with alkali. Those most permanent and least alkali are stocked with fish. Many lakes supply stock water and are breeding places for water fowl. They afford hunting, fishing and boating.

Numerous wet-weather lakes occur on the Loess plains, Cheyenne table and Box Butte table, but few of them are permanent. Their total area is about 225 square miles. These intermittent lakes have some importance in hunting.

Cut-off lakes occur in the Missouri, Elkhorn, Loup and other valleys of the state. Carter lake at Omaha is a notable example of this kind. These lakes are used for boating, fishing, sources of ice, and locations for recreation clubs. Large artificial lakes for ice production are at Seymour, Ashland, Memphis, and other places. Several irrigation reservoirs have been built, two of which have most importance. They are Lake Alice, north of Scottsbluff and occupying an area of about 700 acres, and Lake Minatare, north of the town from which it was named, and having an area of about 2,500 acres. These lakes are flood waters stored for irrigation.

Many lakes are formed by damming rivers for water power. Such are used as sources of ice and as pleasure resorts. Among the best known locations of these are at Beatrice, Milford, Sargent and Ainsworth.

Springs.—The state has many springs. They feed the small tributaries of most rivers and have use for domestic water supplies.

Streams and Water Power.—Descriptions of these rivers, including their discharges, are found in the reports of the state engineer, the Geography of Nebraska, and in Water Supply Papers 215, 216 and 230 of the U. S. Geological Survey. Most of the rivers fluctuate much in their seasonal flow. This is especially true of the Republican.

Several Republican river projects have been damaged by washouts and hampered because of a lack of water at times in summer. Three powers now operate from water of the trunk stream. They are at Superior, Orleans and Arapahoe. There are several powers in the tributaries of the Republican, most of them being in the Frenchman, Medicine and Beaver-Sappa.

The Platte is used extensively for irrigation in the western part of the state, but not for power. If it ever becomes of advantage to do so, much power could be produced at the "drops" during the irrigation season and from the normal supply of the river at other times. Power is now developed in connection with irrigation at Gothenburg and Kearney. The Pumpkinseed, Rush creek, Blue creek, Birdwood, and the Wood river tributaries have small discharges, yet enough for power development.

Floods are features of the Big Nemaha, Little Nemaha, Salt creek and Logan creek. They hinder water power development. In fact, powers have been removed from Salt creek and the Nemahas because of floods and the interference of dams with drainage.

The streams of our state best developed for power are the Big Blue and the Little Blue. These have fairly uniform flows not much affected by dry times and the cold of winter. The cost of construction is relatively low, and there is a good market for the power. Among the best known developments in these streams are at Seward, Milford, Crete, Wilber, DeWitt, Beatrice, Holmesville, Blue Springs, Fairbury, Hebron and Deweese. They are used in milling and in generating electric current.

Bazile creek, Bow creek and the Elkhorn river have powers. The Elkhorn has a large flow most of the year. Its floods and the changing channel are drawbacks.

The state has more than 100 developed water powers, most of them being small. The largest amount of undeveloped power is in the Niobrara, Loup and lower course of the Platte.

The Niobrara or Running Water.—This heads in Wyoming, but it receives very little water from that source. The drainage area is about 9,000 square miles of High Plain and Sandhill country. The prevailing soils of its basin are fine sandy loams and dune sand, with small areas of clayey soil and stony land. The valley proper is deep and narrow as a rule, especially so in its middle course. Much of the water of this river comes from springs issuing from the sandhills and table lands. The flow is quite uniform with a discharge of about 800 second feet at Valentine and more than 1,000 at Niobrara. The leading tributaries of the Niobrara are Snake river, discharge 200 to 250 second feet; Minnechaduza creek, about 25 second feet; Plum creek, 15 to 75

second feet; Long Pine creek, 50 to 100 second feet; Keyapaha river, 50 to 200 second feet; Eagle creek, 10 to 25 second feet, and the Verdigris, 40 to 100 second feet. These discharges are only approximately correct. Among the powers in operation are those of the Minnechaduza, Plum creek, Eagle creek and the Verdigris. The best development is in Plum creek northwest of Ainsworth.

A large amount of power could be developed in the tributaries and trunk streams of the Niobrara. Some of the most desirable sites are in Snake river. The following sites are now being discussed: Four miles east of Valentine, south of Spencer and near the mouth of the river. These have been talked of for years. The principal drawback is the lack of a market for the power. Some persons thought that industries might be brought to Valentine and other power sites, but practically all hope for such developments has been abandoned. About 80,000 theoretical horse power could be generated in the Niobrara basin, yet there is no economic demand for it. A market may yet be found by long distance transmission. Sioux City wishes to secure power from this source.

The Loup System.—This is in the center of Nebraska. The drainage basin, with an area of about 14,000 square miles, includes sandhills, loess plains, loess hills and broad valley bottoms in which bench lands are a feature. The rivers head in the sandhills, from which they draw a steady water supply. The rainfall soaks into the hills, is thus conserved and doled out to the rivers through thousands of springs. The ground water gives to the rivers a uniform flow, so characteristic of this system. Furthermore, the run-off is larger, compared with the drainage area, than in the other Nebraska rivers. The principal tributaries and their approximate mean discharges are the South Loup, 150 to 300 second feet; Mud creek, no record; Dismal river, 300 to 400 second feet; Middle Loup, about 1,000 or 1,100 second feet; North Loup, about 1,000 second feet, Calamus river, 400 second feet; Spring creek, no record; Cedar creek, 100 to 300 second feet, and Beaver creek, 50 to 150 second feet. Dismal river is a branch of the Middle Loup and Calamus river is a branch of the North Loup. The Loup proper is formed by the junction of the Middle and North branches near St. Paul. The discharge of the Loup at Columbus is rarely below 1,300 second feet in the summer and early fall. It is about 3,000 second feet most of the year. Though the head waters of the Loup are not much affected by floods, the lower courses experience them practically every spring, due to thawing of snow, and rains.

The Loup has valuable power possibilities. There are several developments in the tributaries, but none has been completed in the trunk stream below St. Paul, except that the Babcock project has a small power plant where its canal crosses Beaver creek. The Loup is larger than the Platte at Columbus during much of the year. In fact, the Platte, below that point, carries mostly Loup water in late July, August and September.

Five leading filings and grants have been made along the Loup and lower Platte. They are known as the Boelus, Babcock, Commonwealth, Kountze-Patterson and the Ross. The first named project is to take out of the Middle Loup southwest of Boelus and divert into the South Loup. The grant is for 1,000 second feet; the head is 27 feet, and the theoretical horse power 3,068. This project is to be developed and owned by the Grand Island electric company.

The other projects are larger. Two are to divert from the Loup and two from the Platte, except that the Ross project is granted a part of its supply, five hundred second feet, from the Elkhorn. These projects will be costly because of the nature of their construction, requiring diversion dams, long canals, and transmission lines. The slope or grade of the valley is about six to seven feet per mile. The canals are to be run upon lower gradients, extending across the bottom land and benches to the upland, from which points the water is to be dropped to power houses and returned to the river. Each succeeding project proposes to take out from a point below the return of the one next above in the valley. In this way the water can be used repeatedly. Fortunately, the topography will permit of this. No natural conditions defi-

nitely locate these projects. As a matter of fact, it would be possible to select a number of other locations. The places granted, however, have some advantages, also disadvantages which are sure to show up in the maintenance of canals.

The Babcock Project.—The point of diversion is four miles southwest of Genoa. A canal has been completed to a power house on Beaver creek. The total length of the proposed canal is about 25 miles, extending to the uplands about five miles northwest of Columbus. The tail of the return canal is to be about two miles west of Columbus. This project has been granted 2,700 second feet with which to develop 21,477 horse power over a head of about 70 feet.

The Commonwealth Project.—This project taps the Loup west of Columbus, just below the return of the Babcock. A canal about 19 miles long is to extend to the upland north of Schuyler, from which a return canal, about four miles long reaches the Platte southeast of Schuyler. Some work has been done on this project where it is to take out of the river. The grant is for 2,000 second feet. Fifteen thousand horse power is the contemplated development over a head of about 66 feet.

The Fremont Canal and Power Company Project.—This is known also as the Richards, Kountze-Patterson and as the Central service corporation. The point of the proposed diversion is from the south side of the Platte, southeast of Schuyler. A canal more than 30 miles long is to lead eastward across the bottom lands, along the Bluffs and onto the upland to a reservoir site east of Cedar Bluffs and southwest of Fremont. The grant is 2,000 second feet; and development of about 34,000 horse power is proposed over a head of 150 feet. Some work has been done on this project.

The Ross Project.—This is to take out of the east side of the Platte, south-east of Yutan and from the Elkhorn, south of Waterloo. The main canal is to extend across the bench at Melia and upon the bluffs and hills near the State Fish Hatcheries located across the river from South Bend. The total grant is for 3,000 second feet, and the proposed development is 10,000 to 15,000 horse power with a head of about 70 feet. The total theoretical horse power would be about 23,868. Some work has been done on this project.

Just what is to be done on these projects is a problem. It is evident that they cannot meet the conditions of the grants, within the time allowed. Furthermore, the amount of power which could be developed in all the projects, about 100,000 horse power, is more than would be utilized under present conditions. The promoters find it difficult to secure funds for development. In this they have a great drawback. It is plainly evident that very little progress is being made. The state is permitting a few individuals to speculate on its rights.

In view of the conditions herein reviewed, it seems that definite steps should be taken in the near future to bring about a better understanding, and a definite solution of these water power problems. Let everyone having responsibility in this matter view it in the light of state welfare. The following facts should be kept in view:

1. That there are large power possibilities in Nebraska awaiting development.
2. That one of the state's greatest needs is cheap power.
3. That, under present conditions, no progress is being made.

Much has been said about the conservation of water power. This does not mean withholding from utilization. A better conception is that conservation is development for the most beneficial use. Thus far, much of the water of Nebraska has gone to waste. It is now running from the state without utilization. This should not be, for Nebraska is practically without a fuel supply, except for what is brought in from other states. Nebraska produces abundantly of farm and ranch products which go to power centers for milling. The state is rich in agriculture, but relatively weak in manufacture and commerce. This condition is well known, hence it needs no further discussion. Admitting this, we should realize that greater effort must be made for an "all-round" development of the state. But industry follows power. It must have cheap power. Let us be encouraged in the fact that the state has the water resources with which to develop power in its most desirable form.

Certain advancements of recent years make sure the utilization of such rivers as the Loup and lower Platte. They are concrete construction, canalization, and long distance transmission. These conditions enhance the value of power sites. It should be recognized, however, that most of our streams are too small for use in long distance transmission. They are better suited for local use.

The conservation of the Loup and the lower Platte deserves attention at this time. These rivers are well located with respect to the state's largest cities. The power, if developed, could be carried to an urban population of fully 300,000 people. It could be used to light both city and country, to drive the machinery of special industries, and to draw the cars of city and interurban railways. These things are desirable and attainable, but there is not much doing in the way of constructive effort. Policies are being advocated. The public is interested in the matter in a general way, but there is no definite basis upon which to decide in favor of any given plan. Those who administer the law, and all who have anything to do with the subject, receive more or less criticism, whether justly so or not. The discussion is from two points of view—of the state, and of private interests. This makes it interesting and attractive in politics. It seems that we have now reached a point where this problem should be considered in its proper relationship to industry and to the public welfare, and more upon a fact basis.

The leading policies for the conservation of water power are:

1. Private ownership and state supervision.
2. District ownership and state supervision.
3. State ownership and control.
4. State guaranty and popular subscription.

I do not wish to enter upon a discussion of the merits and weak points involved in each of these policies.

Certain grants for power development have been made in Nebraska. The state and the grantees are bound under the law affecting these cases. The public utility corporations are subject to public control as regards rates and service. But it is quite possible that not more than one or two of the large projects can complete development within the time prescribed in the grants. We should distinguish between private concerns and public utility corporations. Private individuals are not bound so closely under the law. It is evident that perpetual water power rights have been conveyed in practically all projects now developed, and that the only thing that can annul them is non-use. Among the things which have been discussed and quite generally agreed upon as being best in water power development are the following:

1. That the state owns and should control the intra-state streams not navigable. The Loup is strictly a Nebraska river and the Niobrara can be regarded as such. Neither river is navigable, and there will not be much interference on account of the use of water for domestic and irrigation purposes. The lower Platte is fed by the Loup, and no complications should arise because of its development for power.
2. That perpetual power rights should not be granted. This is against the present practice in Nebraska.
3. That there should be no speculative holdings of undeveloped power sites, and no transfer or assignments of grants without authority from the state. This is necessary to prevent large combinations, and to protect the state.
4. That the state should survey its power producing streams and sites thereof, and perfect a system for the administration of these resources. The state engineer of Nebraska is gaging the rivers in cooperation with a federal department. The Conservation Survey has charge of water resource investigation, but is without funds for this work.
5. That franchises should be granted upon terms which insure:
 - A. Prompt development.
 - B. Good returns upon capital invested, allowing for risks involved.
 - C. Good service and a fair charge to the consumer.
 - D. Protection in the courts in case of dispute.

There is no definite agreement concerning the tenure of franchises—

whether fixed-term or indeterminate. Operators favor the indeterminate franchise. Some favor a clause permitting renewal at the end of a fixed period, and others not. In case renewal is refused, the state should provide to take over plants at their fair value. It would seem that the general practice in business should prevail in these leases, especially so, because the projects will differ greatly in their value and desirability. The matter of rental or annual charge is one of dispute. Some favor a nominal charge and the cheapest power possible for the consumer.

6. That the monopolistic control of water power should be guarded against. That accomplishment of this will be difficult for water powers are most efficiently managed when in large holdings. By such combinations, the load is equalized and the danger of breakdowns is reduced. So from the nature of the case, we may expect to see the powers of each Nebraska river, such as the Big Blue and the Little Blue, brought together under a single organization or control within a few years. Such a development need not be monopolistic.
7. That the policy favoring state ownership and control of water powers is gaining favor. Just what is to be done in this line in Nebraska is a problem. The policy is right in principle, yet it should not be inaugurated without a stronger sentiment in its favor. State ownership has its strong points and its pitfalls. It requires an administration of permanence, and free from political influences. The construction of projects should not be started until there is a sure market for power.

Let me say, in closing this article, that I am not here favoring any given policy. There is more or less merit in each of them. Our principal effort should be directed in the line of bringing about results, but we should not go too far in this respect. If private capital can be interested in these projects by a leasing system fair both to the operator and the consumer, then well and good, but if not, we should undertake the development of approved projects under state management.

ANIMALS, BIRDS AND INSECTS.

THE BIRDS AND MAMMALS OF NEBRASKA.

By Myron H. Swenk, Assistant State Entomologist.

On the following pages is presented in very condensed form a complete list of the native birds and mammals occurring in the state of Nebraska, as the fauna is understood at the present time (November, 1914). The nomenclature has been revised to date, and all additions, eliminations and modifications which have been established since the appearance of the lists of these two vertebrate groups, namely, the "Birds of Nebraska" in 1904 and the "Mammals of Nebraska" in 1908, have been incorporated. The arrangements of the higher groups remains for the sake of convenience as in these longer and more fully annotated lists, i. e., the arrangements of the American Ornithologists' Union committee for the birds and of Elliot's modification of Flower and Lydekker for the mammals. The necessarily brief annotations of the present list allude to the primary status of the animal as regards the state as a whole, and are inadequate only in that they sometimes do not reflect the exact status of the animal for any given part of the state when considered for that part alone.

In the "Birds of Nebraska" the writer, in collaboration with Professors Lawrence Bruner and Robt. H. Wolcott, listed 399 native species and subspecies of birds from the state. Subsequently the A. O. U. committee dropped the red-legged black duck and the Alma thrush from recognition, which reduced the number of local forms by two, but the addition of the Iceland gull, cackling goose, northern hairy woodpecker, western crow (this erroneously), Nelson sparrow, western chipping sparrow and Swainson warbler brought the number to 404, as listed in a "Field Check-list of Nebraska Birds" prepared by the writer in 1908, and published by the Nebraska Ornithologists' Union. The following year, 1909, Professor Wolcott in his "Analysis of Nebraska's Bird Fauna" (Proc. N. O. U., iv, pp. 25-55) also lists 464 native species, but in this list he quite properly dropped the western crow and Montana junco, as well as the northern hairy woodpecker (which is entitled to a place in our list), while he also quite properly added the alder flycatcher and pileolated warbler, but incorrectly retained the red-legged black duck. The present list includes 418 native species and subspecies, the writer having again dropped the red-legged black duck and reinstated the northern hairy woodpecker, as well as dropping the field sparrow and western robin, and adding the red phalarope, western sandpiper, western mourning dove, Rocky Mountain screech owl, California cuckoo, western evening grosbeak, Rocky Mountain pine grosbeak, Cassin, purple finch, house finch, pink-sided junco, gray-headed junco, mountain song sparrow, lutescent warbler, Townsend warbler, Connecticut warbler and Greenland wheatear. The basis of inclusion of all of these has been already published, except for the western sandpiper, western mourning dove, Rocky Mountain screech owl, California cuckoo, house finch and Connecticut warbler, which are here listed as Nebraska birds for the first time. Eventually it may be necessary to reinstate the field sparrow and western robin but at the present time there is no valid basis for their inclusion. In the above enumeration no account is taken of our introduced species of birds, e. g., the English sparrow, ring-necked pheasant, Hungarian partridge, etc.

The following list of the birds of this state is an unusually large one, and is probably exceeded by only two states in the Union. California, with its great length north and south, its highly varied physiography and climate and its proximity to the Pacific, boasts of 530 species and subspecies of birds (Grinnell, 1912), while the vast state of Texas, also much varied in countour and near the Gulf, probably has a somewhat larger list than Nebraska. Colorado, inland like Nebraska but of much more varied countour, has only 397

birds (Cooke, 1911), Kansas has 379 (Bunker, 1913), Missouri 383 (Widmann, 1907) and Iowa 354 (Anderson, 1907). East of Mississippi river the largest list seems to be that of New York with 411 (Easton, 1910-14), while Maine has 327 (Knight, 1908), Connecticut 329 (Sage and Bishop, 1913), West Virginia 246 (Brooke, 1913), Michigan 326 (Barrows, 1912). Illinois and Wisconsin combined 398 (Cory, 1909), Arkansas 255 (Howell, 1911) and Alabama 275 (Oberholser, 1909), Westwardly, Washington has 372 (Dawson and Bowles, 1909) and Arizona 362 (Swarth, 1914).

In the "Mammals of Nebraska" the writer listed 93 native species and subspecies for the state, while the present list includes 94 forms. From the old list the New Mexico spotted ground squirrel, Nebraska harvest mouse, mountain wood rat and eastern muskrat have been dropped, while the Coues pocket gopher, plateau lynx, sandhill mole, Mexican free-tailed bat and little brown bat have been added. As with the birds, introduced species, such as the house mouse and brown rat, have been excluded. The Nebraska list compares favorably with 80 species for Kansas (Lantz, 1905) and 150 species listed for Colorado (Cary, 1911).

Undoubtedly the following list will be increased for both the birds and mammals as the animals of the state are more thoroughly collected and studied in the future. Eventually the writer hopes to expand this brief list into a fuller account in book form.

CLASS AVES—BIRDS.

Order Pygopodes—Diving Birds.

Suborder Colymbi—Grebes.

Family Colymbidae—Grebes.

1. Western Grebe—*Aechmophorus occidentalis* (Lawrence). Rare migrant.
2. Holboell Grebe—*Colymbus holboelli* (Reinhardt). Rare migrant.
3. Horned Grebe—*Colymbus auritus* Linnaeus. Uncommon migrant and rare breeder.
4. Eared Grebe—*Colymbus nigricollis californicus* (Heerman). Common migrant and local breeder.
5. Pied-billed Grebe—*Podilymbus podiceps* (Linnaeus). Abundant migrant and common breeder.

Suborder Cephi—Loons.

Family Gavidae—Loons.

6. Loon—*Gavia immer* (Brunnich). Uncommon migrant.
7. Black-throated Loon—*Gavia arctica* (Linnaeus). Very rare migrant.
8. Red-throated Loon—*Gavia stellata* (Pontopiddan). Very rare migrant.

Order Longipennes—Long-winged Swimmers.

Family Stercorariidae—Skuas and Jaegers.

9. Pomarine Jaeger—*Stercorarius pomarinus* (Temminck). Rare migrant.
10. Parasitic Jaeger—*Stercorarius parasiticus* (Linnaeus). Rare migrant.

Family Laridae—Gulls and Terns.

Subfamily Larinae—Gulls.

11. Iceland Gull—*Larus leucopterus* Faber. Accidental visitor.
12. Great Black-backed Gull—*Larus marinus* Linnaeus. Very rare migrant.
13. Herring Gull—*Larus argentatus* Pontopiddan. Uncommon migrant.
14. Ring-billed Gull—*Larus delawarensis* Ord. Common migrant.
15. Laughing Gull—*Larus atricilla* Linnaeus. Rare summer visitor.
16. Franklin Gull—*Larus franklini* Richardson. Abundant migrant.
17. Bonaparte Gull—*Larus philadelphia* (Ord). Uncommon migrant.
18. Sabine Gull—*Xema sabini* (J. Sabine). Rare migrant.

Subfamily Sterninae—Terns.

19. Caspian Tern—*Sterna caspia* Pallas. Rare migrant.
20. Forster Tern—*Sterna forsteri* Nuttall. Common migrant and local breeder.
21. Common Tern—*Sterna hirundo* Linnaeus. Uncommon migrant.
22. Least Tern—*Sterna antillarum* (Lesson). Common migrant and local breeder.
23. Black Tern—*Hydrochelidon nigra surinamensis* (Gmelin). Abundant migrant and common breeder.

Order Steganopodes—Totipalmate Swimmers.

Family Phalacrocoracidae—Cormorants.

24. Double-crested Cormorant—*Phalacrocorax auritus auritus* (Lesson). Uncommon migrant.

Family Pelecanidae—Pelicans.

25. White Pelican—*Pelecanus erythrorhynchos* Gmelin. Common migrant.
26. Brown Pelican—*Pelecanus occidentalis* Linnaeus. Accidental visitor.

Order Anseres—Lamellirostral Swimmers.

Family Anatidae—Ducks, Geese and Swans.

27. American Merganser—*Mergus americanus* Cassin. Common migrant.
28. Red-breasted Merganser—*Mergus serrator* Linnaeus. Uncommon migrant.
29. Hooded Merganser—*Lophodytes cucullatus* (Linnaeus). Common migrant and local breeder.
30. Mallard—*Anas platyrhynchos* Linnaeus. Abundant migrant and common local breeder.
31. Black Duck—*Anas rubripes* Brewster. Uncommon migrant.
32. Gadwall—*Chaulelasmus streperus* (Linnaeus). Common migrant and occasional local breeder.
33. European Widgeon—*Mareca penelope* (Linnaeus). Accidental migrant.
34. Baldpate—*Mareca americana* (Gmelin). Common migrant.
35. Green-winged Teal—*Nettion carolinense* (Gmelin). Abundant migrant and probably rare breeder.
36. Blue-winged Teal—*Querquedula discors* (Linnaeus). Abundant migrant and common breeder.
37. Cinnamon Teal—*Querquedula cyanoptera* (Vieillot). Uncommon migrant.
38. Shoveller—*Spatula clypeata* (Linnaeus). Abundant migrant and common breeder.
39. Pintail—*Dafla acuta* (Linnaeus). Abundant migrant and occasional local breeder.
40. Wood Duck—*Aix sponsa* (Linnaeus). Rare summer resident and breeder.
41. Redhead—*Marila americana* (Eyton). Abundant migrant and probably rare breeder.
42. Canvas-back—*Marila valisneria* (Wilson). Common migrant and rare breeder.
43. Scaup Duck—*Marila marila* (Linnaeus). Rare migrant.
44. Lesser Scaup Duck—*Marila affinis* (Eyton). Abundant migrant and probably rare breeder.
45. Ring-necked Duck—*Marila collaris* (Donovan). Common migrant and probably rare breeder.
46. Golden-eye—*Clangula clangula americana* Bonaparte. Uncommon winter visitor.
47. Barrow Golden-eye—*Clangula islandica* (Gmelin). Rare winter visitor.
48. Buffle-head—*Charitonetta albeola* (Linnaeus). Common migrant.
49. Old-squaw—*Harelda hyemalis* (Linnaeus). Uncommon winter visitor.
50. Harlequin Duck—*Histrionicus histrionicus* (Linnaeus). Rare migrant.
51. Scoter—*Oldemia americana* Swainson. Uncommon winter visitor.

52. White-winged Scoter—*Oldemia deglandi* Bonaparte. Common winter visitor.
53. Surf Scoter—*Oldemia perspicillata* (Linnaeus). Uncommon winter visitor.
54. Ruddy Duck—*Erisimatura jamalcensis* (Gmelin). Abundant migrant and common breeder.
55. Snow Goose—*Chen hyperboreus hyperboreus* (Pallas). Common migrant.
56. Greater Snow Goose—*Chen hyperboreus nivalis* (J. R. Foster). Uncommon migrant.
57. Blue Goose—*Chen caerulescens* (Linnaeus). Uncommon migrant.
58. White-fronted Goose—*Anser albifrons gambell* Hartlaub. Common migrant.
59. Canada Goose—*Branta canadensis canadensis* (Linnaeus). Abundant migrant and rare local breeder.
60. Hutchins Goose—*Branta canadensis hutchinsi* (Richardson). Common migrant.
61. Cackling Goose—*Branta canadensis minima* Ridgway. Uncommon migrant.
62. Brant—*Branta bernicla glaucogastra* (Brehm). Rare migrant.
63. Whistling Swan—*Olor columbianus* (Ord). Rare migrant.
64. Trumpeter Swan—*Olor buccinator* (Richardson). Rare migrant; formerly common and a local breeder.

Order Herodiones—Herons, Ibises, etc.

Suborder Ibides—Ibises.

Family Ibiidae—Ibises.

65. Glossy Ibis—*Plegadis autumnalis* (Linnaeus). Accidental summer visitor.
66. White-faced Glossy Ibis—*Plegadis guarauna* (Linnaeus). Accidental summer visitor.

Suborder Herodii—Herons, Egrets, Bitterns, etc.

Family Ardeidae—Herons, Egrets, Bitterns, etc.

Subfamily Botaurinae—Bitterns.

67. Bittern—*Botaurus lentiginosus* (Montagu). Common migrant and breeder.
68. Least Bittern—*Ixobrychus exilis* (Gmelin). Common migrant and occasional breeder eastwardly.

Subfamily Ardeinae—Herons and Egrets.

69. Great Blue Heron—*Ardea herodias herodias* Linnaeus. Common summer resident and breeder.
70. Egret—*Herodias egretta* (Gmelin). Occasional summer visitor.
71. Snowy Egret—*Egretta candidissima candidissima* (Gmelin). Occasional summer visitor and rare breeder.
72. Little Blue Heron—*Florida caerulea* (Linnaeus). Occasional summer visitor.
73. Green Heron—*Butorides virescens virescens* (Linnaeus). Very common breeder eastwardly.
74. Black-crowned Night Heron—*Nycticorax nycticorax naevius* (Boddaert). Common migrant and local breeder.
75. Yellow-crowned Night Heron—*Nyctanassa violacea* (Linnaeus). Occasional summer visitor.

Order Paludicolae—Cranes, Rails, etc.

Suborder Grues—Cranes.

Family Gruidae—Cranes.

76. Whooping Crane—*Grus americana* (Linnaeus). Formerly common migrant, now very rare.
77. Little Brown Crane—*Grus canadensis* (Linnaeus). Rare migrant.

78. Sandhill Crane—*Grus mexicana* (Muller). Formerly abundant migrant and common breeder, now uncommon.

Suborder Ralli—Ralls, Gallinules, and Coots.

Family Rallidae—Ralls, Gallinules, and Coots.

79. King Rail—*Rallus elegans* Audubon. Uncommon breeder eastwardly.
 80. Virginia Rail—*Rallus virginianus* Linnaeus. Common migrant and breeder.
 81. Sora—*Porzana carolina* (Linnaeus). Abundant migrant and eastwardly a common breeder.
 82. Yellow Rail—*Coturnicops noveboracensis* (Gmelin). Rare migrant.
 83. Black Rail—*Creciscus jamalcensis* (Gmelin). Very rare migrant.
 84. Purple Gallinule—*Ionornis martinicus* (Linnaeus). Accidental summer visitor.
 85. Florida Gallinule—*Gallinula galeata* (Lichtenstein). Uncommon local breeder eastwardly.
 86. Coot—*Fulica americana* Gmelin. Abundant migrant and common breeder.

Order Limicolae—Shore Birds.

Family Phalaropodidae—Phalaropes.

87. Red Phalarope—*Phalaropus fulicarius* (Linnaeus). Very rare migrant.
 88. Northern Phalarope—*Lobipes lobatus* (Linnaeus). Rather common migrant.
 89. Wilson Phalarope—*Steganopus tricolor* Vieillot. Abundant migrant and uncommon local breeder.

Family Recurvirostridae—Avocets and Stilts.

90. Avocet—*Recurvirostra americana* Gmelin. Uncommon migrant and rare local breeder.
 91. Black-necked Stilt—*Himantopus mexicanus* (Muller). Very rare migrant.

Family Scolopacidae—Snipes, Sandpipers, etc.

92. Woodcock—*Philohela minor* (Gmelin). Rare migrant and breeder eastwardly.
 93. Wilson Snipe—*Gallinago delicata* (Ord). Common migrant.
 94. Dowitcher—*Macrorhamphus griseus griseus* (Gmelin). Rare migrant.
 95. Long-billed Dowitcher—*Macrorhamphus griseus scolopaceus* (Say). Common migrant.
 96. Stilt Sandpiper—*Micropalama himantopus* (Bonaparte). Common migrant.
 97. Knot—*Tringa canutus* Linnaeus. Rare migrant.
 98. Pectoral Sandpiper—*Pisobia maculata* (Vieillot). Very common migrant.
 99. White-rumped Sandpiper—*Pisobia fuscicollis* (Vieillot). Very common migrant.
 100. Baird Sandpiper—*Pisobia bairdi* (Coues). Abundant migrant.
 101. Least Sandpiper—*Pisobia minutilla* (Vieillot). Abundant migrant.
 102. Red-backed Sandpiper—*Pelidna alpina sakhalina* (Vieillot). Uncommon migrant.
 103. Semipalmated Sandpiper—*Ereunetes porsillus* (Linnaeus). Abundant migrant.
 104. Western Sandpiper—*Ereunetes mauri* Cabanis. Rare migrant.
 105. Sanderling—*Calidris leucophaea* (Pallas). Uncommon migrant.
 106. Marbled Godwit—*Limosa fedoa* (Linnaeus). Rare migrant.
 107. Hudsonian Godwit—*Limosa haemastica* (Linnaeus). Rare migrant.
 108. Greater Yellow-legs—*Totanus melanoleucus* (Gmelin). Common migrant.
 109. Yellow-legs—*Totanus flavipes* (Gmelin). Abundant migrant.
 110. Solitary Sandpiper—*Helodromas solitarius solitarius* (Wilson). Common migrant.
 111. Western Willet—*Catoptrophorus semipalmatus inornatus* (Brewster). Common migrant and formerly a local breeder.

- 112. Upland Plover—*Bartramia longicauda* (Bechstein). Common migrant and breeder.
- 113. Buff-breasted Sandpiper—*Tryngites subruficollis* (Vieillot). Uncommon migrant.
- 114. Spotted Sandpiper—*Actitis macularia* (Linnaeus). Abundant migrant and common breeder.
- 115. Long-billed Curlew—*Numenius americanus* Bechstein. Uncommon migrant and breeder westwardly.
- 116. Hudsonian Curlew—*Numenius hudsonicus* Latham. Rare migrant.
- 117. Eskimo Curlew—*Numenius borealis* (J. R. Forster). Very rare migrant; almost extinct.

Family Charadriidae—Plovers.

- 118. Black-bellied Plover—*Squatarola squatarola* (Linnaeus). Common migrant.
- 119. Golden Plover—*Charadrius dominicus dominicus* (Muller). Uncommon migrant.
- 120. Killdeer—*Oxyechus vociferus* (Linnaeus). Abundant migrant and common breeder.
- 121. Semipalmated Plover—*Aegialitis semipalmata* (Bonaparte). Common migrant.
- 122. Piping Plover—*Aegialitis meloda* (Ord). Common migrant and local breeder.
- 123. Snowy Plover—*Aegialitis nivosa* Cassin. Rare migrant.
- 124. Mountain Plover—*Podasocys montanus* (J. K. Townsend). Rare migrant.

Family Aphrizzidae—Surf-birds and Turnstones.

- 125. Ruddy Turnstone—*Arenaria interpres morinella* (Linnaeus). Common migrant.

Order Gallinae—Gallinaceous Birds.

Suborder Phasiani—Pheasants, Grouse, Quails, etc.

Family Odontophoridae—Bob-whites, Quails, etc.

- 126. Bob-white—*Colinus virginianus virginianus* (Linnaeus). Common to abundant resident.

Family Tetraonidae—Grouse, Partridges, etc.

- 127. Ruffed Grouse—*Bonasa umbellus umbellus* (Linnaeus). Formerly rare breeder eastwardly.
- 128. Prairie Chicken—*Tympanuchus americanus americanus* (Reichenbach). Common to abundant resident.
- 129. Lesser Prairie Chicken—*Tympanuchus pallidicinctus* Ridgway. Formerly uncommon, now extinct in the state.
- 130. Prairie Sharp-tailed Grouse—*Pedioecetes phasianellus campestris* Ridgway. Common resident westwardly.
- 131. Sage Hen—*Centrocercus urophasianus* (Bonaparte). Uncommon resident westwardly.

Family Meleagridae—Turkeys.

- 132. Wild Turkey—*Meleagris gallopavo silvestris* Vieillot. Formerly abundant eastwardly; now extinct in the state.

Order Columbæ—Pigeons and Doves.

Family Columbidae—Pigeons and Doves.

- 133. Passenger Pigeon—*Ectopistes migratorius* (Linnaeus). Formerly common eastwardly; now extinct.
- 134. Mourning Dove—*Zenaidura macroura carolinensis* (Linnaeus). Abundant eastwardly; resident.

135. Western Mourning Dove—*Zenaidura macroura marginella* (Woodhouse). Abundant over most of state, especially westwardly; resident.

Order Raptores—Birds of Prey.

Suborder Sarcorhamphi—American Vultures.

Family Cathartidae—American Vultures.

136. Turkey Vulture—*Cathartes aura septentrionalis* Wied. Uncommon summer resident and breeder.
137. Black Vulture—*Catharista urubu* (Vieillot). Accidental visitor.

Suborder Falcones—Falcons, Hawks, Eagles, Kites, etc.

Family Buteonidae—Hawks, Eagles, Kites, etc.

138. Swallow-tailed Kite—*Elanoides forficatus* (Linnaeus). Uncommon summer resident and breeder.
139. Marsh Hawk—*Circus hudsonius* (Linnaeus). Common resident.
140. Sharp-shinned Hawk—*Accipiter velox* (Wilson). Common resident.
141. Cooper Hawk—*Accipiter cooperi* (Bonaparte). Very common resident.
142. Goshawk—*Astur atricapillus atricapillus* (Wilson). Uncommon winter visitant.
143. Red-tailed Hawk—*Buteo borealis borealis* (Gmelin). Common resident eastwardly.
144. Krider Hawk—*Buteo borealis krideri* Hoopes. Common resident westwardly.
145. Western Red-tail—*Buteo borealis calurus* Cassin. Uncommon migrant.
146. Harlan Hawk—*Buteo borealis harlani* (Audubon). Uncommon southern visitor.
147. Red-shouldered Hawk—*Buteo lineatus lineatus* (Gmelin). Uncommon resident eastwardly.
148. Swainson Hawk—*Buteo swainsoni* Bonaparte. Common resident over state.
149. Broad-winged Hawk—*Buteo platypterus* (Vieillot). Uncommon breeder eastwardly.
150. Rough-legged Hawk—*Archibuteo lagopus sancti-johannis* (Gmelin). Common winter visitor.
151. Ferruginous Rough-leg—*Archibuteo ferrugineus* (Lichtenstein). Common resident.
152. Golden Eagle—*Aquila chrysaetos* (Linnaeus). Uncommon resident, breeding westwardly.
153. Bald Eagle—*Haliaeetus leucocephalus leucocephalus* (Linnaeus). Uncommon migrant, formerly a rare breeder.
154. Prairie Falcon—*Falco mexicanus* Schlegel. Common resident westwardly.
155. Duck Hawk—*Falco peregrinus anatum* Bonaparte. Rare migrant.
156. Pigeon Hawk—*Falco columbarius columbarius* Linnaeus. Uncommon migrant.
157. Richardson Pigeon Hawk—*Falco columbarius richardsoni* Ridgway. Rare migrant.
158. Sparrow Hawk—*Falco sparverius sparverius* Linnaeus. Abundant migrant, uncommon breeder eastwardly.
159. Desert Sparrow Hawk—*Falco sparverius phalaena* (Lesson). Common breeder westwardly.

Family Pandionidae—Ospreys.

160. Osprey—*Pandion haliaetus carolinensis* (Gmelin). Uncommon migrant and formerly rare breeder.

Suborder Striges—Owls.

Family Aluconidae—Barn Owls.

161. Barn Owl—*Aluco pratincola* (Bonaparte). Uncommon resident.

Family Strigidae—Horned Owls, etc.

- 162. Long-eared Owl—*Asio wilsonianus* (Lesson). Common resident.
- 163. Short-eared Owl—*Asio flammeus* (Pontopiddan). Common resident.
- 164. Barred Owl—*Strix varia varia* Barton. Uncommon resident eastwardly.
- 165. Great Gray Owl—*Scotiaptex nebulosa nebulosa* (J. R. Forster). Rare winter visitor.
- 166. Richardson Owl—*Cryptoglaux funerea richardsoni* (Bonaparte). Rare winter visitor.
- 167. Saw-whet Owl—*Cryptoglaux acadica acadica* (Gmelin). Uncommon resident.
- 168. Screech Owl—*Otus asio asio* (Linnaeus). Very common resident.
- 169. Rocky Mountain Screech Owl—*Otus asio maxwelliae* (Ridgway). Resident in extreme west.
- 170. Great Horned Owl—*Bubo virginianus virginianus* (Gmelin). Uncommon resident eastwardly.
- 171. Western Horned Owl—*Bubo virginianus pallescens* Stone. Uncommon resident westwardly.
- 172. Arctic Horned Owl—*Bubo virginianus subarcticus* Hoy. Rare winter visitor.
- 173. Snowy Owl—*Nyctea nyctea* (Linnaeus). Uncommon winter visitor.
- 174. Hawk Owl—*Surnia ulula caparoch* (Muller). Rare winter visitor.
- 175. Burrowing Owl—*Speotyto cunicularia hypogaea* (Bonaparte). Common resident.

Order Psittaci—Parrots, Paroquets, etc.

Family Psittacidae—Parrots, Paroquets, etc.

- 176. Carolina Paroquet—*Conuropsis carolinensis* (Linnaeus). Formerly common eastwardly, now extinct in the state.

Order Coccoyges—Cuckoos, Kingfishers, etc.

Suborder Cuculi—Cuckoos.

Family Cuculidae—Cuckoos.

- 177. Yellow-billed Cuckoo—*Coccyzus americanus americanus* (Linnaeus). Common breeder eastwardly.
- 178. California Cuckoo—*Coccyzus americanus occidentalis* Ridgway. Common migrant westwardly.
- 179. Black-billed Cuckoo—*Coccyzus erythrophthalmus* (Wilson). Uncommon breeder over state.

Suborder Alcyones—Kingfishers.

Family Alcedinidae—Kingfishers.

- 180. Belted Kingfisher—*Ceryle alcyon alcyon* (Linnaeus). Common over state, breeding.

Order Pici—Woodpeckers, etc.

Family Picidae—Woodpeckers.

- 181. Hairy Woodpecker—*Dryobates villosus villosus* (Linnaeus). Common resident eastwardly.
- 182. Northern Hairy Woodpecker—*Dryobates villosus leucomelas* (Boddaert). Uncommon winter visitor northwardly.
- 183. Rocky Mountain Hairy Woodpecker—*Dryobates villosus monticola* Anthony. Common resident westwardly.
- 184. Batchelder Woodpecker—*Dryobates pubescens homorus* Cabanis & Heine. Uncommon resident westwardly.
- 185. Downy Woodpecker—*Dryobates pubescens medianus* (Swainson). Very common resident eastwardly.
- 186. Arctic Three-toed Woodpecker—*Picoides arcticus* (Swainson). Rare winter visitor.

- 187. Yellow-bellied Sapsucker—*Sphyrapicus varius varius* (Linnaeus). Rare migrant eastwardly.
- 188. Northern Pileated Woodpecker—*Phloeotomus pileatus abieticola* (Bangs). Formerly uncommon eastwardly, now extinct in the state.
- 189. Red-headed Woodpecker—*Melanerpes erythrocephalus* (Linnaeus). Common breeder over the state.
- 190. Lewis Woodpecker—*Asyndesmus lewisi* Riley. Common breeder westwardly.
- 191. Red-bellied Woodpecker—*Centurus carolinus* (Linnaeus). Uncommon and local breeder eastwardly.
- 192. Northern Flicker—*Colaptes auratus luteus* Bangs. Abundant to common resident over the state.
- 193. Red-shafted Flicker—*Colaptes cafer collaris* Vigors. Common resident, especially westwardly.

Order Macrochires—Goatsuckers, Swifts, Hummingbirds; etc.

Suborder Caprimulgi—Goatsuckers.

Family Caprimulgidae—Goatsuckers.

- 194. Whip-poor-will—*Antrostomus vociferus vociferus* (Wilson). Uncommon breeder eastwardly.
- 195. Poor-will—*Phalaenoptilus nuttall nuttall* (Audubon). Common breeder westwardly.
- 196. Nighthawk—*Chordeiles virginianus virginianus* (Gmelin). Common breeder southeastwardly.
- 197. Western Nighthawk—*Chordeiles virginianus henryi* Cassin. Uncommon breeder in extreme west. This is really the form *C. v. howelli* Oberholser, not yet accepted by the A. O. U., and consequently provisionally referred as above.
- 198. Sennett Nighthawk—*Chordeiles virginianus sennetti* Coues. Abundant to common breeder westwardly.

Suborder Clypselli—Swifts.

Family Micropodidae—Swifts.

Subfamily Chaeturinae—Spine-tailed Swifts.

- 199. Chimney Swift—*Chaetura pelagica* (Linnaeus). Abundant breeder eastwardly.

Subfamily Micropodinae—Typical Swifts.

- 200. White-throated Swift—*Aeronautes melanoleucus* (Baird). Common breeder in cliffs westwardly.

Suborder Trochilli—Hummingbirds.

Family Trochilidae—Hummingbirds.

- 201. Ruby-throated Hummingbird—*Archilochus colubris* (Linnaeus). Common breeder eastwardly.
- 202. Broad-tailed Hummingbird—*Selasphorus platycercus* (Swainson). Uncommon summer resident westwardly.

Order Passeres—Perching Birds.

Suborder Clamatores—Songless Perching birds.

Family Tyrannidae—Tyrant Flycatchers.

- 203. Scissor-tailed Flycatcher—*Muscivora forficata* (Gmelin). Accidental visitor.
- 204. Kingbird—*Tyrannus tyrannus* (Linnaeus). Abundant breeder over the state.
- 205. Arkansas Kingbird—*Tyrannus verticalis* Say. Abundant breeder westwardly, uncommonly eastwardly.

- 206. Crested Flycatcher—*Myiarchus crinitus* (Linnaeus). Common breeder eastwardly.
- 207. Phoebe—*Sayornis phoebe* (Latham). Abundant breeder eastwardly.
- 208. Say Phoebe—*Sayornis sayus* (Bonaparte). Common breeder westwardly.
- 209. Olive-sided Flycatcher—*Nuttallornis borealis* (Swainson). Uncommon migrant.
- 210. Wood Pewee—*Myiochanes virens* (Linnaeus). Common breeder eastwardly.
- 211. Western Wood Pewee—*Myiochanes richardsoni richardsoni* (Swainson). Common summer resident westwardly, probably breeds.
- 212. Yellow-bellied Flycatcher—*Empidonax flaviventris* (W. M. & S. F. Baird). Rare migrant eastwardly.
- 213. Acadian Flycatcher—*Empidonax virescens* (Vieillot). Uncommon migrant, breeding eastwardly.
- 214. Traill Flycatcher—*Empidonax traillii traillii* (Audubon). Common breeder.
- 215. Alder Flycatcher—*Empidonax traillii alnorum* Brewster. Uncommon migrant.
- 216. Least Flycatcher—*Empidonax minimus* Baird. Common migrant, breeding eastwardly.

Suborder Oscines—Song Birds.

Family Alaudidae—Larks.

- 217. Horned Lark—*Otocoris alpestris alpestris* (Linnaeus). Uncommon winter visitor eastwardly.
- 218. Prairie Horned Lark—*Otocoris alpestris praticola* Henshaw. Common to abundant resident eastwardly.
- 219. Desert Horned Lark—*Otocoris alpestris leucolaema* (Coues). Abundant resident westwardly.
- 220. Hoyt Horned Lark—*Otocoris alpestris hoyti* Bishop. Common winter visitor.

Family Corvidae—Crows, Jays, Magpies, etc.

- 221. Magpie—*Pica pica hudsonia* (Sabine). Common resident westwardly.
- 222. Blue Jay—*Cyanocitta cristata cristata* (Linnaeus). Abundant to uncommon resident.
- 223. Black-headed Jay—*Cyanocitta stelleri annectens* (Baird). Rare visitor westwardly.
- 224. Canada Jay—*Perisoreus canadensis canadensis* (Linnaeus). Very rare winter visitor eastwardly.
- 225. Rocky Mountain Jay—*Perisoreus canadensis capitalis* Ridgway. Uncommon winter visitor westwardly.
- 226. Raven—*Corvus sinuatus* Wagler. Formerly frequent, now very rare if not extinct in the state.
- 227. White-necked Raven—*Corvus cryptoleucus* Couch. Formerly uncommon, now very rare in state.
- 228. Crow—*Corvus brachyrhynchos brachyrhynchos* Brehm. Abundant to common resident.
- 229. Clarke Nutcracker—*Nucifraga columbiana* (Wilson). Uncommon resident in northwest.
- 230. Pinon Jay—*Cyanocephalus cyanocephalus* (Wied). Common resident westwardly.

Family Icteridae—Blackbirds, Orioles, etc.

- 231. Bobolink—*Dolichonyx oryzivorus* (Linnaeus). Abundant to common local breeder.
- 232. Cowbird—*Molothrus ater ater* (Boddaert). Abundant over the state.
- 233. Yellow-headed Blackbird—*Xanthocephalus xanthocephalus* (Bonaparte). Abundant to common migrant and local breeder.
- 234. Red-winged Blackbird—*Agelaius phoeniceus phoeniceus* (Linnaeus). Abundant breeder eastwardly.

- 235. Thick-billed Redwing—*Agelaius phoeniceus fortis* Ridgway. Abundant breeder westwardly.
- 236. Meadowlark—*Sturnella magna magna* (Linnaeus). Common migrant and local breeder.
- 237. Western Meadowlark—*Sturnella neglecta* Audubon. Abundant breeder over the state.
- 238. Orchard Oriole—*Icterus spurius* (Linnaeus). Common breeder eastwardly.
- 239. Baltimore Oriole—*Icterus galbula* (Linnaeus). Very common breeder eastwardly.
- 240. Bullock Oriole—*Icterus bullocki* (Swainson). Common breeder westwardly.
- 241. Rusty Blackbird—*Euphagus carolinus* (Muller). Common migrant eastwardly.
- 242. Brewer Blackbird—*Euphagus cyanocephalus* (Wagler). Common breeder in northwest.
- 243. Bronzed Grackle—*Quiscalus quiscula aeneus* Ridgway. Abundant breeder over the state.

Family Fringillidae—Finches, Sparrows, etc.

- 244. Evening Grosbeak—*Hesperiphona vespertina vespertina* (W. Cooper). Rare fall visitor eastwardly.
- 245. Western Evening Grosbeak—*Hesperiphona vespertina montana* Ridgway. Uncommon winter resident westwardly.
- 246. Pine Grosbeak—*Pinicola enucleator leucura* (Muller). Rare winter visitor eastwardly.
- 247. Rocky Mountain Pine Grosbeak—*Pinicola enucleator montana* Ridgway. Uncommon winter resident westwardly.
- 248. Purple Finch—*Carpodacus purpureus purpureus* (Gmelin). Uncommon migrant eastwardly.
- 249. Cassin Purple Finch—*Carpodacus cassinii* Baird. Uncommon winter visitor westwardly.
- 250. House Finch—*Carpodacus mexicanus frontalis* (Say). Uncommon westwardly.
- 251. Crossbill—*Loxia curvirostra minor* (Brehm). Common winter resident eastwardly.
- 252. Mexican Crossbill—*Loxia curvirostra stricklandi* Ridgway. Common winter resident westwardly; this is really the unrecognized form *L. c. bendirei* Ridgway.
- 253. White-winged Crossbill—*Loxia leucoptera* Gmelin. Rare winter visitor.
- 254. Gray-crowned Rosy Finch—*Leucosticte tephrocotis tephrocotis* Swainson. Uncommon winter resident westwardly.
- 255. Redpoll—*Acanthis linaria linaria* (Linnaeus). Uncommon to abundant winter resident.
- 256. Goldfinch—*Astragalinus tristis tristis* (Linnaeus). Abundant resident eastwardly.
- 257. Pale Goldfinch—*Astragalinus tristis pallidus* (Mearns). Common resident northwestwardly.
- 258. Pine Siskin—*Spinus pinus* (Wilson). Irregular winter resident and breeder.
- 259. Snow Bunting—*Plectrophenax nivalis nivalis* (Linnaeus). Uncommon winter resident.
- 260. Lapland Longspur—*Calcarius lapponicus lapponicus* (Linnaeus). Common winter resident eastwardly.
- 261. Alaska Longspur—*Calcarius lapponicus alascensis* Ridgway. Abundant winter resident westwardly.
- 262. Smith Longspur—*Calcarius pictus* (Swainson). Uncommon migrant.
- 263. Chestnut-collared Longspur—*Calcarius ornatus* (J. K. Townsend). Common migrant and breeder northwardly.
- 264. McCown Longspur—*Rhynchophanes mccowni* (Lawrence). Common migrant and breeder northwestwardly.
- 265. Vesper Sparrow—*Pooecetes gramineus gramineus* (Gmelin). Very common migrant and rare breeder eastwardly.

266. Western Vesper Sparrow—*Pooecetes gramineus confinis* Baird. Abundant migrant and common breeder westwardly.
267. Savannah Sparrow—*Passerculus sandwichensis savanna* (Wilson). Abundant migrant eastwardly.
268. Western Savannah Sparrow—*Passerculus sandwichensis alaudinus* Bonaparte. Common migrant westwardly.
269. Baird Sparrow—*Ammodramus bairdi* (Audubon). Uncommon migrant.
270. Grasshopper Sparrow—*Ammodramus savannarum australis* Maynard. Uncommon migrant eastwardly.
271. Western Grasshopper Sparrow—*Ammodramus savannarum bimaculatus* Swainson. Abundant migrant and common breeder over the state.
272. Western Henslow Sparrow—*Passerherbulus henslowi occidentalis* (Brewster). Rare migrant.
273. Leconte Sparrow—*Passerherbulus lecontei* (Audubon). Very common migrant.
274. Nelson Sparrow—*Passerherbulus nelsoni nelsoni* (Allen). Uncommon migrant.
275. Lark Sparrow—*Chondestes grammacus grammacus* (Say). Very common breeder eastwardly.
276. Western Lark Sparrow—*Chondestes grammacus strigatus* Swainson. Abundant breeder westwardly.
277. Harris Sparrow—*Zonotrichia querula* (Nuttall). Abundant migrant.
278. White-crowned Sparrow—*Zonotrichia leucophrys leucophrys* (J. R. Forster). Common migrant eastwardly.
279. Gambel Sparrow—*Zonotrichia leucophrys gambell* (Nuttall). Common migrant westwardly.
280. White-throated Sparrow—*Zonotrichia albicollis* (Gmelin). Common migrant eastwardly.
281. Tree Sparrow—*Spizella monticola monticola* (Gmelin). Abundant winter resident eastwardly.
282. Western Tree Sparrow—*Spizella monticola ochracea* Brewster. Abundant winter resident westwardly.
283. Chipping Sparrow—*Spizella passerina passerina* (Bechstein). Abundant breeder eastwardly.
284. Western Chipping Sparrow—*Spizella passerina arizonae* Coues. Common breeder northwestwardly.
285. Clay-colored Sparrow—*Spizella pallida* (Swainson). Abundant migrant.
286. Brewer Sparrow—*Spizella breweri* Cassin. Common breeder westwardly.
287. Western Field Sparrow—*Spizella pusilla arenacea* Chadbourne. Abundant migrant and common breeder over the state.
288. White-winged Junco—*Junco alkeni* Ridgway. Abundant to common resident northwestwardly.
289. Slate-colored Junco—*Junco hyemalis hyemalis* (Linnaeus). Abundant winter resident.
290. Shufeldt Junco—*Junco hyemalis connectens* Coues. Common winter resident eastwardly, abundant westwardly.
291. Pink-sided Junco—*Junco hyemalis mearnsi* Ridgway. Common winter resident westwardly.
292. Gray-headed Junco—*Junco phaeonotus caniceps* (Woodhouse). Rare migrant.
293. Song Sparrow—*Melospiza melodia* (Wilson). Abundant migrant.
294. Mountain Song Sparrow—*Melospiza melodia montana* Henshaw. Uncommon winter visitor westwardly.
295. Dakota Song Sparrow—*Melospiza melodia juddi* Bishop. Common migrant.
296. Lincoln Sparrow—*Melospiza lincolni lincolni* (Audubon). Abundant migrant.
297. Swamp Sparrow—*Melospiza georgiana* (Latham). Common migrant and local breeder eastwardly.
298. Fox Sparrow—*Passerella iliaca iliaca* (Merrem). Common migrant eastwardly.

- 299. Slate-colored Fox Sparrow—*Passerella iliaca schistacea* Baird. Uncommon migrant westwardly.
- 300. Towhee—*Pipilo erythrophthalmus erythrophthalmus* (Linnaeus). Common breeder eastwardly.
- 301. Arctic Towhee—*Pipilo maculatus arcticus* (Swainson). Abundant breeder westwardly.
- 302. Cardinal—*Cardinalis cardinalis cardinalis* (Linnaeus). Very common resident eastwardly.
- 303. Rose-breasted Grosbeak—*Zamelodia ludoviciana* (Linnaeus). Abundant breeder eastwardly.
- 304. Black-headed Grosbeak—*Zamelodia melanocephala* (Swainson). Very common breeder westwardly.
- 305. Western Blue Grosbeak—*Gulraca caerulea lazula* (Lesson). Common local breeder.
- 306. Indigo Bunting—*Passerina cyanea* (Linnaeus). Common breeder eastwardly.
- 307. Lazuli Bunting—*Passerina amoena* (Say). Common breeder westwardly.
- 308. Dickcissel—*Spiza americana* (Gmelin). Abundant to uncommon breeder.
- 309. Lark Bunting—*Calamospiza melanocorys Stejneger*. Abundant breeder westwardly.

Family Tanagridae—Tanagers.

- 310. Western Tanager—*Piranga ludoviciana* (Wilson). Common breeder northwestwardly.
- 311. Scarlet Tanager—*Piranga erythromelas Vieillot*. Common breeder eastwardly.
- 312. Summer Tanager—*Piranga rubra rubra* (Linnaeus). Rare summer visitor southeastwardly.

Family Hirundinidae—Swallows.

- 313. Purple Martin—*Progne subis subis* (Linnaeus). Common to abundant breeder eastwardly.
- 314. Cliff Swallow—*Petrochelidon lunifrons lunifrons* (Say). Common local breeder.
- 315. Barn Swallow—*Hirundo erythrogastra Boddaert*. Abundant breeder.
- 316. Tree Swallow—*Iridoprocne bicolor* (Vieillot). Common breeder northwardly.
- 317. Northern Violet-green Swallow—*Tachycineta thalassina lepida* Mearns. Common breeder northwestwardly.
- 318. Bank Swallow—*Riparia riparia* (Linnaeus). Common local breeder.
- 319. Rough-winged Swallow—*Stelgidopteryx serripennis* (Audubon). Common breeder eastwardly.

Family Ampelidae—Waxwings.

- 320. Bohemian Waxwing—*Bombycilla garrula* (Linnaeus). Irregular winter visitor.
- 321. Cedar Waxwing—*Bombycilla cedrorum Vieillot*. Common migrant and uncommon breeder eastwardly.

Family Laniidae—Shrikes.

- 322. Northern Shrike—*Lanius borealis Vieillot*. Common winter resident.
- 323. White-rumped Shrike—*Lanius ludovicianus excubitorides* Swainson. Common breeder westwardly.
- 324. Migrant Shrike—*Lanius ludovicianus migrans* W. Palmer. Common breeder eastwardly.

Family Vireonidae—Vireos.

- 325. Red-eyed Vireo—*Vireosylva olivacea* (Linnaeus). Common breeder.
- 326. Philadelphia Vireo—*Vireosylva philadelphia* Cassin. Uncommon migrant.

- 327. Warbling Vireo—*Vireosylva gilva gilva* (Vieillot). Common breeder eastwardly.
- 328. Western Warbling Vireo—*Vireosylva gilva swainsoni* (Baird). Common breeder westwardly.
- 329. Yellow-throated Vireo—*Lanivireo flavifrons* (Vieillot). Uncommon breeder eastwardly.
- 330. Blue-headed Vireo—*Lanivireo solitarius solitarius* (Wilson). Uncommon migrant eastwardly.
- 331. Plumbeous Vireo—*Lanivireo solitarius plumbeus* (Coues). Common breeder northwestwardly.
- 332. Black-capped Vireo—*Vireo atricapillus* Woodhouse. Accidental summer visitor.
- 333. White-eyed Vireo—*Vireo griseus griseus* (Boddaert). Common breeder southeastwardly.
- 334. Bell Vireo—*Vireo belli belli* Audubon. Abundant breeder eastwardly.

Family Mniotiltidae—Wood Warblers.

- 335. Black and White Warbler—*Mniotilta varia* (Linnaeus). Common migrant and local breeder.
- 336. Prothonotary Warbler—*Protonotaria citrea* (Boddaert). Uncommon breeder eastwardly.
- 337. Swainson Warbler—*Helminthophila swainsoni* (Audubon). Rare straggler.
- 338. Worm-eating Warbler—*Helmitheros vermivorus* (Gmelin). Uncommon summer resident.
- 339. Blue-winged Warbler—*Vermivora pinus* (Linnaeus). Common breeder eastwardly.
- 340. Golden-winged Warbler—*Vermivora chrysoptera* (Linnaeus). Rare migrant eastwardly.
- 341. Virginia Warbler—*Vermivora virginiae* (Baird). Rare migrant westwardly.
- 342. Nashville Warbler—*Vermivora rubricapilla rubricapilla* (Wilson). Common migrant and rare breeder eastwardly.
- 343. Orange-crowned Warbler—*Vermivora celata celata* (Say). Abundant migrant.
- 344. Lutescent Warbler—*Vermivora celata lutescens* (Ridgway). Common migrant.
- 345. Tennessee Warbler—*Vermivora peregrina* (Wilson). Very common migrant eastwardly.
- 346. Northern Parula Warbler—*Compsothlypis americana usneae* Brewster. Uncommon migrant eastwardly.
- 347. Cape May Warbler—*Dendroica tigrina* (Gmelin). Rare migrant.
- 348. Yellow Warbler—*Dendroica aestiva aestiva* (Gmelin). Abundant breeder over the state.
- 349. Black-throated Blue Warbler—*Dendroica caerulescens caerulescens* (Gmelin). Uncommon migrant.
- 350. Myrtle Warbler—*Dendroica coronata* (Linnaeus). Abundant migrant.
- 351. Audubon Warbler—*Dendroica auduboni auduboni* (J. K. Townsend). Common breeder westwardly.
- 352. Magnolia Warbler—*Dendroica magnolia* (Wilson). Uncommon migrant eastwardly.
- 353. Cerulean Warbler—*Dendroica cerulea* (Wilson). Common breeder eastwardly.
- 354. Chestnut-sided Warbler—*Dendroica pensylvanica* (Linnaeus). Common migrant eastwardly.
- 355. Bay-breasted Warbler—*Dendroica castanea* (Wilson). Rare migrant eastwardly.
- 356. Black-poll Warbler—*Dendroica striata* (J. R. Forster). Very common migrant eastwardly.
- 357. Blackburnian Warbler—*Dendroica fusca* (Mueller). Rare migrant eastwardly.

- 358. Sycamore Warbler—*Dendroica dominica albilora* Ridgway. Rare migrant eastwardly.
- 359. Black-throated Green Warbler—*Dendroica virens* (Gmelin). Rare migrant eastwardly.
- 360. Townsend Warbler—*Dendroica townsendi* (J. K. Townsend). Uncommon migrant westwardly.
- 361. Pine Warbler—*Dendroica vigorsii* (Audubon). Rare migrant eastwardly.
- 362. Palm Warbler—*Dendroica palmarum palmarum* (Gmelin). Uncommon migrant eastwardly.
- 363. Prairie Warbler—*Dendroica discolor* (Vieillot). Uncommon migrant eastwardly.
- 364. Oven-bird—*Seiurus aurocapillus* (Linnaeus). Common breeder.
- 365. Grinnell Water-Thrush—*Seiurus noveboracensis notabilis* Ridgway. Common migrant, breeding westwardly.
- 366. Louisiana Water-Thrush—*Seiurus motacilla* (Vieillot). Uncommon breeder eastwardly.
- 367. Kentucky Warbler—*Oporornis formosus* (Wilson). Common breeder eastwardly.
- 368. Connecticut Warbler—*Oporornis agilis* (Wilson). Rare migrant eastwardly.
- 369. Mourning Warbler—*Oporornis philadelphia* (Wilson). Uncommon breeder eastwardly.
- 370. Macgillivray Warbler—*Oporornis tolmiei* (J. K. Townsend). Common migrant westwardly.
- 371. Maryland Yellow-throat—*Geothlypis trichas trichas* (Linnaeus). Abundant breeder eastwardly.
- 372. Western Yellow-throat—*Geothlypis trichas occidentalis* Brewster. Abundant breeder westwardly.
- 373. Yellow-breasted Chat—*Icteria virens virens* (Linnaeus). Common breeder eastwardly.
- 374. Long-tailed Chat—*Icteria virens longicauda* Lawrence. Common breeder westwardly.
- 375. Hooded Warbler—*Wilsonia citrina* (Boddaert). Rare breeder southeastwardly.
- 376. Wilson Warbler—*Wilsonia pusilla pusilla* (Wilson). Common migrant eastwardly.
- 377. Pileolated Warbler—*Wilsonia pusilla pileolata* (Pallas). Common migrant.
- 378. Canada Warbler—*Wilsonia canadensis* (Linnaeus). Uncommon migrant eastwardly.
- 379. Redstart—*Setophaga ruticilla* (Linnaeus). Very common breeder over the state.

Family Motacillidae—Wagtails.

- 380. Pipit—*Anthus rubescens* (Tunstall). Common migrant.
- 381. Sprague Pipit—*Anthus spraguei* (Audubon). Uncommon migrant.

Family Cinclidae—Dippers.

- 382. Dipper—*Cinclus mexicanus unicolor* Bonaparte. Accidental visitor northwestwardly.

Family Mimidae—Thrashers, Mockingbirds, etc.

- 383. Sage Thrasher—*Oreoscoptes montanus* (J. K. Townsend). Uncommon migrant westwardly.
- 384. Mockingbird—*Mimus polyglottos polyglottos* (Linnaeus). Common breeder eastwardly.
- 385. Western Mockingbird—*Mimus polyglottos leucopterus* (Vigors). Uncommon breeder westwardly.
- 386. Catbird—*Dumetella carolinensis* (Linnaeus). Abundant to common breeder over the state.
- 387. Brown Thrasher—*Toxostoma rufum* (Linnaeus). Abundant breeder over the state.

Family Troglodytidae—Wrens.

- 388. Rock Wren—*Salpinctes obsoletus obsoletus* (Say). Abundant local breeder westwardly.
- 389. Carolina Wren—*Thryothorus ludovicianus ludovicianus* (Latham). Uncommon resident southeastwardly.
- 390. Bewick Wren—*Thryomanes bewicki bewicki* (Audubon). Rare breeder southeastwardly.
- 391. Western House Wren—*Troglodytes aedon parkmani* Audubon. Abundant breeder over the state.
- 392. Winter Wren—*Nannus hiemalis hiemalis* (Vieillot). Uncommon winter resident.
- 393. Short-billed Marsh Wren—*Cistothorus stellaris* (Naumann). Uncommon breeder eastwardly.
- 394. Prairie Marsh Wren—*Telmatodytes palustris iliacus* Ridgway. Common local breeder.

Family Certhiidae—Creepers.

- 395. Brown Creeper—*Certhia familiaris americana* Bonaparte. Very common winter resident eastwardly.
- 396. Rocky Mountain Creeper—*Certhia familiaris montana* Ridgway. Uncommon winter resident northwestwardly.

Family Sittidae—Nuthatches.

- 397. White-breasted Nuthatch—*Sitta carolinensis carolinensis* Latham. Very common resident eastwardly.
- 398. Rocky Mountain Nuthatch—*Sitta carolinensis nelsoni* Mearns. Very common resident westwardly.
- 399. Red-breasted Nuthatch—*Sitta canadensis* Linnaeus. Uncommon winter resident.
- 400. Pygmy Nuthatch—*Sitta pygmaea pygmaea* Vigors. Rare winter visitor northwestwardly.

Family Paridae—Titmice.

- 401. Tufted Titmouse—*Baeolophus bicolor* (Linnaeus). Common resident eastwardly.
- 402. Chickadee—*Penthestes atricapillus atricapillus* (Linnaeus). Uncommon resident eastwardly.
- 403. Long-tailed Chickadee—*Penthestes atricapillus septentrionalis* (Harris). Abundant resident over the state.

Family Sylviidae—Kinglets, Gnatcatchers, etc.

- 404. Golden-crowned Kinglet—*Regulus satrapa satrapa* Lichtenstein. Common migrant.
- 405. Ruby-crowned Kinglet—*Regulus calendula calendula* (Linnaeus). Very common migrant.
- 406. Blue-gray Gnatcatcher—*Polioptila caerulea caerulea* (Linnaeus). Common migrant and rare breeder eastwardly.

Family Turdidae—Thrushes.

- 407. Townsend Solitaire—*Myadestes townsendi* (Audubon). Common resident, breeding northwestwardly.
- 408. Wood Thrush—*Hylocichla mustelina* (Gmelin). Abundant to common breeder over the state.
- 409. Willow Thrush—*Hylocichla fuscescens salicicola* Ridgway. Uncommon migrant.
- 410. Gray-cheeked Thrush—*Hylocichla alliciae alliciae* (Baird). Common migrant.
- 411. Olive-backed Thrush—*Hylocichla ustulata swainsoni* (Tschudi). Abundant migrant.

- 412. Audubon Hermit Thrush—*Hylocichla guttata auduboni* (Baird). Uncommon migrant.
- 413. Hermit Thrush—*Hylocichla guttata pallasi* (Cabanis). Uncommon migrant eastwardly.
- 414. Robin—*Planesticus migratorius migratorius* (Linnaeus). Abundant breeder over the state.
- 415. Greenland Wheatear—*Saxicola aenanthe leucorhoa* (Gmelin). Accidental visitor.
- 416. Bluebird—*Sialia sialis sialis* (Linnaeus). Abundant breeder over the state.
- 417. Chestnut-backed Bluebird—*Sialia mexicana bairdi* Ridgway. Accidental visitor.
- 418. Mountain Bluebird—*Sialia currucoides* (Bechstein). Common breeder westwardly.

CLASS MAMMALIA—MAMMALS.

Order Marsupialia—Marsupials.

Family Didelphidae—Opossums.

- 1. Opossum—*Didelphis virginianus virginianus* Kerr. Eastern part of the state.

Order Ungulata—Hoofed Mammals.

Family Cervidae—Deer, Elk, Moose, etc.

- 2. Wapiti—*Cervus canadensis canadensis* (Erxleben). Formerly whole state, now extinct in our borders.
- 3. Plains White-tailed Deer—*Odocoileus americanus macrourus* (Rafinesque). Formerly in wooded part of whole state, now extinct except north-westwardly.
- 4. Black-tailed Deer—*Odocoileus hemionus hemionus* (Rafinesque). Formerly whole state, now only a few remaining in the sandhills.

Family Antilocapridae—Pronghorn Antelope.

- 5. Prong-horn Antelope—*Antilocapra americana americana* (Ord). Formerly whole state, now extinct, except a very few westwardly.

Family Bovidae—Cattle, Sheep, Goats, etc.

- 6. Bad Lands Mountain Sheep—*Ovis canadensis auduboni* Merriam. Formerly in northwestern part of state, now extinct in our borders.
- 7. American Bison—*Bison bison bison* (Linnaeus). Formerly most of the state, now nearly extinct everywhere, except in captivity.

Order Glires—Rodents.

Family Sciuridae—Squirrels and Marmots.

- 8. Black Hills Red Squirrel—*Sciurus hudsonicus dakotensis* Erxleben. Rare northwestwardly.
- 9. Southern Gray Squirrel—*Sciurus carolinensis carolinensis* Gmelin. Uncommon southeastwardly.
- 10. Western Fox Squirrel—*Sciurus niger rufiventer* (Geoffrey). Abundant eastwardly.
- 11. Gray Striped Chipmunk—*Tamias striatus griseus* Mearns. Rare eastwardly.
- 12. Pale Chipmunk—*Eutamias pallidus pallidus* (Allen). Abundant northwestwardly.
- 13. Bad Lands Chipmunk—*Eutamias pallidus cacodemus* Cary. Common in Bad Lands northwestwardly.
- 14. Sandhill Groundsquirrel—*Citellus obsoletus* (Kennicott). Uncommon westwardly.

15. **Striped Groundsquirrel**—*Citellus tridecemlineatus tridecemlineatus* (Mitchell). Abundant eastwardly.
16. **Pale Striped Groundsquirrel**—*Citellus tridecemlineatus pallidus* (Allen). Abundant westwardly.
17. **Franklin Groundsquirrel**—*Citellus franklini* (Sabine). Very common eastwardly.
18. **Southern Flying Squirrel**—*Pteromys volans volans* (Linnaeus). Rare eastwardly.
19. **Prairie-dog**—*Cynomys ludovicianus* (Ord). Abundant westwardly in "towns."
20. **Eastern Woodchuck**—*Marmotta monax monax* (Linnaeus). Very rare eastwardly.
21. **Black Hills Woodchuck**—*Marmotta flaviventer dacota* (Merriam). Very rare eastwardly.

Family Castoridae—Beavers.

22. **Sonoran Beaver**—*Castor canadensis frondator* Mearns. Formerly common over the state, now rare and local.

Family Muridae—Rats and Mice.

23. **Short-eared Grasshopper Mouse**—*Onychomys leucogaster brevicauritus* Hollister. Uncommon eastwardly.
24. **Plains Grasshopper Mouse**—*Onychomys leucogaster arcticeps* Hollister. Common westwardly.
25. **Nebraska Deer Mouse**—*Peromyscus maniculatus osgoodi* Mearns. Abundant northwestwardly.
26. **Buffy Deer Mouse**—*Peromyscus maniculatus nebrascensis* (Coues). Abundant westwardly.
27. **Prairie Deer Mouse**—*Peromyscus maniculatus bairdi* (Hoy and Kennicott). Abundant eastwardly.
28. **Eastern Deer Mouse**—*Peromyscus leucopus noveboracensis* (Fischer). Abundant eastwardly.
29. **Plains Deer Mouse**—*Peromyscus leucopus aridulus* Osgood. Abundant northwestwardly.
30. **Pallid Harvest Mouse**—*Reithrodontomys albenscens albenscens* Cary. Very common westwardly.
31. **Little Gray Harvest Mouse**—*Reithrodontomys albenscens griseus* Bailey. Common southeastwardly.
32. **Prairie Harvest Mouse**—*Reithrodontomys megalotis dychei* Allen. Abundant over the state.
33. **Nebraska Wood Rat**—*Neotoma floridana baileyi* Merriam. Common northwestwardly.
34. **Bad Lands Wood Rat**—*Neotoma cinerea rupicola* (Allen). Abundant northwestwardly.
35. **Meadow Vole**—*Microtus pennsylvanicus pennsylvanicus* (Ord). Common eastwardly.
36. **Sawatch Vole**—*Microtus pennsylvanicus modestus* (Baird). Uncommon northwestwardly.
37. **Prairie Vole**—*Microtus ochrogaster ochrogaster* (Wagner). Abundant eastwardly.
38. **Hayden Vole**—*Microtus ochrogaster haydeni* (Baird). Abundant westwardly.
39. **Woodland Vole**—*Pitymys nemoralis* (Bailey). Common southeastwardly.
40. **Plains Muskrat**—*Fiber zibethicus cinnamomina* Hollister. Abundant over the state.

Family Geomyidae—Pocket Gophers.

41. **Coues Pocket Gopher**—*Thomomys clusius clusius* Coues. Uncommon in extreme west centrally.
42. **Black Hills Pocket Gopher**—*Thomomys talpoides nebulosus* Bailey. Uncommon northwestwardly.

- 43. Prairie Pocket Gopher—*Geomys bursarius* (Shaw). Abundant eastwardly.
- 44. Plains Pocket Gopher—*Geomys lutescens* (Merriam). Abundant westwardly.

Family Heteromyidae—Kangaroo Rats and Pocket Mice.

- 45. Maximilian Pocket Mouse—*Perognathus fasciatus fasciatus* (Wied). Rare northwestwardly.
- 46. Plains Pocket Mouse—*Perognathus flavescens flavescens* (Merriam). Common westwardly.
- 47. Baird Pocket Mouse—*Perognathus flavus flavus* Baird. Rare westwardly.
- 48. Kansas Pocket Mouse—*Perognathus hispidus paradoxus* (Merriam). Common westwardly.
- 49. Richardson Kangaroo Rat—*Perodipus montanus richardsoni* (Allen). Abundant eastwardly.

Family Zapodidae—Jumping Mice.

- 50. Prairie Jumping Mouse—*Zapus hudsonius campestris* Preble. Uncommon eastwardly.

Family Erethizontidae—Porcupines.

- 51. Yellow-haired Porcupine—*Erethizon epixanthum epixanthum* Brandt. Rare westwardly, formerly extending much further east.

Family Leporidae—Rabbits and Hares.

- 52. White-tailed Jackrabbit—*Lepus campestris campestris* Bachman. Common over the state, especially northwardly.
- 53. Black-tailed Jackrabbit—*Lepus californicus melanotis* (Mearns). Abundant southwardly.
- 54. Prairie Cottontail—*Sylvilagus floridanus mearnsi* (Allen). Abundant eastwardly.
- 55. Nebraska Cottontail—*Sylvilagus floridanus similis* Nelson. Common westwardly.
- 56. Plains Cottontail—*Sylvilagus auduboni baileyi* (Merriam). Abundant westwardly.

Order Ferae—Flesh-eaters.

Family Felidae—Cats.

- 57. Rocky Mountain Puma—*Felis oregonensis hippolestes* (Merriam). Formerly common, now rare or extinct northwestwardly.
- 58. Canada Lynx—*Lynx canadensis canadensis* Kerr. Very rare northwardly, probably extinct in the state.
- 59. Bay Lynx—*Lynx rufus rufus* (Guldenstaedt). Rare eastwardly.
- 60. Plateau Lynx—*Lynx baileyi* Merriam. Uncommon westwardly.

Family Canidae—Dogs.

- 61. Gray Wolf—*Canis occidentalis* (Richardson). Formerly abundant over the state, now rare.
- 62. Dusky Wolf—*Canis nubilus* (Say). Formerly common eastwardly, now very rare or extinct.
- 63. Eastern Coyote—*Canis latrans* Say. Uncommon eastwardly.
- 64. Plains Coyote—*Canis nebracensis nebracensis* Merriam. Common to abundant westwardly.
- 65. Red Fox—*Vulpes fulva* (Desmarest). Rare southeastwardly.
- 66. Plains Fox—*Vulpes macrurus* Baird. Formerly over most of the state, now very rare westwardly.
- 67. Swift Fox—*Vulpes velox velox* (Say). Common westwardly.
- 68. Northern Gray Fox—*Urocyon cinereo-argenteus ocythous* Bangs. Formerly very rare eastwardly.

Family Ursidae—Bears.

69. Black Bear—*Ursus americanus americanus* Pallas. Formerly rare, now almost if not quite extinct, even northwestwardly.

Family Procyonidae—Raccoons.

70. Raccoon—*Procyon lotor lotor* (Linnaeus). Common along watercourses over the state.

Family Mustelidae—Weasels, Skunks, Badgers, Otters, etc.

71. Badger—*Taxidea taxus taxus* (Schreber). Common westwardly.
 72. Northern Plains Skunk—*Mephitis hudsonica* (Richardson). Common north-westwardly.
 73. Long-tailed Texas Skunk—*Mephitis mesomelas varians* (Gray). Common over the state.
 74. Prairie Spotted Skunk—*Spilogale interrupta* (Rafinesque). Very common eastwardly.
 75. Wolverine—*Gulo luscus* (Linnaeus). Formerly rare northwestwardly, now extinct in the state.
 76. Marten—*Martes americana americana* (Turton). Formerly rare north-westwardly, now extinct in the state.
 77. Southern Mink—*Mustela vison letifera* Hollister. Common along water-courses over the state.
 78. Black-footed Ferret—*Mustela nigripes* (Audubon and Bachman). Rare westwardly.
 79. Long-tailed Weasel—*Mustela longicauda longicauda* Bonaparte. Common over the state.
 80. Least Weasel—*Mustela rixosa campestris* Jackson. Rare northeastwardly.
 81. Sonoran Otter—*Lutra canadensis sonora* (Rhodes). Formerly common, now rare, over the state.

Order Insectivora—Insect-eaters.

Family Soricidae—Shrews.

82. Masked Shrew—*Sorex personatus haydeni* (Baird). Uncommon north-wardly.
 83. Short-tailed Shrew—*Blarina brevicauda brevicauda* (Say). Common over the state.
 84. Small Brown Shrew—*Cryptotis parva* (Say). Common eastwardly.

Family Talpidae—Moles.

85. Garden Mole—*Scalopus aquaticus machrinoides* Jackson. Abundant east-wardly.
 86. Sandhill Mole—*Scalopus aquaticus caryi* Jackson. Common westwardly.

Order Chiroptera—Bats.

Family Molossidae—Free-tailed Bats.

87. Mexican Free-tailed Bat—*Nyctinomus mexicanus* (Saussure). Very rare southwardly.

Family Vespertilionidae—Typical Bats.

88. Long-eared Bat—*Myotis evotis* (H. Allen). Rare northwestwardly.
 89. Little Pale Bat—*Myotis californicus ciliolabrum* (Merriam). Common westwardly.
 90. Little Brown Bat—*Myotis lucifugus lucifugus* (Le Conte). Uncommon eastwardly.
 91. Silver-haired Bat—*Lasionycteris noctivagans* (Le Conte). Common over the state in migrations.
 92. Big Brown Bat—*Eptesicus fuscus fuscus* (Beauvois). Common over the state.

93. Red Bat—*Nycteris borealis borealis* (Muller). Common over state, especially eastwardly.
94. Hoary Bat—*Nycteris cinerea* (Beauvois). Very common migrant over the state.

SOME NOTES ON NEBRASKA INSECTS.

By Lawrence Bruner, State Entomologist.

Insects are quite prominent among the animal forms to be met with in our state. Exactly how many distinct species are native here we do not know. We are sure, however, that we have our share of them. We know, too, that they are quite generally distributed, and that representatives of both beneficial and harmful ones occur. We also know that each year they exact a toll amounting to from \$12,000,000 to \$15,000,000, much of which could be prevented. A very large percentage of this loss is directly due to the ravages of introduced rather than to the attacks of native or indigenous kinds. These exotic insects are continually being augmented by others against which the State Entomologist is attempting to quarantine by means of a system of inspection of foreign seed, bulbs, plants, etc., as they arrive within our borders.

Several years ago when writing about Nebraska birds I used the following argument to account for the comparatively large list for the state: "Nebraska appears to be well fitted as a home for many distinct forms of birds, just as it is for the other kinds of animal life. * * * If, however, we take into consideration the variations in altitude above sea level, the differences in surface configuration, climate, etc., that pertain to our state, its location and the relation which it bears to the country at large, the wonderment will become less. Our southeastern corner is only about 800 feet, our western border almost 6,000 feet above tide water. The state is divided into timbered, prairie and plains regions. We lie nearly in the middle of the United States, with a high mountain chain to the west and a giant waterway along our eastern boundary. In fact in Nebraska meet eastern, western, southern and northern faunas; while we also have a fauna of our own. We find forms belonging to low and high altitudes, to wet and dry climates, to timbered and prairie countries, as well as to semi-desert and alkali regions." Even to a greater degree are the above mentioned characteristics conducive to a very large insect fauna.

Only a few localities in the state thus far have been at all carefully studied in connection with our insect fauna. These are Lincoln and the immediate surroundings, Omaha and vicinity, West Point, Sioux and Dawes counties along the Pine ridge, Halsey near the Dismal river, and McCook and Halgler in the southwestern part of the state. To a less extent collecting has been done at South Bend at and about the fish-hatcheries, Weeping Water, Nebraska City and Platte River junction near Fremont. Some specimens have also been taken in Dakota county across the Missouri river from Sioux City, at Long Pine and along the Niobrara river between the last named point and its junction with the Missouri. At Mitchell in the North Platte valley where one of the substations of the Nebraska agricultural experiment station is located some insects have also been taken.

Before we know our insect fauna thoroughly one can readily see that much additional, very careful work remains to be done within the state. The minute and inconspicuous forms and many of the rarer, larger ones can only be taken by special and very careful and often tedious methods followed throughout the year by carefully trained persons. This kind of work has been almost entirely out of the question during the past twenty-five or twenty-six years, owing to the time and energies required of the entomologist and his assistants for instructional work in the University and School of Agriculture, for experiments with destructive forms and insect control problems in connection with the agricultural and commercial activities of the commonwealth. If the services of a suitable additional person could be secured chiefly for the accumulation of a

complete collection of our insects we would not need remain much longer in so complete ignorance on this particular subject.

Practically all of the recognized orders of the class Insecta occur here, as do also many of the allied forms such as Myriapods, Arachnids and certain Crustaceans which are usually relegated to the care of the entomologist.

All told these various creatures very likely comprise a list of about 15,000 distinct species made up approximately as follows:

The Thysanura or Bristletails number only 5. They are of but little economic importance.

The Collembola or Springtails, snow-fleas and podurids include about 50 species. These are also of but little importance economically except when certain species increase excessively and accumulate in springs and wells where their dead bodies decay and pollute the water.

Ephemera or Mayflies—do not exceed 50 species. Their nymphs live in ponds and streams and form an important item among the food of certain fishes.

Odonata or Dragonflies, as they are popularly called, number at least 100 species which are well distributed over the state and act as a control for mosquitoes and certain other troublesome gnats, flies, etc., of which they are excessively fond and capture and devour large numbers.

Plecoptera or stone flies, include about 30 species. These too, are chiefly fish food. Their diet consists largely of minute and other aquatic plants.

Of Isoptera or termites—"white ants"—only a single species is found here. It sometimes causes injury to wooden foundations, fence posts, tree hearts, roots of seedlings in nurseries, etc.

The order Corrodentia or "book-lice" contains about 15 species which are of no special importance economically. They are to be met with both in dwellings and outside, and seem to be most abundant in groves where they occur on tree trunks, among lichens and mosses, and among fallen leaves on the ground. They are largely herbivorous in food-habit.

Mallophaga or biting lice, also called bird lice, are common. There are about 400 species in our fauna. These insects are troublesome pests on our fowls and some of our other domestic animals, as well as on the wild creatures of the same classes. They feed on feathers, hair and dandruff or scales of the skin of their hosts.

Orthoptera, as cockroaches, walking sticks, praying mantis, locusts, long-horned grasshoppers, katydids, crickets, etc., are plentiful. Approximately 325 distinct species are found in the state. Nearly all of these are herbivorous and hence injurious. The mantids alone are carnivorous as well as predaceous and do some good by destroying harmful insects. Several of the cockroaches which are considered omnivorous infest our homes and are reported as assisting in spreading certain disease germs. The phasmids or "stick-insects" are all herbivorous and at times do considerable harm to vegetation, both grasses and trees. The locusts or short-horned grasshoppers, known to everybody, are enemies of all kinds of vegetation, both cultivated and wild. Each year much injury is done by them. The migratory species, of which we have four or five, in past years have been great pests. The long-horned grasshoppers and crickets too, both assist in devouring the general herbage of the country. They also attack crops. For this injury the latter mentioned forms compensate to a certain extent by the music which they make and which renders our summer nights so enjoyable. Without it we would feel lonesome.

The Euplexoptera or Dermaptera—earwigs—are very poorly represented, there being but 3 species present in the state, and in such small numbers that they are of no economic importance, even though they are herbivorous in food-habit.

The Thysanoptera or thrips are represented by about 50 species. Some of them are very common and quite destructive to vegetation. We have forms that injuriously attack the onion, tobacco, greenhouse plants and various blossoms, as well as others that are grass enemies causing blasted tops as in bluegrass.

The order Heteroptera or true bugs number at least 500 species. Among

these are such well known forms as the chinch-bug, squash-bug and bed-bug. Some species of the group are predaceous and capture and destroy harmful insects of other orders, as for example, grubs of the Colorado potato beetle and different injurious caterpillars. A couple of them occasionally even attack human beings for a feast of blood. Various others of these true bugs attack various kinds of vegetation from which they suck the sap and cause the plants to shrivel and die. The chinch-bug is one of our chief grain pests and often causes losses to our farmers amounting to millions of dollars in a single year.

The Parasita are blood-sucking lice that live upon wild and domesticated mammals and even upon man. There are at least 25 kinds of these lice to be found within the borders of Nebraska. Some human diseases are said to be spread by these insects; besides, the mere thought of being lousy is disgusting to most persons.

The order Homoptera is made up of such well known forms as cicadas, tree-hoppers, leaf-hoppers, spittle insects, jumping plant-lice, aphids, white-flies and coccids or scale insects. There are at least 1,000 forms or species within our borders, and all attack vegetation, the sap of which is fed upon. The group contains the seventeen-year cicada, buffalo tree-hopper, corn-root louse, green-bug of wheat, the green-fly of greenhouses and gardens, the San Jose scale, the oyster-shell bark-louse, etc. Some are grain enemies, others fruit-tree destroyers and still others attack and injure garden and ornamental plants as well as shade and forest trees.

Coleoptera or Beetles are both numerous and varied as to size and habits. We can safely estimate at least 3,500 species for the state. Among the injurious kinds are leaf-beetles, May-beetles, boring beetles—several families, weevils, blister beetles, etc. We also have the tiger and ground beetles and lady birds, which capture and devour many injurious insects of varied sorts as well as their eggs. Still other forms by feeding on decaying animal and vegetable matter act as scavengers, while some even attack and destroy weeds. In fact, this order contains representatives with such varied habits as to provide forms for all kind of contingencies, even to attacking carpets, cigarettes, drugs, stored grains, dried fruits, plants in herbaria and insects in the museums, while at least one species lives as a parasite among the fur of the beaver. Quite a number of others also live in ant nests much as dogs, cats and other pets do about our dwellings.

The small order known as Strepsiptera, the twisted-wing insects, are all parasitic upon other insects, such as bees, wasps, leaf-hoppers and the like, within the bodies which they live and are to be found. In this manner they may be beneficial, at least where their attacks are upon harmful kinds. Possibly as many as 10 or 12 species occur within our State.

The order Neuroptera is made up of insects like the Dobsonflies, aphidlions, antlions, mantispas, etc., and contains at least 50 or 60 species within the state. They are chiefly beneficial since most of the forms are predaceous and destroy many injurious insects. The lace-wing flies or aphidlions are especially so on account of the large number of plant-lice and other soft-bodied injurious forms which they destroy.

Related to the Neuroptera on the one side and to the Lepidoptera on the other is a small order of predaceous insects called Mecoptera or scorpion flies. Their larvae, which occur in damp localities, are caterpillar-like in general appearance and like their parents prey upon other insects. At least a half dozen forms occur in Nebraska.

The Trichoptera or caddis-flies are represented here by possibly 30 or 40 kinds. Some of them are carnivorous and others herbivorous in food-habit. The young are found in water where they live. They make cases in which to protect themselves from certain enemies. They comprise a considerable item in the food of certain fishes, especially of trout and other game varieties.

The Lepidoptera, better known as butterflies and moths, are practically all vegetable feeders in their larval or caterpillar stage. About 1,500 species will be found to inhabit the state. Their distribution is general, and both diurnal and nocturnal forms are to be met with at every locality within our borders. Many of our worst insect enemies as cutworms, armyworms and the codling

moth belong here. Some of the leaf-mining and seed-infesting species are very minute and veritable gems in color, while others are real giants and spin strong silken cocoons in which the chrysalids pass the long, cold winters. Several kinds are noted for their attacks on our shade trees which they frequently defoliate, while the web-worms destroy sugar beets, corn, alfalfa and garden truck.

The insects which form the order Diptera include the gnats, mosquitoes and many different forms of two-winged flies. This is also an extensive group made up of insects of varied forms and sizes with diverse habits. At least calculation 1,500 species are to be found. The house-fly, blowflies, robberflies, sunflies, rootflies, mosquitoes, gall gnats and a host of others are to be met with in every part of the state. The Hessian-fly among the gall gnats is a very destructive wheat enemy, while the house-fly and certain of the mosquitoes are carriers of deadly or troublesome disease germs. The "green-heads" or horse-flies, the horn-fly, stable-fly and botflies are very troublesome enemies of stock. Many forms of the Tachina and flesh flies which occur here are enemies of destructive insects within the bodies of which they live as parasites. Robberflies and the maggots of sunflies prey upon various harmful insects many of which are destroyed by them. Numerous others of the flies are well known scavengers.

The fleas or Siphonaptera of which we possibly have 40 or 50 species infest various of our domestic and wild animals. These insects too, are not averse to attacking human beings. They also have the reputation of being germ carriers and disease spreaders.

Lastly, but by no means of least importance among our insects, is the order Hymenoptera, which contains at least 5,000 species in the state. To this group belong the hornhalls which are wood borers, the sawflies and gallflies which in various ways attack vegetation, and the several families of ichneumon wasps and smaller parasitic forms which attack and destroy nearly every other kind of insect. Some of these parasites are so small that several individuals are known to have been reared on the contents of a single moth or butterfly egg, or from a flaxseed of the Hessian fly. It is largely due to the presence and activities of these different parasitic hymenoptera that our plant-attacking forms are held in check. To the representatives of the order already mentioned should be added the ants, and several families of paper making, mud-daubing and dipper wasps, which also are to be considered beneficial because of their predaceous habits. All of our wild bees, too, are to be included among useful insects because they act as pollinators of fruit tree, clover, alfalfa and other blossoms.

The members of the class Myriapoda which includes the millipedes and centipedes is represented by at least 50 or 60 distinct species. The forms bearing two pairs of legs on each abdominal segment are herbivorous, while those with but a single pair to the segment are predaceous. The latter contain the poisonous centipedes. Occasionally several of the former increase in such numbers as to be present in armies and are then termed "army-worms." The predaceous forms do some good by destroying injurious insects. One of these frequents human dwellings and is a destroyer of "vermin."

The class Arachnida contains the spiders, mites, chellfers, harvestmen, and scorpions. Altogether there must be nearly or quite 1,000 distinct species. Most of the spiders and many of the mites are predaceous, hence should be considered beneficial, while the rest are herbivorous and must be counted as injurious. Our scorpions, chellfers and allied forms which are predatory, while more or less poisonous, are generally the smaller species and need not be considered dangerous.

A few land crustaceans and also several aquatic representatives of the group—possibly all told not over 25 species—are included among insects by the average person. They are herbivorous and might be classed as harmful provided they were present in rather large numbers and their food consisted of economic plants.

SOCIAL CONDITIONS AND INSTITUTIONS.

EDUCATION.

PUBLIC SCHOOLS.

The first school legislation in Nebraska territory is contained in an act approved March 16, 1855. This act stipulated that the librarian of the territory was also to be superintendent of public instruction. As librarian he was to receive an annual salary of \$100, and as superintendent an additional \$200. He was required to "have a general supervision of all the district schools of the territory, and to see that the school system should be "as early as practicable put into uniform operation," and to recommend to the several school districts a uniform series of text books. He was to prepare the necessary blanks and forms for reports required by the act, to make all necessary rules, regulations, and recommendations, and to report annually to the legislature.

County superintendents of schools were to be elected at the biennial county elections. The county superintendent was required to distribute to the several school districts the blanks and circulars sent by the state superintendent, to apportion the county school tax and other county funds for education, to establish school districts, to examine teachers and issue certificates to those found to be qualified to teach, to visit schools—and he was empowered to dismiss teachers whom he found to be incompetent. An annual report to the state superintendent was required.

District boards of school directors, consisting of a president, secretary and treasurer, were chosen by the qualified electors of the districts at annual school meetings. In addition to the usual functions of locating and building the school house, buying supplies and books, employing teachers, the directors were required to examine teachers in spelling, reading, writing, arithmetic, geography, history of the United States and English grammar, and to levy, collect and expend the district school taxes. An annual report to the county superintendent was to include information as to the number of white persons of school age (five to twenty-one years), number of schools and branches taught, pupils, teachers and their compensation, cost of buildings, amount and sources of funds expended and number of volumes in the library.

The county superintendent was empowered to levy the annual county school tax of not less than three mills nor more than five mills on the total assessed valuation of the county, to be collected as other county taxes were collected, except that it was receivable only in cash. These funds, together with the proceeds of fines collected for breach of the penal laws, the sale of water craft, lost goods and estrays were apportioned annually among the several districts in proportion to the school census—provided that the districts participating in this apportionment had raised locally a tax of not less than three mills for school support. The county superintendent paid over these funds to the several district treasurers. **THE FUNDS FROM WHICH TEACHERS WERE PAID WERE NO PART OF THE COUNTY OR DISTRICT TAXES, BUT WERE RAISED BY VOLUNTARY SUBSCRIPTION AMONG SCHOOL PATRONS.**

This early school law was incorporated with slight additions in the code of Nebraska in an act approved January 26, 1856. These added provisions related to the sale of school lands, which were to be valued and sold by the county superintendents. Another act of this same date provided that county superintendents should have \$2.50 for each quarter section of land sold and two dollars for each day devoted to the duties of the office. A report of the standing committee on education of the territorial council on January 11, 1856, stated that "as yet, no provision has been made for the support of free common schools within the territory, except a defective school law, and consequently no such institutions have been established." Governor Cuming's message of December 9, 1857, said: "In many, if not all the counties, no districts have been formed,

no taxes levied, no teachers employed and no steps taken in respect to school laws."

An act approved November 4, 1858, repealed the existing school law, and substituted an elaborate system which made the township the administrative unit for schools, except for purely local matters, such as the employment of teachers, and maintenance of the school and school buildings, subject to such regulations as the township board of education might impose. This act provided for the establishment of township high schools, and school libraries. A county board of examiners was to be appointed by the probate judge. They were empowered to examine and certificate teachers.

The territorial school fund was obtained from the proceeds of a levy of two mills on the grand assessment roll of the territory, and an additional one-tenth of a mill was levied for the purchase and equipment of school libraries. The school fund was apportioned to the counties by the territorial treasurer, and by county clerks to the several school districts.

This act created the office of territorial commissioner of common schools with a salary of \$1,000. The salary was reduced to \$600 by a statute of January 9, 1861.

A joint memorial to Congress, approved November 4, 1858, asked for the right to control and lease the school lands given by the federal government.

An amendment to the school law of 1858 was approved on January 13, 1860. This amendment limited the territorial school fund levy to one mill on the grand assessment roll of the territory, and stipulated that funds so raised were "for the purpose of affording the advantage of a free education to all the white youth of the territory."

The duties of territorial school commissioner were given to the territorial auditor by an act of February 15, 1864. An elaborate law of the same date authorized the "town council of Nebraska City to raise money to erect a central or high school building." This act was further amplified by an act approved February 12, 1866.

A law governing the registry, disposition and control of the common school, university and agricultural college lands was approved June 24, 1867. The state normal school was established at Peru by an act of June 20, 1867.

At the first session of the state legislature, the school law was completely revised by an act approved June 24, 1867. This act granted school suffrage to "every inhabitant of the age of twenty-one years, residing in the district and liable to pay a school district tax therein." The township or precinct system was abandoned and county superintendents provided for.

An act of February 12, 1869, endowed the state normal school at Peru with twenty sections of state land. The general school law was amended by this same legislature by making specific provisions concerning the conduct of schools in incorporated municipalities, by levying a common school fund tax of two mills on the grand assessment roll of the state to be in addition to the "funds derived from the sale of school lands and interest thereon, and fines and forfeitures as provided by statutes," by describing in greater detail the duties of county superintendents, and by providing for the election of a state superintendent of public instruction. The state superintendent was required to organize teachers' institutes, to visit schools and teachers' institutes, to name the text books to be used in all the schools, and to apportion the state school fund among the several counties. The act establishing the University of Nebraska was approved February 15, 1869.

The issuance of bonds to build a high school building in Omaha was authorized by an act approved February 7, 1871. Similar legislation for certain districts in Washington, Johnson, Gage, Saunders, Pawnee, Cuming and Lancaster counties was passed by the legislature of 1871, and succeeding legislatures passed many such acts. An act regulating the public schools in cities of the first class was passed by the legislature of 1873. A curious act of this legislature empowered the common council of Nebraska City upon petition of a majority of the taxpayers to employ teachers to give instruction in the German language in the public schools.

The legislature of 1875 limited the school suffrage to "every male citizen and

unmarried woman of the age of twenty-one years, residing in the district and owning property therein which is taxable for school purposes in such district." The school levy was limited to twenty-five mills. An institution for the blind was provided for at this session. An act regulating public schools in cities of the second class was also passed.

Upon the adoption of the constitution of 1875, the legislature of 1877 passed laws concerning the disposition of educational lands and funds. The office of the superintendent of public instruction became constitutional in 1875.

The origin of the present school code is found in an act approved March 1, 1881. By this instrument, school suffrage was limited to residents of the school district having either property within the district taxed in their own names at the last election, or children of school age. Since this act was approved it has been amended and added to. Certification of teachers is directly under the control of the state superintendent, who prepares all questions for teachers' examinations. Since 1891 a free text book law has been in force. In 1901 a compulsory education law was approved, and in 1907 this was supplemented by a child labor law, which depends upon school authorities chiefly for its enforcement. Provision is now made by law for free high school education, rural high schools, county high schools, normal training and instruction in agriculture, manual training and home economics in high schools.

A house resolution of 1913 created a school code commission to revise the school laws, and report their findings to the legislature of 1915.

Higher education has not been neglected in Nebraska. The records of the early territorial legislatures contain many acts of incorporation of colleges—most of which never materialized, and none of which now survive. Permanent provision for higher education was made by the state in the establishment of a university and four normal schools. Numerous denominational and other schools and colleges have been founded.

COLLEGES AND ACADEMIES CHARTERED BY ACTS OF TERRITORIAL LEGISLATURES.

Simpson university at Omaha.....	March 9, 1855

LIBRARIES.

The earliest library in Nebraska was the military post library at Fort Atkinson (now Fort Calhoun, Washington county). Several hundred dollars were invested in books and magazines, as shown by the post records. This library was removed when the post was abandoned and the Sixth regiment transferred to Fort Leavenworth in 1827.

Among the early acts of the Nebraska territorial legislatures were several incorporating library and literary associations. The first of these was the Otoe county lyceum and literary association, approved January 26, 1856. Its object was declared to be "the promoting of the general interest of education and the establishment of a library and reading room." The Brownville lyceum, library and literary association was incorporated February 9, 1857, and the Falls City library association on December 21, 1861.

The oldest library in Nebraska is the state library, which dates from the Kansas-Nebraska act of May 30, 1854. The libraries at the University of Nebraska, Peru normal school and Doane college were presumably, historically coincident with the establishment of these schools in 1869, 1869 and 1872, respectively.

Public, though probably not free, tax-supported libraries, were established at Lincoln in 1875, at Omaha in 1877, and at Crete in 1878. About that time a temperance movement was being conducted, chiefly by women. Libraries were regarded as counter attractions to the saloons.

In 1878 the Nebraska state historical society was organized, and its library started.

The first public library act was approved on February 25, 1875. It applied only to the "city of Brownville." The act under which most of the public libraries of the state have been organized was approved February 17, 1877. It remained on the statute books without change until 1901, when the word "free" was inserted in one paragraph, and the maximum levy changed from one to two mills. Meantime certain municipal charter legislation, in fact, amended the general library law as applied to cities of the metropolitan class, and the upper two divisions of the first class cities. It thus occurs that the Lincoln city library retains the board of membership of nine which the original law provided for, but has had, until a recent change in the charter, a fixed appropriation of \$9,700 a year, while the Omaha public library is assigned to the control of one of the departments of the city government, which consents to the appointment of a library board of five members.

In 1911 the general library law was amended to provide for the establishment of township and county libraries. A maximum levy of three mills was established by this act. There are now nearly one hundred libraries in the state.

The Nebraska public library commission was established in 1901.

TAX-SUPPORTED LIBRARIES.

These statistics are excerpted from the biennial report of the Nebraska public library commission, 1914.

PUBLIC HEALTH AND THE PRACTICE OF MEDICINE.

In a pioneer society, little attention is paid to the subject of public health. The portion of the Iowa criminal code adopted by the territorial legislature March 16, 1855, contained a brief chapter on offenses against public health, and another on nuisances and their abatement. Very light penalties for the sale of diseased, unwholesome or adulterated food, drink, or drugs, or of poisons without the prescribed labels, were fixed. A much more serious offense was thus described: "If any person inoculate himself or any other person, or suffer himself to be inoculated with the small pox within this territory, or come within the territory with intent to cause the prevalence or spread of this disease, he shall be punished by imprisonment in the penitentiary not more than three years, or by fine not exceeding \$1,000 and imprisonment in the county jail not exceeding one year." Not quite so serious was the maintenance of certain types of nuisances which menaced public health.

On March 2, 1855, an act to establish the Nebraska medical society was approved. This was the first crude effort at regulation of medical practice, for it provided that no physician would be allowed to practice medicine and surgery who was not a member of this society, and had its license to practice. The society was empowered to appoint an inspector of drugs and to bring sellers of adulterated drugs to justice.

The first act looking to protection from contagious diseases referred to live stock and was approved June 20, 1867. From that time until 1901, the only contagious diseases that excited the interest of the legislature were those of domestic animals.

The early special municipal incorporation acts almost uniformly conferred upon the city authorities power to make all necessary ordinances in relation to cleanliness and public health. The first general municipal incorporation act, approved February 15, 1864, made no specific mention of the subject of public health. The general municipal incorporation acts of February 8 and 15, 1869, provided definitely for the establishment of municipal boards of health with necessary powers. Cities of the second class were given specific power to "establish cemeteries or burial places contiguous to, but without the limits of the city, and to provide for the sanctity of the dead" and "to remove persons having infections or pestilential diseases outside the city limits."

Subsequent municipal legislation has always recognized the necessity of local health departments.

A census and vital statistics law was passed by the legislature of 1869. County commissioners were required to cause the precinct assessors in the several counties to make an annual enumeration of population and also a complete return of all births and deaths for the preceding year. These facts were to be transmitted to the secretary of state, and he was required to tabulate the statistics and have them printed in pamphlet form. This law was repealed by the legislature of 1885.

A new criminal code enacted on February 27, 1873, contained a chapter on offenses against public health and safety. Its provisions related chiefly to the sale of deleterious food and drugs, the pollution of waters, and the cleanliness of distilleries.

The second effort to regulate the practice of medicine is found in an act approved March 3, 1881. This act required persons who wished to practice medicine in the state to file statements of their qualifications with county clerks, who, upon presentation of the required evidence were to register the candidates' names. A person to be entitled to registration must have graduated from a legally chartered medical college having authority to grant the degree of doctor of medicine, or have attended a full course of lectures in such an institution, and have practiced medicine continuously for three years, the last one of these years in Nebraska, or have been practicing medicine for a livelihood for ten years, the last two of them in this state. Persons convicted of practicing medicine without having complied with the provisions of this

act were to be deemed guilty of a misdemeanor and fined not less than twenty or more than one hundred dollars for each offense. Itinerant vendors of medicines who claimed to cure diseases were considered much more serious offenders.

An act approved March 24, 1887, made similar requirements for the practice of dentistry within the state.

The act creating the state board of health was approved March 27, 1891. The board was composed of the governor, attorney general, and state superintendent whose chief duty was to appoint four medical secretaries to perform the duties of the board. These duties consisted in granting certificates to candidates for permission to practice medicine. These certificates were granted only to persons possessing diplomas from recognized medical colleges according to the rules prescribed by the board. At this same session a city of the metropolitan class was required to have a board of health of which the mayor should be chairman. The commissioner of health and city physician was given large powers. Cities of less than 25,000 population were also given power to regulate the introduction of contagious diseases and to enforce quarantine laws within five miles of the city.

The legislature of 1896 conferred upon cities of the second class and villages definite powers and duties concerning public health, and placed the regulation of the practice of dentistry under the control of the board of health.

The legislature of 1899 created a board of examiners for embalmers to be appointed by the state board of health; a board of examiners for barbers, and a food commission. An appropriation of \$1,500 to be used by the state board of health in suppressing contagious diseases was also made.

The legislature of 1901 authorized county boards to make and enforce regulations to prevent the introduction and spread of contagious diseases and to establish boards of health. This legislature also provided for the certification of osteopathic practitioners by the state board of health.

An act of February 20, 1903, authorized the appointment of county boards of health whose jurisdiction should include the unincorporated parts of the several counties. Another important act passed by the same legislature enlarged the powers and duties of the state board of health and created the office of health inspector whose duty is to assist local authorities in enforcing the health laws. Still another act, approved April 3, 1903, requires the state board of health to examine all applicants for certification as physicians—this in addition to the earlier requirement of a diploma.

A new Omaha charter act approved March 9, 1905, provided that a board of health should not be created except in case of a general epidemic. At this same session an act requiring applicants for license to practice osteopathy to pass examination given by the board of health, and another creating a board of dental secretaries to be appointed by the state board of health were approved. Another important act, approved February 16, 1905, provided for a system of vital statistics with the state board of health as state registrar, and various designated local authorities as local registrars. An act regulating maternity homes and boarding homes for infants was passed at this session, and the hospital for deformed, ruptured and crippled children now known as the orthopedic was established. A law providing for the examination, care and treatment of dipsomaniacs, inebriates and victims of the drug habit was also included in the work of this session.

The legislature of 1907 enacted a complete pure food law as a substitute for existing laws, and a law regulating the practice of optometry and creating a board of examiners in optometry.

The legislature of 1909 provided for the collection of marriage statistics by the state board of health, transferred from the board of health to the governor the power to appoint the secretaries of this board, created a board of examiners in osteopathy to be appointed by the governor, and a board of examiners of nurses to be appointed by the state board of health.

The legislature of 1911 made it obligatory upon county and village boards, if no local board of health exists, to enforce the quarantine rules and regulations of the state board of health. A new act regulating maternity homes, re-

quiring their licensing by the state board of health was also passed, and a state hospital for indigent tuberculous patients established.

The legislature of 1913 authorized the state board of health to prohibit the use of common drinking cups, provided for the annual registration of dentists and established a bacteriological laboratory for the state board of health.

The foregoing laws are supplemented by many statutes concerning sanitation and abatement of nuisances, protection of water supply, drainage, the establishment of hospitals and other institutions for the care of sick or insane people.

Since the organization of the state board of health applications for license to practice medicine have been granted or refused as follows:

Year	Number Granted	Number Granted Without Diplomas	Number Refused
1891	1111	127	78
1892	207	24	21
1893	160	2	22
1894	113	0	16
1895	100	1	12
1896	101	0	4
1897	124	0	9
1898	140	0	13
1899	136		11
1900	151		6
1901	179		1
1902	212		6
1903	491		14
1904	132		7
1905	117		28
1906	125		25
1907	120		14
1908	203		19
1909	195		7
1910	212		2
1911	125		11

Total number of applications	4,933
Total number of applications refused	325
Total number of applications on diploma, examined and without diploma	4,608
Total number of certificates with diploma	4,454
Total number of certificates without diploma	154
	4,608
Total number of licences revoked	6
Total number of physicians removed	1,221
Total number of physicians having died	210
	1,437
Total number of certificates in force	3,171
Total number of regulars in force	2,327
Total number of electives	473
Total number of homeopaths	371
Total number of inhabitants per physician	375

There were 151 physicians without diplomas who availed themselves of the privilege to register with the state board within six months after the law went into effect. Three certificates since that time have been issued without diplomas, two in 1893 and one in 1895.

Since 1903, 830 have taken the examination, of which 114 have failed, making the failures 13.6 per cent, which indicates due diligence has been exercised.

POLITICAL INFORMATION.

A COMPARATIVE STUDY OF PLATFORMS ADOPTED BY THE VARIOUS POLITICAL PARTIES OF NEBRASKA, 1914.

COMPILED BY WM. E. HANNAN.

Attitudes of Party Platforms on National Policies.

PREAMBLE.

DEMOCRAT.

We, the representatives of the democratic party of the state of Nebraska, in convention assembled, with pride in the tenets of our party, unfalteringly assert that the democratic party has reached its highest service under the leadership of President Woodrow Wilson and Secretary of State William J. Bryan.

REPUBLICAN.

The republican party, in convention assembled, reaffirms its faith in doctrines of republicanism as expounded by the great men who led the party to triumph and victory during the last half century. Now as ever the party stands for those ideals of government which move for justice, equality and fair dealing among men.

PROGRESSIVE.

Progressives of Nebraska, inspired by the example of Abraham Lincoln, who had the moral courage to break with the old order and join the new party of his time, adopt the following declaration of principles:

The new age in which we live justifies and requires the organization of the national progressive party in the south, as well as in the north, as the permanent political home of all progressive citizens, and we pledge allegiance to its national platform of fundamental democracy adopted in Chicago in 1912.

PEOPLE'S INDEPENDENT.

The people's independent party of the state of Nebraska, in state convention assembled, at Hastings, Neb., on this 28th day of July, A. D. 1914, looks back on a quarter century of steady development, of scientific political reformation. We congratulate ourselves without egotism and without remorse upon the unselfish stand taken by our party and by its great leaders, whereby, for the sake of principles, our party organization in the nation has been almost effaced and many of our great leaders retired to the obscurity of private life by steadfast adherence to principle and an independent disregard of public office and personal remuneration. The state of Nebraska, in the twenty-four years that have elapsed since the nomination of John H. Powers for governor, has reaped a rich reward from the loyal service and persistent endeavor of our party, its leaders and adherents, and has succeeded in impressing upon the public conscience and the rank and file of all parties alike the absolute soundness of the principles for which we have labored so long, and we may therefore look backward with just pride upon the past and here renew our fealty, allegiance and faith in all of the cardinal principles and doctrines that have ever characterized the platforms of the people's independent party.

SOCIALIST.

We, the socialist party of the state of Nebraska, in convention assembled, affirm our allegiance to the national socialist platform and international socialist program.

The capitalist class, by virtue of its ownership of the social means of production and distribution, controls the lives of the workers. Through this economic power they also control the executive, legislative and judicial departments of government. They constantly use these powers to the detriment of the working class.

In order to emancipate the working class, we demand that the social means of production and distribution shall be owned and administered by all the people. The primary purpose of the socialist party is the education and organization of the workers in order that they take over and operate the social means of production for the benefit of collective humanity.

The struggle against capitalist exploitation produces the class war for the control of political and economic power, and this war will never end until the capitalist system ceases, thereby automatically destroying class government.

PROHIBITION.

We, the prohibitionists of Nebraska, in state convention assembled, in the city of Lincoln, Neb., this twenty-eighth day of July, 1914, do adopt and publish the following as our platform:

NATIONAL ADMINISTRATION.

DEMOCRAT.

That the new currency law is the greatest example of constructive financial legislation ever enacted by our government. That this law, together with tariff revision downward, the Alaskan railway, the settlement without war of the Mexican difficulty and the peace treaties signed, are the greatest achievements of the greatest president and secretary since Jackson, and extend to our president and cabinet assurance of our unyielding confidence, unvarying esteem and devotion.

We commend the services of our democratic senator, the Hon. Gilbert M. Hitchcock, the first democrat ever elected from Nebraska to serve in that exalted body, where he has reflected luster upon our state, and we extend to him assurance of our confidence in his ability and integrity of purpose, which have distinguished him as one of the leading members of the United States senate.

We extend to our congressmen, Hon. Dan V. Stephens, Hon. C. O. Lobeck and Hon. John A. Maguire, our congratulations and appreciation of the fidelity of purpose and consistent support of democratic principles and pledges which have marked their service in the congress of the United States.

REPUBLICAN.

We condemn the present democratic national administration for its repeated violation of plighted faith with the people.

PROGRESSIVE.

We declare that the republican party and the democratic party are burdened with such large reactionary elements that efficient and coherent governmental action on their part as to the vital problems of our day is impossible.

The republican party is a sectional party and is still dominated by the element that usurped control at Chicago. It is "standpat" in the nation and has nominated Penrose in Pennsylvania and Burke in South Dakota. It is proposing Foraker in Ohio and Cannon in Illinois, and the control of the party in Nebraska is rapidly passing back to the reactionaries who dominated it prior to the reform legislation of 1907. The republican party offers no solution of the trust question. Lawsuit regulation through the courts has failed. The democratic party as a state rights party fears power, and national business cannot be controlled without national power.

PEOPLE'S INDEPENDENT.

We renew the faith, expressed by our party in this state two years ago, in Wilson and Marshall and commend the peace policies and official acts of our

great fellow citizen, William Jennings Bryan, in the administration of the difficult and arduous duties of his office.

We commend Nebraska's senior senator, Hon. Gilbert M. Hitchcock, for the numerous votes he has cast on legislation pending in the senate of the United States, wherein he supported many of the cardinal doctrines of our party.

TARIFF.

REPUBLICAN.

We reassert our faith in the republican policy of protection, which aims not only to preserve without excessive duties that security against foreign competition to which American manufacturers, farmers and producers are entitled, but also to maintain the high standard of living of the wage-earners of this country who are the most direct beneficiaries of the protective system.

We condemn the present democratic national administration for its repeated violation of plighted faith with the people. It promised a revision of the tariff that would not disturb business. It has enacted a sectional tariff measure which has depressed and prostrated business to an extent unknown since the last democratic administration, twenty years ago. It has discriminated against every product from the fertile lands of Nebraska and from the factories and shops of the different towns of the state and has opened our markets to the manufacturers of India, China and other foreign countries, and the wheat, oats, corn and cattle of Canada and Argentina, thereby bringing hardship to our interests, want and destitution to worthy and willing employees and an unnecessarily short price to the farmer for the products of the farm.

PROGRESSIVE.

We are for a tariff policy which shall equalize trade and labor conditions between the United States and foreign countries and protect alike the interests of the farmer, the wage worker and the manufacturer. The present democratic law has not reduced the cost of living and is unfair to the American farmer and wage worker. Business should not be disorganized by a complete change in all tariff schedules at one time. Prosperity cannot be maintained by changing back and forth between such tariff policies as the Payne-Aldrich bill on the one hand and the present democratic law on the other. Tariff making should be removed from partisanship.

TARIFF COMMISSION.

REPUBLICAN.

Realizing that a tariff too low brings on destructive foreign competition and that a tariff too high may in certain instances afford a shelter for monopoly, we favor a non-partisan tariff commission which shall be authorized to make tariffs, to the end that all duties shall be adjusted to the difference between the cost of production at home and abroad.

PROGRESSIVE.

A permanent, scientific, non-partisan tariff commission should be created, with power to propose revision of tariff rates, schedule by schedule, treating each case on its merits.

COLOMBIA TREATY AND PANAMA CANAL.

REPUBLICAN.

We believe Colombia has no shadow of claim on this nation for the acquisition by the United States of the Panama canal zone, and we condemn the administration for its proposal to yield to Colombia's unwarranted demand for the payment of \$25,000,000, as set forth in the treaty now pending. If this treaty shall be consummated, it will say to the world that we have built the Panama canal upon stolen land, and it will add another humiliating act to the record of the present administration.

PROGRESSIVE

We approve the course of President Roosevelt in 1903 which assured the completion, without delay, of the Panama canal, the greatest work of modern times, and we condemn the democratic administration in its advocacy of the proposed treaty with Colombia which provides for the payment to that nation of \$25,000,000 of indemnity by the United States government.

NATIONAL PROHIBITION.**PROGRESSIVE.**

The manufacture and sale of intoxicating liquors as a beverage is a social and economic evil. The organized liquor interests must be eliminated from politics, both state and national, and as part of the new national platform for which we contend we take our stand for national constitutional prohibition of the liquor traffic throughout the United States and all places subject to federal jurisdiction.

PROHIBITION.

We earnestly request our senators and representatives in congress to support the Hobson prohibition bill now pending in congress. Also the uniform marriage and divorce bill.

CHILD LABOR.**PROGRESSIVE.**

We stand for a national child labor law.

. SOCIALIST.

We demand the abolition of all child labor.

NATIONAL CONVENTION.**REPUBLICAN.**

Approval is hereby given to the proposed change in rules of the national committee relating to representation in national conventions.

INDUSTRIAL COMMISSION.**PROGRESSIVE.**

We favor the creation of a strong federal industrial, non-partisan, trade commission, with adequate and plenary power to investigate, to prohibit unfair trade practices, to remove the economic basis of monopoly and to enforce the orders of the commission when announced.

RURAL CREDIT AND COUNTRY LIFE COMMISSION.**PROGRESSIVE.**

The problems of the farm are fundamental to our state and national welfare, and a system of rural and industrial credits should be developed which will afford our farmers and wage workers better facilities for borrowing money on long time at low rates of interest. The Country Life commission appointed by President Roosevelt should be re-established.

MINIMUM WAGE.**PROGRESSIVE.**

We stand for a national minimum wage law.

CIVIL SERVICE.**PROGRESSIVE.**

We stand for national civil service, and we denounce the recent assaults of the democratic party on the merit system.

Attitude of Party Platforms on State Policies.

STATE ADMINISTRATION.

DEMOCRAT.

The able business administration of Governor Morehead and the wisdom displayed by our present democratic legislators in their redemption of promises and pledges made to the voters meets our approval and warrants us in appealing to the citizenship of Nebraska for their continued confidence and support of our party and its principles, and we congratulate the democracy of Nebraska in having three men of such sterling character and personal worth as John H. Morehead, Richard L. Metcalfe and George W. Berge from whom to select a candidate for governor.

PEOPLE'S INDEPENDENT.

We commend Nebraska's governor, Hon. John H. Morehead, who was our candidate in the general election two years ago, for the economies and retrenchments which he has brought about in his management of state affairs and in the supervision of our state institutions under the board of control.

PROHIBITION.

We charge the present administration and its predecessors with laxity in the enforcement of laws against drunkenness, Sunday desecration and child labor, and pledge ourselves to enforce the said laws.

Reforms by Constitutional Amendments.

TAX REFORM.

DEMOCRAT.

We favor the adoption of the proposed amendments to the constitution providing for uniform and progressive taxation.

REPUBLICAN.

We believe the present state revenue laws operate inequitably, and that they should be so revised that all property shall bear its just burden of taxation, and to that end we call the attention of voters at the coming primary to the proposed amendment to the constitution concerning taxation and revenue.

PROGRESSIVE.

With the aroused interest in economic problems, taxation is attracting an increased interest in politics of city, state and nation, and Nebraska's awkward and unjust fiscal system should be superseded by a new method which will distribute the burdens in accordance with privileges and benefits received.

We endorse the proposed amendment to our state constitution giving the legislature latitude in framing a taxation system. We favor a progressive inheritance tax and a graduated state income tax, discriminating sharply in favor of earned as compared with unearned incomes. Municipal home rule should be granted to cities in the important matter of taxation.

PEOPLE'S INDEPENDENT.

We hereby endorse and recommend to the voters of our party the adoption of a constitutional amendment known as the "Norton Amendment" permitting progressive, modern, equitable methods of taxation, including income, corporation and other graded and classified forms of taxation.

In the interest of economy and to prevent evasion of taxation and to secure uniformity in valuation, we favor the establishment by constitutional amendment or otherwise, if possible, of a permanent tax commission to consist of three members, to have the greatest possible jurisdiction and authority and to

be constituted along lines similar to the commissions which are so successfully dealing with tax matters in Kansas, Minnesota, Wisconsin and other states.

SOCIALIST.

We demand that no taxes shall be levied on real estate improvements.

That personal property to the amount of \$1,000.00 shall be exempt from taxation.

That all corporations shall be allowed to return their own assessed valuation, the state to retain the right to buy these corporations at their assessed value.

SALARY OF CONSTITUTIONAL OFFICERS.

DEMOCRAT.

We favor the adoption of the proposed amendment to the constitution fixing the term of office and salary for governor and executive officers.

PROGRESSIVE.

We specifically endorse the proposed constitutional amendment for adequate executive salaries.

FIVE-SIXTHS JURY VERDICT.

DEMOCRAT.

We favor the adoption of the proposed amendment to the constitution providing that in all civil cases and in criminal cases less than felonies five-sixths of the jury may render a verdict.

PROGRESSIVE.

We specifically endorse the proposed constitutional amendment for five-sixths verdict in civil cases.

PEOPLE'S INDEPENDENT.

We also favor the adoption of the proposed amendment to constitution, permitting juries in civil cases and criminal cases below the grade of felonies, to return verdicts upon a finding by five-sixths of the jury.

PROHIBITION.

Our present jury system is unsatisfactory and expensive; it retards and often overthrows justice, and creates neighborhood dissensions; in its stead we advocate a jury, composed of three persons learned in the law; and suggest a constitutional amendment to that effect.

EQUAL SUFFRAGE.

PROGRESSIVE.

As a further and necessary step in the popular control of public affairs, we are for political rights irrespective of sex, and therefore for equal suffrage, both state and national. We specifically endorse the equal suffrage plank in our national platform and the proposed suffrage amendment to our state constitution.

PEOPLE'S INDEPENDENT.

We hereby endorse and recommend to the voters of our party the adoption of the constitutional amendment permitting women to vote.

SOCIALIST.

We demand unrestricted and equal suffrage for every citizen of Nebraska, without distinction as to sex, race or color, such franchise to be unconditioned by property qualifications, and to be granted as a principle of democracy and not as a matter of expediency.

PROHIBITION.

"Equality before the law" is a beautiful sentiment, and we demand an extension of its practice by giving women the same rights at the ballot box that men have, and to this end we pledge our support to the proposed constitutional amendment granting equal suffrage to the women of Nebraska, to be voted upon at the November election.

Constitutional Convention and Proposed Amendments.**CONSTITUTIONAL CONVENTION.**

REPUBLICAN.

We favor action by the next legislature giving the voters of the state an opportunity to pass upon the question of holding a convention to revise our present constitution.

PROGRESSIVE.

Questions of judicial and court reform, short ballot, the improvement of our legislative department, the elimination of unnecessary offices and a new form of county government, emphasize the necessity of many changes in our fundamental law and we favor a constitutional convention.

ELECTION OF SUPREME JUDGES.

DEMOCRAT.

We favor an amendment to the constitution of the state providing for the election of supreme judges by districts.

REDUCED MEMBERSHIP OF LEGISLATURE.

PEOPLE'S INDEPENDENT.

We favor the reduction by constitutional amendment of the membership of our state legislature so that the senate shall comprise but fifteen members and the house of representatives but forty-five members.

SOCIALIST.

We favor the abolition of the state senate.

Reforms by Statute.**LEGISLATIVE PROCEDURE AND STATE BUDGET.**

DEMOCRAT.

We realize the need of reform in legislative procedure. And we hereby recommend the democratic members of the next legislature to work for such reforms.

REPUBLICAN.

We favor reform of legislative procedure and budget in Nebraska, such reform to be carried out along lines similar to those suggested by the report of the joint committee of the house and senate of the 1913 legislature.

PROGRESSIVE.

We are for a state scientific budget of proposed revenues and expenses and oppose logrolling legislation and appropriations.

PEOPLE'S INDEPENDENT.

We favor such rules of procedure as will permit the house and senate to sit together in committee of the whole when considering the salaries bill.

revenue and taxation measures, the general appropriation, the deficiencies bill and such other measures as are of sufficient importance to warrant the joint consideration of the two houses and demand that the state be so redistricted in senatorial and representative districts as will give representation strictly upon the basis of population.

ECONOMY AND EFFICIENCY.

REPUBLICAN.

We believe the state to be the greatest business enterprise within its borders, and that its affairs should be regulated with the same efficiency and economy that characterizes the management of private industry.

We hereby commend the last republican state administration for its efficiency, economy and attention to the people's interests, calling the attention of the people to the fact that the last republican administration cost the state of Nebraska nearly \$2,000,000 less than the present democratic administration.

PROGRESSIVE.

Waste and extravagance defraud taxpayers as much as graft and theft and we favor business-like methods and strict economy in governmental administration.

State commissions, overlapping boards and bureaus should be either eliminated or merged into one of the state departments when the short form ballot is adopted.

The option should be given to counties to abolish unnecessary county offices and to establish a new form of county government giving counties efficient and modern administrative machinery.

PEOPLE'S INDEPENDENT.

We demand economy, retrenchment and safe business methods in the conduct of the affairs of our state and are opposed to legislative extravagance and unnecessary appropriations of the people's money.

PROHIBITION.

The high cost of the administration of the state of Nebraska is unwarranted, and we pledge ourselves to reduce the same by eliminating useless appropriations, and by reducing the office force of counties and state to numbers where each official shall labor the same number of hours as is required of clerical help generally.

SUPREME COURT AND PROCEDURE.

DEMOCRAT.

We favor remedial legislation to relieve the present congested condition of the supreme court of Nebraska.

REPUBLICAN.

We favor a reformation of the laws pertaining to court procedure in such a way as to lessen the expense of maintaining courts and to insure the prompt disposition of litigation both in the trial court and the appellate court.

SOCIALIST.

We favor the abolition of the power usurped by the supreme court to pass upon the constitutionality of legislative enactments.

PUBLIC WAREHOUSE.

DEMOCRAT.

We pledge our candidate for governor and members of the legislature to support a public warehouse law. This will enable the Nebraska farmer to store his grain as soon as harvested, receiving a negotiable warehouse receipt therefor.

PEOPLE'S INDEPENDENT.

We favor a public warehouse system.

SOCIALIST.

We demand public ownership of grain elevators and warehouses for the storage of farmers' produce.

IRRIGATION.

DEMOCRAT.

We recognize the importance of the work planned by the citizens of the southwestern part of our state, whereby it is proposed that the United States government construct a system of ditches so that the floods and waste waters of the Platte river shall be used upon the soil, thereby greatly increasing the productiveness of that portion of the state, and at the same time helping to save the annual expenditure by the United States government of millions of dollars in guarding against the ravages of the same flood waters if permitted to reach the lower Mississippi valley.

We urge upon all officers whose official position enables them to assist, that they give all possible help to this proposed work that it may be carried into successful operation.

We believe that the flood waters of interstate streams stored in reservoirs in excess of what is actually used for beneficial purposes should be released and be made subject to the control of the state board of irrigation, especially during the irrigation season, and we recommend our representatives in congress to work for legislation to accomplish such purposes.

REPUBLICAN.

We believe that the irrigation and water problems of western Nebraska vitally affect the prosperity of the whole state.

We approve the federal reclamation act under which the Pathfinder reservoir was constructed to irrigate government lands in Nebraska and Wyoming, and urge the federal government to complete this project and reclaim to agriculture the large tract of land in Nebraska under the proposed Laramie canal.

We further urge the federal government to release as much as may be necessary of the more than 700,000 acre feet of the surplus waters of the North Platte river, which is now held in the Pathfinder reservoir, to the end that the Nebraska irrigators may have sufficient water for their ditches.

We believe that the state through its legal department should by proper legal procedure cause to be determined the respective rights of the citizens of Nebraska on the interstate streams as against the claims of the states of Colorado and Wyoming.

PROGRESSIVE.

The problem of irrigation is of vital importance. We are opposed to the holding of undeveloped water sites by individuals or corporations and favor the cancellation of water power appropriations where grants are held for speculation.

UTILIZATION OF WATER POWER.

REPUBLICAN.

We believe that individuals should be encouraged to unite their energies and their capital in legitimate business and industrial enterprises. We favor a policy which would invite large investments of capital in this state for the construction of transportation lines, electric railways, power canals, irrigation projects and manufacturing enterprises.

PROGRESSIVE.

Public utilities should be owned by the public and operated by the public at actual cost.

The importance of water power in the immediate future challenges the serious attention of our people. The public should not alienate its fee title to the water power of the state. The people should have a monopoly on the sale of all energy generated by water power. The nation and the state within their several spheres should by immediate legislation and constitutional amendment keep the fee of the water power, permitting its use only for a reasonable length of time on terms that will secure the interest of the public.

SOCIALIST.

We demand that publicly owned power plants shall be erected on state water power sites, for the purpose of furnishing electric current to the people of the state, at minimum rates.

GOOD ROADS.

REPUBLICAN.

We believe good roads are one of the most potent civilizing influences of this day, and we advocate the enactment of legislation that will foster the construction and maintenance of better highways, and that will insure the more economic expenditure of funds raised for the purpose.

PROGRESSIVE.

We stand for good roads.

PROHIBITION.

"Good roads and permanent bridges are not only a pleasure but an economical necessity; therefore we commit ourselves to the improvement of highways and byways of the state."

WORKMEN'S COMPENSATION.

DEMOCRAT.

We recognize the right to submit the workmen's compensation law under the referendum, and if said submission results in the defeat of the pending measure we pledge a democratic legislature to the enactment of a law meeting the just demands of labor.

PROGRESSIVE.

We stand for an adequate employers' liability law.

STATE INSURANCE.

PROGRESSIVE.

We stand for state social insurance.

SOCIALIST.

We favor state, life, health, accident and unemployment insurance.

EDUCATION.

DEMOCRAT.

We favor a non-partisan, non-political selection of the state superintendent and of all county superintendents.

REPUBLICAN.

Agriculture is the dominant business interest of Nebraska and the soil of the state the potential factor supporting the same. We heartily favor a more generous financial support to our central experiment station at the university and substations that adequate means will be provided to carry on properly agricultural research which will be of advantage to the farmers of the state.

PROGRESSIVE.

We pledge our party to an educational policy looking to greater practical efficiency of instruction, industrial, agricultural and vocational training, fitting young people to make a living and building up character as well as affording intellectual culture. We favor rural high schools and giving counties the option to change to the county unit as the unit of school administration. School-houses should be used as social centers, and state and county superintendents chosen at non-partisan elections.

PEOPLE'S INDEPENDENT.

We renew our doctrine heretofore declared in favor of a revival of the good old country school system, to the extent, at least, that pupils may receive instruction in the country schools as high as the tenth grade, before being compelled to leave their homes at a tender age, in order to complete their education in the high schools of the city.

SOCIALIST.

We demand the complete education of all children up to a full academic course at the expense of the state, if necessary.

We demand medical and dental attention for all school children, at the expense of the state.

We demand the enlargement of the educational sphere of our schools and the consolidation of rural schools where practical.

We demand increased administrative powers for our school boards.

We demand a rewriting of the school histories, basing them upon historical facts.

ELECTION REFORM.**PROGRESSIVE.**

We declare our faith in "ultimate justice of the people" and will pledge ourselves to work for:

1. Presidential primaries and the popular election of the president.
2. Majority votes on all measures submitted under our state initiative and referendum.
3. The short form ballot.
4. The recall of all elective officers.
5. The recall of judicial decisions.
6. The retention of our state-wide primary simplified under the short form ballot.
7. Preferential voting at primary elections.

PEOPLE'S INDEPENDENT.

As all governments derive their just powers from the consent of the governed and as that consent is given by the votes of the electors, we demand that the consent be expressed in a more just and scientific manner than now obtains under our primary law, to the end that equitable representation shall be accorded in proper proportion to every ward, village, township and precinct in the primary election. We also favor a non-voting poll tax as a reasonable and proper exercise of the police power of the state to secure attendance of all able-bodied voters in the primaries and elections.

SOCIALIST.

We demand that the initiative, referendum and recall shall be made more easily operative by reduction of the per cent of petitioners required.

We favor proportional representation, abolition of the veto power.

PROHIBITION AND RESTRICTION OF NARCOTICS.**PROGRESSIVE.**

A drastic law should be passed prohibiting the traffic in opium, morphine,

cocaine and other narcotic drugs, and we demand a rigid enforcement of the present anti-cigarette statute.

SOCIALIST.

We recognize the serious evil incident to the manufacture and sale for profit of alcoholic and adulterated liquors. We hold that any excessive use of liquors by members of the working class is a serious obstacle to the triumph of our class since it impairs the vigor of the fighters in the political and economic struggle and we urge the members of the working class to avoid any indulgence that might hinder the progress of the movement for their emancipation.

On the other hand, though the evils of alcoholism may be alleviated, we do not believe they can be cured by an extension of the police powers of the state.

Alcoholism is a disease of which capitalism is the chief cause and the cure lies rather in doing away with underfeeding, overwork and overworry resulting from the wage system.

PROHIBITION.

"Drunkenness or sobriety is the most vital issue in the state of Nebraska. We are opposed to drunkenness and to any system that produces it; therefore we pledge ourselves to abolish the manufacture, importation, exportation and sale of alcoholic liquors as a beverage in the state of Nebraska. We indorse the prohibition national platform of 1912 and commend it as a model and concise platform.

LABOR.

PROGRESSIVE.

We endorse the planks on social and industrial justice in our national platform and in this state stand:

First—For the prohibition of injunctions in labor disputes when injunctions would not apply if no labor disputes existed.

Second—For compulsory arbitration in disputes between labor and capital.

Third—For minimum wage laws, both national and state.

SOCIALIST.

We demand the abolition of government by gunmen. No private armies, police forces, guards or prisons to be allowed any person, persons, corporation or institution.

We demand the acknowledgment of the right of our workers to organize for the purpose of bettering their conditions.

We demand the legalizing of the boycott and of peaceful picketing.

We demand the eight-hour day in all industries and favor the further constant reduction of the hours of labor and increase in pay for all workers.

WHITE SLAVE LAW.

PROGRESSIVE.

We are for a state white slave law, supplementary to the national act, prohibiting under heavy penalty the transportation of women for immoral purposes within the state of Nebraska.

PROHIBITION.

We are opposed to the traffic in women and advocate the enactment of drastic measures in suppressing this unlawful business.

STATE EMPLOYMENT OF UNEMPLOYED.

SOCIALIST.

We demand the relief of the unemployed by the extension of useful public works, such as public highways, irrigation systems, reforestation, etc. All per-

sons employed on such work to be engaged by the state directly, under union labor conditions as to hours and wages.

PROHIBITION.

"We advocate state employment for the worthy who cannot find employment elsewhere."

Miscellaneous.

PROGRESSIVE.

CONVICT LABOR.

We favor work-houses and work-farms, where practicable, the application of prisoners' earnings to the support of their dependent families, convict labor on the roads and in prison production for governmental consumption only, the abolition of the prison contract labor system. We urge the passage of a national law prohibiting interstate traffic in convict made goods.

REDUCTION OF FREIGHT RATES.

The well crystallized demand in this state for freight rate reduction has been checkmated by seven years of delay on the part of the railway commission. We demand the elimination of discriminating preferentials, and that the commission report at the earliest possible date the result of its recent investigation, and make a reasonable reduction in freight rates in this state, even to a comparative basis with the existing rates in Iowa on like commodities.

PHYSICAL VALUATION.

As a basis for just rates, there should be a physical valuation of the Union Stock Yards at South Omaha and of other private utilities.

PUBLIC HEALTH.

We stand for more effective means of conserving the public health.

CIVIL SERVICE.

We stand for state and national civil service and we denounce the recent assaults of the democratic party on the merit system.

DIVORCE EVIL.

We are opposed to the immorality flowing from the increasing divorce evil in this state. We favor uniform marriage and divorce laws and public notice in advance before the granting of marriage licenses.

CO-OPERATION.

We stand for a strong, yet constructive policy. We affirm that the business world must change from a competitive to a co-operative basis, and that co-operation among business men and among farmers and among wage workers is legitimate and desirable and any effort to return to bygone conditions must fail.

PEOPLE'S INDEPENDENT.

INSURANCE CODE.

We are opposed to the administration of the insurance code in the interest of the old line eastern insurance companies and the resulting concentration of wealth in the eastern states, to the detriment and damage of our home insurance companies, and hereby endorse such amendments to the insurance code of the state of Nebraska as will give local companies at least an equal chance with outside old line companies.

SOCIALIST.**RURAL CREDIT.**

We favor state loans at nominal interest, to build homes for working men and women and to farmers for the purpose of assisting them in producing and marketing their crops.

PUBLIC DOMAIN.

We demand the retention and constant enlargement of the public domain:

By retaining all water power sites.

By retaining all school lands.

By purchasing of all tax titles to real estate.

INSPECTION PUBLIC BUILDINGS.

We demand state inspection of all reformatories, hospitals, and educational institutions.

SOCIAL CENTERS.

We demand that all public buildings such as court houses and school buildings be thrown open to the public for discussion of all public questions, and for the establishment of social centers.

MOTHERS' PENSIONS.

We denounce the present mothers' pension law as an inadequate makeshift, and favor a law that will give each dependent mother \$15.00 a month for herself and \$10.00 a month for each of her children.

Appeal to Voters.**REPUBLICAN.****SUPPORT REPUBLICAN PRINCIPLES.**

Looking with pride upon the achievements of the republican party in the past and with equal confidence for work yet to be done by it, we hereby invite the support of the citizens of the state of Nebraska to the principles set forth in this platform, to the end that the republican candidates may be elected and these principles be carried into effect.

PROGRESSIVE.**SUPPORT PROGRESSIVE PLATFORM.**

We recognize in Theodore Roosevelt the greatest constructive statesman of modern times and we summon all real progressives, regardless of past political affiliations, to the support of this program of social, economic and moral reform in firm reliance upon the fact that our cause is just, our important principles inflexible, our ultimate victory certain.

PEOPLE'S INDEPENDENT.**ACHIEVEMENTS OF PARTY.**

In conclusion, we rejoice that in one generation we have seen the adoption, with the sanction and approval of all parties and the public at large, of the following cardinal doctrines of our party, to-wit:

Free rural delivery of mail.

Free delivery of mail in comparatively small cities.

The extension of the means of communication and traffic by telephone and parcel post.

The direct election of United States senators.

The almost universal adoption of the initiative and referendum.

The adoption by more than a majority of states of the inheritance tax.

The experimental adoption by Wisconsin, Oklahoma and other states of the income tax law. .

The adoption of a federal income tax law.

The establishment of postal savings banks.

The universal adoption of the Australian or secret ballot in voting.

We are opposed to corrupt practices, the intimidation of voters and coercion by corporations and big interests in primaries, conventions and elections.

The conservation of public resources, the protection of the public domains and forests and dozens of other kindred reforms, all of which have been nurtured in their inception by the people's independent party, and we hope and look forward confidently for the direct election of the president of the United States by the people and the abolition of the electoral college at an early date.

It is a subject of congratulation that our party is united, free from dissensions and having for its object not so much the securing of public office as good government.

CELEBRATE QUARTER-CENTENNIAL.

Whereas, The first national people's party convention held in Omaha, July 4, 1892, is now recognized as one of the great historic events in the life of this nation, and

Whereas, The program of political and social progress there declared has furnished the rallying points for reformers of all parties since that date and there still remains to be achieved the most important parts of that program; therefore

Resolved, That the movement to celebrate the quarter-centennial of this historic event by a reunion of all populist and especially delegates to the national convention of 1892, at Omaha, July 4, 1917, has the cordial support of the people's independent party of Nebraska.

Resolved, That our state committee be authorized to appoint an advisory committee of as many members as shall seem desirable from Nebraska and other states to further this celebration and the co-operation of the citizens and Commercial club of Omaha be solicited in this enterprise.

SOCIALIST.

SUPPORT SOCIALIST PLATFORM.

We call the attention of the voters to the fact that all socialist candidates are required to sign written resignations, undated, before accepting the nomination.

All these immediate demands are made to ameliorate the condition of the workers and to strengthen them in their fight for the final overthrow of capitalism and the inauguration of the co-operative commonwealth.

"Workers of the world, unite. You have nothing to lose but your chains. You have a world to gain."

PROHIBITION.

SUPPORT PROHIBITION PROGRAM.

"We invite the co-operation at the ballot box of all voters of Nebraska, who indorse the above platform, and especially those of any other party who may be dissatisfied with the attitude of their party upon the liquor question."

WOMAN SUFFRAGE.

The first appeal to the men of Nebraska to grant the ballot to the women of Nebraska was made by Mrs. Amelia Bloomer of Council Bluffs, Iowa, on the evening of January 8, 1856, in the hall of the house of representatives in the territorial capitol at Omaha. This address was made before the members of the legislature and others, and was in response to an invitation signed by the Hon. William Larimer, Jr., and twenty-four other members of the second territorial legislature. The tangible result of this address was House File No. 79 "An Act describing the qualifications of electors and electees." This bill was introduced in the house by Representative Hoover on January 16, 1856 and on January 25, 1856, passed the house by a vote of 14 for to 11 against. The bill then went to the council. The following day, January 26, Representative Decker moved to reconsider the vote by which H. F. No. 79 was passed. The motion passed, ayes 16, nays 5. Representative McDonald immediately moved to postpone the bill indefinitely. This was carried, ayes 16, nays 3. At once there was despatched to the council the following message:

"Mr. President: I am instructed to inform your Honorable Body, that the House have rescinded the vote by which H. F. No. 79, An Act describing the qualifications of electors and electees was passed, and have indefinitely postponed the further consideration of the same, and request the council to return said bill to the House.
I. L. GIBBS, Chief Clerk."

To this request the council evidently gave no heed as the bill was read a first and second time and referred to the committee on elections which brought in majority and minority reports. The majority recommended the passage of the bill; the minority made no recommendation. No action was taken by the council upon either report so that the bill failed to pass. The failure of this measure to reach a vote in the council was due to several influences, one of which was that it was the last day of the session, the other because of legislation which was felt to be of more importance. The fact that stands out in this first contest of the women of Nebraska for the right of the ballot is that the granting of this privilege was met by strong opposition. This is evidenced in the closeness of the vote by which the measure passed the house and by the later vote which reconsidered and then indefinitely postponed it.

The interest thus early aroused on this question manifested itself again at Omaha on November 15, 1867, at which time addresses upon the question of woman suffrage were made by Mrs. Elizabeth Cady Stanton, Miss Susan B. Anthony and George Francis Train. The next most important step was that taken in 1871 when the women of the state petitioned the legislature to grant them the ballot. This petition was accompanied by a special message from Governor David Butler. On February 4 (1871), the same day that the petition and message was presented Representative Quinby, by unanimous consent, introduced a resolution requesting the attorney general to give his opinion "whether by accepting the 14th and 15th amendments to the constitution of the United States we grant the right of suffrage to women." On February 6 the attorney general replied. This reply, together with the petition of the women of the state and the accompanying message of the governor, was referred to the house judiciary committee. This committee made the following report:

"Mr. Speaker: Your Committee on Judiciary, to whom was referred the petition and memorial of the women of Nebraska praying the Legislature of this State to so amend the election laws that women may hereafter exercise the right of the elective franchise in this State; also, the special message of his Excellency, the Governor, and the opinion of the Attorney-General of this State relating thereto, have had the same under consideration, and herewith respectfully report a preamble and resolution recommending that the same be adopted.

"Whereas, The constitution of the State of Nebraska prohibits the women of said State from exercising the right of the elective franchise; and,

"Whereas, Taxation without representation is repugnant to a republican

form of government, and applies to women as well as all other citizens of this State; and,

"Whereas, All laws which make any distinction between the political rights and privileges of males and females are unbecoming the people of this State in the year 1871 of the world's progress, and tend only to deprive the latter of the means necessary for their own protection in the various pursuits and callings of life, therefore be it

"Resolved, by the House of Representatives of the State of Nebraska, That the Constitutional Convention to be begun and holden on the day of May, 1871, for the purpose of revising and amending the constitution of this State, are hereby most respectfully and earnestly requested to draft such amendment to the constitution of this State as will allow the women thereof to have and exercise the right of the elective franchise, and afford to them such other and further relief as to that honorable body may be deemed wise, expedient, and proper; and,

"Be it further resolved. That said convention is hereby most respectfully and earnestly requested to make such provision—when said amendment shall be submitted to a vote of the people of this state—as will enable the women of Nebraska to vote at said election for the adoption or rejection of the same.

"Resolved further. That the Secretary of State is hereby instructed to present a copy of this resolution to said convention, so soon as the same shall be convened and organized for the transaction of business."

The motion to adopt the resolution carried, ayes 19, nays 17, absent and not voting 3. The peculiar feature of this resolution was its request that the women of Nebraska be permitted to vote for the adoption or rejection of the proposed suffrage amendment.

The question of women suffrage was as strenuously debated and commanded as much attention as any one question before the constitutional convention of 1871. This convention finally agreed to submit the following proposition as a separate amendment:

"The legislature may extend by law the right of suffrage to persons not herein enumerated, but no such law shall be in force until the same shall have been submitted to a vote of the people at a general election, and approved by a majority of all the votes cast on that question at such election."

The electors rejected this proposition by a vote of 3,502 for to 12,668 against.

Immediately following this defeat and until 1879 the cause of woman suffrage languished in the state. But on January 30, 1879, Mr. E. M. Correll, editor of the Hebron Journal, offered the women a column in his paper to be wholly devoted to their interests and to be edited by them. The women of Thayer county at once appropriated this unique offer. As a result of this new interest Mrs. Elizabeth Cady Stanton was secured to address the women of Thayer county on the question of suffrage and at the same time, April 15, 1879, she effected the "first Woman's Suffrage Association in the state, namely: The Thayer County Woman's Suffrage Association, with a membership of 15." By 1881 the membership had increased to 61.

In 1880 there were elected to the legislature E. M. Correll, representative, and C. B. Coon, senator, both from Hebron, Thayer county, and members of the Thayer County Woman's Suffrage Association. Mr. Correll introduced H. R. No. 59, but later withdrew this bill and substituted H. R. No. 162 a joint resolution embodying the proposition to submit the question of woman suffrage. This bill passed the house by the following vote: ayes 51; nays, 22; absent 11; and the senate ayes 22; nays 8. This joint resolution was signed by the governor February 26, 1881, and was as follows:

"Section 1. That the following amendment to article VII, section 1, entitled "Rights of Suffrage," of the constitution of the state of Nebraska shall be submitted to the electors of this state for their adoption or rejection in accordance with the provisions of section one, article XV of said constitution, and an act entitled 'An act to provide the manner of proposing amendments to the constitution, and submitting the same to the electors of this state,' approved Feb. 13, A.D. 1877.

"Sec. 1. Every person of the age of twenty-one years or upwards belonging to either of the following classes who shall have resided in this state six months, and in the county, precinct or ward for the term provided by law shall be an elector.

"First. Citizens of the United States.

"Second. Persons of foreign birth who shall have declared their intention to become citizens conformably to the laws of the United States, on the subject of naturalization at least thirty days prior to an election."

"Sec. 2. The ballots at the election at which said amendment shall be submitted, shall be in the following form: 'For proposed amendment to the constitution, relating to rights of suffrage.' 'Against proposed amendment to the constitution relating to rights of suffrage.'

"Approved February 26, A.D. 1881."

This proposed amendment was defeated November 7, 1882, by the following vote: 25,756 for and 50,693 against.

While this amendment was in the making other events connected with the question were going forward. On January 26, 1881, a mass convention of women was held in the opera house at Lincoln for the purpose of effecting a permanent state organization and on January 27, 1881, The Nebraska Woman's Suffrage Association was organized by the election of the following officers:

"President, Harriet S. Brooks, Omaha, Neb.; Vice-President at Large, Mrs. C. B. Colby, Beatrice; Vice-President, First Judicial District, Mrs. B. J. Thompson, Hebron; Second, Mrs. E. L. Warner, Roca; Third, Mrs. P. Nicholls, Omaha; Fourth, Mrs. J. S. Burns, Scribner; Fifth, Mrs. C. C. Chapin, Riverton; Sixth, Mrs. D. B. Slaughter, Fullerton; Recording Secretary, Mrs. M. C. Bittenbender, Osceola; Corresponding Secretary, Mrs. J. B. McDowell, Fairbury; Treasurer, Mrs. L. Russell, Tecumseh; Executive Committee, Mrs. M. J. De Long, Tecumseh; Mrs. Dr. Dinsmore, Omaha; Mrs. J. C. Roberts, David City; Mrs. C. B. Parker, Mrs. J. B. Finch, Lincoln; Mrs. E. M. Correll, Hebron; Mrs. J. H. Bowen, Hastings."

In order that this newly formed organization might have a proper medium through which to express its views and also for the purpose of defending the recently proposed amendment, Mr. E. M. Correll established at Lincoln in April, 1881, the Western Woman's Journal. Because of Mr. Correll's interest in and labors and sacrifices for the cause of woman suffrage he was elected to the presidency of the American Woman Suffrage Association at their 11th annual meeting held in Louisville, Ky., October 26 and 27, 1881.

After the signal defeat of the suffrage amendment in 1882 the question rested again. Signs of revival, however, made their appearance on January 6, 1887, when the first state convention of the woman suffrage association was held. This convention was addressed by Miss Susan B. Anthony. A bill, S. F. No. 253, was introduced by Senator Snell during the legislative session of 1887. This bill was an "Act to enable women possessing the necessary qualifications to vote on certain questions." The qualification necessary was ownership of real estate and the exercise of the franchise was limited to questions submitted to a vote of the people for any county or municipal purpose. The women were barred from voting for any officer. This bill did not pass the senate. It was again introduced as S. F. No. 87 in the legislative session of 1889 by Senator J. L. Linn. It also failed to pass the senate. The question again came up from a different angle and from the house end in the session of 1891. Representative J. W. Faxon introduced H. R. No. 43. "An Act conferring upon woman the right to vote at city and village elections." This proposed law required no property qualifications and would permit women to vote for municipal officers and upon questions affecting municipal government. This bill failed to pass by a narrow margin, the vote standing: ayes 44; nays 49; absent 7. The persistence of the subject is again noted in the legislature of 1893. Two bills were introduced in the senate, S. F. No. 30 and S. F. No. 195, and two in the house, H. R. No. 100 and H. R. No. 212. All four failed to pass their respective houses.

The insistence of the supporters of the program for the granting of suffrage to the women of the state kept manifesting itself in similar attempts to obtain

favorable legislation by statute or constitutional means from 1893 to 1913. It was not until the principle of the initiative and referendum was adopted as part of the constitution of the state in 1912 that an opportunity was afforded the women of the state to obtain an expression of opinion from the voters on the question of woman suffrage. An initiative petition for the purpose of submitting the question at the general election in 1914 was circulated in every county in the state during the spring and summer of 1913, and the names of 45,035 voters appended thereto. With the required number of signatures secured which assured the submission of the question to the voters the women turned to the labor of a state wide campaign. National as well as local workers were enlisted both for and against the principle. The features that stood out in the campaign were: (1) The well organized campaign methods of the women; (2) the utility of the automobile; (3) the "Omaha Manifesto" signed by 29 leading business and professional men of Omaha against suffrage; (4) the activity of the Women's Anti-Suffrage League and German Alliance in opposition. Despite the ability with which the campaign was conducted and the influence exerted by nearby states which had already adopted the principle the proposition for woman suffrage again met defeat.

An act approved June 24, 1867, granted school suffrage to "every inhabitant of the age of twenty-one years, residing in the district and liable to pay a school district tax therein." The legislature of 1875 limited the school suffrage to "every male citizen and unmarried woman of the age of twenty-one years, residing in the district and owning property therein which is taxable for school purposes in such district." The present law relating to school suffrage was approved March 1, 1881. School suffrage was limited to residents of the school district having either property within the district taxed in their own names at the last assessment or children of school age.

The table appended gives the results of the three attempts:

VOTE BY YEARS ON CONSTITUTIONAL AMENDMENT FOR EXTENSION
OF SUFFRAGE.

County	1914		1882		1871	
	Vote For	Vote Against	Vote For	Vote Against	Vote For	Vote Against

PRIMARIES AND ELECTION STATISTICS.

THE PRIMARY VOTE OF 1914.

The table which follows was compiled by Mr. Thorne A. Browne of the Nebraska State Journal. It is inserted here because it furnishes still further comparison of the vote at the general election and at the primary election in this year. It will be noted that Deuel county achieved the distinction of casting 93 per cent of her vote at the general election in the primary. Lancaster cast 69 per cent in the primary; Douglas, 74 per cent. The counties which made a small showing were Colfax with 37 per cent, Garfield with 33 per cent, Holt with 30 per cent.

PREFERENTIAL VOTE FOR UNITED STATES SENATOR, 1880-1906.

The preferential vote for the office of United States senator in Nebraska dates from the adoption of the constitution of 1875 and was first taken advantage of in the general election of November 2, 1880, and seven times thereafter. The legislative act of 1909, known as the "Oregon Law," made it mandatory upon the legislators to vote for the individual receiving the highest vote cast by the electors for the office of United States senator. This law is now superseded by the seventeenth amendment to the United States constitution requiring election of United States senators by direct vote of the people.

CHOICE OF ELECTORS FOR UNITED STATES SENATOR IN NEBRASKA.

Year	Name	Vote
November 2, 1880	E. S. Dundy	19

TABLE SHOWING NUMBER AND PERCENTAGE OF MALES OF VOTING AGE VOTING AT PRIMARY AND GENERAL ELECTIONS IN NEBRASKA.

Year	Number Males of Voting Age*	Primary†	Per Cent at Primary	General Election	Per Cent at General Election
1900	Males of voting age, 301,091. Males of voting age voting..... Males of voting age not voting.....			251,005 50,086	83.37 16.63
1907	Males of voting age, 337,862. Males of voting age voting..... Males of voting age not voting.....	79,008 258,854	23.38 76.62	203,034 133,923	60.36 39.64
1908	Males of voting age, 343,115. Males of voting age voting..... Males of voting age not voting.....	98,318 244,797	28.65 71.35	271,491 71,624	79.13 20.87
1909	Males of voting age, 348,368. Males of voting age voting..... Males of voting age not voting.....	93,394 254,974	26.80 73.20	207,575 140,793	59.58 40.42
1910	Males of voting age, 353,626. Males of voting age voting..... Males of voting age not voting.....	108,081 245,545	30.56 69.44	243,390 110,236	68.83 31.17
1911	Males of voting age, 358,879. Males of voting age voting..... Males of voting age not voting.....	128,623 230,256	35.84 64.16	225,390 133,490	62.80 37.20
1912	Males of voting age, 364,132. Males of voting age voting..... Males of voting age not voting.....	133,613 230,519	36.69 63.31	259,124 105,008	71.16 28.84
1914	Males of voting age, 374,638. Males of voting age voting..... Males of voting age not voting.....	146,957 227,681	39.23 60.77	246,834 127,804	65.89 34.11

*The U. S. Censuses for 1900 and 1910 give the number of males of voting age found in Nebraska. The average yearly increase between these dates is used in computing the number of males of voting age for the other years.

†Dates on which primary elections were held in Nebraska: September 3, 1907; September 1, 1908; August 17, 1909; August 16, 1910; August 15, 1911. Amendment to primary law in 1911 provided for a presidential preference primary to be held on the forty-fifth day before the first Monday in June, 1912, and every four years thereafter. This primary was held April 19, 1912. Primary last held August 18, 1914.

[illegible]

¹ Figures relative to elections are for both the primary and the general election, a separate record not being kept. Figures for 1912 are for primary alone.

"In the \$596.36 is included \$75 to the county clerk for making out real estate assessment books for years 1908 and 1912. In the amount \$598 is included \$120, estimated expense for compiling tax list for 1912.

² These figures estimate for all three tests.

Most of the figures estimated

Approximate figures for primary and general elections.

*Figures on county assessment are for the precinct assessors only. County assessor receives \$700 per year.

Figures are for both primary and general election, there being no separate record.

^aThe amounts for primary and general election for the years 1907 and 1908 are estimated.

*Of the total amount, \$1,100, \$2.50 to be credited to county assessor's salary and \$150 to the tax list.

⁶⁶Cost of elections about the same for each year.

¹ Cost of elections and assessments about the same each year.

*Cost of elections average about \$1,000 each per year.

^aFigures for county assessment are approximate.

⁴Cost of supplies not included in election amounts.⁶ Amounts for elections close estimates.

⁶ Amounts herein given represent the average cost of three items for the preceding five years.

1: The great difference between the election cost is accounted for by the fact that the judges and clerks of election are paid by the county in primary elections, while in general elections these officials are paid by the townships and the townships do not make return of these costs to the county clerk.
